## All the World's a Writing Room When You Own—a Corona

In the Corona you have the efficiency of a standard office typewriter, but in compact and portable form. Thus, wherever your work or pleasure takes you, you have practically the conveniences of an office with you, if you carry a

# CORONA

## Folding Typewriter

The Corona weighs only six pounds. It occupies little space, even when in use, and, due to its unique folding carriage, can be closed flat, like a book, to still smaller compass. It will pack readily in a grip, or in the handy carrying-case shown below.

But in spite of its light weight and small size the Corona has all the essential im-

provements found on the more costly office machines. It has exceptional manifolding power and operates rapidly. This efficient, durable machine costs only \$50, including carrying-case.

The Corona received the highest award in the portable typewriter class at the Panama Expositions.

WINTON SIX

# QUALITY NOT LIMITED

---

Every maker who advertises his wonderful low price acknowledges that his car is in the class where price counts more than anything else—that he is in competition on a price basis.

You know what that means. In all such cars, every dollar's worth of value that can be put into them is figured out in advance, and is *limited* by that low selling price. Hence, low price means low quality.

How hopeless it is, then, to expect in a low-priced car that thorough and continuing satisfaction that the owner of the high-grade Winton Six enjoys! For the Winton Six is designed and built—not to meet a low price, but to satisfy high expectations, to possess every merit that contributes to an owner's delight. Its quality is not limited by price restrictions, nor by other makers' standards. Yet the Winton Six costs very little more than cars of ordinary worth. And when you buy a Winton Six you enjoy the additional advantage of having it finished to meet your own taste, thereby giving your personal car a touch of distinction. Winton Sixes are never mistaken on the street for commonplace cars.

*Write for catalog to-day*

## The Winton Company

**124 Berea Road**

**Cleveland, Ohio, U. S. A.**

Direct Factory Branch Houses in Leading Automobile Centers.

# WE ENJOY OUR BUSINESS

---

Frankly, we don't want to sell too many Winton Six cars. If we were to make 7,000 or 10,000 cars every year, we would be forced to do what every other quantity maker does—rush 'em out, paint 'em all alike—and hope the buyers would keep their troubles to themselves.

As it is, by manufacturing less than ten cars a day, we can give every single Winton Six the most painstaking workmanship, the most thoro testing, and special colors to please the individual buyer's personal preferences. And—what is even more important—because we limit the number of cars we make, and because we put into them the best of everything, we are fully able to render to owners a character of service that is without equal in the American automobile industry. If a Winton Six owner wants attention, if his car isn't up to the very top notch of perfection, we make it our business to render service promptly and cheerfully, and we're never satisfied until he is.

Then, too, what a wonderful satisfaction there is in making cars for men and women who appreciate high quality! We enjoy manufacturing Winton Sixes, for it is a genuine delight to have the patronage of the fine type of men and women who buy and use them.

# BURPEE'S SEEDS GROW

**Confidence** is the one thing that makes possible the commerce of the world. It is the greatest factor that enters into a purchase of seeds, because you are not buying a finished product, but only the means by which your garden may be either a success or a failure. Seeds—good or bad—may look the same, but their resulting crops—how different! You cannot afford to risk a season's effort with seeds of unknown quality. When you buy BURPEE'S SEEDS the element of doubt is absent. The confidence of many thousands of pleased and permanent customers has been secured by the Burpee Idea of Quality First—"to give rather than to get all that is possible." Confidence of our customers—combined with the efficient Burpee Service—has built the World's Greatest Mail-Order Seed Business.

## The HOUSE OF BURPEE

has introduced more distinct new varieties of vegetables and flower seeds that are now in general cultivation than have any three other American firms, but never have we catalogued any one of these new varieties until it had passed all the exacting requirements of the Burpee Standard. This Burpee Standard is maintained by rigid tests at Fordhook Farms, America's Largest and Most Complete Trial Grounds. These tests are made each year for the purpose of strengthening this Bond of Confidence between our customers and ourselves.

### Burpee's Fortieth Anniversary

## Leading American Seed Catalog for 1916

This "Silent Salesman" is a bright, new book of 182 pages, with hundreds of illustrations and carefully written descriptions of vegetables and flowers. It is a safe guide to success in the garden—of real value to every one who plants seeds either for pleasure or profit. Write for it today, and kindly mention World Almanac.

Burpee Buildings, Philadelphia

## 3-in-One Oil Is the Thing

- to keep the car body looking right
- to keep the nickel and brass always bright
- for oiling commutators, self-starters and magnetos.

Try this new way of polishing your car—the best way. Simply wipe off the dust. Put a few drops of 3-in-One Oil on a rag that has been wrung out in clean water. Rub the painted parts briskly with this rag. And then shine up with a dry cloth. Do this and the body of your car will not only be well polished, but in addition all painted and varnished surfaces will be hardened so that no peeling, cracking or chipping can occur.

Besides this, just a little 3-in-One rubbed on your wind-shield will prevent obscurity of vision. And for lubricating your commutator, self-starter or magneto there's nothing like it, because 3-in-One works out all particles of dirt from the bearings; won't let other dirt get in, and never heats up even at 5,000 revolutions per minute.

In your tool box there should always be a "Handy Oil Can" filled with 3-in-One Oil—for economy and efficiency. And in your home too, 3-in-One is just as important, it has a hundred household uses.

3-in-One lubricates sewing machines, locks and clocks. Cleans and polishes fine furniture and hardwood floors. Also prevents rust from forming on all metal surfaces; razors, guns, stoves, tools, nickel fixtures, etc.

3-in-One is sold in hardware, drug, grocery, housefurnishing and general stores. The "Handy Oil Can," filled with  $3\frac{1}{2}$  ozs. of 3-in-One Oil costs only 25c. The can alone is worth 10c. 3-in-One also comes in 10, 25c and 50c bottles.

**FREE**

To Automobilists and Housewives. A generous sample of 3-in-One Oil and "Dictionary of Uses" sent free. Write for them today—NOW.

### More Than Pleased

Your camera reached me O. K. and I was surprised at the work it does. I have taken several photos and some as good as I have ever seen taken with any camera. Everybody that sees the work of the "Mandel-ette" says it is fine and I am more than pleased with it.

Vernie Boyle, Northome, Minn.

### Beats All Things Yet

The "Mandel-ette" received and opened up and in 20 minutes I had a splendid picture of my wife, fully developed and ready to look at. My, this beats all things yet.

T. J. Houts, Pastor,  
Methodist Episcopal Church,  
South, Welch, W. Va.

### Takes Pictures on Dark Day

I am perfectly delighted with the "Mandel-ette." I have had very good success—never before to have handled a camera at all. I can say it will do all you claim. I have taken a picture which shows a Mt. more than 4,000 feet away and on a very dark day.

Jas. H. Hubbard, Penhook, Va.

### Anyone Can Use Them

Received the "Mandel-ette" and supplies Saturday evening. Sunday morning we began to take pictures and had very good luck. It is sure simple enough. Anyone can use them. We couldn't get along without ours.

Mrs. R. U. Iddings, Mapleton, Ia.

# Why Not Make \$200.00 a Month—

**That's  
\$50.00  
a Week,  
Almost  
\$10.00  
a Day**

selling Victor safes and fireproof boxes to merchants, doctors, lawyers, dentists and well-to-do farmers, all of whom realize the need of a safe, but do not know how easy it is to own one. Salesmen declare our proposition one of the best clean-cut money-making opportunities ever received. Without previous experience YOU can duplicate the success of others. Our handsomely illustrated 200-page catalogue will enable you to present the subject to customers in as interesting a manner as though you were piloting them through our factory. Men appointed as salesmen receive advice and instructions for selling safes, giving convincing talking points which it is impossible for a prospective customer to deny. Why don't YOU be the first to apply from your vicinity before some one else gets the territory? We can favor only one salesman out of each locality.

OUR NEW HOME.

Wide-awake men are prompt to take advantage of our special inducement, and notwithstanding that the completion of our new factory will enable us to double our output, indications point to an ever-increasing demand which will continue to tax our facilities. We are spending many thousands of dollars enlarging our sales organization, but to learn all particulars it will cost you only the price of a postal-card. Just ask for "New Offer 58."

# THERE'S A HINMAN MILKER NEAR YOU

The Hinman equipment on the farm of Mr. I. S. Merrell of the Merrell-Soule Co., Manufacturers of the celebrated None-Such-Mince-Meat, Milk Powder, etc., Syracuse, N. Y. The operator is only 10 years old.

## Why the Hinman Milker Excels

The Hinman is the only milker with all the following features:

One cow milked at a time with each unit; no vacuum in pail; rapid pail changing system; no piping—just a simple drive rod; only two moving parts; visible milk flow; simple method of keeping record of each cow.

The Hinman is noiseless. The cows stand in perfect contentment and don't move a muscle.

The Hinman pump gives a hand-like squeeze and produces vacuum gradually, applying it to the teats with a gentle hand-like action. Complete vacuum break 45 times a minute. No possible danger of cows getting too strong suction. Easily adjusted to hard or easy milkers.

In five seconds the Hinman cups are on and the milk is flowing swiftly, silently into the pail.

In the Hinman the vacuum is confined to the chamber—and not to the pail—otherwise it would require a heavy, cumbersome pail with a heavy, complicated, pulsating device. A less amount of vacuum and hence less power is required. The inside of the chamber is smooth—no working parts.

When the pail is full, you simply change the cover and don't stop the machines milking. You may then weigh and record each cow's milk.

A one-minute change and the Hinman Milker is at work again.

There are Hinman Milkers in every dairy vicinity. You will find many of them operated by young boys, who milk at a rate of 20 to 25 cows an hour—do it better and get more milk and milk more sanitary.

The Hinman, "the milking machine of quality," was awarded the gold medal at the Panama-Pacific Exposition and it has received many other gold medals and diplomas at dairy cattle congresses and great fairs.

The Hinman saves time and men, morning and night. The average equipment costs about the same as a binder, and the Hinman works twice a day the year around, year after year. It is made by specialists—only this one product for eight years and

## "A Success for Eight Years"

When this ALMANAC goes to press (September) 300,000 cows are milked daily by the Hinman Milker.

Just drop a postal card for one of our latest catalogs and the names of your nearest Hinman Milker owners.

# EVERY STUMP HOLDS A DOLLAR

The ground covered by an average stump and its roots will grow 25c. to 50c. worth of food crops per year. A hundred-stump acre will produce \$50 worth of food per year after clearing.

Why leave these dollars buried under stumps and pay taxes on stump land when the whole world offers big prices for American farm products?

## Red Cross Stumping Powder

Will get them out in cold and wet weather, when you have plenty of time. Clear land now and crop it next Spring. This explosive is low freezing, hence works well up to Winter weather. It takes less Stumping Powder in wet weather than in dry. Turn the cold wet days of Fall into cash. Write for Free Handbook of Explosives No. 385, which explains in picture and story the many uses for Du Pont Red Cross Farm Powders.

## How Many Dollars Are Buried In Your Farm?

# Canada is Calling You to her Rich Wheat Lands

She extends to Americans a hearty invitation to settle on her **FREE Homestead lands** of 160 acres each or secure some of the low priced lands in Manitoba, Saskatchewan and Alberta.

This year wheat is higher, but Canadian land just as cheap, so the opportunity is more attractive than ever. Canada wants you to help to feed the world by tilling some of her soil—land similar to that which during many years has averaged 20 to 45 bushels of wheat to the acre. Think what you can make with wheat around \$1 a bushel and land so easy to get. Wonderful yields also of Oats, Barley and Flax. Mixed farming is fully as profitable an industry as grain growing.

The Government this year is asking farmers to put increased acreage into grain. Military service is not compulsory in Canada, but there is a great demand for farm labor to replace the many young men who have volunteered for service.

The climate is healthful and agreeable, railway facilities excellent, good schools and churches convenient. Write for literature and particulars as to reduced railway rates to Superintendent Immigration, Ottawa, Canada, or to

# Edwards Metal Shingles

**Save Time,  
Money, Trouble**

And they look better. A big list of users throughout the country write that they wouldn't use any other kind. Edwards "Tightcote" Galvanized Metal Shingles stay on—and stay long. Fire can't hurt them. They lock together by the wonderful interlocking device, and are weather-proofed and water-proofed by the Edwards "Tightcote" galvanizing process. Thus your roof covering becomes virtually one-piece the Edwards way.

Edwards "Reo" Tightcote Galvanized Cluster Shingles can be bent, twisted or struck by lightning, but galvanizing will not crack or flake. Edges as well as sides rustproof. One man can lay—hammer and nails only tools needed. Interlock—can't come off—nail holes protected. Last as long as building. Cost less than good wood shingle or any other good roof. Sheets 5 to 12 feet long, covering width 24 inches.

## Free Lightning Insurance

A \$10,000 bond is your protection against lightning loss. This insurance costs you nothing.

So you save EVERY way, and have a better roof covering when you use Edwards Galvanized Shingles.

### Write for Free Books

Tell us what kind of a building you want to cover—from a small shed to a handsome residence. We will then send the particular illustrated Roofing Booklet showing the very Edwards Roofing for the purpose. These books also show all styles of Edwards Siding and Building Material, with lowest prices. Freight paid by us. Samples mailed free.

On the Cow—One  
Off the Cow—Three

## Perhaps You Know

—that practically 90% of all cowhide is split into sheets because it is too thick for upholstery. Maybe you *know* that each hide can give only one top-side layer of real grain leather and that all the other layers are merely “spongy splits” coated and embossed to look like the real stuff.

## But Do You Realize

—that these splits which are *sold* as genuine leather are not *real* grain leather? That’s the vital point. Now let’s consider

**The Ideal  
Upholstery  
Material**

**Guaranteed  
Superior to  
Coated Splits**

Fabrikoid is a substitute for leather and honestly sold as such. It has all the beauty and luxurious feel and appearance of the finest grain or Spanish leather with twice the strength of coated splits. It is water, dust and grease proof—soft and pliable. Furthermore, it is guaranteed for one year. And back of this guarantee stands the century-old Du Pont reputation for integrity of purpose, superiority of products and financial responsibility.

Motor Quality Fabrikoid for automobile, carriage and fine buggy upholstery is being used on thousands of this year’s leading cars.

Craftsman Quality Fabrikoid for furniture upholstery and home dec-

orations has been adopted by some of the most exclusive upholsterers and furniture manufacturers in the country. Leading department stores everywhere sell it.

*"The Name Tells a True Story"*

# PAIGE

*The Standard of Value and Quality*

*The FAIRFIELD Light "SIX-46"*

## WE ASK YOU TO JUDGE THIS CAR BY ITS QUALITY ALONE

The Paige "Six-46" sells for the astonishingly low figure of \$1295. That, in itself, is impressive.

But, quite irrespective of price, we want you to see this six cylinder car—examine it—ride in it—and judge it from a standpoint of Quality alone.

It is by no means difficult to manufacture a car for a price.

It is, however, quite a different thing to produce a motor car of *one hundred point excellence* and still maintain a selling price to the consumer which is not prohibitive.

In building the Paige "Six-46"—as in building all Paige cars past and present—we have been governed only by the unflinching Paige standards of Value and Quality.

So, we urge you to see this car because it is a *good car*.

We urge you to buy it with absolute confidence because it bears the Paige name plate—an enduring guarantee of fair dealing and honest manufacturing.

7-passenger "Six-46" **\$1295**      5-passenger "Six-36" **\$1095**

**The Paige-Detroit Motor Car Co.**  
1218 McKinstry Ave. Detroit, Mich.

# GOODRICH Safety Tread Tires

When the last word has been said about tire construction the test the motorist demands is mileage facts—not claims.

In 1915 Goodrich Safety Treads gave more miles for every dollar of cost than any other tire on the market.

Enormous production and "Customer First" policy have instituted Goodrich Fair-List prices—Goodrich Safeties cost less than any other standard Non-Skid. Cost less—and give more!

Cost per mile figures must convince you that Goodrich Safety Treads are your one best buy.

**The B. F. Goodrich  
Company**  
Factories: Akron, Ohio

# Here's a Better Than Father Ever

**YES**—and there's no doubt about it, as much as we like to fool ourselves once in a while that this or that article is not as good as it used to be.

Let us tell you a little something about the rubber boots that Father wore.

In almost every particular they were just the same sort of boot that you were compelled to buy, up to about two years ago.

This is the reason why: For forty years or more practically no improvements were made in building rubber boots and shoes.

The original method of sticking a boot together by hand still prevailed. If the man that did the sticking work was mighty careful, you had a fairly good job, but in the majority of instances the boot or shoe wore out before its time—that is, it began to peel, crack or split apart because it was not solid piece construction.

Now, here is where the largest rubber factory in the world, makers of the justly famed Goodrich Safety Tread Tire, took a hand and originated what is termed the “Hipress” process (“Hipress” is in reality short for high pressure) for making rubber boots and shoes.

We figured that if we could make unit molded tires—and “unit molded” means driving the different layers of fabric together under tremendous pressure

Built like a  
Goodrich Tire

# GOODRICH

## HIPRESS Rubber Footwear

# Rubber Boot Owned!

so that they form one inseparable whole—and have those tires deliver thousands upon thousands of miles of satisfactory service under conditions far more severe than a rubber boot would ever go up against, we could do the same thing in the manufacture of rubber boots and rubber shoes.

So we took this same automobile tough tire tread stock, and with Goodrich unit molded construction, produced a boot which is not only shaped to the foot, but because it is welded together like a Goodrich tire, does not peel, leak, crack or split apart. The color is brown or white, as you prefer. A better product than Father ever wore or than any of us could buy until the Goodrich Company brought out "Hipress"—the brown or white boot "with the red line 'round the top."

And once more, don't forget about this  
***"red line 'round the top"***

It points out the genuine—always identifies the "Hipress" rubber boot and shoe.

## The B. F. GOODRICH COMPANY

*are the originators of the "Hipress" Process and the first to make Rubber Boots and Shoes in Brown or White colors; all others are inferior imitations.*

# WHITE TRUCKS

*Awarded the* **GRAND PRIZE**  
BY THE PANAMA-PACIFIC INTERNATIONAL  
EXPOSITION AT SAN FRANCISCO

## THE ONLY GRAND PRIZE—THE HIGHEST AWARD FOR MOTOR TRUCKS

Was conferred upon White Trucks by the Superior Jury of Award, as officially announced by the Secretary of the Jury under date of August Second. This is the **ONLY GRAND PRIZE** received by any motor truck at the Panama-Pacific International Exposition.

This decision of the Superior Jury of Award reflects the opinion of the largest users of motor trucks throughout the world—and is in accordance with the actual service results of

motor truck experience. The points of merit upon which the Grand Prize is awarded are identical with those that have determined the selection of White Trucks by America's foremost firms in every line of business.

White supremacy in the motor truck industry is thus recognized by the highest award that can be bestowed by the greatest exposition the world has ever known—just as this supremacy has been recognized by motor truck users for many years.

# Free—Six Big Issues of Investing for Profit

*If you will simply send me your name. Special Introductory FREE Offer. Six fine Monthly Issues—each worth \$10 to \$100 to you.*

**How much do you know about the Science of Investment?**  
**Do you know the Real Earning Power of your money?**  
**What is the difference between the Rental Power and Earning Power of money? Do you know how \$100 grows into \$2,200?**

Why you should get **Investing for Profit**: Only one man in a thousand knows the difference between the *rental* power and the *earning* power of his money. Few men know the underlying principles of incorporation. Not one wage earner in 10,000 knows how to invest his savings for profit, so he accepts a paltry 2% or 3% from his savings bank, while this same bank earns from 20% to 30% on *his money*—or he does not know the science of investing and loses his all.

Russell Sage said: "There is a common fallacy that, while for legal advice we go to lawyers, and for medical advice we go to physicians, and for the construction of a great work, to engineers—financing is everybody's business. As a matter of fact, *it is the most profound and complicated of them all.*"

So let me give you just a glimpse of the valuable investment information you will get in my six big issues, "The Little Schoolmaster of the Science of Investment," a guide to money-making:

**The Science of Investment.**  
**The Root and Branch of the Investment Tree.**

**How to Judge a Business Enterprise.**  
**Where New Capital Put Into a Corporation Really Goes.**

**"Watering"—Its Significance.**  
**Idle Money vs. Active Money.**  
**Capital is Looking for a Job.**

**The REAL Earning Power of Your Money.**  
**Investment Securities Are Not Investment Opportunities.**

**The Actual Possibilities of Intelligent Investment.**

**The Capitalization of Genius and of Opportunity.**

Wait till you see a good thing—but don't wait till everyone sees it. You will then be too late. Never was a time more auspicious for a public campaign of education on the logic of true investment. A revolution in the financial world is now going on—to the profit of the small investor.

You are now face to face with your opportunity—if you have the courage to enter the open gate to the road of fortune.

I believe you will find much interest in reading my six issues of **Investing for Profit**. From cover to cover it contains the fundamental principles of investment it has taken a lifetime to gather—from my own experience and from every available authoritative original source of information.

## If You Can Save \$5 a Month or More

Don't invest a dollar in anything anywhere until you have read my wonderful magazine, **Investing for Profit** is for the man who intends to invest any money, however small, or who can save \$5 or more per month, but who has not as yet learned the art of investing for profit. Learn how \$100 grows into \$2,200.

## Use This Coupon for the Six Issues and Financial Advice FREE.

If you know how to invest your savings—if you know all about the proposition in which you are about to invest your hard-earned savings—you need no advice. But if you don't, if there is a single doubt or misgiving in your mind—I shall be pleased to answer any inquiries you may make, or furnish any information I can regarding the art of saving and making money through wise investment.

So sign and mail this coupon now. Get **Investing for Profit FREE** for six months. Ask me to put you on my mailing list for Free Financial Advice. Don't put this off. It means too much to you now and in the future. Sign and mail this coupon at once.

AMERICA'S FAVORITE BEVERAGE

Served Everywhere

ANHEUSER-BUSCH

ST. LOUIS, U.S.A.

# WHAT IS BEER?

In starting to tell what beer really is, it would perhaps be better to tell what beer is not. Beer is no more a dangerous intoxicant than coffee, with its small per cent. of caffeine, is a dangerous drug.

Beer is a beverage which has been in common use for thousands of years. Formerly it was brewed in the home. The experience of centuries proved that it was such a promoter of health and strength that the demand for it, became so great that, with the development of co-operative manufacturing, it was found that it could be produced better and cheaper in the large brewery.

There is no mystery about beer. All beers are made from a watery extract of cereals such as malt, barley, rice and corn. The starch of the cereals is converted during the Brewing Process into sugar. Sometimes other sugar is used in addition. This sugary liquid is boiled and hops are added to impart their agreeable bitter taste and flavor. When cooked the liquor is fermented with yeast. There are beers that contain all of the ingredients above mentioned, but there is no beer brewed that does not contain at least one cereal, hops, water and yeast. There is nothing else used or needed for the brewing of beer in the modern brewery.

If there is anything harmful in any of these materials it is yet to be discovered. The same materials, with the exception of the hops, are used in the manufacture of many of the food products of to-day, and the hop has never been suspected of being anything but a desirable tonic herb or plant.

The fermenting process, which completes the beer and gives it its life and stimulating power, is the same process that goes on in cider making, but whereas the farmer making cider leaves much to chance, the brewer absolutely controls the ultimate result of his brewing. For by boiling his extract before fermenting it his liquor is sterilized, and the yeast used for fermentation is a pure culture especially made for beer brewing.

As far as the small percentage of alcohol that is present in beer is concerned, this results naturally from the process of fermentation—just as in cider—but cider usually has more alcohol than beer. Some cider makers increase the amount of alcohol by adding sugar to the must. They want alcohol to keep cider from spoiling. The brewer brews his beer so as to have only 3 to 4% of alcohol, and he relies on an expensive system of refrigeration to keep his beer from spoiling.

The healthfulness of beer is readily demonstrated by a study of those who use it and those who do not use it in their daily diet. The drinkers of beer are almost always found to possess solid, healthy bodies, blessed with a stamina that is too often absent in the non-drinkers of beer. The millions of beer drinkers who consume the sixty millions of barrels of beer in the United States annually are, as a rule, the healthiest portion of the population. In order to promote sobriety in Switzerland beer is tax free. Beer, with a low percentage of alcohol in Denmark and Norway, is likewise tax free. The French Government classes beer with wine and cider as "boisson hygienique," which means hygienic beverage.

There are, of course, cases of over-drinking, as there are cases of over-eating, but the result is just the same. Excessive eating, like excessive drinking, will cause stoutness or obesity, but this is simply a case of too much of a good thing that can easily be remedied by a return to a sane and temperate use of either the food or the drink.

Beer is the cleanest and most wholesome of beverages. Cleanliness is absolutely necessary in its manufacture, the slightest carelessness in this regard being fatal to the success of the brew. Can this be said of all other foods or beverages?

Physicians have said that it is advisable to have a little food in the system at all times. This discovery is the natural result of a study of the casual beer drinker. The drinking of a glass of beer puts into the stomach a modicum of easily digested fluid, with the result that the entire system is stimulated and invigorated.

To the exhausted workman, the overworked housewife, the tired business man, the man or woman of impoverished blood, and to all those who are compelled to call on their bodies for unusual effort, beer is a mild stimulant and tonic that helps without causing any harmful reaction. The experience of centuries has proved this. Shall this boon to mankind be taken from the human race because of the theories and protestations of a handful of professional agitators who delight in disseminating misleading information regarding it? We leave the answer to the intelligence of our people.

# The Brush

## Electric Lighting Set

Made in sizes from 4 to 20 horsepower, engine direct-connected to dynamo; requires small floor space, and is suitable for use with gasoline, kerosene or gas.

The Brush Electric Lighting Set is a very compact unit, simple in design and construction, and can be readily handled and cared for by those who are not experts. The quality of electric light produced by this outfit is superior to that usually furnished by electric lighting stations, and the cost is from one-half to one-quarter the price charged by these stations.

There are very many uses to which the electric current may be put besides that of lighting, such as cooking, washing and ironing and the use of dozens of other household conveniences.

Our 125-page catalogue is the most complete work on isolated electric generating plants ever published, and will be sent post-paid to any address upon application.

## "I'll tell you what's holding you down, Jim"—

"You say you've been working for ten years and you're getting only \$50 a month. You *ought* to be earning more, I agree, but you can't get any more for the kind of work you are doing.

"You've never learned to do anything that requires very much headwork—you've always been doing work that thousands of others could do—that's what is holding you down. However, you don't have to *stay* down—you can work yourself up to a *good* job if you go about it in the right way.

"What you need to do is to train yourself to take a job as chief accountant, correspondent, salesman or advertising man. We *never* have enough trained men. I've got openings now for a correspondent and three first-class salesmen.

Probably you, too—like the man in this story—are ambitious to make more money—and you can do it, if you will train yourself to do something that requires greater skill and more headwork—something for which employers *must* pay big money.

You won't have to leave home or give up your present job to get this training. The International Correspondence Schools have trained thousands of men—right in their *own* homes during their *spare* time—for the kind of work that commands big salaries. They can do the same for *you*.

Railway Mail Clerks, City Carriers, Rural Carriers  
City Postal Clerks

**\$800 TO \$2000 A YEAR, FOR LIFE**

Rapid advancement to higher Government Positions. No "lay-offs" because of STRIKES, FINANCIAL FLURRIES or the WHIMS OF SOME PETTY BOSS. THE POSITION IS YOURS FOR LIFE. Country residents and city residents stand the same chance for immediate appointment. Common-sense education sufficient. Political influence NOT REQUIRED.

Write immediately for schedule showing the places and dates of the coming examinations. Don't delay. Every day you lose means the loss of just so much coaching before the rapidly approaching examinations.

## FREE TO ANGLERS

M. 4. 1916. 28-page Booklet of up-to-date fishing tackle Specialties and full description of

### KELSO Automatic Reel

The Best is always the Cheapest. The Kelso guarantees you against trouble. It is cheaper in the end even at a little more initial cost.

### FROSTCO German Silver Reel With Sliding Jewel Line Guide

No. 2-J—120 Yards,  $3\frac{1}{4} \times 1\frac{1}{4}$  inch.....\$3.00  
No. 1-J— 80 Yards,  $2\frac{1}{4} \times 1$  inch.....\$2.50

Made from German Silver. The sliding jewel line guide can be adjusted to proper place on either side of reel. Can be used above or below the hand by simply removing two screws.

Adapted for Fly Casting, Bait Casting, Trolling or regular Bait Fishing. The perforations keep the line dry, which saves expense of a line dryer and also trouble of using it.

Large size, No. 2-J, is suitable for sea fishing; holds 100 yards of 15-thread Cutty-hunk line.

#### AT ALL GOOD DEALERS

To the Trade: Send for our General Catalogue. Contains everything in fishing tackle.

# BUST DEVELOPED ONE OUNCE A DAY

## A New, Simple, Easy Home Method That Gives Quick, Permanent Success.

Judge from my picture as to the truth of what I say to you—that the crowning glory of womanhood is a figure of beautiful proportions and exquisite development. Then ask yourself how much you would like to have such a photograph of yourself, showing the feminine lines of infinite charm and grace. It would be worth more to you than a 2c stamp, so let me tell you of what I have learned—let me show you recent pictures of myself to prove what I say—for if you will write me today

## I Will Tell You How—FREE

I will tell you gladly and willingly. Why should any woman neglect an opportunity to escape the pain and heartache of being skinny, scrawny, angular and unattractive in body? Misery is not our heritage. Nature planned that you—a woman—should have the rich, pulsing lines of warm, living flesh. Why should there be that pitiful aspect—the face of a woman and the form of a man?

## Write To Me Today

I don't care how thin, or fallen, or flaccid your bust is now—I want to tell you of a new, simple, easy home method that gives quick and permanent success—I want to tell you how you can gain perfect development—one ounce a day. No physical culture—no massage, foolish baths or paste—no plasters, masks or injurious injections—I want to tell you of an absolutely new method, never before offered or told about—insuring immediate success and permanent beauty—without disappointment.

## Send No Money

Just write me a letter—address it to me personally, that's all. I will answer it by return mail—and you can have a perfect bust and figure—one ounce daily—you can be just what you want to be. You may believe me when I say that you will bless me through years of happiness for pointing the way to you, and telling you what I know. Please send your letter today to the following address:

# LOOSE TEETH—SORE GUMS

I am a Dentist of 25 Years' Experience. I Have Perfected a Most Successful Home Treatment of Pyorrhea, the Terrible Tooth and Gum Disease, and All Its Symptoms.

I have found a very successful home treatment for that terrible disease called Pyorrhea or Riggs Disease of the gums. Most dentists tell their patients there is no cure for it, that there is no cure for loose teeth, bleeding, spongy, shrinking gums and dropping out of teeth; but many who have used my home treatment say there is, **AND PROVE IT.**

Don't have those teeth pulled. You may save every one of them—make them good, firm, healthy, sound teeth again.

Hundreds of patients say Dr. Willard's home treatment stops the teeth from being loose or wobbly and that it has done so in cases where the patient could almost pull the teeth out with his fingers, where the gums were soft and spongy, bleeding and shrink away from the teeth. You may make these conditions positively and absolutely disappear and end your Pyorrhea. There is no pain, no fussing, no waste of time.

The letters I will send you from people in all parts of the country will tell you that the torture and expense of dentist's work—all its grinding, whirring, jamming and nerve-touching agony—are gone forever. No more plates and bridges. They enjoy good teeth, good chewing and a good stomach once more. If you have any of the symptoms mentioned, then Pyorrhea, sometimes called Riggs Disease, is on the way—you are bound to lose your teeth and have to wear those awful false teeth, if you don't find a cure for it now. Simply send your name and address on coupon below and I will tell you all about this dreadful disease and why my simple home treatment may save your teeth without pain or expense of the dental chair.

**My Illustrated Book and Full Information FREE**  
**DR. F. W. WILLARD.**

**BS25 Powers Bldg., Chicago, Ill.**  
Please send me your illustrated free book on tooth and gum diseases, with information about your successful home treatment for Pyorrhea.

## Mysteries of Hypnotism and Personal Magnetism Revealed

Herbert L. Flint, one of the best known hypnotists in the world, has just published a remarkable book on hypnotism, personal magnetism and magnetic healing. It is by far the most wonderful and comprehensive treatise of the kind ever printed. Mr. Flint has decided to give, for a limited time, a free copy to every person sincerely interested in these wonderful sciences. This book is based upon years of practical experience by a man who has hypnotized more people than any other one person.

You can now learn about the secrets of hypnotism and personal magnetism at your own home free.

Hypnotism strengthens your memory and develops your will. It overcomes bashfulness, revives hope, stimulates ambition and determina-

# FREE

tion to succeed. It gives you that self-confidence which enables you to convince people of your real worth. It gives you the key to the inner secrets of mind control. It enables you to control the thoughts and actions of others. When you understand this grand and wonderful science you can plant suggestions in human minds which will be carried out in a day or even a year hence, in some cases. You can cure bad habits and diseases in yourself and others. You can cure yourself of insomnia, nervousness and business or domestic worry. You

can instantaneously hypnotize subjects with a mere glance of the eye without their knowledge and powerfully influence them to do as you desire. You can develop to a marvelous degree any musical or dramatic talent you may have. You can increase your telepathic or clairvoyant powers. You can give thrilling and funny hypnotic entertainments. You can win the esteem and everlasting friendship of those you desire. You can protect yourself against the influence of others. You can become a financial success and be recognized as a power in your community.

This book of Flint's will tell you how to learn the secret of attaining these things. Flint is the most successful and best known hypnotist in the world. He has appeared before thousands of audiences. He will carry out every promise faithfully. If you want a copy of this free book send your name and address on a postal card—no money—to The Flint College Co., Dept. WB1, Cleveland, Ohio, and you will receive the book by return mail, postpaid.

# GOOD LUNGS MEAN HEALTH

## Are They Weak or Painful?

Do your lungs ever bleed?

Do you have night sweats?

Have you pains in chest and sides?

Do you spit yellow and black matter?

Are you continually hawking and coughing?

Do you have pains under your shoulder blades?

## These Are Regarded Symptoms of Lung Trouble

You should take immediate steps to check the progress of these symptoms. The longer you allow them to advance and develop, the more deep seated and serious your condition becomes.

## We Stand Ready to Prove to You

absolutely that Lung Germine, the German treatment, has cured completely and permanently case after case of Tuberculosis, Chronic Bronchitis, Catarrh of the Lungs, Catarrh of the Bronchial Tubes and other lung troubles. Many sufferers who had lost all hope and who had been given up by physicians have been permanently cured by Lung Germine. If your lungs are merely weak and the disease has not yet manifested itself, you can prevent its development, you can build up your lungs and system to their normal strength and capacity. Lung Germine has cured advanced Tuberculosis, in many cases over five years ago, and the patients remain strong and in splendid health to-day.

## Let Us Send You the Proof---Proof That Will Convince Any Judge or Jury on Earth

We will gladly send you the proof of many remarkable cures, also a FREE TRIAL of Lung Germine together with our new 40-page book (in colors) on the treatment and care of Tuberculosis and lung trouble.

**JUST SEND YOUR NAME**

# Another Language Makes Another Man!

This is the age of specialization—But the man who supplements his special training and education with a foreign language doubles his commercial value and opens up new possibilities and new fields of opportunity.

Take advantage of the war situation! Better your position and increase your salary. Extend your business. Establish export trade with South American countries. Equip yourself to read foreign books and papers. Brush up on the language you studied at college and make it of practical use. Acquire a new language, at home, for business and social purposes.

## SPANISH—FRENCH—GERMAN—ITALIAN Is Easily and Quickly Mastered by the LANGUAGE-PHONE METHOD

and Rosenthal's Practical Linguistry

(Highest Award Panama-Pacific Exposition, 1915)

This is the natural way to learn a foreign language. The voice of a native professor pronounces each word and phrase, slowly or quickly, for minutes or for hours. Any one can learn a foreign language who hears it spoken often enough; and by this method you can hear it as often as you like.

Is a pleasant, fascinating study. All members of the family can use it. You practice during spare moments, or at convenient times, and in a surprisingly short time you speak, read and understand a new language.

### THE LANGUAGE-PHONE METHOD

987 Putnam Bldg. 2 West 45th Street, New York

#### Send For This Free Book

Simply send us your name and address and we will mail you free "A Treatise on Language Study", and full particulars of trial offer. We will also tell you how you can use your own talking machine (our records fit all) to acquire a foreign language. Write Us To-Day.

## "ELECTRO-LIFE" THE DRY CELL VITALIZER

This grand appliance, now sold and used throughout the world, gives a perfect home self-application of the Galvanic Current. It generates a large volume of electricity and pours it into your body in a smooth, harmless, gentle stream at night while you sleep, enriching and improving the circulation of the blood, making every organ more active and supplanting weakness with strength. No charging, no acid, no trouble.

If you lack nerve force, energy and strength, or if you are suffering from Nervous Debility, General Weakness, Poor Circulation, Rheumatism, Lumbago, Dyspepsia, etc., try the application of the pure galvanic current and you will be surprised at the results.

## LITERATURE FREE

Let me send you illustration and literature giving all particulars and containing lots of interesting reading for those who want to become well and strong. Sent free, in plain envelope.

# PATENTS

**Trade Marks and Copyrights Secured or Fee Returned**

## Special Offer—Free Opinion as to Patentability

Send us a model or sketch and description of your invention and we will inform you if it is patentable. If we report the invention patentable we will guarantee to obtain a patent or return our fee, and furnish a certificate of patentability backed by a bonded contract to that effect.

**This Certificate of Patentability will protect the inventor and serve as proof of the invention until the case can be filed in the U. S. Patent Office.**

### OBTAINING ASSISTANCE FOR INVENTORS

Our certificate is of great assistance to inventors who require financial aid to obtain patents.

**OUR FIVE BOOKS MAILED FREE** to any address. Send for these books—the finest publications ever issued for free distribution.

### HOW TO OBTAIN A PATENT

Our illustrated eighty-page Guide Book is a book of reference for inventors, and contains 100 mechanical movements illustrated and described.

### MONEY IN PATENTS

Tells how to invent for profit, and gives history of successful inventions.

### WHAT TO INVENT

Contains a valuable **LIST OF INVENTIONS WANTED** and suggestions concerning profitable fields of invention; also information regarding prizes offered for inventions, amounting to **ONE MILLION DOLLARS.**

### PATENTS THAT PAY

Contains letters from our clients who have built up profitable enterprises founded upon patents procured by us; also endorsements from prominent inventors, manufacturers, Senators, Congressmen, Governors, etc.

### PATENT PROMOTION

Gives valuable information regarding the sale and placing of patents.

**VICTOR BUILDING**

Our new \$200,000 building opposite U. S. Patent Office **SPECIALLY ERRECTED** by us for **OUR** own use.

### Foreign Patents

**WE HAVE DIRECT AGENCIES IN ALL THE PRINCIPAL FOREIGN COUNTRIES** and secure **FOREIGN PATENTS** in the shortest possible **TIME** and at the **LOWEST COST.** Write for our Illustrated Guide Book on Foreign Patents, sent free to any address.

## Wanted Ideas

**LIST OF PATENT BUYERS** contains requests from **MANUFACTURERS** and **PROMOTERS** for patents secured by us, and suggestions as to New Ideas they wish to purchase.

### WE ADVERTISE OUR CLIENTS' INVENTIONS FREE

in a list of Sunday newspapers with two million circulation, in manufacturers' journals and in the World's Progress. Sample Copy Free. We save you time and money in securing patents. After the patent is granted we assist you **TO SELL YOUR PATENT.**

# BUY DIAMONDS DIRECT

FROM JASON WEILER & SON

Boston, Mass., one of America's leading diamond importers

For over 39 years the house of Jason Weiler & Son of Boston has been one of the leading diamond importing concerns in America selling to jewellers. However, a large business is done direct by mail with customers at importing prices For example:—

**3/8 Carat, \$32**

This 3/8 carat genuine diamond is of great brilliancy and perfectly cut. Mounted in Tiffany Style, 14K. solid gold setting. Money refunded if your jeweller can duplicate it for less than \$50. Our price, direct to you by mail.

**\$32.00**

**1 1/2 Carats, \$139**

This 1 1/2 carats genuine diamond is of great brilliancy and perfectly cut. Mounted in Tiffany Style, 14K. solid gold setting. Our price, direct to you,

**\$139.00**

If you can duplicate this ring for less than \$200. send it back and money will be refunded.

**Money refunded if not entirely satisfied**

We refer you as to our reliability to any bank or newspaper in Boston.

If desired rings will be sent to your bank or any express company with privilege of examination. Our diamond guarantee for 5 years full value goes with every purchase. We refer you as to our reliability to any bank or newspaper in Boston.

**WRITE TO-DAY FOR THIS VALUABLE BOOK ON HOW TO BUY DIAMONDS**

This catalog is beautifully illustrated. Tells how to judge, select and buy diamonds.

Tells how they mine, cut and market diamonds. This book, showing weights, sizes and prices (\$10 to \$10,000) is considered an authority. A copy will be mailed to you FREE on receipt of your name and address.

# "GAINED 32 POUNDS And Kept It Four Years"

Mrs. Abbott of Boston, whose photo appears above, writes us: "My photo speaks for itself in regard to your wonderful treatment. Was painfully thin when I commenced your treatment, but have gained 32 pounds since then, and am looking the picture of health, with rosy cheeks just as when I was a girl. Better than all, it is 4 years ago since I finished the treatment and I still keep the same weight."

Dr. Whitney's Nerve and Flesh Builder was the first flesh-builder offered to the public. It has been giving thousands of men and women attractive figures for nearly twenty years. Probably many of the figures you have greatly admired have been obtained by the use of this treatment—and with improved figures come better color and better health. When you build up with good, healthy flesh your whole physical condition must be benefited.

This treatment makes more and better blood, which in turn increases flesh, improves the color and complexion and makes you strong, sturdy and virile, with buoyant step and sparkling eye. Do not say it cannot be done until you take our generous trial treatment, just as thousands of others have who were also doubtful.

We offer a generous trial treatment to prove what it will do for you—that you can have just as handsome a figure as this host of others—that your nutrition will be perfected, that all hollow places will be filled out and you will have plump, perfect arms and limbs, a charming neck and shoulders, or by the special treatment your bust will be enlarged from 4 to 8 inches.

Just send in the coupon below now, while this generous offer lasts, and let us prove to your satisfaction just what it will do for you.

Treatment No. 1 increases flesh all over the body for both men and women. Treatment No. 8 develops the bust alone. Please say which you prefer. Only one can be sent.

## FREE TRIAL COUPON

Cut this out now. This coupon and 10 cents to help pay packing and mailing charges entitle the sender to one full 50-cent treatment of Dr. Whitney's Nerve and Flesh Builder, provided it is the first trial sender has received. **C. L. Jones Co., 50 Friend Bldg., Elmira, N. Y.**

# RHEUMATISM CONQUERED

I say that I can conquer rheumatism with a simple home treatment, without electrical treatment, stringent diet, weakening baths, or in fact any other of the usual treatments recommended for the cure of rheumatism.

Don't shut your eyes and say "impossible," but put me to the test.

You may have tried everything you ever heard of and have spent your money right and left. I say "well and good," let me prove my claims without expense to you.

Let me send you without charge a trial treatment of **DELANO'S RHEUMATIC CONQUEROR**. I am willing to take the chance and surely the test will tell.

So send me your name and the test treatment will be sent you at once. When I send you this, I will write you more fully, and will show you that my treatment is not only for banishing rheumatism, but should also cleanse the system of Uric Acid and give great benefit in kidney trouble and help the general health.

This special offer will not be held open indefinitely. It will be necessary for you to make your application quickly. As soon as this discovery becomes better known I shall cease sending free treatments and shall then charge a price for this discovery which will be in proportion to its great value. So take advantage of this offer before it is too late. Remember, the test costs you absolutely nothing. **F. H. DELANO, 403-C Delano Bldg., Syracuse, N. Y.**

# SUDS Will Wash for You

# Become An EXPERT ACCOUNTANT!

## \$3,000 to \$10,000 Yearly

If you remain a clerk or bookkeeper, salary increases are improbable, an independent future impossible. You can't demand a raise—there are thousands awaiting your job. There is one sure way to overcome your handicap: become an **EXPERT ACCOUNTANT**, by our modern home-training method—**be sought—don't seek.**

There are 500,000 big firms to-day requiring annual or semi-annual audits and there are only 1,500 certified public accountants in the U. S. This proves the tremendous, unlimited opportunities for you—the independence—the assured future—the big salary. These firms are willing to pay Expert Accountants \$3,000 to \$10,000 yearly. But they pay clerical workers and bookkeepers only \$12 to \$20 weekly. Become an **Expert Accountant** and your rise in the business world will be practically unlimited.

## WE TRAIN YOU BY MAIL

in your own home, during your spare time, no matter where you live. You don't give up your present position and income. Devote a little spare time evenings preparing for independence and a big income and you will soon master this lucrative profession.

You can readily master our modern method and complete it in less time than any other.

The La Salle Extension University course in Higher Accountancy was prepared by some of the world's most noted accounting experts. It is under the direct supervision of William Arthur Chase, a nationally recognized leader, who is the ex-President of the National Association of C. P. A. Examiners, and ex-Secretary of Illinois State Board of Examiners in Accountancy.

Our course is thorough—advanced—covering the Theory of Accounts, Practical Accounting, Cost Accounting, Auditing, Business, Law, etc., and prepares you for C. P. A. Examination in any State.

## SPECIAL REDUCED RATE.

**SCHOLARSHIP**—Limited Special Offer. Write quick and learn how, for a limited time, we are able to offer a special reduced rate scholarship.

## Valuable Book FREE

"What Every Bookkeeper Should Know"—a valuable special book which gives exactly the information you require to become an Expert Accountant. Mail postal to-day.

**LA SALLE EXTENSION UNIVERSITY**  
Dept. H-954, CHICAGO, ILL.

## Light when you need it, where you need it

Indoors and outdoors, along dark hallways, poorly lighted streets, you will find a

## FLASHLIGHT

practically indispensable. "Franco" flashlights received the highest award at the **Panama-Pacific Exposition** and are now everywhere recognized as the finest flashlights produced.

They are made in many different styles and sizes and sell at very reasonable prices. Go into your nearest dealer and pick out the flashlight you like. Insist on the genuine "Gold-Medal" flashlight—see that it has the **FRANCO** trade-mark on case and battery.

Write us for an interesting catalog. No. 3. It's free.

## The President's Official Reporter

The picture shows him reporting the President on the observation platform of a train.

Copyright by Underwood & Underwood

Mr. Charles Lee Swem first attracted the President's attention by his accuracy in reporting a public address by him.

Mr. Swem studied Gregg Shorthand in a night school. At twenty years of age he became personal stenographer and official reporter to the President of the United States—the most important stenographic position in the world.

Mr. Swem is one of the fastest shorthand writers in the world. He holds a speed certificate from the National Shorthand Reporters' Association for 268 words a minute, which he won when but nineteen years of age, defeating three world's champions. He won second place in the Fifth International Shorthand Speed Contest when but seventeen years of age.

Naturally Mr. Swem writes the best shorthand system in use—Gregg Shorthand.

### INSIST on Getting GREGG SHORTHAND

Whatever school you attend, **insist on** being taught Gregg Shorthand—the system that is taught in more schools than all other systems combined. It is the "safety first" shorthand. Anybody can learn to write Gregg Shorthand because of its wonderful simplicity and legibility.

Gregg Shorthand is

—used widely in the courts and government service.

—taught in the high schools of more than 1 300 American cities—more than 60% of the cities whose high schools teach short-

hand, including such cities as New York, Boston, Rochester, Buffalo, Syracuse, Minneapolis, St. Paul, Los Angeles, Omaha, Seattle, Kansas City, Memphis.

—taught in the two largest universities in America—Columbia University and the University of California.

Gregg writers and Gregg teachers are in demand everywhere.

Send to-day for "A Little Journey to the Home of Gregg Shorthand," by Elbert Hubbard—and Sample Lesson, free.

**THE GREGG PUBLISHING CO., 1121 Broadway, New York City**

**Awarded Gold Medal of Honor at the Panama-Pacific International Exposition, 1915—the highest and only award to any shorthand system.**

**Post-Paid**

**THE A. P. SIMON SHOE . . . . 1589 Broadway, Brooklyn, N. Y.**

# Money in Patents

**MANUFACTURERS ARE ALWAYS LOOKING FOR INVENTIONS**

**All Patentable Ideas Should be Protected by a Patent**

(By a Registered United States Patent Attorney.)

The great majority of money making inventions are thought of by persons I will term amateur inventors, and nearly always are some very small or simple thing, for the reason that a large invention takes too much time and money for the average person to produce.

I have inquiries from all over the country, in which manufacturers and business houses are looking for patents in every line of industry. Owing to these inquiries I am about to put inventors in direct touch with manufacturers who want patents, and thereby find a ready sale for their inventions, which, for results, is far more practicable than any other mode of assistance to inventors.

A book "How to get your patent and make your profits thereon," which contains general patent information, is free and I would be very glad to have you write me for a copy of it.

# Beer Recognized by Governments as the Real Temperance Beverage in Peace and War

The value of beer as a temperance drink has at no time been more forcefully recognized by various governments than during the great world war. At a time when all of the governments concerned have taken measures to promote efficiency by either heavily taxing, restricting or prohibiting heavy alcoholic drinks, they have, as a main step in this direction, encouraged the use of light beers.

## OFFICIAL INDORSEMENTS OF BEER

The British Government has placed severe restrictions upon the sale of heavy alcoholics, but has placed none upon the sale of beer, the use of which in place of strong drink it is avowedly encouraging. Such rum as is being distributed among the soldiers in the trenches is served chiefly for its medicinal value.

The French Government has prohibited the sale of absinthe, cocktails, bitters and such drinks, but in its official order it expressly allows beer and other light beverages, which it designates as hygienic drinks, in industrial establishments. A Commission on Alcohol, appointed by the French Government, has declared against the use of heavy alcoholics in the army, and in favor of allowing wine, beer and cider to the soldiers.

The German soldier is allowed a certain quantity of beer daily. The German brewers have been encouraged in various ways to send beer to the front. The German Government has reserved for its troops 20 per cent. of the beer made in the German Empire.

Recently various high officials of the Russian Government have declared in favor of permitting the sale of beer and wine throughout Russia. Their chief reason, as expressed in their pronouncements, is that the total prohibition experiment has led to grave abuses, and that light beverages, such as beer, will better promote genuine temperance than a prohibitory law which fosters illicit distilling and illicit selling of hard liquors.

The Commission on Alcohol appointed by the Norwegian Government has reported adversely to the introduction of prohibition, and favors encouraging the sale and use of light beers as a temperance move to lessen the consumption of hard liquors.

These are impressive examples of the practical conclusions, based upon experience, of the governments of many countries.

## BEER A LIQUID REFRESHMENT

The making of beer bears a striking resemblance to the making of bread. Bread is baked. Beer is boiled. One is a solid food, the other a liquid refreshment. Beer carries the process of digestion a little further than bread, which is also partly digested starch, made so by alcoholic fermentation, like beer. In beer, as in bread, the consumer gets the essence of golden grain, prepared and extracted by natural processes.

As a diet beer possesses a three-fold property—it quenches thirst, stimulates digestion and nourishes. Beefsteak as a foundation and beer as a support furnishes the most nutritious food, approved by the most eminent physicians.

## A UNIVERSAL TONIC AND FOOD

"Beer," says Prof. Chas. Frederick Chandler of Columbia University, "is a beverage prepared from barley, water, hops and yeast. Beer is a food. American beer contains 6 per cent. solid food, only 3 to 4 per cent. alcohol, and also lecithin, which is real brain food. Beer and bread are both made from cereals; bread with water, and is solid; beer with more water, and is liquid. Yeast converts both into palatable and readily digested food. Both contain alcohol. Beer is not intoxicating in ordinary quantities, and beer is one of the foods that is free from bacteria. It is appetizing and aids digestion.

"If the prohibitionists drive beer from the household they will deprive a large part of the population of a wholesome article of food."—Advertisement.

# Complete Electrical Tuition, \$2

This work has been prepared for those who have not had the time or means to take an Electrical Course in a Technical School. It is intended for self-instruction. It is the most understandable book on Electricity ever put in type, and is of a real service in the acquirement of trustworthy knowledge of all phases of Electricity.

## Lessons in Practical ELECTRICITY

Principles, Experiments and Arithmetical Problems

By C. WALTON SWOOPE

Asso. Mem. A. I. E. E.

Late Instructor of Applied Electricity at the Spring Garden Institute, Philadelphia.

The work consists of over 600 pages. There are 404 illustrations; 438 review questions; 154 worked-out problems; 119 problems, with answers, for the student to work out, and 102 experiments.

### The Plan of Instruction

The book is the most comprehensive ever published. It is the closest approach to "in person" tuition possible; it anticipates everything the student needs in rules and data and reasons why; the student is never left in doubt; he is made to prove his work as he goes along. Every proposition is proven by worked-out problems, showing just how results are obtained, and other similar problems, with answers, are given for the student to work out, so that he may fully understand. There are also 438 review questions.

### The Sale of 32,000 Copies

is evidence of value of this book. 32,000 men have been helped to better positions and salaries by reading and studying it. "Go thou and do likewise."

### No Risk to You

We send you this book on receipt of \$2.00. Keep it ten days and look it over carefully; if it doesn't match up with your notion of what such a book should be, send it back and we'll return the two.

# LET US MAKE YOU FAT

50c BOX FREE

We Want to Prove at Our Own Expense That It Is No Longer Necessary to Be Thin, Scrawny and Undeveloped.

"Gee! Look at that pair of skinny scarecrows! Why don't they try Sargol?"

This is a generous offer to every thin man or woman. We positively guarantee to increase your weight to your own satisfaction or no pay. Think this over—think what it means. At our own risk, we offer to put 10, 15, yes, 30 pounds of good, solid "stay there" flesh on your bones, to fill out hollows in cheeks, neck, or bust, to get rid of that "peaked" look, to do this without drastic diet, "tonics," severe physical culture "stunts," detention from business or any irksome requirements—if we fail it costs you nothing.

We particularly wish to hear from the excessively thin, those who know the humiliation and embarrassment which only skinny people have to suffer in silence. We want to send a free 50-cent package to the people who are called "slats" and "bean poles," to bony women, whose clothes never look "anyhow," no matter how expensively dressed, to the skinny men who fail to gain social or business recognition on account of their starved appearance. We care not whether you have been thin from birth, whether you have lost flesh through sickness, how many flesh builders you have experimented with. We take the risk and assume it cheerfully. If we cannot put pounds and pounds of healthy flesh on your frame we don't want your money.

The new treatment is used to increase the red corpuscles in the blood, strengthen the nerves and put the digestive tract into such shape that your food is assimilated and turned into good, solid, healthy flesh instead of passing through the system undigested and unassimilated. It is a

thoroughly scientific principle, this Sargol, for building up the thin, weak and debilitated without any nauseous dosing. In many conditions it is better than cod liver oil and certainly is much pleasanter to take.

Send for the 50-cent box to-day. Convince us by your prompt acceptance of this offer that you are writing in good faith and really desire to gain in weight. The 50-cent package which we will send you free should be an eye-opener to you. We send it that you may see its simple, harmless nature, how easy it is to take, how you may gain flesh privately without knowledge of friends or family.

We could not publish this offer if we were not prepared to live up to it. It is only the astounding results of our new method of treatment that make such an offer and such a guarantee possible on our part. So cut off the coupon to-day and mail it at once to The Sargol Company, 302-N Herald Bldg., Binghamton, N. Y., and please enclose ten cents with your letter to help pay distribution expenses. Take our word, you'll never regret it.

## FREE SARGOL COUPON

This certificate with ten cents to help pay postage and distribution expenses, entitles the holder to one 50 cent package of Sargol, the Flesh builder. The Sargol Co., 302-N Herald Building, Binghamton, N. Y.

# The Magnetic Girl Don't Wear How She Compels Others to Obey Her Will A Truss!

100,000 Copies of Remarkable Book describing peculiar Psychic Powers to be distributed Post Free to readers of The World Almanac.

"The wonderful power of Personal Influence, Magnetism, Fascination, Mind Control, call it what you will, can surely be acquired by every one, no matter how unattractive or unsuccessful," says Mr. Elmer Ellsworth Knowles, author of the new book entitled "The Key to the Development of the Inner Forces." The book lays bare many astounding facts concerning the practices of the Eastern Yogis, and describes a simple though effective system of controlling the thoughts and acts of others; how one may gain the love and friendship of those who might otherwise remain indifferent; how to quickly and accurately judge the character and disposition of an individual; how to cure the most obstinate diseases and habits without drugs or medicines; even the complex subject of projecting thoughts (telepathy) is explained. Miss Josephine Davis, the popular stage favorite, whose portrait appears above, declares that Prof. Knowles' book opens the door to success, health and happiness to every mortal, no matter what his or her position in life. She believes that Prof. Knowles has discovered principles which, if universally adopted, will revolutionize the mental status of the human race.

The book, which is being distributed broadcast free of charge, is full of photographic reproductions showing how these unseen forces are being used all over the world, and how thousands upon thousands have developed powers which they little dreamed they possessed. The free distribution of the 100,000 copies is being conducted by a large London institution, and a copy will be sent post free to any one interested. No money need be sent, but those who wish to do so may inclose 5 cents (stamps of your own country) to cover postage, etc. All requests for the free book should be addressed to National Institute of Sciences, Free Distribution Dept. 962-A, No. 258 Westminster Bridge Road, London, S. E., England. Simply say you would like a copy of "The Key to the Development of the Inner Forces," and mention The World Almanac.

Do not inclose coins in your letter. Postage to England two cents.

After Thirty Years' Experience I Have Produced an Appliance for Men, Women or Children That Cures Rupture

## I SEND IT ON TRIAL

If you have tried most everything else, come to me. Where others fail is where I have my greatest success. Send attached coupon to-day and I

The above is C. E. Brooks, Inventor of the Appliance, who cured himself and who is now giving others the benefit of his experience. If ruptured, write him to-day, at Marshall, Mich.

will send you free my illustrated book on Rupture and its cure, showing my Appliance and giving you prices and names of many people who have tried it and were cured. It gives instant relief when all others fail. Remember, I use no salves, no harness, no lies.

I send on trial to prove what I say is true. You are the judge, and once having seen my illustrated book and read it you will be as enthusiastic as my hundreds of patients whose letters you can also read. Fill out free coupon below and mail to-day. It's well worth your time whether you try my Appliance or not.

## ANTI-KAMNIA TABLETS FOR ALL PAIN

"The efficiency of any drug," says Dr. C. P. Robbins, "is known to us by the results we obtain from its use. If we are able to control pain and disease by means of any preparation, we certainly are warranted in its use. One of the principal symptoms of all disease is pain, and this is what the patient most often applies to us for, i. e., something to relieve his pain. If we can arrest this promptly, the patient is most liable to trust in us for the other remedies which will effect a permanent cure. One remedy which I have used largely in my practice is Anti-Kamnia Tablets. Many and varied are their uses. I have put them to the test on many occasions, and have never been disappointed. I found them especially valuable for headaches of malarial origin, where quinine was being taken. They appear to prevent the bad after-effects of the quinine. Anti-Kamnia Tablets are also excellent for the headaches from improper digestion; also for headaches of a neuralgic origin, and especially for women subject to pains at certain times. Two Anti-Kamnia Tablets give prompt relief, and in a short time the patient is able to be about as usual." The tablets may be obtained at all druggists. Ask for A-K Tablets. They are also unexcelled for headaches, neuralgia and all pains.

## Do you use Press Clippings?

If you do not, drop a postal card to

## Romeike's Press Clipping Bureau

and we will show you how Press Clippings can be used to your advantage.

Press Clippings are always interesting and profitable; they are indispensable to professional and business men alike.

Authors, artists, actors, singers and society leaders are supplied with reviews and criticisms.

We collect obituary notices and bind them in scrapbooks.

Lawyers, bankers, brokers, financial institutes depend largely on quick information from the columns of the press; we supply them.

To the manufacturer we show through the Clippings new markets for his products.

The inventor, the politician, the social reformer, in fact all who attract the attention of the press, are informed and kept up to date by Press Clippings.

*A postal card will bring all the Information.*

# Every Blemish Removed IN TEN DAYS

Get the Beauty  
Methods of This  
Beautiful Woman

I Will Tell Every  
Reader of This  
Almanac How— **FREE**

I only ask that you write me first.

Send no money. All confidential. No one else will know. Then to you, and any reader of this Almanac, I'll give full details of my wonderful and astonishing treatment. No obligations. No risk. You be the sole judge. I offer this fairly and truthfully—**FREE** to you.

My great complexion beauty marvel has instantly produced a sensation. You can try it without risk and prove all I say—all that thousands of others say who know the results. Stubborn cases have been cured that baffled the physicians and beauty specialists for years. You have never in your life used or heard of anything like it. Will make muddy complexions, red spots, pimples, blackheads, eruptions vanish almost like magic.

No cream, lotion, enamel, salve, plaster, bandage, mask, massage, diet or apparatus, nothing to swallow. It doesn't matter whether or not your complexion is a "fright" whether your face is full of muddy spots; peppery blackheads, embarrassing pimples and eruptions, or whether your skin is rough and "porey," and you've tried almost everything under the sun to get rid of the blemishes. This wonderful treatment, in just ten days, positively removes every blemish and beautifies your skin in a marvellous way. You look years younger. It gives the bloom and tint of purity of a freshly blown rose. In ten days you can be the subject of the wild admiration of all your friends, no matter what your age or condition of health.

So, this minute, send me your name and address on the free coupon, or postal or letter, and by return mail I will write you full details in plain sealed envelope free. Decide **now** and **do it** for your own greater happiness.

~~~~~**FREE COUPON**~~~~~

# I Will Not Accept a Case, Regardless of Fee, Unless I Can Conscientiously Promise a Cure or Relief.

**I**F I agree to accept you as my patient, you may know that it is because, having studied your case carefully, I am confident that I can help you—if not with a permanent cure, at least with a permanent improvement. Of this my patients are always sure. I will treat them until they are satisfied.

## A WORD ABOUT MY METHOD OF TREATING

I want to lay stress on the fact that I treat all patients personally. All letters are opened by me personally and what my patients say to me in their letters is absolutely sacred. I reply individually to each patient. *My course is not in any sense of the word a simple course in Physical Culture. It is infinitely more. It is a scientific application of Natural Curative Methods of Treatment to the individual needs and requirements of every patient placing himself or herself in my care for professional treatment and attention.*

## DO NOT BE SATISFIED

with a method or with a course of treatment that can only give relief from your suffering or that can only temporarily benefit you. I do not consider any cure a real cure unless it is of a permanent character. Determine to seek out a course of treatment that gives a reasonable assurance of a **PERMANENT CURE**. Seek the personal attention of a physician in whom you can have implicit confidence.

## INVESTIGATE

thoroughly the course of treatment I am giving—the attention my patients receive and the results I am accomplishing before coming to any definite decision. If, after a thorough investigation, you are not convinced of the merits of my treatment and the sincerity of my claims, then I would not advise you to take my course and in fact I would prefer not to have your case. In so far as possible, I want an **unbroken record of PERMANENT CURES and satisfied patients.**

Cut or Tear Out This Coupon and mail Today.  
Do Not Neglect to Write in Name and Address.

Treatise on.....

## OFFER EXTRAORDINARY

I have ready for free distribution to those really interested eight page booklets on seventy different diseases. A number of these diseases are mentioned in list below. Owing to the great expense in preparing these booklets, I am able to send only a limited number to each inquirer. *Please designate by a cross, the TWO pamphlets in which you are most vitally interested.* These will be sent you by return mail together with a 32-page booklet on "Health Without Drugs," together with a diagnosis blank for you to fill out and return to me, in order that I may form an opinion as to what I can do for you and also give you an estimate on the cost of the course in your case. **ALL of the above is absolutely free and without any obligation on your part. Write to-day! Now!**

Anyone living in or near New York may have a personal consultation relative to my course of treatment, without any charge. Phone Morningside 1882 for an appointment.

# DEAFNESS

Perfect hearing is now being restored in every condition of deafness or defective hearing from causes such as Catarrhal Deafness, Relaxed or Sunkn Drums, Thickened Drums, Roaring and Hissing Sounds, Perforated, Wholly or Partially Destroyed Drums, Discharge from Ears, etc.

## Wilson Common-Sense Ear Drums

"Little Wireless Phones for the Ears" require no medicine but effectively replace what is lacking or defective in the natural ear drums. They are simple devices, which the wearer easily fits into the ears, where they are invisible. Soft, safe and comfortable.

Write today for our 168 page FREE book on DEAFNESS, giving you full particulars and testimonials.

WILSON EAR DRUM CO., Incorporated  
706 Inter-Southern Bldg.

LOUISVILLE, KY.

## Don't Suffer With Painful Varicose Veins

They can be reduced and the pain relieved by applying Absorbine, Jr.,. It has effected remarkable results for others and should do the same for you.

## Absorbine Jr.

THE ANTISEPTIC LINIMENT

is an antiseptic liniment that is healing, cooling and soothing—it stimulates the natural processes so that a freer circulation through the veins results. It is made of herbs and is non-poisonous.

Mr. R. C. Kellogg, Becket, Mass., before using Absorbine, Jr., suffered intensely with painful and inflamed veins—they were swollen and knotted. He writes: "After using one and one-half bottles of Absorbine, Jr., the veins were reduced, inflammation and pain gone, and I have had no recurrence of the trouble during the past six years."

Send for Varicose Vein Circular  
Absorbine, Jr., \$1.00 a bottle at most druggists or postpaid.

## A LIBERAL TRIAL BOTTLE

will be mailed to your address on receipt of 10c. in stamps.

W. F. YOUNG, P. D. F.,  
137 Temple St., Springfield, Mass.

# FRECKLES

## Don't Hide Them With a Veil; Remove Them With The Othine Prescription

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by druggists under an absolute guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

**Othine can be bought by the ounce from any druggist.**

## Thomas E. Sheerin Trees MADE DANSVILLE FAMOUS

For years we have been selling direct from our Nursery to the planter at 50% to 100% less than prices charged by "Tree Agents." We have built up a wonderful business and saved our Patrons thousands of dollars. Our success is due to the fact that we give every order our personal attention and make this our motto.

### **"EVERY PATRON A SATISFIED CUSTOMER"**

This means everything to us. We never allow a man to feel dissatisfied if we know it. We treat all alike, the little orders receiving the same careful attention as the big ones.

*Leighton, Carbon Co., Pa., Nov. 13, 1914.*

Dear Sir—I have received my first box of trees from you. They are the finest I have ever planted and I have planted some. I have 4200 trees growing. Will need about 1400 more in the Spring. Yours truly, H. A. Graver.

*Seattle, Washington, 9766 Waters Ave., May 12, 1915.*

Dear Sir—Received apple trees the 10th inst. in fine condition. Accept my thanks and well wishes for your liberal and pleasing manner of doing business. Should I need anything in the future in your line I will remember you. Yours respectfully, Wm. M. Morris.

These are samples of hundreds of unsolicited letters that we receive every year. You cannot afford to take chances with agents and dealers.

### **OUR BROAD GUARANTEE PROTECTS YOU**

and covers every shipment we make. Place your name on our mailing list to-day by sending us a postal card. We will immediately send you our handsome book with full information, and describing our fruit trees, small fruits, roses, shrubs and ornamentals.

## Sent FREE

## LAW

### Course on Approval

There is only one way for you to realize how the La Salle Extension University home-study law course has revolutionized the study of law—that is to let us send you **EXPRESS PREPAID** all the books, introductory lectures, regular lesson assignments, instructor's lesson talks, including the **FULL SET OF 14 VOLUMES OF "AMERICAN LAW AND PROCEDURE"** for free examination. You are not asked to risk a penny or obligate yourself in any way. We want you to see how easy it is for you to

**STUDY LAW AT HOME UNDER EXPERT GUIDANCE**

and receive a training in law like that given by the leading resident Universities, without loss of time from your present occupation.

We guarantee to coach free, until successful, any student failing to pass a bar examination. We have not on record a single instance of a La Salle graduate who took a bar examination and failed. We are authorized under the laws of the State of Illinois to confer on our graduates the degree of Bachelor of Laws—LL.B.

**TEXT PREPARED BY LEGAL EXPERTS**

Such men as James Parker Hall, Dean of the University of Chicago Law School; James De Witt Andrews, former member of Faculty, Northwestern University, author of "Andrews' American Law"; other noted authorities and professors in such colleges as Harvard, Leland Stanford, University of California, University of Michigan, University of Wisconsin, Tulane University, America's foremost legal talent—Hon. John F. Dillon, Jurist; Hon. R. A. Pryor, former Justice N. Y. Supreme Court; Hon. Theo. F. Burton, U. S. Senator from Ohio, and others equally prominent.

**NO EXTRA CHARGE FOR LAW LIBRARY**

The fourteen full legal-size volumes, bound in ¾ sheep, are furnished students without extra cost. Our library has been adopted in whole or in part for class rooms or libraries of more than twenty law schools.

**SPECIAL COURSE for BUSINESS MEN FREE—COMPLETE COURSE IN PUBLIC SPEAKING**

Prepared by Dr. Frederick B. Robinson, A. M., A. B. Ph. D., Professor of Public Speaking at College of City of New York. You may for a short time secure this course without extra cost in connection with law course.

**YOU RUN NO RISK**

If you enroll, your entire tuition fee will be refunded if you are not satisfied upon completion of the course. Mail postal NOW, for full particulars.

**La Salle Extension University**  
 Dept. G-955, Chicago, Ill.

46 Cortlandt St., N. Y.

## FISHERMEN!

This is the wonderful new bait that has taken the country by storm. The wobbling, wiggling, laboring motion of "Jim Dandy" hypnotizes fish and captivates fishermen.

No other bait like it. America's best fishermen swear by it. It gets the fish. Because it labors through the water like a crippled minnow, fish grab it—that's the secret.

Money back absolutely if you don't think it is worth more than you paid for it.

Write for "Jim Dandy" to-day. Mailed anywhere 75c.

WISE SPORTSMAN'S SUPPLY CO.

Dept. Z, 20 W. Jackson Blvd., Chicago, Ill.

## POMONA TREES 10c EACH

Everything needed to beautify your home and garden at one price. Ten Cents Each, direct from nursery to planter.

FRUIT TREES, SHRUBS, ROSES AND VINES

Sold under a positive guarantee to be strictly first class, true to name, and if not satisfactory money will be refunded. Do Not Buy until you write for our free illustrated catalogue.

POMONA NURSERIES, INC.

NOTHING OVER TEN CENTS

85 Granger Ave.

DANVILLE, N. Y.

All the Wobble, Dip  
and Dive of a Live  
Minnow in Action.

## RUSH'S TANGO MINNOW

The new and liveliest bait that floats—gets them all; ideal for trolling or casting; appeals to amateurs or professionals. Hooks being behind body of bait make it practically a weedless bait. Floats when not in use—can't catch on bottom. Made of wood, enameled and finished in brilliant colors; our "RADIANT" bait "glows at night."

If your dealer can't supply you, send us his name and 75c for sample, or \$3 for complete set of four assorted brilliant colors.

Write for detailed and full information about the catches made with this wonderful bait—and send 75c for sample, being sure to mention your dealer's name.

**DEALERS**—Tackle dealers everywhere are pronouncing this bait the best ever; this is the time to stock it; write to-day for our special proposition.

# Successful Egg Farming 200 Eggs a Year Per Hen HOW TO GET THEM

**T**HE eighth edition of the book, "200 Eggs a Year Per Hen," is now ready. Revised, enlarged, and in part rewritten, 96 pages. Contains among other things the method of feeding by which Mr. S. D. Fox, of Wolfboro, N. H., won the prize of \$100 in gold offered by the manufacturers of a well-known poultry food for the best egg record during the winter months. Simple as a, b, c—and yet it will start hens to laying earlier and to induce them to lay more eggs than any other method under the sun. The book also contains a recipe for egg making food used by Mr. Fox, which brought him in one winter day 68 eggs from 72 hens; and for five days in succession from the same flock 64 eggs a day. Mr. E. F. Chamberlain, of Wolfboro, N. H., says: "By following the methods outlined in your book I obtained 1,496 eggs from 91 R. I. Reds in the month of January, 1902." From 14 pullets picked at random out of a farmer's flock the author got 2,999 eggs in one year—an average of over 214 eggs apiece. It has been my ambition in writing "200 Eggs a Year Per Hen" to make it the standard book on egg production and profits in poultry. Tells all there is to know, and tells it in a plain common-sense way.

You can get this book with a year's subscription to the **AMERICAN POULTRY ADVOCATE**, both for 75 cents; two years' subscription and book for \$1.00, or given free as a premium for two yearly subscriptions at 50 cents each. Book alone for 50 cents.

Our paper is handsomely illustrated, 44 to 124 pages, 50 cents per year. 3 months' trial, 10c. Sample Free. CATALOGUE of poultry books free.

# HYPNOTISM

Would you like to exert a strange and powerful influence over others? Do you desire to possess an accomplishment by which you can make both fun and money? One that would virtually open to you the gate to health, prosperity and happiness? If so, you should learn Hypnotism. You may now master this wonderful, mysterious and fascinating science at your own home. By a few hours' study you may learn all about the secrets, methods, uses and wonders of the hypnotic trance. You can surprise and mystify your friends by placing others under this weird and magic spell, and compel them to see, think, feel and act precisely as you wish. You may sway the minds of others, perform wonderful and astounding feats, and create fun and amusement for hours at a time. You may do a hundred amazing things that other people cannot do, and make yourself the most popular person in your community. If you want to **make money** you may do so by giving entertainments, treating diseases or teaching the art to others. These are three practical and easy ways to make money. In spite of these noble uses and in spite of its mysterious powers, Hypnotism is an easy and most simple art to learn. It calls for no special training or education. It imposes no long or perplexing study. Whoever knows enough to read may learn it. You may master all these powers yourself and wield the subtle forces of mind as well as any operator in the land. You may treat the sick, relieve pain, overcome bad habits, give sleep to the rest less and comfort to the sorrowing. And for yourself, you may win promotion, social and business standing, and the influence or friendship you most desire. Investigate **now!** It costs nothing to find out about it. Simply write for my free Descriptive Literature, Genuine Testimonials and full particulars. Don't send any money, not even a stamp, but send your name and address **To-Day** and learn how you may gain health, prosperity and happiness. Address:

**M. D. BETTS, Sta. 620**

**Jackson, Michigan**

# Music Lessons in Your Own Home

**New Way Easy for Anyone.  
Special Free Tuition Offer.  
All You Pay for Is the Music,  
Averaging 12½c Weekly.**

A wonderful offer to every lover of music, whether a beginner or an advanced player.

Ninety-six lessons (or a less number if you desire) for either Piano, Organ, Violin, Guitar, Banjo, Cornet, Sight Singing, Mandolin or 'Cello will be given free to make our home study courses for these instruments known in

your locality. You will get one lesson weekly, and your only expense during the time you take the lessons will be the cost of postage and the music you use. Write at once. It will mean much to you to get our free booklet. It will place you under no obligation whatever to us if you never write again. You and your friends should

know of this work. Hundreds of our pupils write: "Wish I had known of your school before." "Have learned more in one term in my home with your weekly lessons than in three terms with private teachers and at a great deal less expense." "Everything is so thorough and complete." "The lessons are marvels of simplicity, and my 11-year old boy has not had the least trouble to learn." One minister writes: "As each succeeding lesson comes I am more and more fully persuaded I made no mistake in becoming your pupil."

Established 1898—have thousands of pupils from seven years of age to seventy.

Don't say you cannot learn music, but send for our free booklet and tuition offer. Mail this coupon or write a letter. It will be sent by return mail free. Address U. S. School of Music, 227 Fifth Avenue, New York City.

**Tear Along This Line and Mail To-day.**

# SAVE \$50 A YEAR ON WASHING EXPENSE AND THE LABOR OF IT AS WELL

Reduce the washing time two hours a week, 104 hours a year. Save the clothes you are now rubbing to pieces on the board and the time you now lose mending the clothes destroyed by the board. Rubbing means wear, and wear means waste—waste of time, fabric, and priceless human energy.

## "EASY" WASHER

Saves the waste and keeps right on doing it for the rest of life. Does such service mean anything to you and your family? Can you afford to do without a machine that will do such work? The "EASY" comes in three models—hand, gasoline and water power.

Model B "EASY"  
Vacuum Hand  
Power Washer.

Why not have a washer that meets all requirements; made of rust-proof metal; indestructible, clean and sanitary; no wooden parts to soak up and retain impurities from dirty suds?

Torrents of soapy water are forced through the fabric, removing every impurity by the harmless air pressure and vacuum principle.

Ask for more information about hand, belt power and water power washers and special offer to 1916 World Almanac readers.

Model F "EASY"  
Vacuum Belt Power  
Washer.

To be operated from  
gasoline engine or  
line shaft.

# THE MAN WHO KNOWS TRAFFIC

**Easily Earns \$50 to \$100  
Weekly**

**The Traffic Field Is Calling  
for Trained Men. The  
Demand Is Increasing  
Each Year.**

The railroads are the arteries of commerce. Modern commerce is absolutely dependent on Transportation—TRAFFIC. It makes or breaks. Ignorance of classifications and correct routings permits profits to slip away. Shippers are realizing this more each day. They are eager for trained traffic men who can prevent such losses. Right now many thousands of high-salaried, efficient traffic men are needed. And there is no fixed salary limit. YOU will be paid what you are worth. Thousands of Traffic Managers receive \$50 to \$100 weekly. Many a great deal more. It is no longer difficult to gain Traffic Knowledge. You can have the active cooperation of many of America's noted Traffic Experts. They will help you, guide you—TEACH YOU.

## American Commerce Association

This is an organization of Traffic Men by Traffic Men for Traffic Men to promote American Commerce, Export and Import Trade. Our methods are thorough and practical. The work is fascinating. It is really easy to learn—easy to become an efficient traffic man. **AND YOU CAN STUDY DURING YOUR SPARE HOURS IN THE EVENINGS.** In a short time you can acquire the same valuable knowledge gained by numerous traffic experts only after a lifetime of hard work and tedious study. Traffic Knowledge, so easily gained in so short a time, will become your permanent asset—YOU can always "cash" it. It is Your Big Opportunity. Investigate! Let us tell you all the facts.

### Endorsed By Traffic Authorities

Mr. A. T. Waterfall, Traffic Commissioner, Detroit, Mich.: "You are to be congratulated on this splendid and important work." Mr. C. C. McCain, Chairman of the Trunk Line Committee, representing fourteen Eastern railroads, says: "The American Commerce Association has provided a training service which appears to be the broadest, most complete tariff rate and traffic training yet devised." Mr. H. G. Wilson, President of The National Industrial Traffic League, writes: "Your Association is better equipped to advance the efficiency of traffic men than any other."

## NEW ATLAS FOR EVERYBODY

A collection of Maps does not make an Atlas. Geography information must be so organized that the reader is enabled to VISUALIZE the data with the least time and energy.

CRICKS' COMPLETE ATLAS OF THE WORLD is a handy, compact volume, containing 193 pages of up-to-date maps. Each map is printed in five and six colors, showing county lines accurately defined, and all railroads, latest geographical changes and additions are incorporated in these plates. The Maps are 8½x10½ inches (each map two pages), plates divided to make a convenient sized book 7x10 inches.

Besides a map of each State in the United States and its possessions, all Provinces of Canada and of every other country of the world, it contains a helpful Alphabetical Index for locating places.

An invaluable aid for the library. A handsome gift to your friends, with their individual names stamped in gold (without extra charge); carriage paid to any point in the World. \$1.50 in Cloth; \$2.00 in Leather.

Mr. King  
rose from  
Newsboy  
to Meter  
Engineer

# YOU are needed NOW AS METER ENGINEER

Get the Big Job. Earn the big salary. Get into the new profession where high salaried positions are seeking the men. Train yourself to fill one of these Big Jobs. There is one or more in every Electric Light Plant. We have trained hundreds of others and placed them in Big Jobs.

## EARN \$1,200 to \$3,000 a YEAR

Just a few short months at home during spare time. You learn while you earn. Course is interesting, concise, thorough. You learn all about meters and instruments. Step into an Electric Plant as Meter Engineer at a salary of \$1,200 to \$3,000 a year.

### Mr. King's Rise to Meter Engineer

His experience is no different from hundreds of our students. He wanted the Big Job and trained for it. He has a fine position—at a big salary. His training makes him indispensable to his employer. His job is sure the year round.

**FREE—Full Information—Use Coupon.** Get the School Literature, story of Mr. King's rise, terms, testimony from students and graduates, outline of course, duties of Meter Engineer—all absolutely free.

**FORT WAYNE CORRESPONDENCE SCHOOL**  
Dept. 1127 Ft. Wayne, Indiana

## Money Back Guarantee

We guarantee to furnish complete course in Electrical Meter Engineering and train you until qualified to accept a position paying \$75 to \$300 a month. We also guarantee to assist you in securing a high grade position. If, after receiving all supplies and instructions and fulfilling all your agreements you are not perfectly satisfied, we will refund your full tuition.

# 95000

Positions Like This  
Are Waiting For  
Trained Men At  
\$1800 to \$4000  
a Year

TRAFFIC  
MANAGER  
PRIVATE

Get into this big, new, well-paid profession, where the job seeks the man. Work is pleasant, interesting and profitable. Your work is directing others. Your position is sure and safe.

## Trained Traffic Men Needed Everywhere

There are 500,000 shippers in the United States. 100,000 of them are big enough to employ Traffic Managers. There are 8,000 to 5,000 Traffic Managers in the country. That leaves 95,000 shippers without Traffic Managers. A man they need; a trained man who can save them money.

**UNLIMITED DEMAND.** Thousands of shippers are coming to realize their need of an expert, trained Traffic Manager. But the supply of trained men doesn't begin to meet the demand. Ask any shipper you know if the trained Traffic Manager isn't one of the most important and best paid men in the shipper's service. To become a successful, highly paid Traffic Manager, three things are essential: A common school education, intelligence and training.

**SPECIAL TALENT UNNECESSARY.** Thousands upon thousands of men in America are in the wrong job. Few men can be contented in a job that doesn't pay well or offer a good chance for steady and sure advancement. This is the day when far sighted, ambitious men climb out of ruts and seek opportunities where the going is good.

## SALARIES, \$1,800 to \$4,000 and Up.

When you have mastered tariff and freight rates, you can land in a job paying at least \$1,800. If you get with a big firm, your services will save them lots of money, then you can earn as high as \$10,000 a year.

### Send for new book—It's FREE.

There's no technical knowledge to learn. No hard study—just learn to get traffic facts from the Interstate Commerce Reports and published transportation rates. Our Free Book on Traffic tells all about it, explains clearly and concisely. Don't waste this opportunity to enter this new profession. Use the coupon right NOW—you'll never regret it.

## THE MAN OR WOMAN OF STRONG PERSONALITY

### WINS SUCCESS TO-DAY

**MONEY—POSITION—LOVE—HONOR—**  
and everything else worth while. There  
are big opportunities for ambitious men  
and women with

## Personal Magnetism

Be one of the men who dominate and control  
the business world. Any man or woman can in-  
fluence the judgment and consent of another if  
they possess Personal Magnetism. By its aid  
humblest individuals have risen to heights of  
power and success. In the brute age the strong-  
er were victors. In the present era there is but  
one infallible weapon of advancement—Personal  
Magnetism. It is capable of accomplishing any-  
thing that is possible—the best friend of man  
and woman, and their best defense. You can  
easily develop a

### Strong Magnetic Personality

Prof. Dumont has discovered a new method of  
the development of Personal Magnetism. The  
results are instantaneous and the power increases  
constantly. Magnetism is not hypnotism. The  
latter deadens the faculties, the former gives  
them life and energy. Magnetism doubles your  
power—inspires, thrills, enthuses.  
Each individual is endowed with Personal Mag-  
netism but few know it. Men and women that  
have been failures, are soon changed after  
studying this course into a

**firm determination to win.**

It will give you better control  
over yourself. Better control over  
others. Show you how to unmask  
the unscrupulous, and learn their  
real traits. Personal Magnetism  
is the subtle, irresistible, fasci-  
nating power that attracts one  
mind to another. It rules the  
world and gives you great ad-  
vantage over others.

These Remarkable Instructions, bound in  
cloth volumes, 222 pages, \$1.10. Money  
refunded if not satisfactory, or Write for

Dept. 954, Federal Life Bldg., Chicago.

# Free Life Readings to All Who Write at Once

The well-known European Astrologer,  
Prof. Roxroy, has once more decided to  
favor the people of this country with  
Free Test Readings of their lives from  
his office in Holland.

Prof. Roxroy's fame is so well known  
in this country that he hardly needs an  
introduction from us. His power to read  
the lives of people, no matter at what  
distance they may be, is described as  
simply marvellous.

In August,  
1913, he clearly  
predicted the  
Great War, and  
informed all his  
clients that "a  
bereavement in  
Royal circles  
will affect most  
of the crowned  
heads of  
Europe". Even  
Astrologers of  
various nation-  
alities and  
reputation all  
over the world  
acknowledge  
him to be their  
master, and  
follow in his  
footsteps. He tells you what you are capa-  
ble of, and how you can be successful. He  
mentions your friends and enemies, and de-  
scribes the good and bad periods in your life.  
His description as to past, present and  
future events will astonish and help you.

Baroness Blanquet, one of the most tal-  
ented ladies of Paris, says:  
"I thank you for my Complete Life Read-  
ing, which is really of extraordinary accu-  
racy. I had already consulted several  
Astrologers, but never before have I been  
answered with so much truth, or received  
such complete satisfaction. With sincere  
pleasure I will recommend you and make  
your marvellous science known to my  
friends and acquaintances."

If you want to take advantage of this  
special offer and obtain a review of your life,  
mention the name of this Almanac and get  
a Trial Reading free. Money not necessary.  
Simply send your full name and address  
(written by yourself), the date, month, year  
and place of your birth, and state whether  
Mr., Mrs., or Miss.

If you wish you may enclose 10 cents (in  
stamps of your own country) to pay postage  
and clerical work. Do not enclose coins in  
your letter. Send your letter to **ROXROY,**  
Dept. 2764, No. 24, Grootse Markt, The  
Hague, Holland. Postage to Holland, 5  
cents.

# NO MORE SUPERFLUOUS HAIR

**HOW TO KILL AND PERMANENTLY DISSOLVE OUT ROOTS AND ALL.**

Reader offers to send free everything required to prepare and use at home the simple new absorption process by which she avoided danger and pain of the cruel electric needle. Why prescriptions, appliances, acids, lotions and similar remedies should be avoided.

To the readers of The World Almanac:

At a medical conference held in Paris just prior to the war numerous eminent physicians cited cases which prove beyond doubt that since the discovery of a new and simple absorption process superfluous hair has become as unnecessary as it is repulsive. It was also explained how electrical processes always stimulate hair growth, how pulling with tweezers, and how acids, caustic pastes and other worthless remedies only affect surface hair, which soon grows again.

Then the distinguished physicians told how anyone can now prepare and use at home a simple liquid which

immediately creeps down through hair shaft (just as oil creeps up a lamp wick), dissolving hair as the liquid is absorbed. Thus the entire hair structure from socket to root and papillae may be dissolved out of existence so there is nothing to killed the roots of her superfluous hair by a grow again, simple home absorption process, after The liquid electric needle, acids, pastes, etc., had all acts only failed, upon the hair and is harmless to the most delicate skin and tissues, as a test will quickly prove; but the liquid must not be allowed to touch desirable hair, as I know of no way to restore life to roots thus destroyed.

When I see daily so many women with perfect features who would be radiantly beautiful were it not for hideous growths of ugly hair upon lips and chin, I always wish I could tell them how easily they could recover their natural heritage of delicate feminine charm and attractiveness.

I shall, therefore, be only too happy to send literature in regard to the preparation and use of the marvelous liquid explained at the conference which it was my privilege to attend. If any woman reader of the World Almanac cares to try this liquid, she need merely send her name and address, plainly written (postage to England is only 2 cents), together with 4 cents for return postage. I shall be pleased to send in plain, sealed wrapping, and without charge of any kind, a liberal supply of the ingredients of the liquid referred to above, together with full directions for use. Women readers can then use the new process in the strict privacy of their own boudoirs. Have correspondence as brief as possible, and do not write to thank me after hair is destroyed, as my time is greatly limited. I can agree to answer but one person in each family, and correspondence will be considered confidential.

Alma Randall (Suite 101), 197 Regent Street, London, W., England. (There is, of course, no interruption to regular mail service between this country and England.)

# FREE

## THIS INSPIRING BOOK FREE

This intensely interesting and instructive 165-page book tells you of the great and increasing demand for lawyers and how you can become one. It tells you why law trained men are now selected for most positions of responsibility in business, public life and social work—and how you can grasp these opportunities.

It shows you how you can become law trained in spare time at home by a method which is endorsed by distinguished men, throughout the country, in whose opinion you have the utmost confidence.

### MODERN AMERICAN LAW COURSE AND SERVICE OF BLACKSTONE INSTITUTE

Blackstone Institute, including The Sprague Correspondence School of Law, has successfully trained more than thirty thousand men and women in law. Among our graduates are the Governor of a State, United States Senators and Congressmen, State, County and City Officials, many Judges and **thousands of successful Lawyers and business men everywhere**. This notable record extending over more than twenty-five years is the most convincing evidence that we **produce results**—and it is results that count.

Chief Justice Ladd of the Supreme Court of Iowa says:

"Every person interested in the law will receive from Blackstone Institute an unusually excellent—in fact, the best, non-resident system of instruction."

The Course has been prepared **especially for home study** by eighty eminent judges and other authorities. It is clearly written in simple, non-technical language, easy to read and understand. Preliminary education is not necessary. You will benefit from the day you start.

### Special Offer, Investigate FREE

Our Course and Service will prepare you for the bar examination and for the practice of law, or to become a leader in business or public life. Special offer now being made to ambitious men. Investigate at once by sending postcard or letter, or clipping the coupon for our

165-page free book and full particulars.  
No cost or obligation.

# Make your Motor Clear itself of Carbon

When there is carbon in your motor you don't need any argument as to the advisability or the necessity of getting rid of it. The only question is how best to accomplish the desired end.

## Cleans by Live Steam

Carbon cannot be dissolved, only loosened. Live steam, which acts the same as an oil solvent, is the best agency for loosening carbon—which, when loosened and the motor started, is blown out through the exhaust pipe. The Hart-Bell Carbon Remover is the simplest device ever conceived for introducing live steam into the firing chamber of a motor.

## How It Works

The Hart-Bell Carbon Remover is a device permanently installed between the outlet water pipe and the intake manifold. When the water heats up with the motor running a turn of the valve admits a fine spray of water vapor, which is sucked down through the copper tube into the intake, where it is mixed with the inrushing gas. The water vapor is instantly converted into superheated steam by the ignition in the cylinder. This steam loosens the carbon while the motor is running so that in five or ten minutes the carbon is blown out through the exhaust pipe. You can remove the carbon as often as you like. The operation is extremely simple and is absolutely without any harm to the motor.

## You Can Install It Yourself

There is nothing complicated about installing this device on your car. When you order, if you will tell us the name of car which you are going to put it on and the type of carburetor with which the car is equipped, we will give you explicit directions for installing.

## Representatives Wanted

Good territory  
and big profits for  
live men.

## Guarantee

The Hart-Bell Carbon Remover Company, of New York, hereby guarantees that the Hart-Bell Carbon Remover will do all that is claimed for it, and if found unsatisfactory the full purchase price will be refunded upon return of same to agent from whom purchased.

## Thousands In Use

Thousands already in use and every user a booster. The cost of the device represents what it now costs you to have the carbon removed once in a garage, and the Hart-Bell on your car means the end of your carbon troubles forever.

## NO MORE BUSTLESS WOMEN

How to create 8 oz. to 1 lb. of firm, healthy flesh upon bust, neck, arms, or shoulders in four weeks.

To introduce latest scientific triumph in this country, complete instructions will be sent to 1,000 readers of the World Almanac.

Dr. Colonnay, the distinguished physician of the Faculty of Medicine, Paris, has at last made public the secret of his latest discovery. All readers of the French medical publications and journals devoted to feminine interests are now familiar with the astonishing results of his unique experiment upon 200 ladies, ranging from 16 to 60 years of age, some of them in the most weakly and anæmic state of health, and all absolutely lacking in bust development. Within five days the rapid growth of new flesh was noticeable in all cases. In three to six weeks busts that were flabby, sagging and almost non-existent had developed from five to eight inches by actual measurement. Convincing statistical evidence shows that in 46 per cent. of the cases patients were compelled to stop treatment within four weeks on account of threatened over-development.

Dr. Colonnay was the first to discover that various medicines, nostrums, prescriptions, dieting, apparatus, appliances, greasy creams, massage and other expensive advertised methods always fail because they overlook the basic fact that the mammary glands of the bust are the only organs which lie idle the greater part of a woman's lifetime. Hence, they can never be developed like muscles.

A full description of just how this triumph of modern science causes new, firm and healthy tissue to be created at will, and just why its stimulating action is exerted only upon the bust, neck, shoulders or arms, but never upon abdomen, hips, or other parts of the body would require more space than is available for this special article, but arrangements have just been made whereby readers of the World Almanac are enabled to obtain all necessary particulars by promptly using coupon below. There is no charge for this, but if convenient, two 2-cent stamps may be enclosed for return postage.

**IMPORTANT NOTE**—Readers are particularly cautioned not to use this new method where more flesh is not desired, as the enlargement when once produced is absolutely permanent, and cannot be reduced afterward. It is usually advisable to stop treatment about three days before bust attains the exact size and firmness desired, as the stimulating effect may continue for two or three days, but never longer.

### FREE COUPON

## DON'T STAY FAT

Let Us Show You FREE How to  
Be Reduced to Normal Weight

**50c. BOX FREE**

### This Shows the Effect of Adipo Treatment

To prove that ADIPO, a pleasant, harmless Obesity Treatment, will take fat off any part of the **50c. BOX FREE**

body, we will send a Adipo requires to any one who is too fat. Adipo requires no exercising or dieting, nor does it interfere with your usual habits. Rheumatism, Asthma, Kidney and Heart troubles, that so often come with Obesity, improve as you reduce.

### ADIPO REDUCED THESE

Prove at Our Expense—ADIPO

#### Should Do the Same for You

Miss Laura A. Fouch, McConnellsville, Ohio, says: "Since taking your ADIPO treatment my health has been fine, better than it has been in years. Three years ago I was fat and miserable and could hardly get around; your treatment took off 84 pounds, and the reduction has been permanent."

Mrs. Susan Minton, Lake Park, Ga., says: "Your ADIPO treatment reduced me from 225 to 120 pounds and my general health is now better than ever. Before taking it I could hardly walk any distance, but now I can run and get around as when a child. It has been several years since I took the treatment, and the reduction has been permanent."

Mr. John McGowan, Memramcook, N. B., Canada, says: "I believe I would be in my grave to-day but for ADIPO treatment. It took off 105 pounds of fat for me and I am feeling fine."

Mrs. E. E. Dunkle, Stockton, Iowa, says: "Your treatment reduced me most satisfactorily, and since taking it I have been entirely free from Rheumatism that used to trouble me so."

**Let us prove it at our expense.** Write to-day for the **FREE 50c. BOX** and illustrated book. And enclose 10c to help pay distribution expenses. Address ADIPO CO., 2384 Ashland Bld'g, New York City.

# Send for Our Manual 15 of Wireless Telegraphy

You should have it even if only superficially interested. Around about you every day you read of some marvelous occurrence in which wireless played a distinguished part. It may not be entirely clear to you. The Manual will explain it. To the student of Wireless Telegraphy, the Manual contains much that is indispensable to a proper understanding of the art. A good portion of this is now published for the first time—and consists of formulas, tables, diagrams, Federal regulations, codes, diagrammatic instruction for installing, maintaining and operating wireless stations, together with a complete list of up-to-date wireless instruments and accessories.

The Manual contains 120 pages, fully illustrated on high-grade paper stock with a two-color cover. We ask ten cents (\$.10) for it—give you a coupon receipt which can be applied on any order amounting to One Dollar (\$1.00) or more.

Do not wait until some other time, but sit down now and send your name and address and get one of the most complete, comprehensive and reliable wireless pamphlets published.

## Send for Our New Catalog E28

It is pocket size, 8x4½ inches, contains 248 pages, with over 1,100 illustrations, and describes in plain, clear language all about Bells, Push Buttons, Batteries, Telephone and Telegraph Material, Electric Toys, Burglar and Fire Alarm Contrivances, Electric Call Bells, Electric Alarm Clocks, Medical Batteries, Motor Boat Horns, Electrically Heated Apparatus, Battery Connectors, Switches, Battery Gauges, Wireless Telegraph Instruments, Ignition Supplies, etc.

There exist a thousand and one ways where electrical devices may be used, and to know what is best for your purpose you need this catalog. We make no charge for this catalog.

### IT MEANS MONEY SAVED TO YOU

to have our Manual and our Catalog when you want to buy.

# The Secret of Fast Typewriting

New Method enables any one to write 80 to 100 words a minute without mistakes. It's all in the FINGERS.

## Doubles and Trebles Salaries

Now, for the first time, has an idea been discovered which puts speed—great speed and accuracy—within the reach of every typewriter user. Almost overnight it has revolutionized the whole typewriting situation.

Stenographers who formerly never exceeded 30 to 40 words a minute are writing 80 to 100 words with less effort and with infinitely greater accuracy than ever before. And their salaries have jumped from a meagre \$8 to \$15 per week to \$30, \$40 and even \$50.

## Trained Fingers—The New Way

European music teachers, when training their pupils for the piano, invariably give special gymnastic finger exercises. This is because untrained fingers are not skilful fingers. The best results cannot be obtained—the fingers simply cannot be used correctly—unless the student develops and strengthens the proper finger muscles.

This training is even more essential to expert typewriting. The reason that so few people can write more than 30 to 40 words a minute is because their fingers are not flexible or nimble enough. This new, easy method overcomes this at once—develops finger strength and flexibility by exercises away from the machine—trains the fingers beforehand for their work on the machine—and the results border on the miraculous.

## Valuable Book Free

We have prepared a book which tells all about the wonderful gymnastic finger exercises and explains the course in complete detail, which is free to those interested.

No instruction book ever written, no matter what its cost, ever told so plainly the real WHY and HOW of expert typewriting. If you are ambitious to get ahead—if you want to make your work easier—if you want to put more money in your pay envelope—get this book at once. It will be a revelation to you as to the speed and salary that are possible to typists. Tear off the coupon now before you turn the page.

**100 WORDS A MINUTE**  
Formerly I never exceeded 50 words a minute, but since taking up the Tulloss Method have written as high as 100.

R. S. MARTIN, Noval Bros., Law Office, Seward, Neb.

### DOUBLED SALARY

Am now Chief Clerk to the Dept. of Parks. Salary is exactly double what it was when I took up the study of the Tulloss Method.  
ANNA S. COUBISON, 109 Hoerner St., Harrisburg, Pa.

### SALARY INCREASED 40%—THEN 20%

Since writing the letter you saw, telling of a 40% increase, I have had another increase of 20%.  
O. E. VERRALL, care Martin & Hall, Architects, Providence, R. I.

### \$70 MONTHLY TO \$150

From \$70 a month when I took up the study, I was soon drawing \$150—salary more than

doubled. A. H. GARDINER, 429 Hawthorne Place, Madison, Wis.  
Gentlemen:—Please send me your free book about the New Way in Typewriting. This incurs no obligation on my part.

# The Secret of Achievement— 'POWER OF WILL'

By Frank Channing Haddock, Ph. D., M. S.

## Partial List of Contents

The Law of Great Thinking.  
The Four Factors on which it depends.  
How to develop analytical power.  
How to think "all around" any subject.  
How to throw the mind into deliberate, controlled, productive thinking.  
Detailed directions for Perfect Mind Concentration.  
How to acquire the power of Consecutive Thinking, Reasoning, Analysis.  
How to acquire the skill of Creative Writing.  
How to guard against errors in Thought.  
How to drive from the mind all unwelcome thoughts.  
How to follow any line of thought with keen, concentrated Power.  
How to develop Reasoning Power.  
How to handle the mind in Creative Thinking.  
The secret of Building Mind Power.  
How the Will is made to act.  
How to test your Will.  
How a Strong Will is Master of Body.  
What creates Human Power.  
The Six Principles of Will Training.  
Definite Methods for developing Will.  
The NINETY-NINE METHODS of using Will Power in the Conduct of Life.  
Seven Principles of drill in Mental, Physical, Personal Power.  
FIFTY-ONE MAXIMS for Applied Power of Perception, Memory, Imagination, Self Analysis, Control.  
How to concentrate the eye on what is before you—object, person, printed page, work, Etc., Etc., Etc.

This great work provides a thorough course in Will Training, consisting of 28 lessons. It reveals the secrets as to how great men train their wills into wonderful power.

All scientists will testify that great men are not born with more gifts than others. They simply make something of their gifts, and others do not. They learn how to use their wills. We, on the contrary, allow the great powers we possess to LIE DORMANT.

## How to Develop Inflexible Will

It has long been known that the Will can be trained into wonderful power—like memory, or like any one of the senses—by intelligent exercise and use. The trouble with almost every one is that they do not use their wills. They carry out other people's wills, or drift along with circumstances.

If you held your arm in a sling for two years the muscles would become powerless to lift a feather. That is exactly what happens, in most people, to the faculty we call "will power." Because we never use the Will, we finally become unable to use it. We degenerate into beings little more than slaves—unhappy, discontented, envious, hoping blindly that "some day"—without any effort—we will attain what we most want in life.

## Helps Everybody

"Power of Will" provides the shake-up that ninety-nine out of every hundred people need. Men like Judge Ben R. Lindsey, Supreme Court Justice Parker, Wu Ting Fang, Ex-U. S. Chinese Ambassador, Lieutenant-Governor McKelvie of Nebraska, General Manager Christeson of Wells-Fargo Express Co., Assistant Postmaster General Britt, E. St. Elmo Lewis, Vice-Pres. Art Metals Cons. Co., and literally thousands of other men of action and ambition like them—read, use and praise "Power of Will."

## Send No Money

## Examine Book First

The price of this book—although it is really a complete course in Will Training—is only \$3.00. The publishers will gladly send a copy free, for five days' inspection. Send no money now. Merely write on your letterhead, (or enclose your business card or give a reference) saying "Send me Power of Will on approval. I agree to remit \$3.00 or return the book in five days." Then, if you decide to keep the book, send the money. If not, mail the book back.

**PELTON PUB. CO.**  
8 Lewis Bldg., Meriden, Conn.

## What Readers Say

"I hand you \$3 in payment; from what I have already seen I believe I can get \$300 to \$30,000 worth of good out of it. Better still, I believe it worth more than money in any amount."—C. D. Van Vechten, General Agent No. West Life Ins. Co., Cedar Rapids, Iowa.

"Will power is a compilation of mighty force. My first week's benefit in dollars is \$900.00—cost \$3.00; profit \$897.00."—J. W. Heistand, 916 Tribune Bldg., Chicago.

"In my judgment 'Power of Will' is wonderful."—Owen J. McCaughey, Sec'y of Corp. Securities Co., St. Louis, Mo.

"The first thing I happened upon when I opened this book was 'Some Diseases of the Imagination,' and I tell you that chapter alone is worth ten times the price of the book. I wish such a volume had come into my possession 25 years ago."—Thos. O'Connor, 270 Precita Ave., San Francisco, Cal.

"You could not buy it for one hundred times the amount I paid for it, if I knew I could not get another copy."—R. E. Seay, Pascagoula, Miss.

"He who reads it and puts forth effort will soon find himself out of the common herd."—F. A. Good, President of Nebraska Lumber Dealers' Assn., Coles, Neb.

"Here is \$3 for you. 'Power of Will' received. It is the book I have wished for years."—J. L. Seawall, Clerk of Supreme Court, State of North Carolina, Raleigh, N. C.

# A REMARKABLE OFFER OF HENDERSON'S SPECIALTIES

Henderson's Invincible Asters  
Mammoth Butterfly Pansies  
Spencer & Eckford Mixed Sweet Peas

Ponderosa Tomato  
Big Boston Lettuce  
Scarlet Globe Radish

*To demonstrate the superiority of Henderson's Tested Seeds, we have made up six of the best we have into a Henderson Collection, consisting of one packet each of these great specialties.*

To obtain for our annual catalogue, "**Everything for the Garden,**" described below, the largest possible distribution, we make the following unusual offer: To every one who will mail us ten cents, mentioning this publication, we will mail the catalogue and also send our Henderson Specialty Collection as above.

## Every Empty Envelope Counts as Cash

This collection is enclosed in a coupon envelope, which, when emptied and returned, will be accepted as 25c. cash payment on any order of one dollar or over, and we send full cultural directions, together with our new "Garden Plans."

## "Everything for the Garden,"

our 1916 catalogue, is without exception the best we have ever issued; 206 pages, 14 colored plates, over 1,000 photo engravings, showing actual results with-

out exaggeration, make it the most complete as well as beautiful horticultural publication of the year.

# Learn Electricity

**Earn \$100.00 to  
\$250.00 a Month**

Thousands of trained men are needed in this great unlimited field of **Electricity**. We can train you for one of these big jobs that are **now open**, paying \$100.00 a month and up. Experts in their particular field by personal instruction teach you in a surprisingly short time. Not by correspondence or books, but under actual working conditions in our big shops. Tools and material furnished **FREE**.

## **COYNE NATIONAL TRADE SCHOOLS MEN WANTED FOR THESE TRADES**

**Electricity, Plumbing, Bricklaying,  
Motion Picture Operating, Mechanical Drawing**

We teach all these big paying trades by thorough practical methods and they are demanding more and more trained men **everywhere** to fill the big paying positions. As soon as you finish your course you can go right out and get a job paying \$6.00 to \$8.00 a day or go into business for yourself and make from \$3,000.00 to \$7,500.00 a year. Our School is open all the year. You can enter at any time. Day and evening sessions. The ages of our students range from 15 to 50 years. Many earn a part or all of their expenses while learning. We assist you in doing this. Drawing, Estimating and Plan Reading included in all courses. We assist our graduates to positions.

**THOUSANDS OF SUCCESSFUL GRADUATES  
LEARN IN SHORT TIME AT SMALL EXPENSE  
EASY PAYMENTS**

In order to supply these trades with trained men we are charging a small tuition fee and this can be made by easy payments if desired. Re-member we furnish all equipment and tools **FREE**. All instruction is individual under the personal guidance of expert instructors of long experience in their particular fields. This enables a man to master his trade thoroughly and quickly.

### **Send Postal for Big Free Book**

Let us tell you how you can master one of these big trades in a short time—make a bigger success than you ever dreamed of making. Mail the postal—now.

**B. W. COOKE, Manager, Coyne National Trade Schools,  
46 E. Illinois Street, Chicago, Ill.**

If you live in or near Chicago come over and go through our schools and see our students at work and how thoroughly they are taught.

CLVI

#### **FREE TOOLS**

We will furnish all the material and tools you use in taking our course — **ABSOLUTELY FREE**. All we charge is a very small amount for tuition. Many of our students earn their expenses while taking the course.

# LEARN to BE a Draftsman

Send a Postal and See What It Means

Are you ambitious for big things, for big earnings, for independence? Then write to me and I will show you what Draftsmanship holds out to you. Yes, I will prove, entirely at my expense, that I can qualify you right in your own home, in your spare time, for all the things that are at the command of the Draftsman.

## MY SPECIAL TUITION OFFER!

Don't let the lack of ready money stand between you and this opportunity. I offer you my personal instruction on such small easy payments that you will scarcely miss the money. For prompt enrollment I am making an EXTRA SPECIAL OFFER of a FREE \$25.00 tuition credit. I am the only expert Draftsman giving his personal instructions on such small payments.

## A Big Salary—A Real Future

Look at the want ads of our metropolitan newspapers. See what a great number of Draftsmen are needed in comparison with any other profession. The marvellous growth of modern industries and the market building activity all over the country have created a bigger

demand than ever before for the Draftsman. Big positions paying \$2,400 a year and more—positions that will put you in line for the place of Chief Draftsman, Chief Engineer or Superintendent constantly opening. Give me a few minutes regularly of your spare time for a few months and I will put you into a field of real opportunity. Keep your present position and earn while you learn.

## \$17.50 Draftsman's Outfit FREE

This magnificent set of Draftsman's Drawing Instruments, valued at \$17.50—the same as I used goes to you absolutely free if you act at once. This in addition to the free \$25.00 tuition credit. But you must act promptly. A post-card brings you particulars—also copy of the most valuable book ever published on Draftsmanship. Act now. Strike while the iron is hot.

# A NEW and WONDERFUL Disinfecting-Germ-Killing White Paint NOTHING TO EQUAL IT For

Lofts                      Factories  
Cellars                    Tenements  
Chicken Coops  
Dairy Buildings  
Stables, Barns, Pens, Etc.

CARBOLA is a most powerful safe Disinfectant, Deodorizer and Germicide. It is a pure white mineral paint—not a Kalsomine, not a White-wash. It contains powerful, germ-killing disinfectant elements many times stronger than carbolic acid, yet absolutely non-poisonous and safe. It is prepared under the rigid regulations of State Boards of Health and U. S. Department of Agriculture. It is clean-smelling, fairly breathes health—you cannot fail to recognize these facts.

CARBOLA not only paints but disinfects everything it paints—exterminates vermin and parasites, prevents epidemics of contagious diseases, and makes property wholesome and sanitary.

## FOR THE SAKE OF YOUR POULTRY and LIVESTOCK

keep your coops, roosts, stables, barns, cellars, pens, etc., clean and sanitary. Drive away lice, mites, ticks, bugs and other parasites and vermin that pester your stock to death. Keep away germs of roup, white diarrhoea, cholera, mange, foot-and-mouth disease and other fatal epidemics. Give your stock a fair chance and they will bring "good returns."

CARBOLA is highly endorsed—We want you to know about it—Write for FREE SAMPLE and literature.

YOU are interested in everything that makes for the health of man, fowl and beast and here is your opportunity to obtain a supply of CARBOLA which insures this. We GUARANTEE it. 10 pounds, \$1.00—20 pounds, \$2.00—50 pounds, \$4.00. Special price on larger quantities. Every pound makes ONE GALLON of fine white paint. We DELIVER and prepay carriage charges on all orders for 20 pounds or over. Here is where you get efficient health insurance and a good white paint combined, at 10 cents a gallon.

# "Yes, It's a Steinway"

**I**SN'T there supreme satisfaction in being able to say that of the piano in your home? Would you have the same feeling about any other piano? "It's a Steinway." Nothing more need be said. Everybody knows you have chosen wisely; you have given to your home the very best that money can buy. You will never even think of changing this piano for any other. As the years go by the words "It's a Steinway" will mean more and more to you, and thousands of times, as you continue to enjoy through life the companionship of that noble instrument, absolutely without a peer, you will say to yourself: "How glad I am I paid the few extra dollars and got a Steinway!"

# Never mind how STRONG You are What d'ye KNOW?

—That's the point—"What d'ye KNOW?" Today it's a battle of wits—and *brains win*. Muscle and brawn don't count so much as they used to.

The great question nowadays is "What d'ye KNOW?"—it draws the line between defeat and victory—between "wages" and "salary"—between *you* and the *Boss*.

What do *YOU* know? Are *YOU* so expert that you can "make good" as a foreman, superintendent, or manager? If not, the International Correspondence Schools can show you how you *CAN*.

For more than 21 years the I.C.S. have been showing men how to do better work and earn bigger salaries. They can do the same for *YOU*. No matter where you live, what hours you work, or how limited your education—if you can read and write—the I.C.S. can train you for a more important and better-paying position.

Mark and mail the attached coupon—it won't obligate you in the least—and the I.C.S. will show you how you can acquire this salary-raising ability in your *own home*, during your *spare time*, by their simple and easy methods.

It will cost you *nothing* to investigate—it *may* cost a lifetime of remorse if you don't.

**Mark the Coupon NOW**

# National Wholesale Liquor Dealers' Association of America

*President*—Samuel J. Wolner, Jr., Peoria, Ill.

*First Vice-President*—Geo. C. Dempsey, Boston, Mass.

*Second Vice-President*—Charles H. Hermann, Chicago, Ill.

*Treasurer*—Edwin V. Dougherty, Philadelphia, Pa.

*Secretary*—Joseph Debar, Cincinnati, Ohio.

*General Counsel*—Levi Cooke, Washington, D. C.

*Manager Publicity Department*—Clinton Wunder, Cincinnati, Ohio.

*Executive Committee*—Geo. F. Dieterle, Chairman, A. J. Sunstein, Morris

F. Westheimer, W. E. Hull, Jos. A. Strasser, E. M. Babbitt, Thos. C. Dennehy.

The National Headquarters of the Association are at No. 301 United Bank Building, Cincinnati, Ohio.

The United States Statistical Abstracts for 1913 classifies revenue to the Government from wine and distilled spirits (*i. e.* whiskey, etc.) as follows:

The total internal revenue and custom receipts  
from alcoholic beverages amounted to.....\$248,980,000

This amount is over one-third of the normal in-  
come of the U. S. Government.

Customs Revenue from wine for 1913..... \$6,284,000

Customs Revenue from distilled spirits for 1913.... 10,470,000

Total..... \$16,754,000

Internal Revenue other than license duties from  
distilled spirits.....\$158,069,000

The following increase in the consumption of distilled spirits and wines is shown by statistics from the Report of the Commissioner of Internal Revenue:

| Year      | Distilled Spirits Consumption<br>(total proof gallons) | Wine Consumption<br>(total gallons) |
|-----------|--------------------------------------------------------|-------------------------------------|
| 1850..... | 51,833,473.....                                        | 6,316,371                           |
| 1913..... | 147,745,628.....                                       | 55,327,461                          |

Despite the fact that 18 States are now listed in the "dry" column, this condition when analyzed does not contain the significance which the Anti-Saloon League would attribute to it.

The total population, as represented by the 18 "dry" States, is 25,828,613. The total population of the remaining States that are licensed is 66,163,653.

From 1850 to 1890, 16 States adopted Prohibition laws, and after unsuccessful trials, repudiated those laws.

In the early part of 1915, a number of States, through their Legislatures, refused to adopt State-wide Prohibition. Among these were Wyoming, New Hampshire, Minnesota, Florida and Michigan. Also, in the Fall of 1914, Ohio, Texas and California by large majorities rejected an amendment providing for State-wide Prohibition.

Those States which have tried and repudiated Prohibition and those States which have rejected Prohibition proposals represent the commonwealths which have passed the fledgling stage and which stand among the majority of the States of greatest progressiveness and wisdom. These States doubtless will continue to repudiate the statutory prohibition as a means of temperance. Those States which stand for Prohibition are either in the chrysalis stage, or are moribund; however, after they have passed the formative period of their civic growth or after they have been aroused from the torpor into which they have lapsed, they will doubtless join the other States which are really making the country and repudiate Prohibition.

*Note:* Requests for literature and information will receive prompt attention, if addressed to the PUBLICITY DEPARTMENT of this Association.

# Short Talk on American Wines

WHY OUR PEOPLE SHOULD DRINK GOOD, WHOLESOME WINES, THE  
SAME AS PEOPLE DO IN EUROPE, DAILY WITH THEIR MEALS.

By J. RANDOLPH WILSON, M. D.

My advice on the use of wine is not new. It is over 1900 years old. It is the same advice that the Apostle Paul gave to Timothy:

"Use a little wine for thy stomach's sake and thine often infirmities."

Here is the whole lesson in a nutshell. Use wine first for your stomach's sake—that is, use wine to aid and promote good digestion. Then use wine for your infirmities—that is, use wine as a tonic.

**WHAT IS WINE?** After all, it is mostly water sweetened with sugar, which may or may not have been wholly fermented, contains fruit acids, and certain substances which give what are called the flavor and bouquet.

Take a bottle of wine, say claret, have it analyzed, and what do you find? You will find that 88 to 90 per cent. is water; 9 or 10 per cent of alcohol, which came from the sugar in the grapes; the rest are fruit acids and valuable mineral elements called by the chemist 'salts.' The vegetable acid makes wine taste sour, unless the wine is a sweet wine containing sugar. The principal acid is tartaric, and it is interesting to note that all our cream of tartar comes from the deposit of this acid in the casks during the maturing of the wine.

**WINE—AS A FOOD**—The different elements of wine have a food value. The water is a food element, and so is the sugar and alcohol, the latter by its oxidation. As Dr. W. Hale White of London has said in his "Materia Medica", a liter (about a quart) of wine of average strength produces by its oxidation about as much heat as five or six tablespoonfuls of olive oil. The acids or salts are most necessary and valuable because they go to nourish the blood and tissues of the body.

**WINE—AS AN AID TO DIGESTION**—The natural combination of acids, sugar, mineral salts and water that is found in wine aids digestion, because it stimulates the appetite and furnishes the food elements in a dilute and most pleasing and palatable form.

**WINE—AS A TONIC**—As a natural tonic wine can not be surpassed. It is better than any artificial combination or any patent medicine.

"From earliest childhood," says Dr. Starke, a German authority, "to the most advanced years there is hardly a period of life in which wine is not ordered, with the best results. Only there is this difference: that in childhood alcohol is given purely as a medicine, while in adult life it is used partly as such and partly as a dietetic agent."

Those who feel "tired out" will find a glass of wine, taken with a biscuit, a splendid invigorator. The best way to keep strong is by taking a little wine every day with your meals. Good red wines, owing to their moderate proportion of tannin, and relative richness in iron, phosphates, and phosphoric acid, act as a tonic and are not too stimulating unless taken in excess. Those who are "run down" and debilitated will find strength in a wine glass of sherry beaten with an egg.

---

If you would like to know more about our good American wines, write for the following booklets: "The Food Value of Wines," by Prof. E. H. Twight; "The One Best Drink-Wine," by Rev. R. D. Sawyer; "How to Use Wines," by L. J. Vance. They will be sent free by addressing the AMERICAN WINE GROWERS' ASSOCIATION, 304 Broadway, New York.

# NERVOUS DEBILITY

Every reader of this almanac who is under a nervous strain lacks NERVE FORCE, POWER and ENERGY, and particularly those who are subject to WEAKNESS and EXCESSIVE DRAINS on the NERVOUS SYSTEM, should not fail to send to Winchester & Co., the Pioneer Manufacturers of Hypophosphite Preparations (Est. 58 years), 994 Beekman Building, New York, for their free literature on NERVOUSNESS.

"I know of no remedy in whole Materia Medica equal to your Specific Pill in Nervous Debility."—Adolph Behre, M. D., Professor of Organic Chemistry, N. Y.

"For Neurasthenia the Hypophosphites are our mainstays."—Dr. J. G. Roberts, Philadelphia, Pa.

"I do not think that there is a more honest remedy for Nervous Debility than your Specific Pills."—B. R., Princeton, Ill.

## (No C. O. D. or Treatment Scheme)

Price \$1.00 per Box or Bottle (Sent prepaid in the U. S.)

For Neurasthenia, Defective Nutrition, Weak Lungs,

Try Winchester's Hypophosphites of Lime and Soda.

For Liver and Kidney Complaints Try Winchester's Manganese.

# Why Drag Through Life Wearing Worthless Trusses?

90% of the Suffering and Trouble Ruptured People Go Through Is Caused By Spring and Leg-Strap Trusses

Aren't you sick and tired of wearing trusses you can't make hold, which you can't feel safe in or which hurt so they scarcely give you a minute's peace?

Don't you know that such contraptions will sooner or later let your rupture get the best of you?

Don't you know they are almost sure to cripple you up, so you won't be able to keep at work, won't be able to make a living?

Aren't you afraid they'll gradually let you get so bad that sooner or later you'll have to face a dangerous operation?

Aren't you willing to make a sixty-day test—without having to risk a cent—and see for yourself what a relief it is to get rid of such misery-causing makeshifts?

## No More Belts, Leg-Straps or Springs

We have found a way to hold any man's rupture without harmful pressure, without any belts or spring around your waist without having to wear leg-straps.

It is our **guaranteed rupture holder**.

It is as big an improvement over elastic and spring trusses and so-called "appliances" as the modern locomotive is over the first steam engine ever built.

## 60 Days' Trial to Prove It

We have so much faith in it—have seen what it has done for so many others—that we are willing to make one especially for your case and send it to you for sixty days' trial. Willing to give you plenty of time to see for yourself just how good it is.

If it can't be made to keep your rupture from coming out you can send it back and it won't cost you a single penny.

It is the only thing we know of for rupture that you can get on long enough trial to make sure; because the only thing good enough to stand a long and thorough test.

## All About It in Free Book

Don't send any money. Just write for our free book—cloth bound. 20. separate

articles. 104 pages—and find out everything you want to know. It is full of facts never before put in print.

It shows just why operation is nearly always a gamble and why those who manage to live through it often have to keep on wearing a truss.

It exposes the fakes and humbugs—puts you on guard against being fooled and against throwing money away.

And it tells all about our guaranteed rupture holder—the famous Cluthe. Shows how simple it is. Why it needs no belt or leg-straps. How it instantly and automatically protects you against every strain, so your rupture can't be forced out. How it provides the only way ever discovered for overcoming the weakness which is the real cause of rupture. How it has brought complete cure in thousands of cases that seemed almost hopeless. How it is water-proof and will hold in the bath. How you can get it on 60 days' trial and how little it costs if you keep it.

Explains the care and attention we give you and why, because of our long experience and thorough knowledge of rupture we are successful in cases that would utterly baffle your local truss fitters.

Write for the book to-day. That will take only a minute. But it may free you from trouble and worry for the rest of your life.

OCURRENCES DURING PRINTING.

Some months are occupied in printing a volume so bulky as The World Almanac, and it is necessarily put to press in parts or "forms." Changes are in the mean time occurring. Advantage is taken of the going to press of the last form of the First Edition to insert information of the latest possible date, which is done below. The readers of the Almanac are requested to observe these additions, corrections and changes, and it would be well to make note of them on the pages indicated.

472. U. S. Ministers Abroad—Henry P. Fletcher appointed to Mexico.
421. Rear-Admirals—Rear-Admiral Henry Manney died.
110. Parcel Post—The parcel post from United States to Germany discontinued.
191. Wireless—Wireless conversation took place between Arlington, Va., and Paris; heard at same time in Honolulu, Oct. 22.
446. China—Yuan Shih Kai became Emperor.
237. Compensation Laws—Massachusetts security of payments. Benefits under the Compensation act are furnished by insurers under the supervision of the Industrial Accident Board, all companies being required to maintain reserves in accordance with the law of the Commonwealth.
137. Philippine Commission—General Clinton L. Riggs resigned.
400. Relative Rank, Army—Munroe, John E., Oct. 29, ordinary department; Morse, Henry L., Oct. 29, ordinary department, with the rank of Major.
655. Events—President Wilson and Mrs. Galt married, Dec. 18. Haig became leader of the British forces in France.
440. Russian Navy—The pay of Russian Admirals is \$8,300 to \$10,145; Vice-Admirals, \$7,865 to \$9,590.
459. Spanish Government—Count Alvaro de Romanones chosen by King Alfonso to form a new government.
475. Ambassadors in U. S.—Eliseo Arrendondo appointed Mexican Ambassador.
75. Facts About the Earth—China again became a monarchy.
448. Rulers of Nations—Yuan Shih Kai became Emperor of China.
675. Population of States by 1915 Census—New York, 9,692,254; New Jersey, 2,844,342; Massachusetts, 3,647,822; Rhode Island, 595,986; Florida, 921,569; Wyoming, 141,705.
344. Cycling—New York, 6-day race, Dec. 6-11, 1915; Alfred Grenda, Australia, and Fred. Hill, Boston, won; 39 points; distance, 2,770 miles and 8 laps; a new record; second, R. McNamara and R. Spears; third, Magin and Lawrence tied with Thomas and Ryan. Lawn Tennis—Official ranking for season 1915, compiled by U. S. National Lawn Tennis Association, first ten: 1. W. W. Johnston, San Francisco; 2. R. N. Williams, 2d, Philadelphia; 3. M. E. McLoughlin, San Francisco; 4. Karl H. Behr, New York; 5. Theo. R. Pell, New York; 6. N. W. Niles, Boston; 7. C. J. Griffin, San Francisco; 8. W. M. Washburn, New York; 9. G. M. Church, New York; 10. W. M. Hall, New York. Boxing, Professional—Oct. 19, Boston, Charlie White defeated Johnny Harvey, 12 rounds, R. D.; N. Y. City, Frank Moran K. O. Jim Coffey, 3 rounds; Oct. 20, Denver, Col., Sam Langford defeated Jim Johnson, 15 rounds, R. D.; Oct. 23, Sydney, N. S. W., Les Darcy, Australia, defeated Jimmy Clabby, U. S., 20 rounds, R. D.; Oct. 26, New York City, Willie Ritchie and Johnny Dundee drew, 10 rounds, P. V.; Nov. 29, New York City, Jim Coffey knocked out Gunboat Smith, 4 rounds, Billiards—Oct. 22, New York City, Alfredo De Oro defeated George Slosson at three-cushion in a five nights' match by 250 to 206; Oct. 22, Boston, Mass., 14.1 balk line, Willie Hoppe defeated Koji Yamada in a three nights' match by 1,500 to 1,231; Dec. 4, Chicago, Ill., Alfredo De Oro defeated August Kieckhefer at three-cushion in a three nights' match by 150 to 93. Wrestling, Professional—Oct. 25, New York City, Alexander Aberg defeated Wladek Zbyszko in Greco-Roman match in 1 hour 4 minutes.

ANTIDOTES FOR POISONS.

**First.** Send for a physician.

**Second.** INDUCE VOMITING, by tickling throat with feather or finger. Drink hot water or strong mustard and water. Swallow sweet oil or whites of eggs.

*Acids are antidotes for alkalis, and vice versa.*

**Arsenic.** All the compounds of this substance are extremely poisonous, operate in the same manner, and require the same treatment.

**SYMPTOMS.** Burning pain in stomach, with sickness and faintness, violent vomiting and retching, great thirst, hoarseness, difficulty of speech, cramps in legs, feeble, rapid, and small pulse; cold, clammy sweats; countenance expressive of great torture and anxiety; tongue and mouth parched; delirium, coma, and finally death.

**ANTIDOTES.** Evacuate the contents of the stomach by emetics (mustard is the best), give milk, farinaceous or slippery elm decoction both before and after vomiting has begun. The chemical antidote is the "hydrated sesquioxide of iron," readily prepared by adding ammonia water to the common tincture of iron—both of which are found in every drug store; of the precipitate thrown down on mixing these teaspoonful doses in water may be freely given. An insoluble and therefore inert substance is formed with the arsenical compound.

**Opium** and its active principles, Morphine, Codeine, Narcotine, etc.

**SYMPTOMS.** Giddiness, stupor, slow breathing, pupils contracted; the patient lies motionless and insensible. As the poisoning advances the features become ghastly, pulse feeble or imperceptible, and muscles relaxed.

**ANTIDOTES.** Emetics such as sulphate of zinc or mustard; stimulants such as ammonia, atropine hypodermically. The patient should be continually roused. Stomach pump should be used if solid opium has been taken but it is of little use when morphine or laudanum has been taken.

## MALES OF VOTING AGE IN CONTINENTAL UNITED STATES.

(Report of Census Bureau, based on 1910 Census.)

**NATIVE** white, 17,710,697; colored (persons of negro descent, Chinese, Japanese, and Indians), 2,641,637. For foreign-born white males of voting age, see separate table below.

## FOREIGN-BORN WHITE MALES OF VOTING AGE.

According to the last census, taken as of April 15, 1910, the number of foreign-born white males of voting age, that is, 21 and over, in the United States (not including Alaska, Hawaii, Porto Rico, or other outlying territory) was 6,646,817. Of this number, 3,034,117, or 45.6 per cent., were naturalized.

The following summary table shows the distribution of these foreign-born white males by divisions, with the number and percentage naturalized for each division:

| DIVISION.               | FOREIGN-BORN WHITE MALES, 21 YEARS OF AGE AND OVER. |                             |                  |                        |
|-------------------------|-----------------------------------------------------|-----------------------------|------------------|------------------------|
|                         | Total.                                              | Per Cent. in Each Division. | Naturalized.     | Per Cent. Naturalized. |
| United States*.....     | 6,646,817                                           | 100.0                       | 3,034,117        | 45.6                   |
| <b>The North.....</b>   | <b>5,511,869</b>                                    | <b>82.9</b>                 | <b>2,526,749</b> | <b>45.8</b>            |

| <b>The West.....</b>    | <b>766,035</b>                                      | <b>11.5</b>                 | <b>349,514</b>   | <b>45.6</b>            |
| Mountain.....           | 257,537                                             | 3.9                         | 113,670          | 44.1                   |
| Pacific.....            | 508,498                                             | 7.7                         | 235,844          | 46.4                   |

\* Exclusive of Alaska, Hawaii, Porto Rico, and all other outlying territory.

Approximately nine-tenths (89.4 per cent.) of the foreign-born white males of voting age were of European origin, 9.8 per cent. were natives of American countries other than the United States, and 0.8 per cent. were natives of other countries. Very nearly one-half (3,310,930) were natives of the countries grouped in the accompanying table under the heading "Northwest Europe," and of these approximately two-thirds (2,151,421, or 65 per cent.) were naturalized. Of the 2,631,458 natives of the countries comprising the southern and eastern divisions of Europe, taken together, 581,306, or 22.1 per cent., were naturalized. The countries of low percentages in the table are generally countries from which recent immigration has largely come, the lowness of the percentages being partially due to the fact that naturalization implies a minimum residence within the country of five years.

| PLACE OF BIRTH.              | FOREIGN-BORN WHITE MALES, 21 YEARS OF AGE AND OVER. |                |             | PLACE OF BIRTH.                             | FOREIGN-BORN WHITE MALES, 21 YEARS OF AGE AND OVER. |         |           |

## The World.

JOSEPH PULITZER.

April 10, 1847 + October 29, 1911.

DEVOTED to that great purpose, the cause of the people of the United States, to which Joseph Pulitzer dedicated it on May 10, 1883, THE WORLD found the year 1915 one of grave responsibility and made it one of memorable achievement. Probably never before has any newspaper been so well justified at the close of the year in congratulating itself—and there have been few years so troubled and so strenuous as was 1915, in which the National safety and National honor were many times in peril. It was largely through the efforts of THE WORLD that the public was enlightened as to those who were behind the widespread conspiracies on American soil in behalf of foreign belligerent Governments, endangering the peace and prosperity of the Nation.

In following its inspiring aim, THE WORLD in 1915 had to step far beyond the usual range of National politics. In defence of the safety and honor of the people it made its influence felt far beyond the borders of our own land. More than once during the year the press of the world admitted that the work done by this newspaper exceeded the greatest journalistic feats ever accomplished. More than once disclosures of National gravity, and international importance, made by THE WORLD astounded the peoples of all countries and dazed the persons concerned—for the matters exposed threatened our people with war. For weeks on end the press of the world was reprinting from this paper its exclusive revelations and watching for more as sensation succeeded sensation.

Probably the most vital disclosures made by THE WORLD in 1915 were those which revealed the extent and nature of the plots fostered in this country by agents of the German Government for the purpose of involving the United States in the great war. But still more immediately far-reaching in their consequences were those which speedily brought about the departure of the Austro-Hungarian Ambassador, Konstantin Theodor Dumba.

### WORLD EXPOSURES CAUSE RECALL OF AMBASSADOR DUMBA.

THE WORLD's disclosures as to the activities of Dr. Dumba were begun on September 5 in a special cable from London. They at once created a world-wide sensation. They showed that the Ambassador had sent to his chief in the Foreign Office at Vienna a studied detailed plan for the crippling of American factories engaged in the production of war munitions.

After a long campaign here against traffic in munitions, Austria-Hungary had made to the United States a formal protest against the sale of war supplies to the allies. Secretary Lansing replied that such purchases here were open to all the belligerents alike, so far as America was concerned, and that such traffic in munitions was not only legal under international law but was sanctioned by the general practice of nations, and, moreover, was vitally necessary to the National safety of peoples who did not maintain great defence establishments. Eight days after receiving Secretary Lansing's reply Dr. Dumba used James F. J. Archibald, an American war correspondent, travelling with a United States passport, as his secret messenger to Vienna with plans to cripple munition making here.

Archibald was temporarily detained by the British when his liner, the Rotterdam, put in at Falmouth, England. The whole of his papers were seized—unless there was truth in a story told at the time that some escaped by being thrown overboard by Archibald, who had them concealed in a gold-headed cane, presented to him as he sailed, by Count von Bernstorff, the German Ambassador, who, however, denied making any such gift. Copies of the seized papers were obtained by THE WORLD, which published a fac-simile of a grave letter in Dr. Dumba's own handwriting to Foreign Minister Burián in Vienna, asking him to reply by wireless authorizing the expenditure of a sum of money here to put munition plants out of commission. The letter contained a memorandum setting forth how the task was to be carried out, and said:

"I take this rare and safe opportunity of warmly recommending the proposals to Your Excellency's favorable consideration. We can disorganize and hold up for months, if not entirely prevent, the manufacture of munitions in Bethlehem and the Middle West, which in the opinion of the German Military Attaché is of great importance and amply outweighs the comparatively small expenditure of money involved."

Dr. Dumba made no attempt to deny writing and sending this astounding proposal, which was dated August 20, the day after the torpedoing of the White Star liner Arabic had brought this country near to a war crisis. Instead, he frankly admitted it to a WORLD correspondent at Lenox, Mass., the day of the publication of the disclosure of the letter. In an interview Dr. Dumba said:

"Yes, that was so. Count von Bernstorff and I dined with Archibald before he sailed and he was intrusted with secret and valuable papers. I fail to understand how he could have been so careless as to allow these despatches to fall into the hands of our enemies."

He further admitted that he had subsidized many foreign-language newspapers here in efforts to prevent men of races from Austro-Hungary from working in the munition factories, and defended his action, saying the money asked for was to be used only in calling out the men and providing them with other work. Four days later President Wilson demanded Ambassador Dumba's recall.

### LIFTS VEIL THAT COVERED WIDE AND GRAVE CONSPIRACY.

The amazement caused everywhere by THE WORLD's revelations as to Dr. Dumba's vicious enterprise—the full meaning of which everybody grasped at once and later saw borne out by startling circumstances and further disclosures—was the greater because up to this time the Ambassador had carried on his activities so inconspicuously that no one had even suspected him, though many other diplomats and other high officials were under strong suspicion. Many still believe that the plan, for which Dr. Dumba assumed full responsibility and which caused his fall, was worked out in detail, if indeed not actually originated, by Captain von Papen, the German Military Attaché.

In the interesting assortment of documents taken from Archibald by the British officials and published by THE WORLD other high German personages were involved. Among them were Count von Bernstorff, Captain von Papen, Dr. Heinrich F. Albert, German secret fiscal agent in New York, and Alexander Nuber von Pereked, the Austro-Hungarian Consul-General in New York. Curiously enough, some of these papers had a most important bearing upon other exposures which had only just been made by THE WORLD

and by the irony of fate brought confirmation of them in the most dramatic manner, though such confirmation was quite unnecessary.

For more than a year there had been deep suspicion throughout the country that German officials and gold were the sources from which the dangerous anti-American propaganda threatening the peace of the Nation, and also the inspiration of the many plots, rumors of which filled the air, to cut off the shipment of war supplies from the United States to the allies. But no proof was had until on August 15, *THE WORLD* began a series of disclosures which for the first time lifted the veil. There could be no disputing *THE WORLD's* revelations. They were based upon the actual correspondence of the representatives of the German Government and their agents, copies of which were printed by this newspaper in fac-simile. This correspondence revealed that the leading officials of the German Government had had a hand in the promotion of ventures directed, not alone at its belligerent enemies, but in some instances at the laws and peace of the United States as well; that the German propaganda had for its purpose the involving of the United States in the complications of the European war, and that the plans designed to accomplish that result were carefully and deliberately projected, efficiently organized, superbly executed and adequately financed.

One of the most surprising facts disclosed was that no less a personage than Herr von Bethmann-Hollweg, Chancellor of the German Empire, was himself participating from Berlin in some of the secret undertakings in this country.

#### HIGH GERMAN OFFICIALS INVOLVED IN PLOTS HERE.

The chief men higher up in the anti-American schemes revealed were:

THEOBALD T. F. A. VON BETHMANN-HOLLWEG, Chancellor of the German Empire and Minister of State for Foreign Affairs.

COUNT JOHANN VON BERNSTORFF, German Ambassador at Washington.

CAPTAIN FRANZ VON PAPEN, Military Attaché at the German Embassy.

DR. HEINRICH F. ALBERT, chief financial agent of the German Government in this country.

HUGO SCHMIDT, Western representative of the Deutsches Bank of Berlin.

HUGO SCHWEITZER, a German-American chemist.

S. SULZBERGER, banker, of Frankfurt, Germany.

HERR WAETZOLDT, trade representative of the German Government here.

The correspondence in possession of *THE WORLD* proved that the German agents here had formed elaborate schemes for the following purposes:

To control and influence the press of the United States by establishing newspapers and news services. One letter spoke of a secret option to obtain control of the American Press Association for \$900,000; but Courtland Smith, President of that concern, while admitting that he printed the German daily news bulletins sent out to influence the press, denied the option. Another spoke of attempts to purchase the New York *Evening Mail* before it was acquired by its present owners, who are headed by S. S. McClure. Others, by showing it received a monthly bonus from the German Government, solved the mystery of the support of the German propagandist organ, the *Fatherland*, edited by George Sylvester Viereck, who denied that his letter, inclosing an account calling for \$1,750 for June, meant what it said. In another Von Bethmann-Hollweg offered again to pay the expenses of a trip to Germany of an American writer, Edward Lyell Fox, because "his good despatches were of great benefit to us." The sole object in view in this campaign to noble the press was to foment internal discord among the American people for the advantage of the German Empire.

To publish books, to invade the Chautauqua Circuit, pay professional lecturers and finance moving picture exhibitions—all in order to Germanize public opinion here.

To organize strikes in munition plants—\$50,000 being mentioned as the sum for which one could be produced in factories at Detroit, Cleveland and Cincinnati.

To corner the supply here of liquid chlorine, used for poisonous gas, to prevent its getting to the allies.

To acquire the Wright Aeroplane Company and its patents and work them under German control.

To organize a movement to cut off the supply of cotton to England and make it appear that the movement was a genuine one on the part of the growers in the South.

To organize a movement to bring about an embargo on shipments of munitions. Among the names of Americans used in the letters, perhaps without consent, were those of Senator Albert J. Beveridge, Senator Gilbert M. Hitchcock, Congressman Gardner of Massachusetts and Hobson of Alabama, ex-Congressman Bartholdt of Missouri, Editor S. S. McClure, Artist Reuterdahl, Actor Burr MacIntosh, the Rev. Dr. Charles F. Aked of San Francisco and William Bayard Hale. An "Inner Organization" was, the letters said, to have the aid of Democratic Boss Roger C. Sullivan of Chicago, described as "a deadly enemy of Wilson."

The published correspondence also showed the following astonishing facts:

That while protesting against the shipment of arms to the allies, the Germans had secretly acquired a vast and costly munitions plant being built at Bridgeport, Ct., and were not only making munitions here, to get them to Germany if they could or send them to any part of the world where they might foment trouble for their enemies, but were making, under the American name of their company, contracts with the British and Russian Governments for munitions with no intention of delivering but to discredit legitimate American business and to hamper the allies.

That Hugo Schweitzer, German-American chemist, had secured for the German Government the transfer to himself of a contract, under which Thomas A. Edison was to furnish the American Oil and Supply Company of Newark, N. J., with 1,212,000 pounds of phenol valued at \$1,400,000—to shut off the supply going to the allies.

That Captain von Papen was in communication with certain labor leaders who offered to bring about strikes in munition and motor-car plants.

That Marcus Braun, editor of *Fair Play*, received a check for \$5,000 from Ambassador Bernstorff, with a letter of commendation, which he was asked not to publish.

That while encouraging protests to Washington by American dye and chemical users against the British blockade, Berlin was purposely holding up cargoes of dyes in order to accentuate indignation in this country against England.

That William Travers Jerome had written to Arthur von Briesen saying that in so "grave" a matter he would require a retaining fee of \$10,000 and a further \$10,000 for expenses, but the letter did not show what the "grave" matter was.

And though throughout the correspondence there was evidence of an extreme care in the outlay of money, showing that full value was wanted for every German mark spent on conspiracy in this country, it was estimated that the cost to Ambassador Bernstorff of the activities exposed could not have been less than \$2,000,000 a week.

#### "OTHER PAPERS PRAISE WORLD FOR GREATEST JOURNALISTIC 'SCOOP.'"

The press of the entire United States was unanimous in its praise of *THE WORLD* for its exclusive revelations. The *Star* of London, England, said the disclosures "undoubtedly formed the greatest 'scoop' in the history of journalism." Colonel Roosevelt said of them:

"*THE WORLD* has rendered a great public service by its exposure of the German-American intrigue. It is the most incisive arraignment that could be imagined."

It was while the Nation was ringing with surprise over the facts unveiled in this remarkable exposure

that Archibald's seizure made him the laughing stock of the country and furnished THE WORLD with new and still more startling sensations. For among the papers he carried, in addition to that which caused the recall of Ambassador Dumba, were several that referred to the disclosures in THE WORLD. One of these was a copy of a 3,000-word statement that Ambassador Bernstorff had sent to Secretary Lansing calling THE WORLD's exposures "inspired and romantic tales." Another was a letter from Captain von Papen to his wife with clippings from THE WORLD and saying:

"Our good friend Albert has been robbed of a thick portfolio of papers on the elevated road. English secret service men, of course, did it. Unfortunately, very important matters from my report are among the papers, such as the purchase of the liquid chlorine, the correspondence with the Bridgeport Projectile Company, as well as documents relating to the purchase of phenol, from which explosives are manufactured, and the acquisition of the Wright aeroplane patents. I send you also the reply of Albert in order that you may see how we protect ourselves. This was compounded last night in collaboration."

In this "compounded" reply, which was published in THE WORLD when given out during the run of the exposures, Dr. Albert explained his activities as "only to overcome the powerful propaganda carried on here by the press," said his Government would willingly buy, if it could, all the munition plants in the country to keep the product here, and as to the letters about strikes they were merely from cranks and were never answered.

Another communication in Archibald's care was a letter from Captain von Papen fated to become famous and to prove unpleasant for him. It contained a sentence with the expression "bloedsinnige Yankees." The official British translation, as published in THE WORLD, gave the sentence as, "I always say to these idiotic Yankees that they had better hold their tongues." Germans held that the word "bloedsinnige" more properly might be translated "absurd or nonsensical," but the dictionary gave it as "idiotic or imbecile."

In Archibald's budget also were three letters in a code which neither the British nor the State Department at Washington were able to decipher. Too, there was a report from Dr. Albert and Captain von Papen to the German War Office. This explained how it was THE WORLD exposures "happened." Eventually, but not until December, the three code letters led President Wilson to demand Captain von Papen's recall, together with that of Captain Karl Boy-Ed, the German Naval Attaché, who became involved in other plots and breaches of the law.

#### GERMANS OFFER \$1,000,000 FOR STRIKE AT DOCKS.

The Archibald and Albert sensations were still hot in the public mind when THE WORLD came out with another exposure, based on letters, telegrams, records of conversations and incidents occurring between May 7 and July 10. This showed that an offer of \$1,035,000 had been made by the German agents for a five weeks' strike of 23,000 longshore workers at Atlantic Coast ports. The plot, which was first mooted to the labor men by Matthew F. Cummings, a prosperous groceryman of Boston, who bore letters of indorsement from Professor von Mach of Harvard University, was only frustrated by the sterling brightness and patriotism of T. V. O'Connor, President of the International Longshoremen's Union, who was splendidly assisted by Paul Kelly, reformed gang leader, become leader of Longshoremen's Union No. 738, and Richard (Dick) Butler, Secretary of another local union, who headed off the strike until O'Connor could reach here from Vancouver.

One of the men consulted by Cummings was George Sylvester Viereck, editor of the *Fatherland*. The remarkable details given by THE WORLD, showing how the German and German-American conspirators had been trailed and listened to throughout the whole period of their plotting must have made many of them quake.

A few days later THE WORLD printed still another exposure. It announced this time that it had possession of documents which revealed a widespread campaign by the American Truth Society, of which Dr. Heinrich F. Albert and Hugo Schmidt were members, to prevent American bankers loaning money to the allies by arranging to put upon their banks and that the organization would enter the 1916 National campaign to defeat Wilson and Congressmen who would not vote for an embargo on shipments of munitions. The exposure in THE WORLD killed the first part of this programme. The other part is up to the American people.

#### WORLD DENOUNCES BRITISH CONTROL OF AMERICAN TRADE.

Within a week of the strike exposure THE WORLD, which had consistently denounced the British control of American trade, began the presentation of facts, again illuminated by documentary evidence, which revealed the far-reaching efforts on the part of the British Government to regulate and control trade between the United States and the rest of the world. It was shown that the "boycott" and "blacklist" had been resorted to and that every American manufacturer needing raw materials from a British possession before getting them had to sign guarantees that he would not ship any of the resulting goods to any foreign country, even South America, without the consent of London and assurance that none would be resold there to the enemies of Britain.

By these stringent regulations importers who refused to submit were put practically out of business and Americans with German affiliations were not permitted to obtain their necessary raw materials at all. The Department of Justice took up THE WORLD's charges with a view to ascertaining whether the American manufacturers who had consented to be controlled by Great Britain to the limitation of American trade had disregarded the restraint of trade clause in the anti-trust laws.

#### BIG WORLD EXCLUSIVES IN NEWS OF THE WAR.

In its news of the war THE WORLD can record many notable achievements during 1915. The Emperor William sent to THE WORLD his first public utterance after the outbreak of hostilities. The statement was obtained through Albert Ballin by Gustave C. Roeder, staff correspondent of this newspaper for twenty-seven years and a veteran of the United States Army. The Kaiser on March 26 said: "I did not want to have this awful war. My greatest desire has always been that I might be permitted to end my life without having to face a war on the part of Germany. I certainly have shown that in every act of mine in the twenty-six years of my reign; I have proved that I did not wish to bring on this or any other war."

"I feel that this war was brought on, not by Germany, but by those other nations that are fighting against us. But now that the war has come upon us, I feel it my duty to carry it through. And I am quite certain the war will end with Germany victorious. It will end well for Germany. I am in the field with my brave soldiers. Victory will be ours."

Albert, King of the Belgians, sent through THE WORLD on February 3 the following message to the American people:

"It is my pleasure and my duty to seize this opportunity to express my gratitude to the United States of America. With a generosity and a delicacy that have gone to my heart, American citizens have come to the assistance of my country, which the German invasion has plunged into untold misery by exorbitant levies out of all proportion to the means of the inhabitants."

"But for the brotherly help of the United States, famine would have spread like a plague through our devastated provinces. The people of Belgium, inured to suffering, will ever be grateful to the United States. To your eminent diplomats, who have served us with so great devotion amid circumstances of the utmost difficulty, and to all those who have so splendidly organized the feeding of our people, I wish to bear heartfelt tribute and to render public thanks. Once again the great American people, faithful to their century-old traditions, have undertaken a work of humanity and brotherly love and have reassured before the whole world their ideals of justice and of liberty."

ALBERT, King of the Belgians.

LATER THE WORLD obtained an exclusive interview with King Albert through its staff correspondent, Henry N. Hall, who wrote a description of conditions in conquered Belgium. The King told of Belgium's fight for honor and said, "To conquer Belgium entirely they must first pass over my dead body."

Throughout the year since he joined THE WORLD staff Karl H. von Wiegand has obtained a remarkable series of interviews. The most striking and important was that with Pope Benedict XV. It led to a heated European controversy. There were many denials that His Holiness had given the interview. Then it was said words had been inserted. But the Vatican ended the dispute by indorsing every word in the von Wiegand despatch.

In the interview the Pope sent a message and his blessings to the American people and expressed his urgent wish that all should work unceasingly for peace. The words which caused the heated controversy were in the suggestion that America should "avoid everything" that tended to prevent an early peace. German papers at once seized upon this as meaning that the United States should at once stop selling munitions to the allies.

THE WORLD made special efforts to have all the belligerents equally and adequately represented in its news and particularly to get the German side on every occasion because of the allegation by the Germans that news from Germany was not given. Von Wiegand made a record not only with news but with his special interviews from Germany. He enabled THE WORLD to give statements from the German Crown Prince, Admiral von Tirpitz, Count Zeppelin, General Friedrich von Bernhardt, Field Marshal von der Goltz, Lieutenant-Commander Mathy, Zeppelin pilot who raided London; Lieutenant Hansen, commander of the famous U-boat 16, and other notables in the war. He was the only correspondent who visited the German fleet and the only one permitted to go to the Austrian lines defending Goeritz.

Gustave C. Roeder, staff correspondent, was sent by THE WORLD to make a tour of Germany, and the situation of Germans at home was faithfully and sympathetically described. Mr. Roeder visited Krupps, interviewed Albert Ballin, the merchant marine prince, who is the Kaiser's closest friend, and also T. St. John Gaffney, United States Consul at Munich, whose remark about his "keen sense of humiliation as an American" started him on the way to the recall by President Wilson which followed complaints made later by Americans.

Ewan Justice was sent to England to learn at first hand for readers of THE WORLD how the British were meeting the war pressure. Lincoln Eyre wrote a series of articles to answer the question, "How about France?" Earl Harding described under the title "Canada at War" the splendid manner in which the Dominion rose to her duty and bore her sacrifices.

John E. Redmond, the Irish Nationalist leader, wrote for THE WORLD a special article to show that Ireland was proving her loyalty to the Empire.

Among the many other exclusive articles of note, General von Bernhardt summed up the first year of the war for THE WORLD. Count Ernst von Reventlow reviewed the year's activities of the German navy, and Arthur J. Balfour, First Lord of the British Admiralty, wrote an article in reply. Before he was head of the British navy Mr. Balfour in a letter told THE WORLD how Great Britain justified her blockade of Germany. Sir George Paish, the famous economist, wrote on "Finances and the War."

Count von Reventlow sent many despatches exclusively to THE WORLD, so also did General W. A. Soukhomlinoff, Adjutant to the Czar, and General Alexei Andreievitch Polivanoff, his successor as Russian Minister of War.

The exclusive special descriptive articles on the war published by THE WORLD in 1915 were too numerous to be recounted. Only a few can be singled out. At the head of them, both for interest of the subject matter and for the brilliant descriptive power with which it was set forth, was the series written by Ralph Pulitzer of his visit to the French, British, and Belgian lines. Mr. Pulitzer made a sensational trip over the trenches in an aeroplane, took lessons in hand grenade throwing and had several narrow escapes when under fire. Another series of unusual interest was formed by extracts from the diary of Captain Norman G. Thwaites, a former member of THE WORLD staff, who went through the battle of the Marne, and was wounded on the Aisne and was decorated by King George after his force had been annihilated while on scouting duty.

THE WORLD also obtained the first interview with George Gordon Moore of Detroit, Mich., the particular friend of General Sir John French, who declared that young Canadian officers had been crucified by the Germans.

Finally, through its war correspondent, E. Alexander Powell, THE WORLD obtained from the French Government the loan of official motion pictures of the fighting in France, taken by order of the great General Staff of the French Army for preservation in the National archives as part of the official record of the war, and exhibited them to the public throughout the country, enabling the people to see with their own eyes for the first time exactly what modern war is like. Part of the proceeds from the exhibition went to the funds of the French Red Cross Society.

#### SANTA CLAUS SHIP GAINS GRATEFUL THANKS.

Although the majority of the presents reached their recipients well in time for Christmas, the new year was nearly a month old before all the gifts sent on the Santa Claus ship by the children of the United States to the children of war stricken Europe had been distributed. Some of the gifts for children in Belgium also were late on account of the frontier regulations which compelled the opening of every package for the removal of all letters and Christmas messages they might contain. The year was old before touching letters, votes, and other expressions of thanks ceased to reach THE WORLD office.

#### VISIT OF FLEET DUE TO WORLD SUGGESTION.

Early in the year THE WORLD suggested that the efficiency of the United States Navy for the protection of the Nation's eastern seaboard be put to a practical test in a scheme of manoeuvres planned on a larger scale than had ever been attempted. The result was that on May 8 the largest aggregation of warships ever seen in the Hudson steamed into the river and after a ten days' stay was reviewed by President Wilson and sent out to hold a great war game, the outcome of which was taken as proof that an enemy could land a force on these shores and that the country needed a larger fleet with more scout ships and an equipment of seaplanes.

For bringing the fleet to the city THE WORLD was warmly praised by Mayor Mitchel, Acting-Mayor McAneny, Comptroller Prendergast, Corporation Counsel Frank L. Polk, and others. In a wireless despatch after the review, Secretary Daniels said, "THE WORLD's suggestion of this review, which has been a success beyond parallel, was gladly acted upon, and I am sure the entire country was pleased with the conception and its brilliant execution by the fleet under Admiral Fletcher."

Having been responsible for the idea of bringing the fleet to New York, THE WORLD did its best to make the visit a happy one for the sailors and useful to the rising generation, to whom the Navy will look for strength. All the men of the fleet were invited to a big smoker at Madison Square Garden, at which the best talent in vaudeville and pugilism entertained them, and plenty of the necessary was supplied for making smoke. THE WORLD also chartered the big steel excursion steamer Mandalay, and in five trips took 15,500 high school students from all parts of the city on a tour round the fleet and afterward presented six prizes for the best papers on "The lesson of the Fleet." On the day of the review a position was obtained for the Mandalay nearly opposite the President's yacht, the Mayflower, and 2,500 wives, mothers, sweethearts, and friends of officers and men were invited to see the ships pass by and to follow them and the loved ones out to the Narrows.

**WORLD INFLUENCE FELT AND PRAISED AT WASHINGTON.**

The Senate Lobby Committee investigated and sustained the charges made by THE WORLD that Colonel Martin M. Mulhall and the National Association of Manufacturers had for years maintained an insidious lobby in Washington. After making their report on the floor of the Senate, Senators Reed, Walsh, and Overman gave THE WORLD credit for starting the inquiry which had proved the existence of a vast organization, reaching to every part of the country and enjoying practically unlimited resources, for the purpose of influencing legislation in Congress.

THE WORLD's charges that the appointment of James Mark Sullivan, one of Bryan's "Deserving Democrats," as United States Minister to Santo Domingo was promoted by the Banco Nacional crowd of financiers so that they might traffic in contracts and concessions were supported in the report of Senator James D. Phelan, who investigated the scandal, and Mr. Sullivan retired.

Exposure by THE WORLD of Wall Street men's interest and the certainty that the money would go to them instead of to the tax-burdened people of Nicaragua prevented the ratification by the Senate of Bryan's agreement to pay that country \$3,000,000 for a route for a canal.

**NEW HAVEN DIRECTORS ON TRIAL FOR CONSPIRACY.**

The climax to THE WORLD's long and strenuous campaign to free New York and New England from the grip of the business methods of the New York, New Haven and Hartford Railroad Company came on February 26, 1915, when twelve present and former directors of the company were indicted on charges of conspiracy to monopolize the commerce of New England. The charges dated back to July 2, 1890, covering the entire life of the Sherman Anti-Trust law.

The directors indicted were William Rockefeller, Charles F. Brooker, Robert W. Taft, Lewis Cass Ledyard, Charles M. Pratt, D. Newton Barney, Frederick F. Brewster, Henry K. McHarg, James S. Hemingway, A. Heaton Robertson, Edward D. Robbins, and George MacCulloch Miller. They were placed on trial on October 13 last before Judge Hunt in the Criminal Branch of the United States District Court in New York City. All the defendants appeared except Mr. Miller, who was in his eighty-fourth year, and his poor health made it impossible for him to leave his home.

After the jury had been selected the defence filed a motion to dismiss the indictment on the ground that the acts cited did not constitute an illegal conspiracy or any other crime and on other technical points.

Charles S. Mellen, erstwhile President of the road, was the principal witness for the Government. Mr. Mellen told of the "cut-throat" competition that used to exist between the New York and New England road and the New Haven, and said that the latter hired him at a large salary to get him away from the former company and stop his "being a nuisance." No one dozed while Mr. Mellen disclosed how one by one sixty-five railroad and steamship lines were brought into a single system by the New Haven—and that system one exclusively their own.

Bit by bit the prosecution proceeded to lay bare the secret acts of the New Haven in establishing its alleged monopoly.

**WORLD FIGHT DEFEATS REACTIONARY NEW CONSTITUTION.**

Declaring the new Constitution for the State of New York "a miserable makeshift of compromises in which every principle was sacrificed in whole or part to special or selfish interests" and that "it overrides the fundamental principles of free government and shackles republican institutions," THE WORLD led the fight which resulted in the defeat of the proposed Constitution at the polls by a majority of more than 400,000.

Until THE WORLD began the fight against this Constitution the belief was general that it would be ratified at the polls. THE WORLD demonstrated that it was a rotten borough charter which deprived New York City of its equal rights in the State Government; that the short ballot was a makeshift; that the budget was hardly half a budget; that the Constitution was partisan; that none of the reforms promised had been carried out, and that the Constitution as a whole was a mass of technical legislation which would occupy the courts for twenty years. No other one thing contributed more to its overwhelming defeat than the attempt to make the Public Service Commissions constitutional officers and deprive the Legislature of the power to reorganize them. It was THE WORLD's campaign against the new Constitution which aroused public sentiment and brought about the unprecedented repudiation.

THE WORLD also headed a demand for home rule for New York City as the only solution for its financial and other difficulties.

**NO TRIFLING WITH PUBLIC SAFETY, SAYS WORLD.**

The accident in the New York subway at Broadway and Fifty-third Street on January 7, in which hundreds of passengers missed death only by a second, led THE WORLD to demand a "panic proof" subway with all-steel cars, independent lighting system for tube and trains and telephones for the guards, and the immediate dismissal of the existing Public Service Commission with the creation of a new one that could be trusted to deal with the traction situation. THE WORLD won out to the extent that the all-steel cars were ordered to be installed by December 1; but when that date came round there was, of course, a further delay—as there always has been in any transportation question handled by the Public Service Commission.

**REFORMING THE PUBLIC SERVICE COMMISSION.**

Investigating committees twice urged the dismissal of Chairman McCall of the Public Service Commission, who had successfully represented the corporations against the public welfare. Finally THE EVENING WORLD took up the fight in earnest and made such revelations before the Thompson Committee that, on December 6, Governor Whitman removed McCall from his position on the commission. The immediate cause was that the Chairman held 357 shares of stock of the Kings County Electric Light and Power Company.

His defence was that he had transferred this stock to his wife just before he was appointed to the commission. In his opinion Governor Whitman said there was no evidence before him of the transfer except the Commissioner's unsupported statement, and that while he had no desire to question the truth of Mr. McCall's statement he "did not believe that a transfer within the meaning of the law ever was made." Nine-teen other reasons for the dismissal of McCall were set out, but the Governor did not go into them.

**COMMITTEE CHAIRMAN PRAISES EVENING WORLD.**

Senator Thompson, Chairman of the Legislative Committee that investigated Chairman McCall and made the charges that brought about his dismissal, said:

"Credit should be given in full to the press of the city of New York for furnishing the committee with knowledge of the facts, and particularly to THE NEW YORK EVENING WORLD, which, through the greatest investigating writer in its staff, Sophie Irene Loeb, furnished the committee with all the facts concerning the stock transaction which concentrated public attention and really brought about the first step toward a better realization of the benefits of a satisfactory public service regulation for this community.

"I wish also to acknowledge that whatever of success has been achieved by the committee in its investigation of these transactions has been wholly due to the indefatigable assistance which Miss Loeb, in her wealth of public spirit, has contributed by attending daily the meetings of the committee and generously giving advice and counsel, which have been readily accepted, from the wonderful store of scientific information which she has accumulated in months of study into the gas and other public utility corporations of this city."

On December 8 Governor Whitman appointed Oscar S. Straus to succeed McCall. Other members of the commission were then under investigation.

## MAKES SIX-CENT BREAD TOO HOT TO HAND OUT.

As a result of figures produced by THE WORLD six-cent bread was made too hot to be handed out to the people of New York City. By analyzing statistics this newspaper showed that the increased exportation of wheat could continue without endangering the home supply and that the soaring market was predicated on a speculative apprehension of a shortage that would not materialize. Wheat at \$2 and bread at ten cents were threatened. An extra cent on the loaf would have cost the people of the city \$16,500,000 in a year. Ten-cent bread would have meant an extra annual burden of \$82,500,000.

Inspired by THE WORLD, Attorney-General Egburt E. Woodbury announced that he would prosecute to the full extent of the law any combination designed improperly to advance the price of flour. No more was heard of six-cent bread.

THE WORLD then looked up the weight of loaves being sold and exposed light-weight bakers, some of whose loaves weighed as little as nine ounces. Investigation of the bread itself followed with the startling discovery that plaster of paris figured as a rival of flour.

## OBTAINS CITY WORK FOR THE UNEMPLOYED.

During the Winter, in the midst of a severe and serious situation in which the number of the unemployed in New York City was estimated at 150,000, the largest in the history of the city, a dispute arose in the Board of Estimate as to the responsibility of the municipality. While well-to-do citizens were aiding by collecting food from door to door for the starving poor and bread lines were forming at big hotels a cry was raised that the city should help. City Chamberlain Bruere held that the city could not afford the necessary money and Comptroller Prendergast that the city was not responsible.

THE WORLD demanded that the city do something at once to relieve the situation, whether it cost \$5,000,000 or \$500,000. "The unemployment problem in its present acute form," said THE WORLD, "cannot be considered only from a bookkeeper's point of view."

Mayor Mitchel appointed a committee of distinguished citizens under the chairmanship of Judge Elbert H. Gary, and workshops were opened which provided jobs at 15 cents an hour.

## OTHER PUBLIC SERVICES BY THE WORLD.

THE WORLD led the opposition which killed the proposed amendment to the Labor Law which would have permitted women and children to work more than sixty hours a week in cannery factories. The cannery wanted to work them twelve hours a day during the rush season.

For the first Summer in many years the Criminal Courts rose for vacation without leaving an increase in the number of prisoners in the Tombs awaiting trial. As a result of THE WORLD's long crusade, the Judges in General Sessions sat longer hours and took shorter vacations.

"THE WORLD is doing a great service to all the people in its fight for the collection of the personalty tax and for extension along that line of taxation," said Allan Robinson, President of the Allied Real Estate Interests.

The city educational authorities were stirred up by THE WORLD's discovery that many non-resident children were yearly grafting \$80 to \$100 worth of tuition while children of residents were on half-time.

THE WORLD organized into an association the 40,000 tennis lovers who play in the public parks, gave trophies for a tournament and was congratulated by Mayor Mitchel.

"I want to commend THE WORLD for its article revealing the ease with which thugs and crooks may purchase dangerous weapons, especially knives," said Justice Freschi in Brooklyn Court of Special Sessions.

## POULTRY TRUST MEN 'JAILED AT LAST.

After fighting for four years to escape prison, twelve wealthy members of the Poultry Trust, who were convicted in 1911 of conspiracy to control the live poultry market in New York City, were sent to jail in May last year. The thirteen convicted with the others, died about three months before the Court of Appeals sustained the convictions. The methods by which these men had obtained control of 90 per cent. of the live poultry trade were exposed in THE WORLD in 1910, and this newspaper furnished the District Attorney's office with the information used in the prosecution and extinction of the trust, which had had no little share in helping to boost the cost of living in the city.

The statute under which these men were tried had been on the books for fifty years, but this was the first prison sentence under it. The trial was one of the longest in the history of the New York courts. Eighty persons were named in the original indictment. Eighteen were brought to trial. William Travers Jerome, who acted as counsel for the defendants, tried to have all readers of THE WORLD kept off the jury.

## THE WORLD'S CARTOONS.

Again many of the daily cartoons in THE WORLD won international fame. One that is still remembered in many a home throughout the world, and long will be, bore the title, "But why did you kill US?" The drawing showed the question being addressed to Emperor William by the shades of the little children drowned on the Lusitania. Another notable one was entitled, "I'm a patient man, William, but"—It was Uncle Sam speaking. John Bull also came in for his share of attention.

## WORLD'S BUREAU OF ACCURACY AND FAIR PLAY.

THE WORLD'S Bureau of Accuracy and Fair Play, which was founded by Ralph Pulitzer in 1912, issued its first biennial report. This showed that the work of the bureau had achieved the object of its founder, in that it had stamped out carelessness, fakes and fakers and that its aim had been adopted by other newspapers and by news agencies.

During the first two years of its existence the bureau dealt with 787 cases involving charges against accuracy or fair play in the news and editorial columns. The complaints sustained numbered 498, the corrections published 291. There were in addition 68 publications in the interest of fair play where THE WORLD had not been at fault. Every complaint received was carefully inquired into.

The records of its investigations during the two years prove that the men attached to the home office of THE WORLD are careful and accurate. They further show that a large percentage of the errors corrected are not due so much to the carelessness of reporters or editors as to the misinformation supplied by persons upon whom they must rely for the news.

"So far as the writer knows," says the report, "only three men in the home office have been dropped because of this bureau's reports, and they certainly deserved to be. On the other hand, we have been careful in our reports to fully vindicate all whose accuracy or fair play was unjustly questioned and to pass as 'excusable errors' those which could not have been averted by a proper standard of care and attention to duty."

## SOME MINOR ACHIEVEMENTS BY THE WORLD.

On August 3 THE WORLD gave the first hint of the romance of President Wilson and Mrs. Norman Galt, now his bride.

The telephone across the continent was first used by THE WORLD when on February 20 it rang up the office of President Charles C. Moore at San Francisco and got from him the story of the opening of the Panama-Pacific Exposition.

It was at the suggestion of THE WORLD that the flags on the city and other public buildings were hung at half-mast on the fiftieth anniversary of the death of President Lincoln.

As he sailed from the island of South Georgia for the South Pole Sir Ernest Shackleton sent THE WORLD his parting message, told of his plans and said he might be heard from some time this Spring.

THE WORLD offered \$1,000 reward for the apprehension of the murderer of five-year-old Leonore Anne

Cohn in the hallway of her home at 353 Third Avenue, and another \$1,000 for the discovery of the murderer of four-year-old Charles Murray in the hallway of his home at 270 First Avenue.

On the allegations of race prejudice in the case of Leo M. Frank, who was convicted of the murder of Mary Phagan, THE WORLD sent a trained investigator to Atlanta, Ga., to present both sides.

When Villa declared he could pacify Mexico THE WORLD secured an interview with him in which he told of his plans and said that after establishing peace he would seek no office for himself but would retire to his ranch.

Chief Gunner's Mate Frank Crilley, U. S. N., described for THE WORLD his record dive of 288 feet to the sunken submarine F-4 in the crystal waters of Honolulu Harbor.

Harry Kemp, the "box car poet," spent a night for THE WORLD in the Hotel de Gink and wrote the "Lay of the Hobo."

"Dopey Benny" Fein gave THE WORLD his amazing tale of crime for hire in New York City. The overlord of gangs told how his thugs gouged out eyes, cut off ears, broke limbs, blew up workshops or committed murder at fixed prices and declared that his income from east side unions amounted to \$12,000 a year.

Publicity in THE WORLD proved fatal to a curious organization for "war relief work by sweet young girls" carried on at 13 West Fifty-first Street as the "White Cross of the American Club."

THE WORLD again prosecuted several men who carried on "Want Ad" swindles. Among them Frederick C. Taylor, who ran a school for moving picture actors and did not live up to the promises on which he had collected money, was sent to the Island for nine months.

#### PHONE RATE CUT AN EVENING WORLD VICTORY.

THE EVENING WORLD was able to rejoice with its readers over its victory in its long and brilliantly fought battle for five-cent phones throughout Greater New York. The city gave widespread expression to its satisfaction when the cut in the rate was ordered. Distinguished citizens, including Mayor Mitchell and all the department heads of the City Government, poured in upon THE EVENING WORLD their commendations. Many district civic societies also sent in their congratulations. The cut cost the telephone company \$2,636,000 from its yearly income, officials said.

Another great victory won by THE EVENING WORLD was the new Taxicab ordinance signed by Mayor Mitchell the first week of the year. This ended a long struggle to regain for the city its full rights in its own streets at least so far as one grievous form of trespass was concerned. Private persons were selling rights in the city streets for private profit. A single hotel netted in this form of graft no less than \$30,000 a year for the privilege of driving a cab up to its doors to pick up a fare who wanted a cab.

#### INAUGURATES PENNY SCHOOL LUNCHES.

It was found during the Winter that many starving children were attending the public schools. The number was estimated at no fewer than 37,776. After an investigation by Miss Sophie Irene Loeb THE EVENING WORLD began to collect funds to provide the underfed little ones with a square meal at school every day for the price of one penny—and the penny was to be provided too for those who could not afford even that small sum. In July the Board of Estimate paid this newspaper the compliment of unanimously voting \$26,500 revenue bonds for the equipment and maintenance of penny lunchrooms in a hundred schools. Such was the success—and also the need—of the movement.

A fund is being maintained by THE EVENING WORLD to pay the pennies for the children who cannot afford to buy the lunches. If one child in every twenty—that was the proportion—was to be allowed to go underfed a great army would grow up lacking the physical and mental vigor the community requires in them. The Penny School Lunch Fund is one of the most practical means yet devised to help needy families through a hard Winter.

#### PENSIONS FOR WIDOWED MOTHERS ANOTHER VICTORY.

For two years THE EVENING WORLD conducted its campaign to win the passing of the Widowed Mothers' Pension law which Governor Whitman signed on April 7 last year. One of the pens used by the Governor in signing the act was handed by him to Miss Loeb, of THE EVENING WORLD staff, as a memento of her articles in this newspaper. Now instead of having to part from her children and send them to an institution if she cannot afford to provide for them, the widowed mother is paid the same sum as would be paid the institution for the maintenance of the children.

#### END TAX DODGING, SAYS THE EVENING WORLD.

Mustering facts and figures with its usual brilliant clarity, THE EVENING WORLD in November and December dealt telling blows on the system of municipal management which in New York City has increased the taxes by 82 per cent. while the population grew only 31 per cent. New York was shown to be over-engineered, over-superintended, over-surveyed. Millions went in jobs and nothing came in the way of results, THE EVENING WORLD declared. It was shown that in an expensive system of overlapping bureaus and their practice of "passing the buck" the same work was done two or three times over, milking the city of millions.

THE EVENING WORLD urged that as a first practical step toward solving the city tax problem an end should be put to the tax dodging which robs the city of millions and that some of the burden borne by real estate, more than 82 per cent. of the whole, should be placed upon public utilities. And it asked why the lawmakers were so shy of the corporations.

Throughout the year THE EVENING WORLD kept at its efforts to extend to Brooklyn the boon of 80-cent gas which its fight obtained for Manhattan.

#### SUNDAY WORLD WINS HIGH COMPLIMENTS.

THE SUNDAY WORLD made immense strides during 1915. It was acclaimed by many distinguished writers and the editors of the leading periodicals of the country as representing the greatest advance in Sunday journalism. The encomiums paid to THE SUNDAY WORLD by noted authors were perhaps the highest ever given to any such publication.

Striking improvement was made in the color work in THE SUNDAY WORLD during the year. It is now as good as that in the most expensive monthly magazines.

The diversity of interest in the subjects dealt with and the humor and humanity which were so delicately entwined in their treatment were widely and highly appreciated. Perhaps the most conspicuous feature of the year in the Magazine Section of THE SUNDAY WORLD was the astounding story of his life told in "The Revelations of a Foreign Spy," by Ignatius T. T. Lincoln, who, though practically penniless when he left Canada for England, and spoke English with a strong German accent, changed his name, got himself elected a member of the House of Commons and then of the inner circle of the British secret service—all in order that he might serve the Kaiser.

#### SUNDAY WORLD AIDS SCHOOL CHILDREN.

THE SUNDAY WORLD also continued its work in behalf of the school children in athletics, play, gardening, and other directions. More than 4,000 medals and pins were awarded to the young gardeners. More than 65,000 boys competed for SUNDAY WORLD medals in the athletic games. The walking clubs also had a successful year. The Sunday World Baseball League broke all its records.

In June the seven prettiest girls among the readers of THE EVENING WORLD were given free trips for themselves and an escort to the Panama Exposition by the Universal Film Manufacturing Company. Among the chaperons of the party was Mrs. Champ Clark, wife of the Speaker of the House of Representatives.

As in all other years its readers sent aid to many families in distress and THE WORLD was the means of restoring many lost relatives and much lost property.

# GAME LAWS OF THE CLOSE SEASON FOR GAME

THE following table shows the close season for all game in the United States, with the exception of mountain sheep and goat and a few unimportant species. Where no dates are given kind of game does not exist, or close season at all times. Local laws, where operative, should be consulted.

The first date of the close season and the first date of the open season are given.

|    |                     | MAMMALS.                 |                                |                       |                           | BIRDS.                   |       |

1 Elk only. 4 Prairie chicken, closed season all year. 5 Rail excepted. 6 Female protected all the year. 7 Snipe only. 8 Rail—Connecticut, Dec. 1-Sept. 16. 9 Deer raised in private preserves may be killed at any time. 10 Certain species. 12 Local exceptions. 13 Gobbles, June 1-Apr. 15. 19 Sundays and Mondays are also closed seasons for ducks and other waterfowl. 21 Rail, coot, mud hen, Dec. 1-Sept. 1. 23 Except June 15-Sept. 15. 27 Between Nov. 24 and Jan. 1, hunting with dog and fence. 28 Cock pheasant may be killed Oct. 6-Oct. 1, under permit. 29 Residents of the State may kill rabbits on their own land at any time. 31 Season varies according to latitude. 32 Open season for few days only in November. 33 Prairie chicken, Nov. 1-Oct. 15. 34 Open season about 4 days in late fall. Law not applicable to possession of imported deer properly tagged. Prohibitory laws against hunting doves and robins exist in nearly all States. Sale of game during close season is prohibited in most States. License fees from non-residents required in some States.

(a) Female deer and elk and deer without horns protected at all times. (b) Except deer without horns. Non-resident not permitted to kill. (c) Game animals or birds may be killed at any time for food or clothing by native Indians or Esquimaux, or by miners or explorers in need of food, but game so killed cannot be shipped or sold.

\*NEW YORK. Dates for hunting apply to Adirondack region only; rest of State no open season. Exceptions: Ulster, Orange and Sullivan Counties, Nov. 16-Nov. 1. Fawns at all times. Hunting with dogs, traps or devices of any kind prohibited.

Wild Birds Catching, killing, or the possession of live or dead, and robbing of nests prohibited at all times—except English sparrow, hawk, crow, owl, and blackbird.

Hunting and shooting on Sunday prohibited.

Export of game or birds taken in the State is prohibited.

## FISH LAWS, NEW YORK STATE, OPEN SEASON.

Trout—First Saturday in April to August 31. Minimum length, six inches. Not more than ten pounds of trout may be taken or transported by one person in one day. Trout must not be taken by any other method than angling.

# SEVERAL STATES, 1916. IN THE UNITED STATES.

Open season may be found by reversing dates. The difficulty of securing absolute accuracy in a table of this kind is very great, and absence in laws of many States of express legislation as to inclusion or exclusion of date upon which seasons open and close makes exactness almost an impossibility. Compiled and corrected to December 1, 1915.

## BIRDS.

**Lake Trout and Whitefish.**—Lake trout not less than fifteen inches in length, and whitefish not less than 1½ pounds in the round, may be taken and possessed from April 1 to September 30, both inclusive. Orsego whitefish, commonly called Orsego bass, not less than nine inches in length, may be taken and possessed from January 1 to October 31, both inclusive. A person may take by angling not to exceed ten lake trout in one day, nor whenever two or more persons are angling from the same boat they may take not to exceed fifteen in one day. Whitefish may be taken in any number or quantity. Lake trout and whitefish may be taken in Lakes Erie and Ontario in any number or quantity at any time, and when so taken may be possessed.

**Black Bass.**—June 16 to November 30, inclusive. Minimum length, ten inches. Limit per day to one person, fifteen; to a boat, two or more persons, twenty-five; bass must not be taken by any other method than angling.

**Pickereel and Pike.**—May 1 to March 1, inclusive. Pike, minimum length, ten inches. Pickerel, minimum length (St. Lawrence River), twenty inches.

**Pike Perch.**—Not less than twelve inches in length may be taken and possessed in any number or quantity from May 1 to March 1, both inclusive.

**Frogs.**—Bullfrogs, green frogs and spring frogs may be taken in any manner, possessed, bought and sold from June 1 to March 1, both inclusive. They shall not be taken, possessed, bought or sold at any other time.

(Long Island, Open Season.)

**Trout.**—April 1 to August 31, inclusive.

**Rainbow Trout.**—April 16 to September 30, inclusive.

NOTE.—The State Fish and Game Laws apply where not in conflict with the Long Island provisions.

## MEN'S DRESS CHART FOR 1916.

THE following is a specification of the proper attire for men on various occasions in the Spring and Summer of 1916, prepared and copyrighted by *The Haberdasher*, New York.

# THE WORLD ALMANAC FOR 1916.

THE astronomical calculations in this work were expressly made for it by Dr. J. Morrison and are given in *local Mean Time*.

## Chronological Eras.

The year 1916, which is bissextile or "leap year," corresponds to the year 7424-25 of the Byzantine era; 5676-77 of the Jewish era, the year 5677 commencing at sunset September 27; 2669 since the foundation of Rome according to Varro; 2692 of the Olympiads or the fourth year of the 673d Olympiad commencing on July 1; 2576 of the Japanese era, and to the fourth-fifth year of the period entitled Taisho; 1334-35 of the Mohammedan era, the year 1335 commencing on October 28, 1916. The 141st year of the independence of the United States of America commences July 4, 1916.

## CHURCH FASTS.

THE Roman Catholic Days of fasting are the forty days of Lent, the Ember Days, the Fridays of the four weeks in Advent, and certain vigils or evenings prior to the greater feasts, while all Fridays of the year are days of abstinence from flesh meat. In the American Episcopal Church the days of fasting or abstinence to be observed, according to the Book of Common Prayer, are the forty days of Lent, the Ember Days, the three Rogation Days, and all the Fridays of the year except Christmas Day. In the Greek Church the four principal fasts are those in Lent, the week succeeding Whitsuntide, the fortnight before the Assumption, and forty days before Christmas.

## EMBER AND ROGATION DAYS.

EMBER and Rogation Days are certain periods of the year devoted to prayer and fasting. Ember Days (twelve annually) about the beginning of the four seasons, and are the Wednesday, Friday, and Saturday after the first Sunday in Lent, in Spring; after the feast of Pentecost (Whit Sunday), Summer; after the festival of the Holy Cross, Autumn; and after the festival of St. Lucia, Winter. Ember Weeks are the weeks in which the Ember Days appear.

Rogation Days occur on the Feast of St. Mark, April 25, and on the three days immediately preceding Ascension Day.

## DIVISIONS OF TIME.

THE interval between two consecutive transits of a fixed star over any meridian or the interval during which the earth makes one absolute revolution on its axis is called a *Sidereal Day*, and is invariable, while the interval between two consecutive transits of the Sun over any meridian is called an *Apparent Solar Day*, and its length varies from day to day by reason of the variable motion of the earth in its orbit and the inclination of this orbit to the equator on which time is measured.

A *Mean Solar Day* is the average or mean of all the apparent solar days in a year. *Mean Solar Time* is that shown by a well-regulated clock or watch, while *Apparent Solar Time* is that shown by a well-constructed sun-dial; the difference between the two at any time is the *Equation of Time*, and may amount to 16 minutes and 21 seconds. The *Astronomical Day* begins at noon and the *Civil Day* at the preceding midnight. The *Sidereal* and *Mean Solar Days* are both invariable, but one day of the latter is equal to 1 day, 3 minutes, and 56.555 seconds of the former.

The interval during which the earth makes one absolute revolution round the Sun is called a *Sidereal Year*, and consists of 365 days, 6 hours, 9 minutes, and 9.6 seconds, which is invariable.

The *Tropical Year* is the interval between two consecutive returns of the Sun to the Vernal Equinox. If this were a fixed point, the *Sidereal* and *Tropical Years* would be identical; but in consequence of the disturbing influence of the Moon and planets on the spheroidal figure of the earth, the Equinox has a slow, retrograde mean motion of  $50''$ .26 annually, so that the Sun returns to the Equinox sooner every year than he otherwise would by 20 minutes 23.6 seconds; the *Tropical Year*, therefore, consists of 365 days, 5 hours, 48 minutes, and 46 seconds. The *Tropical Year* is not of uniform length; it is now slowly decreasing at the rate of .695 second per century, but this variation will not always continue.

Julius Cæsar, in B. C. 45, was the first to reform the calendar by ordering that every year whose date number is exactly divisible by 4 contain 366 days, and all other years 365 days. The intercalary day was introduced by counting the sixth day before the Kalends of March twice; hence the name bissextile, from bis, twice, and sex, six. He also changed the beginning of the year from 1st of March to 1st of January, and also changed the name of the fifth month (Quintilis) to July, after himself. The average length of the Julian year is therefore 365.25 days, which, however, is too long by 11 minutes and 14 seconds, and this would accumulate in 400 years to about three days. The Julian Calendar continued in use until A. D. 1582, when the date of the beginning of the seasons occurred 10 days later than in B. C. 45, when this mode of reckoning time was introduced.

The Gregorian Calendar was introduced by Pope Gregory XIII. with the view of keeping the Equinox to the same day of the month. It consists of 365 days, but every year exactly divisible by 4 and the centennial years which are exactly divisible by 400 contain 366 days; and if in addition to this arbitrary arrangement the centennial years exactly divisible by 4,000 contain 366 days, the error in the Gregorian system will amount to only one day in about 200 centuries. If, however, 31 leap years were intercalated in 128 years, instead of 32 as at present, the calendar would be practically exact and the error would not amount to more than a day in 100,000 years. The length of the mean Gregorian Year may therefore be set down at 365 days, 5 hours, 49 minutes, 12 seconds. The Gregorian Calendar was introduced into England and her colonies in 1752, at which time the Equinox had retrograded 11 days since the Council of Nice in A. D. 325, when the festival of Easter was established and the Equinox occurred on March 21; hence September 3, 1752, was called September 14, and at the same time the commencement of the legal year was changed from March 25 to January 1, so that the year 1751 lost the months of January and February and the first 24 days of March. The difference between the Julian and Gregorian Calendars is now 13 days. Russia and the Greek Church still employ the Julian Calendar for civil and ecclesiastical purposes.

## STANDARD TIME.

(From a statement prepared by the United States Naval Observatory, Washington, D. C.)

THE United States adopted standard time in 1883, on the initiative of the American Railway Association, and at noon of November 13, 1883, the telegraphic time signals sent out daily from the Naval Observatory at Washington were changed to the new system, according to which the meridians of  $75^{\circ}$ ,  $90^{\circ}$ ,  $105^{\circ}$  and  $120^{\circ}$  west from Greenwich became the time meridians of Eastern, Central, Mountain, and Pacific standard time respectively.

Theoretically, the divisions should be half way between the above meridians, but for general convenience the railroads change their time at the ends of railroad divisions, so that Eastern standard time is used from the Atlantic Coast to an irregular line through Buffalo, Salamanca, Pittsburg, Wheeling, W. Va.; Holloway, Ohio; Huntington, W. Va.; Bristol, Tenn.; Norton, Va.; Asheville, N. C.; Atlanta, Augusta, Ga.; Columbia, S. C.; Central Junction, Ga. Some of these cities use Eastern and some Central time, while the railroads use one time in one direction and the other time in the other direction.

The same applies to the cities on the dividing lines between the Central and Mountain divisions, the line running through Bismarck, N. D., South Dakota, Nebraska, Colorado, Kansas, New Mexico, and Texas to El Paso; also to the cities on the dividing line between the Mountain and Pacific division, the line running through Montana, Idaho, Oregon, Utah, Nevada, and Arizona.

For Time Difference table see Index.

Almost all countries throughout the world use standard time based on the meridians  $15^{\circ}$  apart from Greenwich, while some use standard time based on the longitude of their national observatories.

**JANUARY 1. NEW YEAR'S DAY:** In all States (including District of Columbia, Porto Rico, Hawaii and Alaska), except Massachusetts. (In Maine a bank holiday only legally.)

**JANUARY 8. ANNIVERSARY OF THE BATTLE OF NEW ORLEANS:** In Louisiana.

**JANUARY 19. LEE'S BIRTHDAY:** In Florida, Georgia, North Carolina, South Carolina, Virginia, Alabama, Mississippi and Arkansas.

**FEBRUARY. MARDI-GRAS:** In the parish of Orleans, Louisiana.

**FEBRUARY 12. GEORGIA DAY:** In Georgia.

**FEBRUARY 12. LINCOLN'S BIRTHDAY:** In California, Colorado, Connecticut, Delaware, Illinois, Iowa, Indiana, Kansas, Maine, Michigan, Minnesota, Montana, Nebraska, Nevada, New Jersey, New York, North Dakota, Oregon, Pennsylvania, South Dakota, Utah, Washington, West Virginia and Wyoming.

**FEBRUARY 14. ADMISSION DAY:** In Arizona.

**FEBRUARY 22. WASHINGTON'S BIRTHDAY:** In all the States, District of Columbia, Porto Rico, Hawaii and Alaska.

**FEBRUARY. MARDI-GRAS DAY, SHROVE TUESDAY:** In Alabama and Florida (in counties having a carnival). In Louisiana, observed in Orleans Parish.

**MARCH. First Wednesday prior to Spring election at which Circuit Judges are elected and in counties and cities where offices are filled at Spring election in Michigan.**

**MARCH (Third Tuesday). PRIMARY ELECTION DAY (every Presidential year):** In North Dakota.

**MARCH 2. ANNIVERSARY OF TEXAN INDEPENDENCE:** In Texas.

**MARCH 4. INAUGURATION DAY:** In District of Columbia in years when a President of the U. S. is inaugurated.

**MARCH 22. EMANCIPATION DAY:** In Porto Rico.

**APRIL (First Monday in 1916 and every four years thereafter). PRESIDENTIAL PRIMARY:** In Michigan.

**APRIL 21, 1916. GOOD FRIDAY:** In Alabama, Connecticut, Delaware, Florida, Louisiana, Maryland, Minnesota, New Jersey, Pennsylvania, Porto Rico, Tennessee.

**APRIL 12. HALIFAX INDEPENDENCE RESOLUTIONS:** In North Carolina.

**APRIL 13. THOMAS JEFFERSON'S BIRTHDAY:** In Alabama.

**APRIL 19. PATRIOTS' DAY:** In Maine and Massachusetts.

**APRIL 21. ANNIVERSARY OF THE BATTLE OF SAN JACINTO:** In Texas.

**APRIL 26. CONFEDERATE MEMORIAL DAY:** In Alabama, Florida, Georgia, Mississippi and Virginia.

**MAY 10. CONFEDERATE MEMORIAL DAY:** In North Carolina and South Carolina.

**MAY (Second Friday). CONFEDERATE DAY:** In Tennessee.

**MAY 20. ANNIVERSARY OF THE SIGNING OF THE MECKLENBURG DECLARATION OF INDEPENDENCE:** In North Carolina and Kentucky.

**MAY 30. DECORATION DAY:** In all the States (and District of Columbia, Porto Rico, Hawaii), except Arkansas, Alaska, Florida, Louisiana, Mississippi, North Carolina, South Carolina, and Texas.

**JUNE 3. JEFFERSON DAVIS'S BIRTHDAY:** In Arkansas, Florida, Georgia, Alabama, Mississippi, Texas, Arkansas, South Carolina and Virginia. In Louisiana, known as "Confederate Memorial Day."

**JUNE 11. KAMEHAMEHA DAY:** In Hawaii.

**JUNE 15. PIONEER DAY:** In Idaho.

**JUNE (Last Wednesday). PRIMARY ELECTION DAY:** In North Dakota.

**JULY 4. INDEPENDENCE DAY:** In all the States, and District of Columbia, Porto Rico, Hawaii, and Alaska.

**JULY 10. ADMISSION DAY:** In Wyoming.

**JULY 24. PIONEERS' DAY:** In Utah.

**JULY 25. LANDING OF AMERICAN TROOPS:** Porto Rico.

**JULY (Fourth Saturday). PRIMARY ELECTION DAY:** In Texas.

**AUGUST. PRIMARY ELECTION DAY:** In Missouri. In Michigan (last Tuesday in August preceding every general November election).

**AUGUST 1. COLORADO DAY:** In Colorado.

**AUGUST 16. BENNINGTON BATTLE DAY:** In Vermont.

**SEPTEMBER 4, 1916. LABOR DAY:** In all the States (and District of Columbia, Porto Rico, Hawaii and Alaska).

**SEPTEMBER. PRIMARY ELECTION DAY:** In Nevada and Wisconsin, First Tuesday.

**SEPTEMBER (Third Saturday). REGATTA DAY:** In Territory of Hawaii.

**SEPTEMBER 9. ADMISSION DAY:** In California.

**SEPTEMBER 12. "OLD DEFENDERS' DAY":** In Baltimore, Md.

**OCTOBER (First Monday). MISSOURI DAY (commemorative of Missouri history):** In Missouri.

**OCTOBER (Second Friday). FARMER'S DAY:** In Florida.

**OCTOBER 12. COLUMBUS DAY:** In Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Idaho, Illinois, Indiana, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, Ohio, Oklahoma, Oregon, Pennsylvania, Porto Rico, Rhode Island, Texas, Vermont, Washington, West Virginia.

**OCTOBER 18. ALASKA DAY:** In Alaska.

**OCTOBER 31. ADMISSION DAY:** In Nevada.

**NOVEMBER 1. ALL SAINTS' DAY:** In Louisiana. **NOVEMBER (First Friday). PIONEER DAY:** In Montana, observed in public schools.

**NOVEMBER 7. GENERAL ELECTION DAY:** In Alabama, Alaska, Arizona, California, Colorado, Delaware, Florida, Idaho, Illinois, Indiana, Iowa, Louisiana, Maine, Maryland, Michigan, Minnesota, Missouri, Montana, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio (from 12 m. to 5:30 P. M. only), Oklahoma, Oregon, Pennsylvania, Porto Rico, Rhode Island (biennially in even years), South Carolina, South Dakota, Tennessee, Texas, Virginia, West Virginia, Washington, Wisconsin and Wyoming. In the years when elections are held therein. In 1916 in States holding such elections the date is November 7.

**NOVEMBER 23 or 30, 1916. THANKSGIVING DAY (usually the last Thursday in November):** Is observed in all the States, and in the District of Columbia, Porto Rico, Hawaii and Alaska, though in some States it is not a statutory holiday.

**DECEMBER 25. CHRISTMAS DAY:** In all the States and District of Columbia, Porto Rico, Hawaii and Alaska.

Sundays and Fast Days are legal holidays in all the States which designate them as such.

There are no statutory holidays in Mississippi, but by common consent the Fourth of July, Thanksgiving and Christmas are observed. In New Mexico, Washington's Birthday, Decoration Day, Labor Day, Flag Day (June 14) and Arbor Day are holidays when so designated by the Governor. In South Carolina, Thursday of Fair Week is a legal holiday.

ARBOR DAY is a legal holiday in many States, although in some it is observed as designated by the Governor.

Every Saturday after 12 o'clock noon is declared in some States and cities by the local authorities a legal holiday.

There is no national holiday, not even the Fourth of July. Congress has at various times appointed special holidays. In the second session of the Fifty-third Congress it passed an act making Labor Day a public holiday in the District of Columbia, and it has recognized the existence of certain days as holidays for commercial purposes, but, with the exception named, there is no general statute on the subject. The proclamation of the President designating a day of Thanksgiving only makes it a legal holiday in the District of Columbia and the Territories.

## MEMORABLE DATES.—(See also "Annive:saries.")

- B. C.**  
 1183 Fall of Troy.  
 1082 Era of the Great Pyramid.  
 776 Carthage founded.  
 778 Olympic Era began.  
 753 Foundation of Rome.  
 588 Jerusalem taken by Nebuchadnezzar.  
 536 Restoration of the Jews under Cyrus.  
 509 Expulsion of Tarquins from Rome.  
 480 Xerxes defeated Greeks at Thermopylae.  
 55 Caesar conquered Britain.  
 4 Birth of Jesus Christ.
- A. D.**  
 29 The Crucifixion.  
 70 Jerusalem was destroyed by Titus.  
 313 Constantine converted to Christianity.  
 410 The Romans abandoned Britain.  
 827 Egbert, first king of England, Oct. 14.  
 1066 Battle of Hastings, Norman Conquest.  
 1095 The Crusades began.  
 1172 Ireland was conquered by Henry II.  
 1215 King John granted Magna Charta, June 15.  
 1265 First Representative Parliament in England.  
 1415 Battle of Agincourt, Oct. 25.  
 1431 Joan of Arc was burnt, May 30.  
 1453 Constantinople taken by the Turks.  
 1455 The Wars of the Roses began.  
 1489 The Bible was first printed at Mentz.  
 1471 Caxton set up his printing press.  
 1492 Columbus discovered America, Oct. 12.  
 1517 The Reformation began in Germany.  
 1519 Cortez began the conquest of Mexico.  
 1535 The first English Bible printed.  
 1539 Monasteries were closed in England.  
 1558 Accession of Queen Elizabeth, Nov. 17.  
 1565 Revolt of the Netherlands began.  
 1565 St. Augustine, Fla., settled.  
 1572 The St. Bartholomew Massacre, Aug. 24.  
 1568 The Spanish Armada defeated, July.  
 1603 Union of England and Scotland.  
 1607 Jamestown, Va., was settled May 13.  
 1609 Hudson river first explored.  
 1616 Shakespeare died, April 23.  
 1618 "Thirty Years' War" in Germany began.  
 1620 Pilgrims by the Mayflower landed.  
 1623 Manhattan Island settled.  
 1634 Maryland settled by Roman Catholics.  
 1636 Rhode Island settled by Roger Williams.  
 1640 Cromwell's Long Parliament assembled.  
 1649 Charles I. was beheaded, Jan. 30.  
 1653 Cromwell became Lord Protector.  
 1660 Restoration of the Stuarts.  
 1664 New York conquered from the Dutch.  
 1664 The great plague of London.  
 1666 The great fire of London began Sept. 2.  
 1679 Habes Corpus Act passed in England.  
 1689 Pennsylvania settled by Wm. Penn.  
 1685 Revocation of the Edict of Nantes.  
 1688 James II. abdicated, Dec. 11.  
 1690 Battle of the Boyne, July 1.  
 1690 First newspaper in America; at Boston.  
 1704 Gibraltar was taken by the English.  
 1713 Peace of Utrecht, April 11.  
 1714 Accession of House of Hanover, Aug. 1.  
 1715 First Jacobite rebellion in Great Britain; the second in 1745.  
 1720 South Sea Bubble.  
 1745 Battle of Fontenoy, April 30.  
 1756 Black Hole Suffocation in Calcutta.  
 1757 Clive won Battle of Plassey in India.  
 1759 Canada was taken from the French.  
 1765 Stamp Act enacted.  
 1773 Steam engine perfected by Watt.  
 1773 Tea destroyed in Boston Harbor, Dec. 16.  
 1775 Battle of Lexington, April 19.  
 1775 Battle of Bunker Hill, June 17.  
 1776 Battle of Fort Mifflin, Charleston, S. C., June 28.  
 1776 Declaration of Independence, July 4.  
 1776 Battle of Trenton, N. J., Dec. 25-26.  
 1777 Battle of Bennington, Vt., Aug. 16.  
 1777 Burgoyne's surrender, Oct. 17.  
 1779 Capt. Cook was killed, Feb. 14.  
 1781 Cornwallis's surrender at Yorktown, Oct. 19.
- A. D.**  
 1788 First settlement in Australia, Jan. 26.  
 1789 The French Revolution began July 14.  
 1789 Washington first inaugurated President, April 30.  
 1793 Cotton-gin invented by Whitney.  
 1793 Louis XVI. of France executed, Jan. 21.  
 1796 Vaccination discovered by Jenner.  
 1798 The Irish Rebellion.  
 1799 Bonaparte declared First Consul, Jan. 1.  
 1801 Union of Great Britain and Ireland.  
 1803 Louisiana purchased from the French.  
 1804 Bonaparte became Emperor of France.  
 1805 Battle of Trafalgar; death of Nelson.  
 1805 Battle of Austerlitz, Dec. 2.  
 1807 Fulton's first steamboat voyage.  
 1812 Second war with Great Britain.  
 1812 The French expedition to Moscow.  
 1813 Perry's victory on Lake Erie, Sept. 10.  
 1814 The printing machine invented.  
 1814 Scott's "Waverley" published.

## TIME DIFFERENCE.

TWELVE O'CLOCK NOON STANDARD (EASTERN) TIME IN THE UNITED STATES AS COMPARED WITH THE CLOCKS IN THE FOLLOWING CITIES:

|                     |            |                 |            |                       |            |
|---------------------|------------|-----------------|------------|-----------------------|------------|
| Aden.....           | 8.00 P.M.  | Copenhagen..... | 6.00 P.M.  | Manila.....           | 1.00 A.M.* |
| Alexandria.....     | 7.00 P.M.  | Dublin.....     | 4.34 P.M.  | Melbourne.....        | 3.00 A.M.* |
| Amsterdam.....      | 5.20 P.M.  | Hamburg.....    | 6.00 P.M.  | Natal.....            | 7.00 P.M.  |
| Athens.....         | 6.35 P.M.  | Havre.....      | 5.00 P.M.  | Paris.....            | 5.00 P.M.  |
| Berlin.....         | 6.00 P.M.  | Hongkong.....   | 12.37 A.M. | Petrograd.....        | 7 01 P.M.  |
| Berne.....          | 6.00 P.M.  | Honolulu.....   | 6.29 A.M.  | Rio de Janiero.....   | 2.00 P.M.  |
| Bogota.....         | 12.00 NOON | Lima.....       | 12.00 NOON | Rome.....             | 6.00 P.M.  |
| Bombay.....         | 9.51 P.M.  | Lisbon.....     | 5.00 P.M.  | Santiago (Chili)..... | 12.00 NOON |
| Bremen.....         | 6.00 P.M.  | Liverpool.....  | 5.00 P.M.  | Stockholm.....        | 6.00 P.M.  |
| Brussels.....       | 5.00 P.M.  | London.....     | 5.00 P.M.  | Vienna.....           | 6.00 P.M.  |
| Constantinople..... | 6.56 P.M.  | Madrid.....     | 5.00 P.M.  | Yokohama.....         | 2.00 A.M.* |

\* At places marked \* the time noted is in the morning of the FOLLOWING DAY.

† "EASTERN" time includes: New York, Boston, Philadelphia, Baltimore, Washington, Richmond, Norfolk, Charleston, Buffalo, Pittsburgh, Montreal, Quebec, Ottawa, Toronto, etc.

"CENTRAL," which is one hour slower than Eastern time, includes: Cleveland, Chicago, St. Louis, Minneapolis, St. Paul, Milwaukee, Kansas City, Omaha, Indianapolis, Cincinnati, Detroit, New Orleans, Memphis, Savannah, Pensacola, Winnipeg, etc.

"MOUNTAIN," which is two hours slower than Eastern time, includes: Denver, Leadville, Colorado Springs, Helena, Regina (N. W. T.), etc.

"PACIFIC," which is three hours slower than Eastern time, includes: San Francisco, Portland (Oregon), Victoria, Vancouver, Tacoma, Seattle, etc.

By the law of the State of Ohio, which the Legislature recently refused to change, Central time is the legal time in all of that State. The trunk line railways at Cleveland, with the exception of the Erie, use Central time. There is a city ordinance which names Eastern time as the city time, but as above stated, it is at variance with the State law. Some of the people, therefore, use one time and some another.

## OLD ENGLISH HOLIDAYS.

THESE holidays, with their names, had their origin in mediæval England when the State religion was that of the Church of Rome, and they are still observed generally or in some parts of Britain.

**JANUARY 6.** TWELFTH DAY, or Twelfth-tide, sometimes called Old Christmas Day, the same as Epiphany. The previous evening is Twelfth Night, with which many social rites have long been connected.

\***FEBRUARY 2.** CANDELMAS: Festival of the Purification of the Virgin. Consecration of the lighted candles to be used in the church during the year.

**MARCH 25.** LADY DAY: Annunciation of the Virgin. April 6 is old Lady Day.

**JUNE 24.** MIDSUMMER DAY: Feast of the Nativity of John the Baptist. July 7 is old Midsummer Day.

**JULY 15.** ST. SWITHIN'S DAY. There was an old superstition that if rain fell on this day it would continue forty days.

**AUGUST 1.** LAMMAS DAY: Originally in England the festival of the wheat harvest. In the Church the festival of St. Peter's miraculous deliverance from prison. Old Lammas Day is August 13.

\* Also known as "Groundhog Day."

**SEPTEMBER 29.** MICHAELMAS: Feast of St. Michael, the Archangel. Old Michaelmas is October 11.

**NOVEMBER 1.** ALL-HALLOWMAS: All-hallows, or All Saints' Day. The previous evening is All-hallow-e'en, observed by home gatherings and old-time festive rites.

**NOVEMBER 2.** ALL SOULS' DAY: Day of prayer for the souls of the dead.

**NOVEMBER 11.** MARTINMAS: Feast of St. Martin. Old Martinmas is November 23.

**DECEMBER 25.** CHILDERMAS: Holy Innocents' Day.

Lady Day, Midsummer Day, Michaelmas, and Christmas are quarter (rent) days in England, and Whitsunday, Martinmas, Candelmas, and Lammas Day in Scotland.

Shrove Tuesday, the day before Ash Wednesday, and Mandy Thursday, the day before Good Friday, are observed by the Church. Mothering Sunday is Mid-Lent Sunday, in which the old rural custom obtains of visiting one's parents and making them presents.

## THE UNITED STATES GOVERNMENT PRINTING OFFICE.

IN this establishment practically all the printing for the United States Government is done except the manufacture of paper money and postage stamps. The Public Printer is the executive head of the Government Printing Office. Directly or through his principal officers he purchases all materials and machinery subject to the provisions of law, disburses all money, appoints all officers and employes, and exercises general supervision over the affairs of the office. The Superintendent of Documents has general supervision over the distribution of all public documents, excepting those printed for the use of the two Houses of Congress and for the Executive Departments. He is required to prepare a comprehensive index of public documents and consolidated index of Congressional documents, and is authorized to sell at cost any public document in his charge, the distribution of which is not specifically directed.

The principal officers are as follows: Public Printer, Cornelius Ford; Deputy Public Printer, Henry T. Brian; Chief Clerk, John L. Alverson; Private Secretary, Joseph P. O'Loone; Purchasing Agent, Edward S. Moores; Superintendent of Work, Daniel V. Chisholm; Foreman of Printing, T. Frank Morgan; Congressional Record Clerk, William A. Smith; Superintendent of Documents, Josiah H. Brinker.

## FARMERS' NATIONAL CONGRESS.

*President*—W. L. Ames, Oregon, Wis. *Secretary*—O. D. Hill, Kendalia, W. Va. *Treasurer*—D. K. Unsicker, Wright, Iowa.

A delegate body representing more than 3,000,000 farmers. Urges: General parcel post; liberal Federal aid for good roads and inland waterways; teaching of agriculture in the public schools; a Federal pure seed law; head tax and illiteracy test on immigration; a rural credit system not controlled by the banking power; also law to prevent imitation of butter; legislation to curb water-power monopolies; National and State control of land fraud agencies; protection of co-operative enterprises. Opposes: Ship subsidies; interstate liquor traffic into known dry territory; free distribution of seeds.

## TABLE OF DAYS BETWEEN TWO DATES.

A TABLE OF THE NUMBER OF DAYS BETWEEN ANY TWO DAYS WITHIN TWO YEARS.

| 30      | 30   | 89   | 120  | 150    | 181  | 211   | 242   | 273  | 303   | 334  | 364  | 30   | 395     | 454  | 485  | 515  | 546    | 576 | 607  | 638   | 668  | 699   | 730  | 731  |      |
| 31      | 31   | 90   | 151  | 151    | 212  | 243   | 212   | 243  | 304   | 335  | 365  | 31   | 396     | 455  | 486  | 516  | 547    | 577 | 608  | 639   | 669  | 700   | 731  | 732  |      |

The above table applies to ordinary years only. For leap year, one day must be added to each number of days after February 28.

EXAMPLE. — To find the number of days between June 3, 1900, and February 16, 1901: The figures opposite the third day in the first column are 154; those opposite the sixteenth day in the second February column are 412. Subtract the first from the second product—i. e., 154 from 412, and the result is 258, the number of days between the two dates.

## EASTER SUNDAY.

A TABLE SHOWING THE DATE OF EASTER SUNDAY IN EACH YEAR OF THE NINETEENTH AND TWENTIETH CENTURIES.

|               |               |               |               |               |               |

| Mar. 15. Andrew Jackson born, 1767.                                                  | Aug. 3. Invasion of Belgium by Germany, 1914.                           |
| Mar. 18. Grover Cleveland born, 1837.                                                | Aug. 7. Gen. Nathanael Greene born, 1742.                               |
| April 12. Henry Clay born, 1777.                                                     | Aug. 13. Manila surrendered to Americans, 1898.                         |
| April 12. Fort Sumter fired on, 1861.                                                | Aug. 28. Montenegro became a kingdom, 1910.                             |
| April 13. Thomas Jefferson born, 1743.                                               | Sept. 1. Capitulation of Sedan, 1870.                                   |
| April 19. Primrose Day in England; Lord Beaconsfield died, 1881.                     | Sept. 14. City of Mexico taken by U. S. troops, 1847.                   |
| April 23. Shakespeare born, 1564.                                                    | Sept. 15. William H. Taft born, 1857.                                   |
| April 27. Gen. U. S. Grant born, 1822.                                               | Oct. 27. Theodore Roosevelt born, 1858.                                 |
| May 1. Dewey destroyed the Spanish fleet at Manila, 1898.                            | Nov. 5. Guy Fawkes Day in England. The Gunpowder Plot discovered, 1605. |
| May 13. Society of the Cincinnati organized by officers of Revolutionary Army, 1783. | Nov. 10. Martin Luther born, 1483.                                      |
| May 18. The Czar of Russia born, 1868.                                               | Nov. 25. British evacuated New York, 1783.                              |
|                                                                                      | Dec. 14. Washington died, 1799.                                         |
|                                                                                      | Dec. 28. Woodrow Wilson born, 1856.                                     |

THE FRENCH REVOLUTIONARY ERA.

In September, 1793, the convention decreed that the common era should be abolished in all civil affairs, and that the new French era should begin on September 22, 1792, the day of the true autumnal equinox, and that each succeeding year should begin at the midnight of the day on which the true autumnal equinox falls. The year was divided into twelve months of thirty days each. In ordinary years there were five extra days, from the 17th to the 21st of our September, and at the end of every fourth year was a sixth complimentary day. This reckoning was first used on November 22, 1793, and was continued until December 31, 1805, when it was discontinued, and the Gregorian calendar, used throughout the rest of Europe, was resumed. The following were the dates for the year 1804, the last complete year of this style of reckoning:

|                                                    |                                               |
|----------------------------------------------------|-----------------------------------------------|
| Vendemiaire (Vintage), September 23 to October 22. | Germinal (Budding), March 22 to April 21.     |
| Brumaire (Foggy), October 23 to November 22.       | Floreal (Flowering), April 21 to May 20.      |
| Frimaire (Sleety), November 22 to December 21.     | Prairial (Pasture), May 21 to June 20.        |
| Nivose (Snowy), December 22 to January 21.         | Messidor (Harvest), June 20 to July 19.       |
| Ploviose (Itainy), January 21 to February 20.      | Thermidor (Hot), July 20 to August 19.        |
| Ventose (Windy), February 20 to March 19.          | Fructidor (Fruit), August 19 to September 18. |

The months were divided into three decades of ten days each, but to make up the 365 five were added at the end of September: Primidi, dedicated to Virtue; Duodi, to Genius; Tridi, to Labor; Quartidi, to Opinion; and Quintidi, to Rewards. To Leap Year, called Olympique, a sixth day, September 22 or 23, Sextidi, "the day of the Revolution," was added.

To each tenth day, thirty-six in all, were assigned thirty-six "Fetes Decadaires," decreed by the National Convention on the eighteenth Prairial, in honor of the Supreme Being and Nature, the Human Race, the French People, Benefactors of Humanity, Martyrs for Liberty, Liberty and Equality, the Republic, Liberty of the World, Love of Country, Hatred of Tyrants and Traitors, Truth, Justice, Modesty, Glory and Immortality, Friendship, Frugality, Courage, Good Faith, Heroism, Disinterestedness, Stoicism, Love, Conjugial Fidelity, Paternal Love, Maternal Tenderness, Filial Piety, Infancy, Childhood, Manhood, Old Age, Sickness, Agriculture, Industry, Our Ancestors, Our Posterity, Goodness.

## READY-REFERENCE CALENDAR.

For ascertaining any Day of the Week for any given Time within Two Hundred Years from the introduction of the New Style, 1752, \* to 1952 inclusive.

## COMMON YEARS, 1753 TO 1951.

| 1760 | 1788 | 1828 | 1856 | 1884 | ..   | 1924 | 1952 | 2 | 5 | 6 | 2 | 4 | 7 | 2 | 5 | 1 | 3 | 6 | 1 |

NOTE.—To ascertain any day of the week, first look in the table for the year required, and under the months are figures which refer to the corresponding figures at the head of the columns of days below. For Example:—To know on what day of the week July 4, 1916, will fall, look in the table of leap years for 1916, and in a parallel line under July is figure 6, which directs to column 6 in which it will be seen that July 4 falls on Tuesday.

\* 1752 same as 1772 from January 1 to September 2. From September 14 to December 31 same as 1780 (September 3–13 were omitted).

## Ritualistic Calendar.

## COLORS FOR THE ALTAR IN USE IN RITUALISTIC EPISCOPAL CHURCHES IN THE UNITED STATES.

**White**—From the First Service (First Vespers) of Christmas Day to the Octave of Epiphany inclusive (except on the Feasts of Martyrs); on Maundy Thursday (for the celebration); from the First Service of Easter Day to the Vigil of Pentecost (except on Feasts of Martyrs and Rogation Days); on Trinity Sunday, Conversion of St. Paul, Purification, Annunciation, St. John Baptist, St. Michael, St. Luke, All Saints, Saints who are not Martyrs, and Patron Saints (Transfiguration and Dedication of Church).

**Red**—From First Vespers of Pentecost to the First Vespers of Trinity Sunday (which includes Ember Days), Holy Innocents (if on a Sunday), and Feasts of all Martyrs.

**Violet**—From Septuagesima to Maundy Thursday (Easter Eve); Advent Sunday to Christmas Eve; Vigils, Ember Days (except in Whitsun Week), and Rogation Days; Holy Innocents (unless on Sunday).

**Black**—Good Friday and at funerals. **Green**—All other days.

These regulations as to colors are general. A more minute code changing with each year is published in the church almanacs.

# SEED PLANTING IN THE UNITED STATES.

(Compiled from reports of the Department of Agriculture)

## NEW ENGLAND.

| KIND OF CROP.    | Date of Planting.  | Best Soil.         | Amount of Manure per Acre. | Amount of Seed per Acre (1). | Weeks to Maturity. |
|------------------|--------------------|--------------------|----------------------------|------------------------------|--------------------|
| Corn.....        | May 10 to 30       | Sandy or clay loam | 8 to 12 tons               | 8 to 12 qts.                 | 14-17              |
| Wheat.....       | Fall or Spring     | Clay loam          | 18 tons                    | 2 bush.                      | 20                 |
| Oats.....        | Apr. to May        | Strong loam        | 6 to 8 tons                | 2 to 3 bush.                 | 11-15              |
| Barley.....      | Apr. to June 20    | Strong loam        | 7 to 8 tons                | 2 to 3 bush.                 | 10-15              |
| Rye.....         | Apr. to May, Sept. | Medium loam        | 7 to 8 tons                | 5 to 6 pecks.                | 40                 |
| Buckwheat.....   | June 1 to 20       | Light loam         | 4 to 6 tons                | 1 to 1½ bush.                | 10-15              |
| White beans..... | May to June        | Sandy loam         | 7 to 8 tons                | 8 to 16 qts.                 | 8-14               |
| Potatoes.....    | Apr. 15 to May 1   | Rich loam          | 15 to 20 tons              | 8 to 20 bush.                | 12-20              |
| Turnips.....     | July 1 to Aug. 3   | Sandy loam         | 10 tons                    | 1 lb.                        | 10                 |
| Mangels.....     | Apr. 15 to May 5   | Strong heavy loam  | 8 to 15 tons               | 4 to 6 lbs.                  | 17-22              |
| Tobacco.....     | Seed bed Apr.      | Sandy loam         | 8 to 12 tons               |                              | 9-12               |
| Hay.....         |                    |                    |                            |                              |                    |

## MIDDLE STATES

|                     |                     |                     |                      |                |       |
|---------------------|---------------------|---------------------|----------------------|----------------|-------|
| Corn.....           | Apr. 20 to May 30   | Medium loam         | 8 to 12 tons manure. | 6 to 8 qts.    | 16-18 |
| Wheat.....          | Sept. 20 to Oct. 20 | Loam                | 8 tons; 300 lbs. fer | 2 bush.        | 41-43 |
| Oats.....           | Mar. to May         | Moist clay loam     | 8 tons; 300 lbs. fer | 2 to 2½ bush.  | 16-17 |
| Barley.....         | Mar. to May         | Clay loam           | 8 tons; 300 lbs. fer | 2 to 2½ bush.  | 13-16 |
| Rye.....            | Sept. 1 to Oct. 1   | Sand or gravel loam | 8 tons; 300 lbs. fer | 1½ bush.       | 40-43 |
| Buckwheat.....      | June to July        | Loam                | 5 tons               | ½ to 1½ bush.  | 8-10  |
| White beans.....    | May to June         | Sandy loam          | 8 tons               | 1½ bush.       | 13-14 |
| Potatoes.....       | Mar. to May         | Loam                | 10 to 18 tons        | 8 to 15 bush.  | 14-22 |
| Sweet potatoes..... | May to June         | Sandy loam          |                      | 10 to 12 bush. | 10-15 |
| Cabbage.....        | Mar. to July        | Clay or sandy loam  | 300 to 600 lbs. fer. | 4 to 8 oz.     | 8-15  |
| Turnips.....        | July                | Loam                |                      | 2 to 5 lbs.    | 10-12 |
| Mangels.....        | May                 | Loam                | 10 to 20 tons        | 10 to 15 bush. | 15-18 |
| Flax.....           | May                 | Limestone loam      |                      | 20 qts         | 8-10  |
| Tobacco.....        | Seed bed Mar.       | Sandy loam          | Commercial fer.      |                | 15-20 |
| Hay, timothy.....   | Aug to Oct          | Clay loam           |                      | 6 to 8 qts.    |       |
| Hay, clover.....    | Feb. to Apr         | (Clay loam)         |                      | 6 qts          |       |

## CENTRAL AND WESTERN STATES.

|                  |                    |                     |               |                  |       |
|------------------|--------------------|---------------------|---------------|------------------|-------|
| Corn.....        | Apr. 1 to June 1   | Black or sandy loam | 5 to 10 tons  | 6 qts.           | 16-20 |
| Wheat.....       | Fall or Spring     | Strong loam         | 8 tons        | 2 bush.          | 40-42 |
| Oats.....        | Apr. 1 to May 1    | Clay loam           | 8 tons        | 2 to 3 bush.     | 12-14 |
| Barley.....      | Fall or Spring (1) | Clay loam           | 8 tons        | 2 bush.          | 11-13 |
| Rye.....         | Sept. 1 to 30      | Light loam          | 8 tons        | 1 to 2 bush.     | 35-40 |
| Buckwheat.....   | June               | Clay loam           | 5 tons        | 1 to 2 bush.     | 10-12 |
| White beans..... | May 10 to June 10  | Clay loam           | 8 tons        | 1½ bush.         | 12    |
| Potatoes.....    | Mar 15 to June 1   | Sandy loam          | 5 to 10 tons  | 5 to 10 bush.    | 10-20 |
| Turnips.....     | July 15 to Aug. 30 | Loam or muck        | 8 to 10 tons  | 1 to 6 lbs.      | 10-16 |
| Mangels.....     | Apr. 1 to May 15   | Sandy loam          | 8 to 12 tons  | 6 to 8 lbs.      | 22-24 |
| Flax.....        | Mar 15 to May 15   | Loam                | 10 to 15 tons | 2 to 3 pecks     | 15-20 |
| Tobacco.....     | Seed bed, Mar.     | Sandy loam          | 8 to 10 tons  | Oz. to 6 sq. rd. | 15-18 |
| Hay.....         | Apr. to May        | Clay loam           | 10 tons       | 8 to 15 lbs.     |       |

## SOUTHERN STATES

|                     |                    |                  |                       |                  |       |
|---------------------|--------------------|------------------|-----------------------|------------------|-------|
| Cotton.....         | Feb. to May 15     | Sandy loam (2)   |                       | 1 to 3 bush.     | 20-30 |
| Corn.....           | Feb. to June       | Rich loam        | 10 bush. cot. seed.   | 8 qts.           | 18-20 |
| Wheat.....          | Sept. to Nov.      | Clay loam (2)    | 8 tons                | 2 bush.          | 43    |
| Oats.....           | Feb., May, Sept.   | Clay loam (2)    | 8 to 10 tons          | 2½ bush.         | 17    |
| Barley.....         | Apr. to May        | Clay loam (2)    | 8 to 10 tons          | 2½ bush.         | 17    |
| Rye.....            | Sept. to Oct.      | Clay loam (2)    | 10 tons               | 1½ bush.         | 43    |
| White beans.....    | Mar. to May        | Light loam       | 8 tons                | 1 to 2 bush.     | 7-8   |
| Cabbage.....        | Oct., Mar. to May  | Light loam       | 6 to 10 tons          | ¼ to ½ lbs.      | 14    |
| Watermelons.....    | Feb. 1 to May 10   | Rich, light loam | 5 tons; 300 lbs. fer  | 2 to 7 lbs.      | 16-20 |
| Onions.....         | Feb. 1 to Apr. 10  | Loam or muck     |                       |                  | 16-24 |
| Potatoes.....       | Jan., Feb. to Apr. | Light loose loam | 8 to 12 tons          | 8 to 10 bush.    | 11-15 |
| Sweet potatoes..... | May to June        | Sandy loam       |                       | 10 to 12 bush.   | 12-15 |
| Pumpkins.....       | Apr. 1 to May 1    | Rich, light loam |                       | 4 to 7 lbs.      | 17-20 |
| Tomatoes.....       | Jan. 1 to Feb. 19  | Rich, sandy loam |                       | 2 to 9 oz.       | 14-20 |
| Turnips.....        | Feb., Aug., Apr    | Rich, light loam |                       | oz. to 6 sq. rd. | 8-12  |
| Tobacco.....        | Seed bed, Mar.     | Sandy loam       | 8 to 15 tons          |                  | 18-20 |
| Cow peas.....       | May 1 to July 15   | Sandy loam       | 200 to 300 lbs. phos. | 2 to 5 pecks.    | 6-8   |

(1) The standard varieties of seed planted in the several sections of the United States are as follows: Corn—New England, leaming, sanford, flint; Middle States, leaming, white dent, yellow dent; Central and Western States, leaming, sanford, flint, white dent; Southern States, hickory king, goar, seed, Cox prolific. Wheat—Middle States, fultz; Central and Western States, fultz, poole, fife; Southern States, fulcaster. Oats—New England, white; Middle States, white, black; Central and Western States, gray Norway, silver mine, Russian, Southern States, Texas rustproof. Barley—Middle States, mansbury; Southern States, Tennessee Winter. Rye—New England, white; Middle States, white, Winter; Central and Western States, Winter; Southern States, excelior Winter, Buckwheat—Middle States, silver hull; Central and Western States, silver hull. Potatoes—New England, green mountain, carmen 3, rose; Middle States, rose, carmen 3, rural 2; Central and Western States, hebron, rural, early rose, early Ohio. Tobacco—Central and Western States, yellow prior, Spanish, white barley. Hay, clover—Middle States, medium red. Sweet Potatoes—Middle States, yellow Jersey; Southern States, yellow Jersey. Cotton—Southern States, Texas stormproof. Spring wheat is to some extent grown in Ohio, Indiana, Illinois and many other States. It matures in eighteen to twenty weeks.

(2) In Texas the black loam is a good soil for cotton, corn, wheat and most other field crops.

## THE MOON.

Of all the secondary planets the earth's satellite is by far the most interesting and important. The moon completes her circuit around the earth in a period whose mean or average length is 27 days 7 hours 43.2 minutes; but in consequence of her motion in common with the earth around the sun, the mean duration of the lunar month, that is, the time from new moon to new moon, is 29 days 12 hours 44.05 minutes, which is called the moon's synodical period. If the earth were motionless in space the moon's orbit would be nearly an ellipse, having the earth in one of the foci; hence her distance from the earth varies during the course of a lunar month. Her mean distance from the earth is 238,830 miles. Her maximum distance, however, may reach 252,830 miles, and the least distance to which she can approach the earth is 221,520 miles. Her diameter is 2,162 miles, and if we deduct from her distance from the earth the sum of the two radii of the earth and moon, viz., 3,962 and 1,081 miles, respectively, we shall have for the nearest approach of the surfaces of the two bodies 216,477 miles. Her orbit is a very intricate one, because the earth in moving around the sun carries the moon along with it; hence the latter is sometimes within and sometimes without the earth's orbit. Its form is that of a serpentine curve, always *concave* toward the sun, and inclined to the plane of the earth's orbit at an angle of  $5^{\circ} 9'$ , in consequence of which our satellite appears sometimes above and sometimes below the plane of the earth's orbit, through which she passes twice in a revolution. These points or positions are called nodes, and no two consecutive nodes occupy positions diametrically opposite on the lunar orbit. The nodes have a retrograde motion, which causes them to make an entire revolution in 18 years, 218 days, 21 hours, 22 minutes and 46 seconds. This motion was well known to the ancients, who called it the Saros, and was made use of by them in roughly predicting eclipses.

The moon always presents the same face to us, as is evident from the permanency of the various markings on its surface. This circumstance proves that with respect to the earth she revolves on an axis, and the time of rotation is exactly equal to the time of revolution around the earth, viz., 27.32166 days. The moon's axis is not perpendicular to the plane of her orbit, but deviates therefrom by an angle of about  $6^{\circ} 41'$ . In consequence of this fact, and of the inclination of the lunar orbit to that of the ecliptic, the poles of the moon lean alternately to and from the earth. When the north pole leans toward the earth we see somewhat more of the region surrounding it, and somewhat less when it leans the contrary way. This displacement is known by the name of libration in latitude.

The moon's motion on her axis is uniform, but her angular velocity in her orbit is subject to slight variations by reason of the form of her orbit; hence it happens that we sometimes see a little more of the eastern or western edge at one time than at another. This phenomenon is known as libration in longitude.

The moon's surface contains about 14,685,000 square miles, or nearly four times the area of Europe. Her volume is 1.49 and her mass 1.81 that of the earth, and hence her density is about 3.5 that of the earth, or about 3.25 that of water. At the lunar surface gravity is only 3.20 of what it is at the earth, and therefore a body which weighs 20 pounds here would weigh only 3 pounds there.

The centre of gravity of the earth and moon, or the point about which they both actually revolve in their course around the sun, lies *within* the earth; it is 1,063 miles below the surface.

The attractive force of the moon acting on the water of our oceans is mainly instrumental in raising them into protuberances or tides in such a manner as to give the total mass a spheroidal figure whose principal axis would continually coincide with the line joining the centres of the earth and moon, but in consequence of the resistance which this movement of the water encounters from continents and islands, as well as from the liquid molecules themselves, the tidal wave can never arrive at any place until about one hour after the moon has crossed the meridian of the place.

The moon has no atmosphere and no water. The suddenness with which stars are occulted by the moon is regarded as a conclusive proof that a lunar atmosphere does not exist, and the spectroscopic furnishes negative evidence of the same character.

In remote ages the lunar surface was the theatre of violent volcanic action, being elevated into cones and ridges exceeding 20,000 feet high, and at other places rent into furrows or depressions of corresponding depth. The lunar volcanoes are now extinct. A profound silence reigns over the desolate and rugged surface. It is a dead world, utterly unfit to support animal or vegetable life.

## THE EARTH'S ATMOSPHERE.

The earth's sensible atmosphere is generally supposed to extend some forty miles in height, probably further, but becoming at only a few miles from the surface of too great a tenuity to support life. The condition and motions of this aerial ocean play a most important part in the determination of climate, modifying, by absorbing, the otherwise intense heat of the sun, and, when laden with clouds, hindering the earth from radiating its acquired heat into space.

## HALLEY'S COMET.

Of the great number of comets which have temporarily visited our solar system or have become permanent members of it none has surpassed Halley's in historical associations. It has a record dating back to B. C. 240; its visitations spread alarm and consternation throughout Europe during the Middle Ages; was the first whose return was predicted by an Astronomer Royal of England, and will therefore, for these reasons, be an object of great scientific interest for all time. For the information of those who appreciate such matters the following are the elements of its orbit as deduced from the last visitation:

Perihelion Passage 1910, April, 19.67. Greenwich Mean Time.

|                                                                         |                                                             |

| Eccentricity = 0.967281.                                                | Longitude of the ascending node = $57^{\circ} 16' 12''$ .   |
| Semi-axis major = 17.9468.                                              | Distance from perihelion to node = $111^{\circ} 42' 16''$ . |
| Perihelion distance = 0.58720.                                          | Daily motion (mean) = $46''.669$ .                          |
| Inclination to the plane of the earth's orbit = $17^{\circ} 47' 18''$ . | Period = 74.424 years.*                                     |
|                                                                         | Motion, retrograde.                                         |

The semi-axis major and the perihelion distance are expressed in terms of the earth's mean distance from the sun, taken as unity. See also article on Halley's Comet and on Comets in ALMANACS of 1910 and 1911.

\* The periodic time varies considerably by reason of the attraction of the planets. Its average duration is about 76.5 years.—J. M.

From June 16 to August 1 both the upper and lower transits take place during daylight. The azimuth at the time of greatest Eastern or Western elongation can be easily computed from the formula:

$$\sin A = \frac{\sin p}{\cos l}$$

where  $A$  denotes the azimuth,  $p$  the polar distance, and  $l$  the latitude of the place.

## DATE OF GREATEST ELONGATION.

To find the time of greatest Eastern or Western elongation, let  $H$  denote the hour angle, and  $l$  and  $p$  as before, then we shall have

$$\cos H = \tan p \tan l.$$

And the hour angle in mean time is

$$H_m = H^p \times 0.0664846.$$

This quantity,  $H_m$ , added to or subtracted from the time of transit given above, according to the elongation required, will give the mean time of the greatest elongation at any place whose north latitude is  $l$ .

## STAR TABLE.

FOR IDENTIFYING THE PRINCIPAL FIXED STARS.

| NAME OF STAR.                   | Declination | On Meridian. |           | NAME OF STAR.              | Declination | On Meridian. |           |
|---------------------------------|-------------|--------------|-----------|----------------------------|-------------|--------------|-----------|
|                                 |             | Upper.       | Lower.    |                            |             | Upper.       | Lower.    |

| $\alpha$ Aurigæ (Capella)       | + 45 54     | + 2 47 6     | + 15 45 1 | $\alpha$ Lyræ (Vega)       | + 38 42     | + 17 9 3     | + 5 7 3   |
| $\alpha$ Orionis (Betelgeuse)   | + 7 23      | + 4 27 6     | + 16 25 6 | $\alpha$ Aquilæ (Altair)   | + 8 38      | + 18 21 4    | + 6 19 4  |
| $\alpha$ Canis Majoris (Sirius) | - 16 36     | + 5 18 4     | + 17 16 4 | $\alpha$ Cygni (Deneb)     | + 44 58     | + 19 15 5    | + 7 11 5  |
| $\alpha$ Geminorum (Pollux)     | + 32 5      | + 6 5 7      | + 18 3 7  | $\alpha$ Cephei            | + 62 13     | + 19 51 5    | + 7 49 5  |
| $\alpha$ Geminorum (Castor)     | + 28 14     | + 6 16 6     | + 18 14 6 | $\alpha$ Aquarii           | - 0 45      | + 20 35 8    | + 8 33 8  |
| $\alpha$ Canis Minor (Procyon)  | + 5 27      | + 6 11 6     | + 18 9 6  | $\alpha$ Piscis Australis  | - 30 5      | + 21 27 1    | + 9 25 1  |
|                                 |             |              |           | $\alpha$ Pegasi (Markab)   | + 14 44     | + 21 34 7    | + 9 32 7  |

To find the time of the star's transit add or subtract, according to the sign, the numbers in the second column of figures to the date of the transit of the pole star given above. Thus, for  $\alpha$  Andromedæ February 11. Lower Transit of Pole Star is 4 h. 8 m. 41 s. A. M., to which add 10 h. 40 m. and we have 2 h. 48 m. 41 s. P. M.; for December 1, we find 7 h. 30 m. 35 s. P. M., etc.

APPROXIMATE PARALLAX AND DISTANCE IN LIGHT-YEARS OF SOME OF THE PRINCIPAL FIXED STARS.

By light-years is to be understood the number of years light requires to travel from the star to us.

|                                  | Parallax. | Light-Years. |                      | Parallax.   | Light-Years. |
|----------------------------------|-----------|--------------|----------------------|-------------|--------------|
| Polaris (Pole Star)              | 0.073     | 45           | $\alpha$ Lyræ (Vega) | 0.140       | 23           |
| $\alpha$ Aurigæ (Capella)        | 0.046     | 71           | $\beta$ Cygni        | 0.348-0.564 | 6-8          |
| $\alpha$ Canis Majoris (Sirius)  | 0.253     | 15           | $\beta$ Cassiopeiæ   | 0.187       | 17           |
| $\alpha$ Canis Minoris (Procyon) | 0.123     | 27           | $\gamma$ Draconis    | 0.127       | 26           |
| $\alpha$ Bootis (Arcturus)       | 0.127     | 28           | $\delta$ Pegasi      | 0.054       | 60           |
| $\alpha$ Centauri                | 0.916     | 3.6          |                      |             |              |

The determination of stellar parallax is one of the most difficult and refined problems in practical or observational astronomy. It is to find the angle which the semi-diameter of the earth's orbit subtends at the star—an angle always very small, as seen from the above table, and which cannot be measured directly but by various processes too complicated to be explained here.

## ASTRONOMICAL PHENOMENA FOR THE YEAR 1916.

## ASTRONOMICAL SIGNS AND SYMBOLS.

|   |            |   |          |   |                  |
|---|------------|---|----------|---|------------------|
| ☉ | The Sun.   | ♂ | Mars.    | ♂ | Conjunction.     |
| ☾ | The Moon.  | ♃ | Jupiter. | ☐ | Quadrature.      |
| ☿ | Mercury.   | ♄ | Saturn.  | ☊ | Opposition.      |
| ♀ | Venus.     | ♅ | Uranus.  | ♊ | Ascending Node.  |
| ♁ | The Earth. | ♆ | Neptune. | ♋ | Descending Node. |

Two heavenly bodies are in "conjunction" (♌) when they have the same *Right Ascension*, or are on the *same meridian*, i. e., when one is due *north or south* of the other; if the bodies are near each other as seen from the earth, they will rise and set at the same time; they are in "opposition" (♍) when in opposite quarters of the heavens, or when one rises just as the other is setting. "Quadrature" (☐) is half way between conjunction and opposition. By "greatest elongation" is meant the greatest apparent *angular* distance from the sun; the planet is then generally most favorably situated for observation. Mercury can only be seen with the naked eye at this time. When a planet is in its "ascending" (♊) or "descending" (♋) node it is crossing the plane of the earth's orbit. The term "Perihelion" means nearest, and "Aphelion" furthest, from the sun. An "occultation" of a planet or star is an eclipse of it by some other body, usually the moon.

## PLANETARY CONFIGURATIONS, 1916—Continued.

[illegible]

## THE MAGNETIC POLES.

**THE** geographical poles of the earth are the extremities of the imaginary line passing through its centre of gravity and about which it revolves, and are therefore symmetrically located with regard to the equator.

The magnetic poles, however, are not coincident with the geographical poles, nor are they diametrically opposite to each other. Prior to the recent attempt of Amundsen to determine the north magnetic pole, the only other was by Capt. James Ross in June, 1831, who found the dip of the magnetic needle to be  $89^{\circ} 59' .5$ , in latitude  $70^{\circ} 5' .2$  N. and longitude  $96^{\circ} 45' .8$  W., which is in King William Land, Canada. The result of Amundsen's observations has not yet been published by the Norwegian authorities.

According to the United States Coast and Geodetic Survey, the position latitude  $72^{\circ}.7$  S. and longitude  $156^{\circ}$  E. has been tentatively adopted. These values are only roughly approximate, and for that reason are given only in degrees and tenths.

By reason of the annual variation of the magnetic needle, it is believed that the magnetic poles are not stationary, but have a slow motion around the geographical poles. The subject is shrouded in mystery and constitutes one of the many as yet unsolved problems in terrestrial physics.

## THE SUN'S RIGHT ASCENSION AND DECLINATION.

(WASHINGTON—APPARENT NOON.)

## ASTRONOMICAL CONSTANTS.

MEAN solar parallax, 8".80. Nutation constant, 9".21.

Aberration constant, 20".47. Annual precession, 50".2564.

Obliquity of the ecliptic, 23° 27' 8".26—0".4684 (t—1900).

Annual diminution of obliquity, 0".4684.

Moon's equatorial horizontal parallax, 57' 2".68.

Moon's mean distance from the earth (centre to centre), 238,850 miles.

Sun's mean distance from the earth (astronomical unit), 92,894,800 miles.

Velocity of light, 186,320 miles per second.

Light travels unit of distance—viz. 92,894,800 miles in 498.566 seconds.

Length of the Year—Tropical (equinox to equinox), 365.24219885 days.

Sidereal or absolute revolution, 365.2563604 days.

Anomalistic (from perihelion to perihelion), 365.2596413 days.

Length of the Day—Sidereal, 23 hours 56 minutes 4.091 seconds (mean solar time). Mean solar, 24 hours 3 minutes 56.555 seconds (sidereal time).

Length of the Month—Synodical (from new moon to new moon), 29 days 12 hours 44 minutes 2.8 seconds. Tropical, 27 days 7 hours 43 minutes 4.7 seconds. Sidereal (absolute revolution), 27 days 7 hours 43 minutes 11.5 seconds. Anomalistic (from perigee to perigee), 27 days 13 hours 18 minutes 33.1 seconds.

Dimensions of the Earth—Equatorial radius, 3963.23 miles. Polar radius, 3949.79 miles.

Eccentricity of the oblate spheroid, 0.0822718.

## EARTHQUAKE AREAS OF THE EARTH.

FROM Major de Montessus de Balore's catalogue of 130,000 shocks, indicating with some scientific accuracy how the symptoms of seismic activity are manifested over the earth's surface. The period of observation includes generally the last fifty years; but there is no reason to suppose that a longer time would materially affect the proportionate numbers.

The most shaken countries of the world are Italy, Japan, Greece, South America (the Pacific coast), Java, Sicily, and Asia Minor. The lands most free from these convulsions are Africa, Australia, Russia, Siberia, Scandinavia, and Canada. As a rule, where earthquakes are most frequent they are most severe. But to this general statement there are exceptions—Indian shocks, though less numerous, being often very disastrous. Loss of life in many cases depends, however, on density of population rather than on the intensity of the earth movement. Numerically, also, France has registered more seismic tremors than Spain and Portugal, but France in historic times has experienced no earthquake disaster approaching the havoc wrought by the one calamity at Lisbon.

## HUMIDITY.

## MEAN RELATIVE HUMIDITY, IN PERCENTAGES.

From a table prepared by the United States Weather Bureau, showing the monthly and annual values of relative humidity at regular Weather Bureau stations in the United States, based upon observations made at 8 A.M. and 8 P.M. respectively, 75th meridian time and covering a period of about 14 years of record.

**THE GEOLOGICAL STRATA.**

THE strata composing the earth's crust is divided by most geologists into two great classes: 1. Those generally attributed to the agency of water. 2. To the action of fire; which may be subdivided as follows: (a) Aqueous formations, stratified, rarely crystalline (sedimentary or fossiliferous rocks; metamorphic or unfossiliferous) (b) Igneous formations, unstratified, crystalline (volcanic, as basalt; plutonic, as granite).

The geological record is classified into five main divisions or periods: 1. The Archæan, lifeless and dawn of life. 2. The Palæozoic (ancient life). 3. The Mesozoic (middle life). 4. The Cenozoic (recent life). 5. Quaternary, the age in which man's first appearance is indicated.

| PERIODS.           |                       | Eras.                        |              | Series.                                                                                   | Subdivisions.                                                                                                                                                                                                                |

## MAGNETIC DECLINATIONS.

OR VARIATION OF COMPASS FOR JANUARY, 1916—WITH THE ANNUAL CHANGE BETWEEN 1910 AND 1915 FOR THE PRINCIPAL PLACES IN THE UNITED STATES.

A plus (+) sign to the annual change denotes that the declination is increasing, and a minus (—) sign the reverse.

(Specially prepared for THE WORLD ALMANAC in the Office of the United States Coast and Geodetic Survey.)

**RULES FOR FORETELLING THE WEATHER.****ADAPTED FOR USE WITH ANEROID BAROMETERS.****A RISING BAROMETER.**

A **RAPID** rise indicates unsettled weather.

A **gradual** rise indicates settled weather.

A rise with dry air and cold increasing in Summer indicates wind from the northward; and if rain has fallen, better weather may be expected.

A rise with moist air and a low temperature indicates wind and rain from the northward.

A rise with southerly winds indicates fine weather.

**A STEADY BAROMETER.**

With dry air and seasonable temperature indicates a continuance of very fine weather.

**A FALLING BAROMETER.**

A **rapid** fall indicates stormy weather.

A rapid fall with westerly wind indicates stormy weather from the northward.

A fall with a northerly wind indicates storm, with rain and hail in Summer, and snow in Winter.

A fall with increased moisture in the air, and heat increasing, indicates wind and rain from the southward.

A fall with dry air and cold increasing in Winter indicates snow.

A fall after very calm and warm weather indicates rain with squally weather.

The barometer rises for northerly winds, including from north-west by north to the eastward for dry, or less wet weather, for less wind, or for more than one of these changes, except on a few occasions, when rain, hail, or snow comes from the northward with strong wind.

The barometer falls for southerly wind, including from south-east by south to the westward, for wet weather, for stronger wind or for more than one of these changes, except on a few occasions, when moderate wind, with rain or snow, comes from the northward.

The above printed rules are in use by the Seawanhaka Corinthian Yacht Club of New York.

**DURATION OF DIFFERENT KINDS OF WEATHER IN THE SEVERAL STORMS—VICINITY OF NEW YORK.**

| CRITICAL WINDS          | Clear<br>Hours | Cloudy<br>Hours. | Rain<br>Hours. | Clearing<br>Hours |
|-------------------------|----------------|------------------|----------------|-------------------|
| South to Southwest..... | 9              | 8                | 8.3            | 14                |
| South to Southeast..... | 14             | 13.4             | 15.6           | 15.4              |
| East to Northeast.....  | 20             | 17.6             | 31             | 20.6              |

**WEATHER WISDOM.**

**SUNSET COLORS.**—A gray, lowering sunset, or one where the sky is green or yellowish-green, indicates rain. A red sunrise, with clouds lowering later in the morning, also indicates rain.

**HALO (SUN DOGS).**—By halo we mean the large circles, or parts of circles, about the sun or moon. A halo occurring after fine weather indicates a storm.

**CORONA.**—By this term we mean the small colored circles frequently seen around the sun or moon. A corona growing smaller indicates rain; growing larger, fair weather.

**RAINBOWS.**—A morning rainbow is regarded as a sign of rain; an evening rainbow of fair weather.

**SKY COLOR.**—A deep-blue color of the sky, even when seen through clouds, indicates fair weather; a growing whiteness, an approaching storm.

**FOGS.**—Fogs indicate settled weather. A morning fog usually breaks away before noon.

**VISIBILITY.**—Unusual clearness of the atmosphere, unusual brightness or twinkling of the stars, indicate rain.

**FROST.**—The first frost and last frost are usually preceded by a temperature very much above the mean.

**OBJECTS VISIBLE AT SEA-LEVEL IN CLEAR WEATHER.**

The following table shows the distance at sea-level at which objects are visible at certain elevations.

| ELEVATION—FEET. | Miles. | ELEVATION—FEET. | Miles. | ELEVATION—FEET. | Miles. |
|-----------------|--------|-----------------|--------|-----------------|--------|
| 1               | 1.31   | 30              | 7.25   | 90              | 12.25  |
| 5               | 2.96   | 35              | 7.83   | 100             | 13.23  |

The lowest point of dry land in United States is in Death Valley, Cal., 276 feet below sea level.  
NOTE.—The above table was prepared for THE WORLD ALMANAC by the Topographic branch of the United States Geological Survey. It should be stated in connection with this table that it presents only points whose heights are matters of record, and that in several cases in the high mountain region of the far West and the Pacific Slope it is thought there may be higher points within the State or Territory whose heights are not yet known with accuracy, and consequently cannot be given.

This table was revised by the United States Geological Survey to October 1, 1916.

**WEATHER FLAGS****OF THE WEATHER BUREAU, U. S. DEPARTMENT OF AGRICULTURE.**

THE Weather Bureau furnishes, when practicable, for the benefit of all interests dependent upon weather conditions, the "Forecasts" which are prepared daily at the Central Office in Washington, D. C., and certain designated stations. These forecasts are telegraphed to stations of the Weather Bureau, railway officials, postmasters, and many others, to be communicated to the public by telegraph, telephone and mail or by means of flags or steam whistles. The flags adopted for this purpose are five in number, and of the forms and colors indicated below:

**EXPLANATION OF WEATHER FLAGS.****No. 1.**  
**White Flag.****Fair weather.****No. 2.**  
**Blue Flag.****Rain or snow.****No. 3.**  
**White and Blue Flag.****Local rain or snow.****No. 4.**  
**Black Triangular Flag.****Temperature.****No. 5.**  
**White Flag with black square in centre.****Cold wave.**

When number 4 is placed above number 1, 2 or 3, it indicates warmer; when below, colder; when not displayed, the temperature is expected to remain about stationary. During the late Spring and early Fall the cold-wave flag is also used to indicate anticipated frosts.

**WHISTLE SIGNALS.**

A warning blast of from fifteen to twenty seconds' duration is sounded to attract attention. After this warning the longer blasts (of from four to six seconds' duration) refer to weather, and shorter blasts (of from one to three seconds' duration) refer to temperature; those for weather are sounded first.

|                 |                     |
|-----------------|---------------------|
| Blasts.....     | Indicate.           |
| One long.....   | Fair weather.       |
| Two long.....   | Rain or snow.       |
| Three long..... | Local rain or snow. |

|                  |                     |
|------------------|---------------------|
| Blasts.....      | Indicate.           |
| One short.....   | Lower temperature.  |
| Two short.....   | Higher temperature. |
| Three short..... | Cold wave.          |

By repeating each combination a few times, with intervals of ten seconds, liability to error in reading the signals may be avoided.

As far as practicable, the forecast messages are telegraphed at the expense of the Weather Bureau; but if this is impracticable, they are furnished at the regular commercial rates and sent "collect." In no case are the forecasts sent to a second address in any place, except at the expense of the applicant.

Persons desiring to display the flags or sound the whistle signals for the benefit of the public should communicate with the Weather Bureau officials in charge of the central stations of their respective States, which are as follows:

Alabama, Montgomery.  
 Arizona, Phoenix.  
 Arkansas, Little Rock.  
 California, San Francisco.  
 Colorado, Denver.  
 Florida, Jacksonville.  
 Georgia, Atlanta.  
 Idaho, Boise.  
 Illinois, Springfield.  
 Indiana, Indianapolis.  
 Iowa, Des Moines.  
 Kansas, Topeka.  
 Kentucky, Louisville.  
 Louisiana, New Orleans.  
 Maryland, Baltimore  
 (for Delaware and Maryland).

Massachusetts, Boston  
 (for New England).  
 Michigan, Grand Rapids.  
 Minnesota, Minneapolis.  
 Mississippi, Vicksburg.  
 Missouri, Columbia.  
 Montana, Helena.  
 Nebraska, Lincoln.  
 Nevada, Reno.  
 New Jersey, Trenton.  
 New Mexico, Santa Fé.  
 New York, Ithaca.  
 North Carolina, Raleigh.  
 North Dakota, Bismarck.  
 Ohio, Columbus.

Oklahoma, Oklahoma.  
 Oregon, Portland.  
 Pennsylvania, Philadelphia.  
 South Carolina, Columbia.  
 South Dakota, Huron.  
 Tennessee, Nashville.  
 Texas, Houston.  
 Utah, Salt Lake City.  
 Virginia, Richmond.  
 Washington, Seattle.  
 West Virginia, Parkersburg.  
 Wisconsin, Milwaukee.  
 Wyoming, Cheyenne.

**THE ANCIENT AND MODERN YEAR.**

THE Athenians began the year in June, the Macedonians in September, the Romans first in March and afterward in January, the Persians on August 11, the ancient Mexicans on February 23, the Mohammedans in July. The Chinese year, which begins early in February, is similar to the Mohammedan in having 12 months of 29 and 30 days alternately; but in every nineteen years there are seven years which have 13 months. This is not quite correct, and the Chinese have therefore formed a cycle of 60 years, in which period 22 intercalary months occur.

### SMALL CRAFT, STORM AND HURRICANE WARNINGS OF THE WEATHER BUREAU, U. S. DEPARTMENT OF AGRICULTURE.

All square flags shown here are red with black centre when displayed as warnings.

Small craft.

Storm.

Hurricane.

NW. winds.

SW. winds.

NE. winds.

SE. winds.

*Small Craft Warning*—A red pennant indicates that moderately strong winds are expected.  
*Storm Warning*—A red flag with a black centre indicates that a storm of marked violence is expected.

The pennants displayed with the flags indicate the direction of the wind: white, westerly; red, easterly. The pennant above the flag indicates that the wind is expected to blow from the northerly quadrants; below, from the southerly quadrants.

By night a red light indicates easterly winds, and a white light below a red light westerly winds.

*Hurricane Warning*—Two red flags with black centres, displayed one above the other, indicate the expected approach of a tropical hurricane, and also one of those extremely severe and dangerous storms which occasionally move across the Lakes and Northern Atlantic coast.

Neither small craft nor hurricane warnings are displayed at night.

### VELOCITY OF WINDS IN THE UNITED STATES.

AVERAGE hourly velocity of the wind at selected stations of the United States Weather Bureau, also the highest velocity ever reported for a period of five minutes. (Prepared by Chief of the U. S. Weather Bureau, and revised to January 1, 1915, for THE WORLD ALMANAC.)

| STATIONS.              | Average Hourly Velocity. |     | Highest Ever Reported. | STATIONS.               | Average Hourly Velocity. |     | Highest Ever Reported. | STATIONS.               | Average Hourly Velocity. |     | Highest Ever Reported. |

### LOSS BY LIGHTNING IN THE UNITED STATES.

THE Weather Bureau of the United States Department of Agriculture in October, 1900, issued a bulletin giving these facts: In 1899 the total number of strokes of lightning which caused damage was 5,527; number of buildings injured, 6,256; value of property lost, \$3,016,520; number of deaths by lightning during the year, 563; number of persons injured, 820; number of live stock killed in the fields, 4,261; value, \$129,955. These are the latest available statistics.

The Chronicle Fire Tables record 3,012 fires caused by lightning in the United States in 1902, the property loss occasioned thereby being \$3,396,810. These are the latest reported statistics on the subject.

## CANALS IN CANADA

|                                  |              |      |       |                                                                |
|----------------------------------|--------------|------|-------|----------------------------------------------------------------|
| Chambly.....                     | \$728,999    | 12   | 6½    | This canal overcomes the rapids between Chambly and St. Johns. |
| Cornwall.....                    | 7,242,804    | 11   | 14    | Cornwall to Dickinson's Landing.                               |
| Lachine.....                     | 13,404,970   | 8½   | 14-18 | Montreal to Lachine.                                           |
| Rideau.....                      | 5,531,332    | 133½ | 5     | Connects River Ottawa with Lake Ontario.                       |
| Sault Ste Marie (ship canal).... | 5,000,000    | 1½   | 18½   | Connects Lake Superior and Huron at St. Mary's River.          |
| Soulanges.....                   | 8,000,000    | 14   | 15    | Cascade Point to Coteau Landing.                               |
| Trent.....                       | 13,611,000   | 236  | 6-8½  | Connects Lake Ontario and Lake Huron via Trent River.          |
| Welland (ship canal).....        | \$29,250,951 | 26½  | 14-25 | Connects Lake Ontario and Lake Erie.                           |
| †Williamsburg.....               | 10,492,184   | 12½  | 9-14  | Along St. Lawrence River.                                      |

\* And improvements. † Navigable depth. || Under construction. § Not including cost of improvements and changes in locks, etc., now under way and involving an additional cost of about \$20,000,000. †† Consisting of the Farnans Point, Rapide Plat and Galops Canals. (a) Original cost of canal extending from Cleveland to Portsmouth, 317 miles, but now abandoned between Portsmouth and Dresden.

† The Erie Canal, Oswego Canal and Champlain Canal have been enlarged by the State of New York to a depth of 12 feet, and with locks of a capacity to pass barges having a net tonnage capacity of 2,000 tons each. The enlarged Champlain Canal between Northumberland and Whitehall, a distance of thirty-five miles, was completed and placed in commission in May, 1914. The Oswego (Barge) Canal is now open between the Erie Canal at Syracuse and Lake Ontario at Oswego for boats of six foot draft. Several large sections of the Erie Barge Canal already have been completed and are in commission. At the time the ALMANAC went to press the report of the State Superintendent of Public Works indicated that the entire canal from the Hudson River to Lake Ontario will be ready for operation in the season of 1917. The original estimated cost of enlarging the Erie, Champlain and Oswego Canals was \$101,000,000, but has since been increased by \$19,000,000 for terminals and \$8,000,000 for branches. The plan of improvement covers 440 miles of construction and 350 miles of canalized rivers and lakes, or 790 miles altogether.

\*\* The cost of enlarging the Cayuga and Seneca Canal to the same capacity as the improved Erie Canal is estimated at \$7,000,000.

| SOME FOREIGN CANALS.                              | Length, Miles. | Depth, Feet. | Bottom Width, Feet. | Estimated Cost. |

## TONNAGE ON CANALS.

| CANALS.                    | Year. | Tonnage    | CANALS.                   | Year. | Tonnage.   |
|----------------------------|-------|------------|---------------------------|-------|------------|
| Suez.....                  | 1914  | 19,409,495 | Sault Ste Marie.....      | 1914  | 55,309,934 |
| Manchester.....            | 1913  | 5,780,161  | All New York Canals*..... | 1914  | 2,080,850  |
| Kaiser Wilhelm (Kiel)..... | 1913  | 10,202,153 |                           |       |            |

\* This was divided among the several canals as follows: Erie, 1,361,764 tons; Champlain, 492,014 tons; Oswego, 55,795 tons; Cayuga and Seneca, 128,698 tons; Black River, 42,669 tons. The total value of the shipments was \$28,277,991. In addition to the use of the canals by commercial craft, about 2,000 permits were granted to pleasure boats.

## FACTS ABOUT THE EARTH.

(Revised by the National Geographic Society of Washington, D. C., from the latest available figures and estimates.)

THE superficial area of the earth is estimated to be 196,550,000 square miles, of which 55,500,000 square miles are land and 141,050,000 square miles water. The diameter of the earth at the equator is 7,926 miles, and at the poles 7,899 miles. The equatorial circumference is 24,872.4 miles, divided into 360 degrees of longitude, each of 69.09 (or 60 geographical) miles; these degrees are measured from the Meridian of Greenwich, and numbered east and west of that point to meet in the Antipodes at the 180th degree. Distance north and south of the equator is marked by parallels of latitude, which proceed from zero (at the equator) to 90° at the poles.

## AREA AND POPULATION OF THE EARTH BY CONTINENTS.

| CONTINENTAL DIVISIONS. | Area in Square Miles. | INHABITANTS. |               | CONTINENTAL DIVISIONS. | Area in Square Miles. | INHABITANTS.  |               |
|------------------------|-----------------------|--------------|---------------|------------------------|-----------------------|---------------|---------------|
|                        |                       | Number.      | Per Sq. Mile. |                        |                       | Number.       | Per Sq. Mile. |
| Africa.....            | 11,632,000            | 127,312,000  | 10.9          | Australasia.....       | 3,456,290             | 8,000,000     | 2.31          |
| America, N.....        | 7,146,641             | 136,939,000  | 19.1          | Europe.....            | 3,671,624             | 458,795,000   | 124.9         |
| America, S.....        | 7,244,508             | 55,444,000   | 7.05          | Polar Reg.....         | 6,970,000             | 300,000       | .04           |
| Asia.....              | 17,470,282            | 842,100,000  | 48.02         | Total.....             | 57,691,345            | 1,628,890,000 | 29.9          |

The estimates in the above tables are based on the statistics of area and population of the various countries occupying each continent as disclosed by the Statesman's Yearbook. The statement as to the polar continent of course is only an approximation. These seem to be the most dependable statistics of area and population that can be had.

The best estimates of the earth's area place the fertile regions at 29,000,000 square miles; steppes at 14,000,000 square miles; deserts at 4,861,000 square miles; and polar regions at 6,970,000 square miles.

The population of the earth at the death of Emperor Augustus, estimated by Bodio, was 54,000,000. The population of Europe hardly exceeded 50,000,000 before the fifteenth century.—*Muhlhall*. The population of the earth, at its present ratio of gain, will be about 4,000,000,000 in 2014.

The proportion of females to each 1,000 males in 1910 was: United States, 934; England, 1,068; Germany, 1,026. In France (1901), 1,033.

The area and cubic contents of the earth are approximately as follows: Surface, 196,791,000 square miles; cubic contents 259,944,035,515 cubic miles.

The deepest trench in the seas yet discovered is off Mindanao, in the Pacific, 32,088 feet deep. Seven other soundings in the Pacific show depths greater than 30,000 feet. From the bottom of the deepest hole in the seas to the top of the highest peak on the land (Mt. Everest) there is a range of 61,090 feet, which on a globe six feet in diameter would be represented by the tenth of an inch. The deepest place yet found in the Atlantic Ocean is in Nare's Deep, to the north of the West Indies, 27,972 feet; of the Indian Ocean, 21,965 feet. According to Murray the area of the oceans approximates 139,400,000 square miles, divided between the three great oceans as follows: Atlantic 41,321,000 square miles; Pacific 68,634,000 square miles, and Indian, 29,430,000 square miles.

## HIGHEST AND LOWEST CONTINENTAL ALTITUDES.

|                  | HIGHEST POINT.                        | Elevation (ft.). | Lowest Point.                      | Below Sea Level (ft.). |

For statistics of earth's population according to creed, see RELIGIOUS STATISTICS.

The human family is subject to 54 independent and three quasi-independent governments. The British Empire and Russia are the largest two, while Monaco with its eight square miles and San Marino with its thirty-eight square miles of territory are the smallest two. The absolute monarchies are Abyssinia, Afghanistan, Morocco, Siam, Oman, and Monaco; the limited monarchies are Albania, Austria-Hungary, Belgium, Bhutan, British Empire, Bulgaria, Denmark, German Empire, Greece, Italy, Japan, Liechtenstein, Luxemburg, Montenegro, Nepal, Netherlands, Norway, Persia, Rumania, Russia, Servia, Spain, Sweden, and Turkey; the republics are Andorra, Argentina, Bolivia, Brazil, Chile, China, Colombia, Costa Rica, Cuba, Ecuador, Guatemala, Haiti, Honduras, Liberia, Mexico, Nicaragua, Panama, Paraguay, Peru, Portugal, Salvador, San Marino, Santo Domingo, Switzerland, United States, Uruguay, Venezuela.

The average duration of human life is about 33 years. One-quarter of the people on the earth die before age 6, one-half before age 16, and only about 1 person of each 100 born lives to 65.

These estimates (that for 1801 being by Muhlhall) exhibit the superior growth of the English language.

## METRIC SYSTEM OF WEIGHTS AND MEASURES.

THE METRIC SYSTEM has been adopted by Mexico, Brazil, Chile, Peru, etc., and except Russia and Great Britain, where it is permissive, by all European nations. Various names of the preceding systems are, however, frequently used: In Germany,  $\frac{1}{2}$  kilogram = 1 pound; in Switzerland, 3-10 of a metre = 1 foot, etc. If the first letters of the prefixes *deka*, *hecto*, *kilo*, *myria*, from the Greek, and *deci*, *centi*, *milli*, from the Latin, are used in preference to our plain English, 10, 100, etc., it is best to employ capital letters for the multiples and small letters for the subdivisions, to avoid ambiguities in abbreviations: 1 dekametre or 10 metres = 1 dm.; 1 decimetre or 1-10 of a metre = 1 dm.

The METRE, unit of length, is nearly the ten-millionth part of a quadrant of a meridian, of the distance between Equator and Pole. The International Standard Metre is, practically, nothing else but a length defined by the distance between two lines on a platinum-iridium bar at 0° Centigrade, deposited at the International Bureau of Weights and Measures, Paris, France.

The LITRE, unit of capacity, is derived from the weight of one kilogram pure water at greatest density, a cube whose edge is one-tenth of a metre and, therefore, the one-thousandth part of a metricton.

The GRAM, unit of weight, is a cube of pure water at greatest density, whose edge is one-hundredth of a metre, and, therefore, the one-thousandth part of a kilogram, and the one-millionth part of a metricton.

The Metric System was legalized in the United States on July 28, 1866, when Congress enacted as follows:

"The tables in the schedule hereto annexed shall be recognized in the construction of contracts, and in all legal proceedings, as establishing, in terms of the weights and measures now in use in the United States, the equivalents of the weights and measures expressed therein in terms of the metric system, and the tables may lawfully be used for computing, determining, and expressing in customary weights and measures the weights and measures of the metric system."

The following are the tables annexed to the above:

## MEASURES OF LENGTH.

| Metric Denominations and Values. |                    | Equivalents in Denominations in Use. |                                |
|----------------------------------|--------------------|--------------------------------------|--------------------------------|
| Myriametre.....                  | 10,000 metres.     | 6 2137                               | miles.                         |
| Kilometre.....                   | 1,000 metres.      | 0.62137                              | mile, or 3,280 feet 10 inches. |
| Hectometre.....                  | 100 metres.        | 328                                  | feet 1 inch.                   |
| Dekametre.....                   | 10 metres.         | 393 7                                | inches.                        |
| Metre.....                       | 1 metre.           | 39.37                                | inches.                        |
| Decimetre.....                   | 1-10 of a metre.   | 3.937                                | inches.                        |
| Centimetre.....                  | 1-100 of a metre.  | 0.3937                               | inch.                          |
| Millimetre.....                  | 1-1000 of a metre. | 0.0394                               | inch.                          |

## MEASURES OF SURFACE.

| Metric Denominations and Values. |                       | Equivalents in Denominations in Use. |                |
|----------------------------------|-----------------------|--------------------------------------|----------------|
| Hectare.....                     | 10,000 square metres. | 2.471                                | acres.         |
| Are.....                         | 100 square metres.    | 119.6                                | square yards.  |
| Centare.....                     | 1 square metre.       | 1,550                                | square inches. |

## MEASURES OF CAPACITY.

| Metric Denominations and Values. |                   |                            | Equivalents in Denominations in Use. |                         |
|----------------------------------|-------------------|----------------------------|--------------------------------------|-------------------------|
| Names.                           | Number of Litres. | Cubic Measure.             | Dry Measure.                         | Liquid or Wine Measure. |
| Kilolitre or stère.              | 1,000             | 1 cubic metre.....         | 1 308 cubic yards.....               | 264.17 gallons.         |
| Hectolitre.....                  | 100               | 1-10 of a cubic metre..... | 2 bush. and 3.35 pecks...            | 26.417 gallons.         |

## THE METRIC SYSTEM SIMPLIFIED.

The following tables of the metric system of weights and measures have been simplified as much as possible for THE WORLD ALMANAC by omitting such denominations as are not in practical, everyday use in the countries where the system is used exclusively.

## TABLES OF THE SYSTEM.

**Length.**—The denominations in practical use are millimetres (mm.), centimetres (cm.), metres (m.), and kilometres (km.).

10 mm. = 1 cm.; 100 cm. = 1 m.; 1,000 m. = 1 km. NOTE.—A decimetre is 10 cm.

**Weight.**—The denominations in use are grams (g.), kilos\* (kg.), and tons (metric tons).

1,000 g. = 1 kg.; 1,000 kg. = 1 metric ton.

**Capacity.**—The denominations in use are cubic centimetres (c. c.) and litres (l.).

1,000 c. c. = 1 l. NOTE.—A hectolitre is 100 l. (seldom used).

Relation of capacity and weight to length. A cubic decimetre is a litre, and a litre of water weighs a kilo.

## APPROXIMATE EQUIVALENTS.

A metre is about a yard; a kilo is about 2 pounds; a litre is about a quart; a centimetre is about  $\frac{1}{2}$  inch; a metric ton is about same as a ton; a kilometre is about  $\frac{3}{4}$  mile; a cubic centimetre is about a thimbleful; a nickel weighs about 5 grams.

## PRECISE EQUIVALENTS.

**SALT.**—Weight per bushel as adopted by different States ranges from 50 to 80 pounds. Coarse salt in Pennsylvania is reckoned at 80 pounds, and in Illinois at 50 pounds per bushel. Fine salt in Pennsylvania is reckoned at 62 pounds, in Kentucky and Illinois at 55 pounds per bushel.

## MEASURES AND WEIGHTS OF GREAT BRITAIN.

THE measures of length and the weights are nearly, practically, the same as those in use in the United States. The English ton is 2,240 lbs. avoirdupois, the same as the long ton, or shipping ton of the United States. The English hundredweight is 112 lbs. avoirdupois, the same as the long hundredweight of the United States. The English stone is usually equal to one eighth hundredweight of 112 lbs., or 14 lbs. avoirdupois. The metre has been legalized at 39.37079 inches, but the length of 39.370432 inches, as adopted by France, Germany, Belgium, and Russia is frequently used. The Imperial gallon, the basis of the system of capacity, involves an error of about 1 part in 1,836; 10 lbs. of water = 277.123 cubic inches. (A late authority gives the weight of the Imperial gallon as 10.017 pounds and of the United States gallon as 8.345 pounds.)

The English statute mile is 1,760 yards or 5,280 feet. The following are measures of capacity :

| NAMES.               | Pounds of Water. | Cubic Inches. | Litres    | United States Equivalents. |
|----------------------|------------------|---------------|-----------|----------------------------|
| 4 gills = 1 pint     | 1.25             | 34.66         | 0.56793   | 1.20032 liquid pints.      |
| 2 pints = 1 quart    | 2.5              | 69.32         | 1.13586   | 1.20032 " quarts.          |
| 2 quarts = 1 pottle  | 5                | 138.64        | 2.27173   | 2.40064 " "                |
| 2 pottles = 1 gallon | 10               | 277.27        | 4.54346   | 1.20032 " gallons.         |
| 2 gallons = 1 peck   | 20               | 554.55        | 9.08692   | 1.03152 dry pecks.         |
| 4 pecks = 1 bushel   | 80               | 2218.19       | 36.34761  | 1.03152 " bushels.         |
| 4 bushels = 1 coomb  | 320              | 8872.77       | 145.39062 | 4.12606 " "                |
| 2 coombs = 1 quarter | 640              | 17745.54      | 290.7813  | 8.2521 " "                 |

A cubic foot of pure gold weighs 1,210 pounds; pure silver, 655 pounds; cast iron, 450 pounds; copper, 550 pounds; lead 710 pounds; pure platinum, 1,290 pounds; tin, 456 pounds; aluminum, 163 pounds

## DOMESTIC WEIGHTS AND MEASURES.

**Apothecaries' Weight:** 20 grains = 1 scruple; 3 scruples = 1 dram; 8 drams = 1 ounce; 12 ounces = 1 pound.

**Avoirdupois Weight** (short ton): 27 1/11 32 grains = 1 dram; 16 drams = 1 ounce; 16 ounces = 1 pound; 25 pounds = 1 quarter; 4 quarters = 1 cwt.; 20 cwt. = 1 ton

**Avoirdupois Weight** (long ton): 27 1/11 32 grains = 1 dram; 16 drams = 1 ounce; 16 ounces = 1 pound; 112 pounds = 1 cwt.; 20 cwt. = 1 ton.

**Troy Weight:** 24 grains = 1 pennyweight; 20 pennyweights = 1 ounce; 12 ounces = 1 pound.

**Circular Measure:** 60 seconds = 1 minute; 60 minutes = 1 degree; 30 degrees = 1 sign; 12 signs = 1 circle or circumference.

**Cubic Measure:** 1.728 cubic inches = 1 cubic foot; 27 cubic feet = 1 cubic yard.

**Dry Measure:** 2 pints = 1 quart; 8 quarts = 1 peck; 4 pecks = 1 bushel.

**Liquid Measure:** 4 gills = 1 pint; 2 pints = 1 quart; 4 quarts = 1 gallon; 31 1/2 gallons = 1 barrel; 2 barrels = 1 hogshead.

**Long Measure:** 12 inches = 1 foot; 3 feet = 1 yard; 5 1/2 yards = 1 rod or pole; 40 rods = 1 furlong; 8 furlongs = 1 statute mile (1,760 yards or 5,280 feet); 3 miles = 1 league.

**Mariners' Measure:** 6 feet = 1 fathom; 120 fathoms = 1 cable length; 7 1/2 cable lengths = 1 mile; 5,280 feet = 1 statute mile; 6,085 feet = 1 nautical mile.

**Paper Measure:** 24 sheets = 1 quire; 20 quires = 1 ream (480 sheets); 2 reams = 1 bundle; 5 bundles = 1 bale.

**Square Measure:** 144 square inches = 1 square foot; 9 square feet = 1 square yard; 30 1/4 square yards = 1 square rod or perch; 40 square rods = 1 rood; 4 roods = 1 acre; 640 acres = 1 square mile; 36 square miles (6 miles square) = 1 township.

**Time Measure:** 60 seconds = 1 minute; 60 minutes = 1 hour; 24 hours = 1 day; 7 days = 1 week; 365 days = 1 year; 366 days = 1 leap year.

## MEDICAL SIGNS AND ABBREVIATIONS.

**R** (Lat. Recipe), take; **aa**, of each; **lb**, pound; **ʒ**, ounce; **ʒ**, drachm; **ʒ**, scruple; **℥**, minim, or drop; **O** or **o**, pint; **f ʒ**, fluid ounce; **f ʒ**, fluid drachm; **as**, ʒss, half an ounce; **ʒi**, one ounce; **ʒiiss**, one ounce and a half; **ʒiij**, two ounces; **gr.**, grain; **Q. S.**, as much as sufficient; **℞**, let a mixture be made; **℞**, Haust., let a draught be made; **Ad.**, add to; **Ad lib.**, at pleasure; **Aq.**, water; **M.**, mix; **Mac.**, macerate; **Pulv.**, powder; **Pil.**, pill; **Solv.**, dissolve; **St.**, let it stand; **Sum.**, to be taken; **D.**, dose; **Dil.**, dilute; **Filt.**, filter; **Lot.**, a wash; **Garg.**, a gargle; **Hor. Decub.**, at bed time; **Inject.**, injection; **Gtt.**, drops; **ss**, one-half; **Ess.**, essence.

## TEXAS LAND MEASURE.

(Also used in Mexico, New Mexico, Arizona, and California.)

|            |                                 |                               |                   |
|------------|---------------------------------|-------------------------------|-------------------|
| 26,000,000 | square varas (square of 5,099   | varas) = 1 league and 1 labor | = 4,605.5 acres.  |
| 1,000,000  | square varas (square of 1,000   | varas) = 1 labor              | = 177.136 acres.  |
| 25,000,000 | square varas (square of 5,000   | varas) = 1 league             | = 4,428.4 acres.  |
| 12,500,000 | square varas (square of 3,535.5 | varas) = 1/2 league           | = 2,214.2 acres.  |
| 8,333,333  | square varas (square of 2,886.7 | varas) = 1/3 league           | = 1,476.13 acres. |
| 6,250,000  | square varas (square of 2,500   | varas) = 1/4 league           | = 1,107.1 acres.  |
| 7,225,600  | square varas (square of 2,688   | varas)                        | = 1,280 acres.    |
| 3,612,800  | square varas (square of 1,900.8 | varas) = 1 section            | = 640 acres.      |
| 1,806,400  | square varas (square of 1,344   | varas) = 1/2 section          | = 320 acres.      |
| 903,200    | square varas (square of 950.44  | varas) = 1/4 section          | = 160 acres.      |
| 451,600    | square varas (square of 672     | varas) = 1/8 section          | = 80 acres.       |
| 225,800    | square varas (square of 475     | varas) = 1/16 section         | = 40 acres.       |
| 5,645.376  | square varas (square of 75.137  | varas) = 4,840 square yards   | = 1 acre          |

To find the number of acres in any number of square varas, multiply the latter by 177 (or to be more exact, by 177 1/2), and cut off six decimals.

1 vara = 33 1/2 inches.

1,900.8 varas = 1 mile.

## WEIGHTS AND MEASURES OF THE PHILIPPINES.

|                      |                   |                     |                   |
|----------------------|-------------------|---------------------|-------------------|
| 1 pulgada (12 linea) | = .927 inch.      | 1 libra (16 onzo)   | = 1.0144 lb. av.  |
| 1 pie                | = 11.125 inches.  | 1 arroba            | = 25.360 lb. av.  |
| 1 vara               | = 33.375 inches.  | 1 catty (16 tael)   | = 1.94 lb. av.    |
| 1 gantah             | = .8796 gallon.   | 1 pecul (100 catty) | = 139.482 lb. av. |
| 1 caban              | = 21.991 gallons. |                     |                   |

**KNOTS AND MILES.**

The Statute Mile is 5 280 feet.

The British Admiralty Knot or Nautical Mile is 6,080 feet.

The Statute Knot is 6,082 66 feet, and is generally considered the standard. The number of feet in a statute knot is arrived at thus: The circumference of the earth is divided into 360 degrees, each degree containing 60 knots or (360x60), 21,600 knots to the circumference. 21,600 divided into 131,385,456—the number of feet in the earth's circumference—gives 6,082.66 feet—the length of a standard mile.

|                       |                         |                         |                    |
|-----------------------|-------------------------|-------------------------|--------------------|
| 1 knot = 1 151 miles  | 4 knots = 4.606 miles   | 20 knots = 23 030 miles | 600 feet = 1 cable |
| 2 knots = 2.303 miles | 5 knots = 5.757 miles   | 25 knots = 28.787 miles | 10 cables = 1 knot |
| 3 knots = 3.454 miles | 10 knots = 11 515 miles | 6 feet = 1 fathom       |                    |

**ANCIENT GREEK AND ROMAN WEIGHTS AND MEASURES.**

WITH AMERICAN EQUIVALENTS.  
WEIGHTS.

The Roman libra or pound = 10 oz. 18 pwt. 13 5-7 gr., Troy.  
The Attica mina or pound = 11 oz. 7 pwt. 16 2-7 gr., Troy.  
The Attica talent (60 minæ) = 56 lbs. 11 oz. 0 pwt. 17 1 7 gr., Troy.

**DRY MEASURE**

The Roman modus = 1 pk. 2-9 pint.  
The Attic cheux = nearly 1½ pints.  
The Attic medimnus = 4 pk. 6 1-10 pints.

**LIQUID MEASURE.**

The cotyle = a little over ½ pint.  
The cyathus = a little over 1½ pints.  
The chus = a little over 6¾ pints.

**LONG MEASURE.**

The Roman foot = 11 3-5 inches.  
The Roman cubit = 1 ft. 5¾ inches.  
The Roman pace = 4 ft. 10 inches.  
The Roman furlong = 604 ft. 10 inches  
The Roman mile = 4,835 feet  
The Grecian cubit = 1 ft. 6¾ inches.

The Grecian furlong = 504 ft. 4 1-5 inches.  
The Grecian mile = 4,030 ft.

**MONNY.**

The quadrans = 1 10 mills.  
The as = 13-10 mills.  
The sestertius = 3 58 + cents.  
The sestertium (1,000 sestertii) = \$35.80+.  
The denarius = 14.35 + cents.  
The Attic obolus = 2 39 + cents.  
The drachma = 14.35 + cents.\*  
The mina (100 drachmæ) = \$14.35+.  
The talent (60 minæ) = \$861.00+.  
The Greek stater = aureus (same as the Roman †)  
= \$3.58 79  
The stater = daricus = \$7.16.66.

\*The modern drachma equals 19.3 cents. † Did not remain, at all periods, at this value, but this is the value indicated by Tacitus.

**BIBLICAL WEIGHTS REDUCED TO TROY WEIGHT.**

|                                              | Lbs. | Oz. | Pwt. | Gr. |

| The Gerah, one twentieth of a Shekel.....    | 0    | 0   | 0    | 12  |
| The Bekah, half a Shekel.....                | 0    | 0   | 5    | 0   |
| The Shekel.....                              | 0    | 0   | 10   | 0   |
| The Maneh, 60 Shekels.....                   | 2    | 6   | 0    | 0   |
| The Talent, 50 manehs, or 3,000 Shekels..... | 125  | 0   | 0    | 0   |

**ELECTRICAL UNITS AND THEIR POPULAR DEFINITIONS.**

The watt is the unit expressing electrical energy as horsepower (HP) represents energy in mechanics. It is the sum of the volt (pressure) times ampere (rate of flow). Thus 2 volts times 2 amperes would give you 4 watts. Electrical energy is sold at so much per watt hour or more generally at a given amount per kilowatt hour—which means 1,000 watt-hours. This may represent 1 watt for 1,000 hours or say 1,000 watts for 1 hour. 746 watts are equal to one horsepower or inversely 1 kilowatt (kw) is equal to 1½ horsepower.

The horsepower represents the energy required to lift a weight of 33,000 pounds—1 foot in 1 minute or 550 lbs. 1 foot in 1 second.

The ohm is the unit of electrical resistance and represents the physical property of a material which offers a resistance to the flow of electricity permitting just 1 ampere to flow at 1 volt of pressure. For example, 1,000 feet of copper wire of 10 gauge has just 1 ohm of resistance and allows the flow of 1 ampere at 1 volt.

A dry battery is made by placing in a hollow receptacle of zinc a piece of carbon, the intervening space being filled with a mixture containing certain chemicals, such as manganese dioxide, powdered carbon and some absorbent material such as sawdust, which is then saturated with sal ammoniac and the receptacle sealed. The chemical action set up produces a flow of electricity when the two electrodes, the carbon and the zinc, are connected by a conductor of electricity such as a wire, a lamp or a motor.

THEODORE DWIGHT.

**FOREIGN MONIES.**

**English Money:** 4 farthings = 1 penny (d); 12 pence = 1 shilling (s); 20 shillings = 1 pound (£).

21 shillings = one guinea; 5 shillings = one crown.

**French Money:** 100 centimes = 1 franc.

**German Money:** 100 pfennig = 1 mark.

**Russian Money:** 100 copecks = 1 ruble.

**Austro-Hungarian Money:** 100 heller = 1 krone

For United States equivalents, see table of "Value of Foreign Coins in U. S. Money."

## TABLE OF GEOMETRICAL PROGRESSION.

(WHEREBY any questions of Geometrical Progression and of Double Ratio may be solved by Inspection, the Number of Terms not exceeding 56.)

## STANDARD NEWSPAPER MEASURES.

THE Standard Newspaper Measure, as recognized and now in general use is 13 ems pica. The standard of measurement of all sizes of type is the "em quad," not the letter "m."

The basis of measurements adopted by the International Typographical Union is the lower-case alphabet, from "a" to "z" inclusive, and the ems used are the same body as the type measured.

The weight of a cubic foot of distilled water at a temperature of 60° F is 1,000 ounces. Avoirdupois, *very nearly*, therefore the weight (in ounces, Avoirdupois) of a cubic foot of any of the substances in the above table is found by multiplying the specific gravities by 10, thus:—one cubic foot of oak weighs 1,170 ounces; one cubic foot of marble 2,700 ounces, and so on.

\* Compared with water.

## FREEZING, FUSING, AND BOILING POINTS.

| SUBSTANCES.                 | Reaumur. | Centigrade. | Fahrenheit. | SUBSTANCES.           | Reaumur. | Centigrade. | Fahrenheit. |
|-----------------------------|----------|-------------|-------------|-----------------------|----------|-------------|-------------|
| Bromine freezes at.....     | -17.60   | -220        | -7.60       | Silver fuses at.....  | 8000     | 1,0000      | 1,8320      |

A Height and Weight Table compiled by a Committee of the Medical Section of the National Fraternal Congress, 1900, which is the analysis of 133,940 applications of selected risks, in a few instances differed very slightly from the above.

## HEIGHT AND WEIGHT OF WOMEN

The following table gives the relative height and weight of women, all ages. The weight of ordinary clothing, however, is included.

| HEIGHT.              | Average. | Minimum. | Maximum. | HEIGHT.               | Average. | Minimum. | Maximum. |
|----------------------|----------|----------|----------|-----------------------|----------|----------|----------|
| 5 feet.....          | 115      | 98       | 132      | 5 feet 7 inches.....  | 145      | 123      | 167      |
| 5 feet 1 inch.....   | 120      | 102      | 138      | 5 feet 8 inches.....  | 148      | 126      | 170      |
| 5 feet 2 inches..... | 125      | 106      | 144      | 5 feet 9 inches.....  | 155      | 131      | 179      |
| 5 feet 3 inches..... | 130      | 111      | 150      | 5 feet 10 inches..... | 160      | 136      | 184      |
| 5 feet 4 inches..... | 135      | 115      | 155      | 5 feet 11 inches..... | 165      | 138      | 190      |
| 5 feet 5 inches..... | 140      | 119      | 161      | 6 feet.....           | 170      | 141      | 196      |
| 5 feet 6 inches..... | 143      | 121      | 165      |                       |          |          |          |

**Tensile Strength** is the resistance of the fibres or particles of a body to separation. It is therefore proportional to their number, or to the area of its transverse section. The fibres of wood are strongest near the centre of the trunk or limb of a tree.

\* Tensile strength in pounds per square inch.

### THE CAPITOL AT WASHINGTON.

THE Capitol is situated in latitude  $38^{\circ} 53' 20''$ .4 north and longitude  $77^{\circ} 00' 35''$ .7 west from Greenwich. It fronts east, and stands on a plateau eighty eight feet above the level of the Potomac.

The entire length of the building from north to south is seven hundred and fifty-one feet four inches, and its greatest dimension from east to west three hundred and fifty feet. The area covered by the building is 153,112 square feet.

The dome of the original central building was constructed of wood, covered with copper. This was replaced in 1856 by the present structure of cast iron. It was completed in 1865. The entire weight of iron used is 8,909,200 pounds.

The dome is crowned by a bronze statue of Freedom, which is nineteen feet six inches high and weighs 14,985 pounds. It was modelled by Crawford. The height of the dome above the base line of the east front is two hundred and eighty-seven feet five inches. The height from the top of the balustrade of the building is two hundred and seventeen feet eleven inches. The greatest diameter at the base is one hundred and thirty-five feet five inches.

The rotunda is ninety-seven feet six inches in diameter, and its height from the floor to the top of the canopy is one hundred and eighty feet three inches.

The Senate Chamber is one hundred and thirteen feet three inches in length, by eighty feet three inches in width, and thirty-six feet in height. The galleries will accommodate one thousand persons.

The Representatives' Hall is one hundred and thirty-nine feet in length, by ninety-three feet in width, and thirty-six feet in height.

The southeast corner-stone of the original building was laid September 18, 1793, by President Washington with Masonic ceremonies. The corner-stone of the extensions was laid July 4, 1851, by President Fillmore.

The room now occupied by the Supreme Court was, until 1859, occupied as the Senate Chamber. Previous to that time the court occupied the room immediately beneath, now used as a law library.

### LINCOLN'S GETTYSBURG SPEECH.

*(Address at the Dedication of Gettysburg Cemetery, November 19, 1863.)*

FOURSCORE and seven years ago our fathers brought forth upon this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal.

Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battlefield of that war. We are met to dedicate a portion of it as the final resting-place of those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this.

But in a larger sense we cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here have consecrated it far above our power to add or detract. The world will little note nor long remember what we say here, but it can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work that they have thus far so nobly carried on. It is rather for us to be here dedicated to the great task remaining before us; that from these honored dead we take increased devotion to the cause for which they here gave the last full measure of devotion; that we here highly resolve that the dead shall not have died in vain; that the nation shall, under God, have a new birth of freedom, and that government of the people, by the people, and for the people, shall not perish from the earth.

### UNITED STATES COAST AND GEODETIC SURVEY.

THE Coast and Geodetic Survey of the Department of Commerce is charged with the survey of the coasts of the United States and coasts under the jurisdiction thereof and the publication of charts covering said coasts. This includes base measure, triangulation, topography, and hydrography along said coasts; the survey of rivers to the head of tide water or ship navigation, deep sea soundings, temperature and current observations along said coasts and throughout the Gulf and Japan streams, magnetic observations and researches and the publication of maps showing the variations of terrestrial magnetism; gravity research, determination of heights, the determination of geographic positions by astronomic observations for latitude, longitude and azimuth, and by triangulation to furnish reference points for State surveys and to co-ordinate Governmental surveys.

The results obtained are published in annual reports and in special publications; charts upon various scales, including sailing charts, general charts of the coast and harbor charts; tide tables issued annually in advance; coast plots with sailing directions covering the navigable waters; notices to mariners issued weekly as a joint publication of the Coast and Geodetic Survey and the Bureau of Lighthouses and containing current information necessary for safe navigation; catalogues of charts and publications, and such other publications as may be required to carry out the organic law governing the survey.

# Constitution of the United States.

## Preamble.

WE, the people of the United States, in order to form a more perfect Union, establish justice, insure domestic tranquillity, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this CONSTITUTION for the United States of America.

## ARTICLE I.

- Legislative powers.** SECTION I. All legislative powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.
- House of Representatives.** SECTION II. 1. The House of Representatives shall be composed of members chosen every second year by the people of the several States, and the electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State Legislature.
- Qualifications of Representatives.** 2. No person shall be a Representative who shall not have attained to the age of twenty-five years, and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State in which he shall be chosen.
- Apportionment of Representatives.** 3. Representatives and direct taxes shall be apportioned among the several States which may be included within this Union according to their respective numbers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all other persons. The actual enumeration shall be made within three years after the first meeting of the Congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of Representatives shall not exceed one for every thirty thousand, but each State shall have at least one Representative; and until such enumeration shall be made, the State of New Hampshire shall be entitled to choose 3; Massachusetts, 8; Rhode Island and Providence Plantations, 1; Connecticut, 5; New York, 6; New Jersey, 4; Pennsylvania, 8; Delaware, 1; Maryland, 6; Virginia, 10; North Carolina, 5; South Carolina, 5; and Georgia, 3.\*
- Vacancies, how filled.** 4. When vacancies happen in the representation from any State, the Executive Authority thereof shall issue writs of election to fill such vacancies.
- Officers, how appointed.** 5. The House of Representatives shall choose their Speaker and other officers, and shall have the sole power of impeachment.
- Senate.** SECTION III. [See Article XVII., Amendments.] 1. The Senate of the United States shall be composed of two Senators from each State, chosen by the Legislature thereof, for six years; and each Senator shall have one vote.
- Classification of Senators.** 2. Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the Senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so that one-third may be chosen every second year; and if vacancies happen by resignation, or otherwise, during the recess of the Legislature of any State, the Executive thereof may make temporary appointment until the next meeting of the Legislature, which shall then fill such vacancies.
- Qualifications of Senators.** 3. No person shall be a Senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State for which he shall be chosen.
- President of the Senate.** 4. The Vice-President of the United States shall be President of the Senate, but shall have no vote unless they be equally divided.
- Senate a court for trial of impeachments.** 5. The Senate shall choose their other officers, and also a President pro tempore, in the absence of the Vice-President, or when he shall exercise the office of President of the United States.
- Judgment in case of conviction.** 6. The Senate shall have the sole power to try all impeachments. When sitting for that purpose, they shall be on oath or affirmation. When the President of the United States is tried, the Chief Justice shall preside; and no person shall be convicted without the concurrence of two-thirds of the members present.
- Elections of Senators and Representatives.** 7. Judgment in cases of impeachment shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust, or profit under the United States; but the party convicted shall nevertheless be liable and subject to indictment, trial, judgment, and punishment, according to law.
- Meeting of Congress.** SECTION IV. 1. The times, places, and manner of holding elections for Senators and Representatives shall be prescribed in each State by the Legislature thereof; but the Congress may at any time by law make or alter such regulations, except as to places of choosing Senators.
- Organization of Congress.** 2. The Congress shall assemble at least once in every year, and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.
- Rule of proceedings.** SECTION V. 1. Each House shall be the judge of the elections, returns, and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members in such manner and under such penalties as each House may provide.
- Journals of each House.** 2. Each House may determine the rules of its proceedings, punish its members for disorderly behavior, and with the concurrence of two-thirds expel a member.
- Adjournment of Congress.** 3. Each House shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may in their judgment require secrecy; and the yeas and nays of the members of either House on any question shall, at the desire of one-fifth of those present, be entered on the journal.
- Pay and privileges of members.** 4. Neither House, during the session of Congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two Houses shall be sitting.
- Other offices prohibited.** SECTION VI. 1. The Senators and Representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the Treasury of the United States. They shall in all cases, except treason, felony, and breach of the peace, be privileged from arrest during their attendance at the session of their respective Houses, and in going to and returning from the same; and for any speech or debate in either House they shall not be questioned in any other place.
- Revenue bills.** 2. No Senator or Representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States which shall have been created, or the emoluments whereof shall have been increased during such time; and no person holding any office under the United States shall be a member of either House during his continuance in office.
- How bills become laws.** SECTION VII. 1. All bills for raising revenue shall originate in the House of Representatives, but the Senate may propose or concur with amendments, as on other bills.
2. Every bill which shall have passed the House of Representatives and the Senate shall, before it become a law, be presented to the President of the United States; if he approve, he shall sign it, but if not, he shall return it, with his objections, to that House in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it. If after such reconsideration two-thirds of that House shall agree to pass the bill, it shall be sent, together with the objections, to the other House, by which it shall likewise be reconsidered; and if approved by two-thirds of that House it shall become a law. But in all such cases the votes of both Houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each House respectively. If any bill shall not be returned by the President within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the Congress by their adjournment prevent its return; in which case it shall not be a law.

\* See Article XIV., Amendments.

- Approval and veto powers before the President. **SECTION VIII.** 1. The Congress shall have power:
- Powers vested in Congress. 2. To borrow money on the credit of the United States.
3. To regulate commerce with foreign nations, and among the several States, and with the Indian tribes.
4. To establish an uniform rule of naturalization and uniform laws on the subject of bankruptcies throughout the United States.
5. To coin money, regulate the value thereof, and of foreign coin, and fix the standard of weights and measures.
6. To provide for the punishment of counterfeiting the securities and current coin of the United States.
7. To establish post-offices and post-roads.
8. To promote the progress of science and useful arts by securing for limited times to authors and inventors the exclusive rights to their respective writings and discoveries.
9. To constitute tribunals inferior to the Supreme Court.
10. To define and punish piracies and felonies committed on the high seas, and offences against the law of nations.
11. To declare war, grant letters of marque and reprisal, and make rules concerning captures on land and water.
12. To raise and support armies, but no appropriation of money to that use shall be for a longer term than two years.
13. To provide and maintain a navy.
14. To make rules for the government and regulation of the land and naval forces.
15. To provide for calling forth the militia to execute the laws of the Union, suppress insurrections, and repel invasions.
16. To provide for organizing, arming, and disciplining the militia, and for governing such part of them as may be employed in the service of the United States, reserving to the States respectively the appointment of the officers, and the authority of training the militia according to the discipline prescribed by Congress.
17. To exercise exclusive legislation in all cases whatsoever over such district (not exceeding ten miles square) as may, by cession of particular States and the acceptance of Congress, become the seat of Government of the United States, and to exercise like authority over all places purchased by the consent of the Legislature of the State in which the same shall be, for the erection of forts, magazines, arsenals, dry-docks, and other useful buildings.
18. To make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested by this Constitution in the Government of the United States, or in any department or officer thereof.
- Immigrants, how admitted. **SECTION IX.** 1. The migration or importation of such persons as any of the States now existing shall think proper to admit shall not be prohibited by the Congress prior to the year one thousand eight hundred and eight, but a tax or duty may be imposed on such importation, not exceeding ten dollars for each person.
- Habeas corpus. 2. The privilege of the writ of habeas corpus shall not be suspended, unless when in cases of rebellion or invasion the public safety may require it.
- Attainder. 3. No bill of attainder or ex post facto law shall be passed.
- Direct taxes. 4. No capitation or other direct tax shall be laid, unless in proportion to the census or enumeration hereinbefore directed to be taken.
- Regulations regarding customs duties. 5. No tax or duty shall be laid on articles exported from any State.
- Moneys, how drawn. 6. No preference shall be given by any regulation of commerce or revenue to the ports of one State over those of another, nor shall vessels bound to or from one State be obliged to enter, clear, or pay duties in another.
7. No money shall be drawn from the Treasury but in consequence of appropriations made by law; and a regular statement and account of the receipts and expenditures of all public money shall be published from time to time.
- Titles of nobility prohibited. 8. No title of nobility shall be granted by the United States. And no person holding any office of profit or trust under them shall, without the consent of the Congress, accept of any present, emolument, office, or title of any kind whatever from any king, prince, or foreign state.
- Powers of States defined. **SECTION X.** 1. No State shall enter into any treaty, alliance, or confederation, grant letters of marque and reprisal, coin money, emit bills of credit, make anything but gold and silver coin a tender in payment of debts, pass any bill of attainder, ex post facto law, or law impairing the obligation of contracts, or grant any title of nobility.
2. No State shall, without the consent of the Congress, lay any impost or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws, and the net produce of all duties and imposts, laid by any State on imports or exports, shall be for the use of the Treasury of the United States; and all such laws shall be subject to the revision and control of the Congress.
3. No State shall, without the consent of Congress, lay any duty of tonnage, keep troops or ships of war in time of peace, enter into any agreement or compact with another State, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will not admit of delay.
- ## ARTICLE II.
- SECTION I.** 1. The Executive power shall be vested in a President of the United States of America. He shall hold his office during the term of four years, and, together with the Vice-President, chosen for the same term, be elected as follows:
2. Each State shall appoint, in such manner as the Legislature thereof may direct, a number of electors, equal to the whole number of Senators and Representatives to which the State may be entitled in the Congress; but no Senator or Representative or person holding an office of trust or profit under the United States shall be appointed an elector.
3. [The electors shall meet in their respective States and vote by ballot for two persons, of whom one at least shall not be an inhabitant of the same State with themselves. And they shall make a list of all the persons voted for, and of the number of votes for each, which list they shall sign and certify and transmit, sealed, to the seat of the Government of the United States, directed to the President of the Senate. The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes shall be the President, if such number be a majority of the whole number of electors appointed, and if there be more than one who have such majority, and have an equal number of votes, then the House of Representatives shall immediately choose by ballot one of them for President; and if no person have a majority, then from the five highest on the list the said House shall in like manner choose the President. But in choosing the President, the vote shall be taken by States, the representation from each State having one vote. A quorum, for this purpose, shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. In every case, after the choice of the President, the person having the greatest number of votes of the electors shall be the Vice-President. But if there should remain two or more who have equal votes, the Senate shall choose from them by ballot the Vice-President.]
4. The Congress may determine the time of choosing the electors and the day on which they shall give their votes, which day shall be the same throughout the United States.
2. This clause is superseded by Article XII., Amendments.

- Qualifications of the President.** 5. No person except a natural born citizen, or a citizen of the United States at the time of the adoption of this Constitution, shall be eligible to the office of President; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years and been fourteen years a resident within the United States.
- Provision in case of his disability.** 6. In case of the removal of the President from office, or of his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the Vice-President, and the Congress may by law provide for the case of removal, death, resignation, or inability, both of the President and Vice-President, declaring what officer shall then act as President, and such officer shall act accordingly until the disability be removed or a President shall be elected.
- Salary of the President.** 7. The President shall, at stated times, receive for his services a compensation which shall neither be increased nor diminished during the period for which he shall have been elected, and he shall not receive within that period any other emolument from the United States, or any of them.
- Oath of the President.** 8. Before he enter on the execution of his office he shall take the following oath or affirmation:  
"I do solemnly swear (or affirm) that I will faithfully execute the office of President of the United States, and will, to the best of my ability, preserve, protect, and defend the Constitution of the United States."
- Duties of the President.** SECTION II. 1. The President shall be Commander-in-Chief of the Army and Navy of the United States, and of the militia of the several States under the actual service of the United States; he may require the opinion, in writing, of the principal officer in each of the executive departments upon any subject relating to the duties of their respective offices, and he shall have power to grant reprieves and pardons for offences against the United States except in cases of impeachment.
- May make treaties, appoint ambassadors, judges, etc.** 2. He shall have power, by and with the advice and consent of the Senate, to make treaties, provided two-thirds of the Senators present concur; and he shall nominate, and by and with the advice and consent of the Senate shall appoint ambassadors, other public ministers and consuls, judges of the Supreme Court, and all other officers of the United States whose appointments are not herein otherwise provided for, and which shall be established by law; but the Congress may by law vest the appointment of such inferior officers as they think proper in the President alone, in the courts of law, or in the heads of departments.
- May fill vacancies.** 3. The President shall have power to fill up all vacancies that may happen during the recess of the Senate by granting commissions, which shall expire at the end of their next session.
- May make recommendations to and convene Congress.** SECTION III. He shall from time to time give to the Congress information of the state of the Union, and recommend to their consideration such measures as he shall judge necessary and expedient; he may, on extraordinary occasions, convene both Houses, or either of them, and in case of disagreement between them with respect to the time of adjournment, he may adjourn them to such time as he shall think proper; he shall receive ambassadors and other public ministers; he shall take care that the laws be faithfully executed, and shall commission all the officers of the United States.
- How officers may be removed.** SECTION IV. The President, Vice-President, and all civil officers of the United States shall be removed from office on impeachment for and conviction of treason, bribery, or other high crimes and misdemeanors.

### ARTICLE III.

- Judicial power, how invested.** SECTION I. The judicial power of the United States shall be vested in one Supreme Court, and in such inferior courts as the Congress may from time to time ordain and establish. The judges, both of the Supreme and inferior courts, shall hold their offices during good behavior, and shall at stated times receive for their services a compensation which shall not be diminished during their continuance in office.
- To what cases it extends.** SECTION II. 1. The judicial power shall extend to all cases in law and equity arising under this Constitution, the laws of the United States, and treaties made, or which shall be made, under their authority; to all cases affecting ambassadors, other public ministers, and consuls; to all cases of admiralty and maritime jurisdiction; to controversies to which the United States shall be a party; to controversies between two or more States, between a State and citizens of another State, between citizens of different States, between citizens of the same State claiming lands under grants of different States, and between a State, or the citizens thereof, and foreign States, citizens, or subjects.
- Jurisdiction of the Supreme Court.** 2. In all cases affecting ambassadors, other public ministers, and consuls, and those in which a State shall be party, the Supreme Court shall have original jurisdiction. In all the other cases before-mentioned the Supreme Court shall have appellate jurisdiction both as to law and fact, with such exceptions and under such regulations as the Congress shall make.
- Rules respecting trials.** 3. The trial of all crimes, except in cases of impeachment, shall be by jury, and such trial shall be held in the State where the said crimes shall have been committed; but when not committed within any State the trial shall be at such place or places as the Congress may by law have directed.
- Treason defined.** SECTION III. 1. Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court.
- How punished.** 2. The Congress shall have power to declare the punishment of treason, but no attainder of treason shall work corruption of blood or forfeiture except during the life of the person attained.

### ARTICLE IV.

- Rights of States and records.** SECTION I. Full faith and credit shall be given in each State to the public acts, records, and judicial proceedings of every other State. And the Congress may by general laws prescribe the manner in which such acts, records, and proceedings shall be proved, and the effect thereof.
- Privileges of citizens.** SECTION II. 1. The citizens of each State shall be entitled to all privileges and immunities of citizens in the several States.
- Executive requisitions.** 2. A person charged in any State with treason, felony, or other crime, who shall flee from justice, and be found in another State, shall, on demand of the Executive authority of the State from which he fled, be delivered up, to be removed to the State having jurisdiction of the crime.
- Laws regulating service or labor.** 3. No person held to service or labor in one State, under the laws thereof, escaping into another, shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due.
- New States, how formed and admitted.** SECTION III. 1. New States may be admitted by the Congress into this Union; but no new State shall be formed or erected within the jurisdiction of any other State, nor any State be formed by the junction of two or more States, or parts of States, without the consent of the Legislatures of the States concerned, as well as of the Congress.
- Power of Congress over territory or other property belonging to the United States, or of any particular State.** 2. The Congress shall have power to dispose of and make all needful rules and regulations respecting the territory or other property belonging to the United States; and nothing in this Constitution shall be so construed as to prejudice any claims of the United States, or of any particular State.
- Republican government guaranteed.** SECTION IV. The United States shall guarantee to every State in this Union a republican form of government, and shall protect each of them against invasion, and, on application of the Legislature, or of the Executive (when the Legislature cannot be convened), against domestic violence.

### ARTICLE V.

- Constitution, how amended.** The Congress, whenever two-thirds of both Houses shall deem it necessary, shall propose amendments to this Constitution, or, on the application of the Legislatures of two-thirds of the several States, shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes, as part of this Constitution, when ratified by the Legislatures of three-fourths of the several States, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the Congress: provided that no amendment which may be made prior to the year one thousand eight hundred and eight shall in any manner affect the first and fourth clauses in the Ninth Section of the First Article; and that no State, without its consent, shall be deprived of its equal suffrage in the Senate.

### ARTICLE VI.

- Validity of debts recognized.** 1. All debts contracted and engagements entered into before the adoption of this Constitution shall be as valid against the United States under this Constitution as under the Confederation.

Supreme law of. 2. This Constitution and the laws of the United States which shall be made in pursuance thereof and all the land decrees made, or which shall be made, under the authority of the United States, shall be the supreme law of the land, and the judges in every State shall be bound thereby, anything in the Constitution or laws of any State to the contrary notwithstanding.

Oath: of whom required and for what. 3. The Senators and Representatives before mentioned, and the members of the several State Legislatures, and all executive and judicial officers, both of the United States and of the several States, shall be bound by oath or affirmation to support this Constitution; but no religious test shall ever be required as a qualification to any office or public trust under the United States.

## ARTICLE VII.

Ratification of the Constitution. The ratification of the Conventions of nine States shall be sufficient for the establishment of this Constitution between the States so ratifying the same.

## AMENDMENTS TO THE CONSTITUTION.

### ARTICLE I.

Religion and free speech. Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

### ARTICLE II.

Right to bear arms. A well-regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed.

### ARTICLE III.

Soldiers in time of peace. No soldier shall, in time of peace, be quartered in any house without the consent of the owner, nor in time of war but in a manner to be prescribed by law.

### ARTICLE IV.

Right of search. The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

### ARTICLE V.

Capital crimes and arrest therefor. No person shall be held to answer for a capital or other infamous crime unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the militia, when in actual service, in time of war or public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use without just compensation.

### ARTICLE VI.

Right to speedy trial. In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defence.

### ARTICLE VII.

Trial by jury. In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury shall be otherwise re-examined in any court of the United States than according to the rules of the common law.

### ARTICLE VIII.

Excessive bail. Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

### ARTICLE IX.

Enumeration of rights. The enumeration in the Constitution of certain rights shall not be construed to deny or disparage others retained by the people.

### ARTICLE X.

Reserved rights of States. The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

### ARTICLE XI.

Judicial power. The judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States, by citizens of another State, or by citizens or subjects of any foreign State.

### ARTICLE XII.

Electors in Presidential elections. The electors shall meet in their respective States, and vote by ballot for President and Vice-President, one of whom at least shall not be an inhabitant of the same State with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President; and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which list they shall sign and certify, and transmit, sealed, to the seat of the Government of the United States, directed to the President of the Senate; the President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted; the person having the greatest number of votes for President shall be the President, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President, the votes shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. And if the House of Representatives shall not choose a President, whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President. The person having the greatest number of votes as Vice-President shall be the Vice-President, if such number be a majority of the whole number of electors appointed, and if no person have a majority, then from the two highest numbers on the list the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice. But no person constitutionally ineligible to the office of President shall be eligible to that of Vice-President of the United States.

### ARTICLE XIII.

Slavery prohibited. 1. Neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction.

2. Congress shall have power to enforce this article by appropriate legislation.

## CONSTITUTION OF THE UNITED STATES—Continued.

## ARTICLE XIV.

- Protection for all citizens.** 1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.
- Apportionment of Representatives.** 2. Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for President and Vice-President of the United States, Representatives in Congress, the executive and judicial officers of a State, or the members of the Legislature thereof, is denied to any of the male members of such State, being of twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such State.
- Rebellion against the United States.** 3. No person shall be a Senator or Representative in Congress, or elector of President and Vice-President, or hold any office, civil or military, under the United States, or under any State, who, having previously taken an oath, as a member of Congress, or as an officer of the United States, or as a member of any State Legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid and comfort to the enemies thereof. But Congress may, by a vote of two-thirds of each House, remove such disability.
- The public debt.** 4. The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection and rebellion, shall not be questioned. But neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave; but all such debts, obligations, and claims shall be held illegal and void.
5. The Congress shall have power to enforce by appropriate legislation the provisions of this article.

## ARTICLE XV.

- Right of suffrage.** 1. The right of the citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude.
2. The Congress shall have power to enforce the provisions of this article by appropriate legislation.

## ARTICLE XVI.

- Taxes on incomes.** The Congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment among the several States, and without regard to any census or enumeration.

## ARTICLE XVII.

- Senators elected by the people.** 1. The Senate of the United States shall be composed of two Senators from each State, elected by the people thereof, for six years; and each Senator shall have one vote. The electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State Legislatures.
- Filling of vacancies.** 2. When vacancies happen in the representation of any State in the Senate, the executive authority of such State shall issue writs of election to fill such vacancies: Provided, That the Legislature of any State may empower the executive thereof to make temporary appointment until the people fill the vacancies by election as the Legislature may direct.
3. This amendment shall not be so construed as to affect the election or term of any Senator chosen before it becomes valid as part of the Constitution.

## RATIFICATION OF THE CONSTITUTION.

The Constitution was ratified by the thirteen original States in the following order

Delaware, December 7, 1787, unanimously.  
 Pennsylvania, December 12, 1787, vote 46 to 23.  
 New Jersey, December 18, 1787, unanimously.  
 Georgia, January 2, 1788, unanimously.  
 Connecticut, January 9, 1788, vote 128 to 40.  
 Massachusetts, February 6, 1788, vote 187 to 168.  
 Maryland, April 28, 1788, vote 63 to 12.

South Carolina, May 23, 1788, vote 149 to 73.  
 New Hampshire, June 21, 1788, vote 57 to 46.  
 Virginia, June 25, 1788, vote 89 to 79.  
 New York, July 26, 1788, vote 30 to 28.  
 North Carolina, November 21, 1789, vote 193 to 75.  
 Rhode Island, May 29, 1790, vote 34 to 32.

## RATIFICATION OF THE AMENDMENTS.

I. to X. inclusive were declared in force December 15, 1791.

XI. was declared in force January 8, 1798.

XII., regulating elections, was ratified by all the States except Connecticut, Delaware, Massachusetts, and New Hampshire, which rejected it. It was declared in force September 28, 1804.

XIII. The emancipation amendment was ratified by 31 of the 36 States; rejected by Delaware and Kentucky, not acted on by Texas; conditionally ratified by Alabama and Mississippi. Proclaimed December 18, 1865.

XIV. Reconstruction amendment was ratified by 23 Northern States; rejected by Delaware, Kentucky, Maryland, and 10 Southern States, and not acted on by California. The 10 Southern States subsequently ratified under pressure. Proclaimed July 28, 1868.

XV. Negro citizenship amendment was not acted on by Tennessee, rejected by California, Delaware, Kentucky, Maryland, New Jersey, and Oregon; ratified by the remaining 30 States. New York rescinded its ratification January 6, 1870. Proclaimed March 30, 1870.

XVI. Income tax amendment was ratified by all the States except Connecticut, Florida, Pennsylvania, Rhode Island, Utah and Virginia. Declared in force February 25, 1913.

XVII. Providing for the direct vote of United States Senators by the people, was ratified by all the States except Alabama, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Rhode Island, South Carolina, Utah and Virginia. Declared in force May 31, 1913.

## WHITE HOUSE RULES.

THE following rules have been arranged for the conduct of business at the Executive Offices during the Winter of 1915-16:

The Cabinet will meet on Tuesdays and Fridays from 11 A. M. until 1 P. M.

Senators and Representatives having business to transact will be received from 10.30 A. M. to 12 M., excepting on Cabinet days. In view of the pressure of business at the Executive Offices during the Congressional session it would greatly facilitate matters if Senators and Members could telephone for an appointment before calling, as many will have first made appointments in this way, and those calling without appointments are therefore necessarily delayed in seeing the President.

The East Room will be open daily, Sundays excepted, for the inspection of visitors, between the hours of 10 A. M. and 2 P. M.

JOSEPH P. TUMULTY, Secretary to the President.

**DECLARATION OF INDEPENDENCE.**

IN CONGRESS JULY 4, 1776.

THE unanimous declaration of the thirteen United States of America. When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitles them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.

He has refused his Assent to Laws, the most wholesome and necessary for the public good.

He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the meantime exposed to all the dangers of invasion from without, and convulsions within.

He has endeavored to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.

He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary Powers.

He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance.

He has kept among us, in times of peace, Standing Armies without the Consent of our legislature.

He has affected to render the Military independent of and superior to the Civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation:

For quartering large bodies of armed troops among us;

For protecting them, by a mock Trial, from punishment for any Murders which they should commit on the Inhabitants of these States;

For cutting off our Trade with all parts of the world;

For imposing Taxes on us without our Consent;

For depriving us in many cases, of the benefits of Trial by jury;

For transporting us beyond Seas to be tried for pretended offences;

For abolishing the free System of English Laws in a neighboring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies;

For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments;

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated Government here, by declaring us out of his Protection and waging War against us.

He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the lives of our people.

He is at this time transporting large Armies of foreign Mercenaries to compleat the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.

He has constrained our fellow-Citizens taken captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.

He has excited domestic Insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these Oppressions We have Petitioned for Redress in the most humble terms:

## DECLARATION OF INDEPENDENCE—Continued.

Our repeated Petitions have been answered only by repeated injury. A Prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people.

Nor have We been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.

WE, THEREFORE, the REPRESENTATIVES of the UNITED STATES OF AMERICA, in GENERAL CONGRESS, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by authority of the good People of these Colonies, solemnly PUBLISH and DECLARE, That these United Colonies are, and of Right ought to be FREE and INDEPENDENT States; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain is and ought to be totally dissolved; and that as FREE and INDEPENDENT STATES, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which INDEPENDENT STATES may of right do. And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, We mutually pledge to each other our Lives, our Fortunes, and our sacred Honor.

## WASHINGTON'S FAREWELL ADDRESS.

EXTRACTS FROM HIS ADDRESS COUNSELLING THE MAINTENANCE OF THE UNION.—CONFINEMENT OF THE GENERAL GOVERNMENT TO ITS CONSTITUTIONAL LIMITATIONS, AND AVOIDANCE OF RELATIONS WITH FOREIGN POLITICAL AFFAIRS.

(To the People of the United States on His Approaching Retirement from the Presidency.)

Here, perhaps, I ought to stop; but a solicitude for your welfare, which cannot end but with my life, and the apprehension of danger natural to that solicitude, urge me, on an occasion like the present, to offer to your solemn contemplation, and to recommend to your frequent review, some sentiments, which are the result of much reflection, of no inconsiderable observation, and which appear to me all-important to the permanency of your felicity as a people. These will be afforded to you with the more freedom, as you can only see in them the disinterested warnings of a parting friend, who can possibly have no personal motive to bias his counsel; nor can I forget, as an encouragement to it, your indulgent reception of my sentiments on a former and not dissimilar occasion.

Interwoven as is the love of liberty with every ligament of your hearts, no recommendation of mine is necessary to fortify or confirm the attachment.

## PRESERVATION OF THE UNION. !

The unity of government, which constitutes you one people, is also now dear to you. It is justly so; for it is a main pillar in the edifice of your real independence—the support of your tranquillity at home, your peace abroad, of your safety, of your prosperity, of that very liberty which you so highly prize. But as it is easy to foresee that, from different causes and from different quarters, much pains will be taken, many artifices employed, to weaken in your minds the conviction of this truth; as this is the point in your political fortress against which the batteries of internal and external enemies will be most constantly and actively (though often covertly and insidiously) directed—it is of infinite moment that you should properly estimate the immense value of your national union to your collective and individual happiness; that you should cherish a cordial, habitual and immovable attachment to it; accustoming yourselves to think and speak of it as of the palladium of your political safety and prosperity; watching for its preservation with jealous anxiety; discountenancing whatever may suggest even a suspicion that it can, in any event, be abandoned; and indignantly frowning upon the first dawning of every attempt to alienate any portion of our country from the rest, or to enfeeble the sacred ties which now link together the various parts.

For this you have every inducement of sympathy and interest. Citizens by birth or choice of a common country, that country has a right to concentrate your affections. The name of America, which belongs to you in your national capacity, must always exalt the just pride of patriotism, more than any appellation derived from local discriminations. With slight shades of difference, you have the same religion, manners, habits, and political principles. You have, in a common cause, fought and triumphed together; the independence and liberty you possess are the work of joint counsels and joint efforts, of common dangers, sufferings, and successes.

## ENCROACHMENTS BY THE GOVERNMENT.

It is important, likewise, that the habits of thinking, in a free country, should inspire caution in those intrusted with its administration, to confine themselves within their respective constitutional spheres, avoiding, in the exercise of the powers of one department, to encroach upon another. The spirit of encroachment tends to consolidate the powers of all the departments in one, and thus to create, whatever the form of government, a real despotism. A just estimate of that love of power, and proneness to abuse it which predominates in the human heart, is sufficient to satisfy us of the truth of this position. The necessity of reciprocal checks in the exercise of political power, by dividing and distributing it into different depositories, and constituting each the guardian of the public weal, against invasions by the others, has been evinced by experiments, ancient and modern; some of them in our own country, and under our own eyes. To preserve them must be as necessary as to institute them. If, in the opinion of the people, the distribution or modification of the constitutional powers be, in any particular, wrong, let it be corrected by an amendment in the way which the Constitution designates. But let there be no change or usurpation; for though this, in one instance, may be the instrument of good, it is the customary weapon by which free governments are destroyed. The precedent must always greatly overbalance, in permanent evil, any partial or transient benefit which the use can, at any time, yield.

Observe good faith and justice toward all nations; cultivate peace and harmony with all; religion and morality enjoin this conduct; and can it be that good policy does not equally enjoin it? It will be worthy of a free, enlightened, and, at no distant period, a great nation, to give to mankind the magnanimous and too novel example of a people always guided by an exalted justice and benevolence. Who can doubt that, in the course of times and things, the fruits of such a plan would richly repay any temporary advantages which might be lost by a steady adherence to it? Can it be that Providence has not connected the permanent felicity of a nation with its virtue? The experiment, at least, is recommended by every sentiment which ennobles human nature. Alas! is it rendered impossible by its vices?

## ENTANGLEMENTS WITH FOREIGN POWERS.

Against the insidious wiles of foreign influence (I conjure you to believe me, fellow-citizens) the jealousy of a free people ought to be constantly awake; since history and experience prove that foreign influence is one of the most baneful foes of republican government. But that jealousy to be useful, must be impartial; else it becomes the instrument of the very influence to be avoided, instead of a defence against it. Excessive partiality for one foreign nation, and excessive dislike for another, cause those whom they actuate to see danger only on one side, and serve to veil, and even second, the arts

of influence on the other. Real patriots, who may resist the intrigues of the favorite, are liable to become suspected and odious, while its tools and dupes usurp the applause and confidence of the people, to surrender their interests.

The great rule of conduct for us, in regard to foreign nations, is, in extending our commercial relations, to have with them as little political connection as possible. So far as we have already formed engagements, let them be fulfilled with perfect good faith. Here let us stop.

Europe has a set of primary interests, which to us have none, or a very remote relation. Hence she must be engaged in frequent controversies, the causes of which are essentially foreign to our concerns. Hence, therefore, it must be unwise in us to implicate ourselves, by artificial ties, in the ordinary vicissitudes of her politics, or the ordinary combinations and collisions of her friendships or enmities.

Our detached and distant situation invites and enables us to pursue a different course. If we remain one people under an efficient government, the period is not far off when we may defy material injury from external annoyance; when we may take such an attitude as will cause the neutrality we may at any time resolve upon, to be scrupulously respected; when belligerent nations, under the impossibility of making acquisitions upon us, will not lightly hazard the giving us provocation; when we may choose peace or war, as our interest, guided by justice, shall counsel.

### PARTING COUNSELS.

In offering to you, my countrymen, these counsels of an old and affectionate friend, I dare not hope that they will make the strong and lasting impression I could wish; that they will control the usual current of the passions, or prevent our nation from running the course which hitherto has marked the destiny of nations; but if I may even flatter myself that they may be productive of some partial benefit, some occasional good; that they may now and then recur to moderate the fury of party spirit, to warn against the mischiefs of foreign intrigues, to guard against the impostures of pretended patriotism, this hope will be full recompense for the solicitude for your welfare by which they have been dictated.

United States, September 17, 1796.

GEORGE WASHINGTON.

### THE MONROE DOCTRINE.

"The Monroe doctrine" was enunciated in the following words in President Monroe's message to Congress December 2, 1823:

"In the discussions to which this interest has given rise, and in the arrangements by which they may terminate, the occasion has been deemed proper for asserting, as a principle in which rights and interests of the United States are involved, that the American continents, by the free and independent condition which they have assumed and maintain, are henceforth not to be considered as subjects for future colonization by any European power. \* \* \* We owe it, therefore, to candor and to the amicable relations existing between the United States and those powers to declare that we should consider any attempt on their part to extend their system to any portion of this hemisphere as dangerous to our peace and safety. With the existing colonies or dependencies of any European power we have not interferred and shall not interfere. But with the governments who have declared their independence and maintain it, and whose independence we have, on great consideration and on just principles, acknowledged, we could not view any interposition for the purpose of oppressing them or controlling in any other manner their destiny by any European power in any other light than as the manifestation of an unfriendly disposition toward the United States."

Secretary of State Olney in his despatch of July 20, 1895, on the Venezuelan Boundary Dispute, said: "It (the Monroe doctrine) does not establish any general protectorate by the United States over other American States. It does not relieve any American State from its obligations as fixed by international law, nor prevent any European power directly interested from enforcing such obligations or from inflicting merited punishment for the breach of them."

President Roosevelt in a speech in 1902 upon the results of the Spanish-American war, said:

"The Monroe doctrine is simply a statement of our very firm belief that the nations now existing on this continent must be left to work out their own destinies among themselves, and that this continent is no longer to be regarded as the colonizing ground of any European power. The one power on the continent that can make the power effective is, of course, ourselves; for in the world as it is, a nation which advances a given doctrine, likely to interfere in any way with other nations, must possess the power to back it up, if it wishes the doctrine to be respected."

The United States Senate on August 2, 1912, adopted the following resolution proposed by Senator Lodge, by a vote of 51 to 4, the negative votes being those of Senators Cummins of Iowa, McCumber of North Dakota, Percy of Mississippi, and Stone of Missouri.

*Resolved.* That when any harbor or other place in the American Continent is so situated that the occupation thereof for naval or military purposes might threaten the communications or the safety of the United States, the Government of the United States could not see without grave concern the possession of such harbor or other place by any corporation or association which has such a relation to another Government, not American, as to give that Government practical power of control for national purposes."

This action of the Senate grew out of the report that a stretch of territory bordering on Magdalena Bay, Mexico, might be acquired by the subjects of a foreign country, and thus through their control by their own national Government become the base of permanent naval or military occupation. In explanation of the resolution Senator Lodge said: "The declaration rests on a much broader and older ground than the Monroe doctrine. This resolution rests on the generally accepted principle that every nation has a right to protect its own safety; and if it feels that the possession of any given harbor or place is prejudicial to its safety, it is its duty and right to intervene." The Senate added that the opening of the Panama Canal gave to Magdalena Bay an importance that it had never before possessed, as the Panama routes pass in front of it.

Not being a joint resolution requiring the concurrence of the House of Representatives and the signature of the President, the resolution adopted as above was an expression of opinion of the Senate only. The other house took no action.

## LINCOLN MEMORIAL.

## TO COST TWO MILLION DOLLARS.

The Sixty-first Congress, third session, passed an act, approved February 9, 1911. "to provide a commission to secure plans and designs for a monument or memorial to the memory of Abraham Lincoln." The text of the act is as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That William H. Taft, \* Shelby M. Cullom, Joseph G. Cannon, George Peabody Wetmore, Samuel Walker McCall, † H. D. Money, and Champ Clark are hereby created a commission to be known as the Lincoln Memorial Commission, to procure and determine upon a location, plan, and design for a monument or memorial in the city of Washington, District of Columbia, to the memory of Abraham Lincoln, subject to the approval of Congress.

SEC. 2. That in the discharge of its duties hereunder said commission is authorized to employ the services of such artists, sculptors, architects, and others as it shall determine to be necessary, and to avail itself of the services or advice of the Commission of Fine Arts, created by the act approved May 17, 1910.

SEC. 3. That the construction of the monument or memorial, herein and hereby authorized, shall be upon such site as shall be determined by the commission herein created, and approved by Congress, and said construction shall be entered upon as speedily as practicable after the plan and design therefor is determined upon and approved by Congress, and shall be prosecuted to completion under the direction of said commission and the supervision of the Secretary of War, under a contract or contracts hereby authorized to be entered into by said Secretary in a total sum not exceeding two million dollars.

SEC. 4. That vacancies occurring in the membership of the commission shall be filled by appointment by the President of the United States.

By joint resolution, approved February 1, 1913, Congress approved the plan, design and location for the memorial recommended by the commission.

The memorial is being erected in Potomac Park on the axis of the United States Capitol and the Washington Monument, in accordance with plans prepared by Henry Bacon of New York City.

Work on the construction of the memorial was commenced on Lincoln's Birthday, February 12, 1914, when the first sod was turned by the Special Resident Commissioner, ex-Senator Blackburn. The foundation was completed and the cornerstone laid February 12, 1915. One million three hundred thousand dollars has been appropriated by Congress toward the construction, which is to cost \$2,000,000, the memorial to be completed in four years from the commencement of work.

The foundation of the memorial, which is of reinforced concrete, rises 45 feet above the present grade, and will be surrounded by a mound of earth 1,000 feet in diameter. The exterior of the memorial proper is of white Colorado Yule marble, and the interior limestone. The only sculpture will be a colossal statue of Lincoln, being designed by Daniel Chester French, flanked by two bronze panels bearing Lincoln's Gettysburg and Second Inaugural addresses.

\* Joseph C. S. Blackburn, former United States Senator from Kentucky, was appointed by President Wilson on February 2, 1914, to fill the vacancy on the commission caused by the death of Mr. Cullom. † Thomas S. Martin, United States Senator from Virginia, was afterward appointed to fill the vacancy on the commission caused by the death of Senator Money. Secretary of the Memorial, Henry A. Vale, Office Building, United States Senate.

## TELESCOPES.

THERE are two kinds of telescopes, viz., refracting and reflecting. In the former the rays of light are made to converge to a focus by lenses, while in the latter they are made to converge by being reflected from the surface of a slightly concave, highly polished mirror.

The chief disadvantages of refracting telescopes are the chromatic and spherical aberrations of the lenses. In reflecting telescopes these aberrations can be done away with by using parabolic mirrors, but the great objection to the latter are the many mechanical difficulties that have to be overcome.

Owing to the travelling of the earth in its orbit and revolving about its axis, stars if viewed by a fixed telescope would soon disappear. It is thus necessary that a telescope be mounted so a star will always be in its field. This is accomplished by using an equatorial mounting.

In an equatorial mounting there are two axes, one called the "polar" that is parallel to the axis of the earth, and the other the "declination" at right angles to it. Hence, when a star is to be followed, the telescope is clamped in position, and by means of clockwork follows the star so it always remains in view.

The magnifying power of telescopes is generally expressed in diameters, the practical limit of power being 100 diameters per inch of diameter of the telescope. Thus the 36-inch telescope at the Lick Observatory may give a magnifying power of 3,600 diameters. But such high power can only be used in a very clear atmosphere, and consequently most astronomical observations are made at 1,000 diameters.

## REFRACTING TELESCOPES.

The largest in the world are in the United States. The one at Yerkes Observatory, Geneva Lake, Wis., has an object lens 40 inches in diameter with a focal length of 64 feet. The movable part of the instrument turning on the polar axis weighs about 12 tons, and the clock 1½ tons. Other large telescopes are the 36-inch at Lick Observatory, Mt. Hamilton, Cal., where many important astronomical discoveries have been made; the 26-inch at the U. S. Observatory, Washington, D. C., and the 24-inch belonging to Harvard University. There is a 30-inch refracting telescope at the Allegheny Observatory, Riverview Park Pa.

Abroad is the 30-inch at the Imperial Observatory, Pulkovsk (near St. Petersburg), Russia. This telescope has a platform at the lower end of the polar axis, from which observers can readily operate the instrument. The Meudon Observatory (near Paris, France) has a 32-inch, the Potsdam, Prussia, a 31-inch, and the Royal Observatory, at Greenwich, England, a 28-inch. There is a 32-inch being installed at the Nicolaief Observatory of Russia.

## REFLECTING TELESCOPES.

One of the most perfect instruments ever built is at Mt. Wilson Observatory, Pasadena, Cal. The mirror is silver on glass, 60 inches in diameter, and weighs nearly a ton. The telescope is moved by electric motors in right ascension and declination. An important feature in this instrument is the different focal lengths that can be obtained. The 60-inch mirror has a 25-foot focus, but by a suitable arrangement of mirrors it is possible to get focal lengths of 80, 100 and 150 feet. At the same observatory a 100-inch reflector is being constructed. The tube of the telescope, with the mirror at the bottom, will be 43 feet long, and with the mountings will weigh nearly 20 tons. There is a 36-inch reflector at Lick Observatory, Harvard University has a 28-inch and a 60-inch, and at the Yerkes Observatory is a 24-inch.

Other notable reflectors are the Lord Rosse, at Birr Castle, Ireland, which has a mirror 72 inches in diameter of speculum metal and a focal length of 54 feet, a 48-inch at Melbourne, Australia, a 60-inch at Ealing, England, a 48-inch at Paris, France, and a 39-inch at Meudon, France. The Dominion Astronomical Observatory has had plans prepared for erecting a 72-inch near Victoria, B. C. The contract for the construction of a 60-inch reflecting telescope for the National Observatory at Cordoba, Argentina, was awarded.

**THE NATIONAL FLAG.**

The official flag of the United States bears forty-eight white stars in a blue field, arranged in six rows of eight stars each. Two stars were added in 1912 by the admission of Arizona and New Mexico to the Union. The garrison flag of the Army is made of bunting, thirty-six feet fly and twenty feet hoist, thirteen stripes, and in the upper quarter, next the staff, is the field or "union" of stars, equal to the number of States, on blue field, over one-third length of the flag, extending to the lower edge of the fourth red stripe from the top. The storm flag is twenty feet by ten feet, and the recruiting flag nine feet nine inches by four feet four inches. The "Union Jack" is blue with a star for every State in white. The Revenue Marine Service flag, authorized by act of Congress, March 2, 1799, was originally prescribed to "consist of sixteen perpendicular stripes, alternate red and white, the union of the ensign bearing the arms of the United States in dark blue on a white field." The sixteen stripes represented the number of States which had been admitted to the Union at that time, and no change has been made since. June 14, the anniversary of the adoption of the flag, is celebrated as Flag Day in a large part of the Union.

The National flag should be hoisted preferably at, but not earlier than sunrise, and never later than 8 o'clock. When the National and State or other flags fly together the National flag should be on the right. When used on a bier or casket at a funeral the stars should be placed at the head. In no case should the flag be allowed to touch the ground. The statutes of the United States forbid the use of the flag in registered trade-marks, and the use of the flag for advertising purposes is illegal.

The President's flag consists of a blue background, in the centre of which appears the seal of the United States.

The flag of Admiral of U. S. Navy is blue with four white stars—two horizontal and two perpendicular in centre.

The flag of the Secretary of the Navy is blue with two white stars (perpendicular) at either end and white anchor in centre.

The consular flag is blue with large white C in centre, surrounded by thirteen white stars.

The flag of the Panama Canal consists of a blue square bearing the letters "P. C." in white.

The flag of New York State is blue charged with the arms of the State. The flag of New York City consists of three perpendicular lines, blue, white, and orange (the blue nearest the flag staff); on the white bar is the seal of the city, without the legend.

**LIFEBOAT REQUIREMENTS.**

As contained in part in the General Rules and Regulations of the Board of Supervising Inspectors, Steamboat-Inspection Service, edition of July 22, 1914, and in amendments of said rules:

All pleasure steamers, and all other steamers over 150 tons, but not exceeding 1,000 tons, limited by their certificates of inspection to routes not more than 15 miles from any harbor, shall not be required to have more than one of the lifeboats to be of 180 cubic feet capacity. Nothing, however, in this proviso shall exempt any such steamer from carrying the aggregate cubic feet of lifeboat capacity required by the rules.

All ocean, coastwise, lake, bay, and sound steamers carrying passengers, except as otherwise provided for in the rules, shall be equipped with lifeboats of sufficient capacity to accommodate at one time all persons on board.

All river steamers not carrying passengers, except as otherwise provided, shall have at least one good substantial boat with lines attached, and properly supplied with oars, and kept at all times in good condition and ready for immediate use.

Ocean steamers carrying passengers shall be equipped with lifeboats of sufficient capacity to accommodate at one time all persons on board, including passengers and crew. One-half of such lifeboat equipment may be in approved liferafts or approved collapsible lifeboats.

Coastwise steamers carrying passengers shall be equipped with lifeboats of sufficient capacity to accommodate at one time all persons on board, including passengers and crew. Provided, however, that such steamers navigating during the interval from the fifteenth day of May to the fifteenth day of September in any one year, both dates inclusive, will be required to be equipped with lifeboats of only such capacity as will be sufficient to accommodate at one time at least 60 per cent. of all persons on board, including passengers and crew; two-thirds of such required lifeboat equipment throughout the year may be in approved, liferafts or approved collapsible lifeboats.

Lake, bay, and sound steamers carrying passengers shall be equipped with lifeboats of sufficient capacity to accommodate at one time all persons on board, including passengers and crew: Provided, however, that such steamers navigating during the interval from the fifteenth day of May to the fifteenth day of October, in any one year, both dates inclusive, shall be required to be equipped with lifeboats of only such capacity as will be sufficient to accommodate at one time at least 30 per cent. of all persons on board, including passengers and crew: Provided, further, That such steamers navigating routes lying at all points within a distance of three miles from land, or over waters whose depth is not sufficient to entirely submerge the vessel in case of disaster, shall, during the interval from the fifteenth day of May to the fifteenth day of October, in any one year, both dates inclusive, be required to be equipped with lifeboats of only such capacity as will be sufficient to accommodate at one time at least 10 per cent. of all persons on board, including passengers and crew. And navigating the waters of the lakes, bays, and sounds tributary to the Pacific coast, the Atlantic coast south of the thirty-third parallel of north latitude, and the Gulf of Mexico shall be equipped with lifeboats of sufficient capacity to accommodate at one time at least 30 per cent. of all persons on board, including passengers and crew: Provided, however, That such steamers navigating routes lying at all points within a distance of three miles from land, or over waters whose depth is not sufficient to entirely submerge the vessel in case of disaster, shall be required to be equipped with lifeboats of only such capacity as will be sufficient to accommodate at one time at least 10 per cent. of all persons on board, including passengers and crew. Three-fourths of the lifeboat capacity required on lake, bay, and sound steamers may be in approved decked lifeboats, liferafts, or approved collapsible lifeboats: Provided, further, That such steamers equipped with wireless telegraphy navigating in daylight only and whose routes are at all times within a distance of 10 miles from land or over waters whose depth is not sufficient to entirely submerge the vessel in case of disaster shall, during the interval from the fifteenth day of May to the fifteenth day of October, in any one year, both dates inclusive, be required to be equipped with lifeboats of only such capacity as will be sufficient to accommodate at one time at least 15 per cent. of all persons on board, including passengers and crew. Three-fourths of the lifeboat capacity may be in approved liferafts or approved collapsible lifeboats.

River steamers carrying passengers shall be equipped with lifeboats of sufficient capacity to accommodate at one time at least 10 per cent. of all persons on board, including passengers and crew. Three-fourths of such lifeboat equipment may be in approved liferafts or approved collapsible lifeboats.

The navigation of ferryboats shall be confined to the ferry routes specified in the certificate of inspection, but such vessels may be permitted to go beyond their authorized routes with passengers only, or without such permit, to lighten or relieve vessels in distress. When any ferryboat leaves her ferry route and carries passengers she shall be required to carry the same officers, crew, and equipment as required of other steamers carrying passengers.

### THE SINGLE TAX.

The following statement of the single tax principle was written by Henry George, Sr.:

We assert as our fundamental principle the self-evident truth enunciated in the Declaration of American Independence, that all men are created equal and are endowed by their Creator with certain inalienable rights. We hold that all men are equally entitled to the use and enjoyment of what God has created and of what is gained by the general growth and improvement of the community of which they are a part. Therefore, no one should be permitted to hold natural opportunities without a fair return to all for any special privilege thus accorded to him, and that value which the growth and improvement of the community attaches to land should be taken for the use of the community; that each is entitled to all that his labor produces; therefore, no tax should be levied on the products of labor.

To carry out these principles, we are in favor of raising all public revenues for national, State, county, and municipal purposes by a single tax upon land values, irrespective of improvements, and of the abolition of all other forms of direct and indirect taxation.

Since in all our States we now levy some tax on the value of land, the single tax can be instituted by the simple and easy way of abolishing, one after another, all other taxes now levied and commensurately increasing the tax on land values until we draw upon that one source for all expenses of government, the revenue being divided between local government, State government, and the general government, as the revenue from direct taxes is now divided between the local and State governments, or by a direct assessment being made by the general government upon the States and paid by them from revenues collected in this manner. The single tax we propose is not a tax on land, and therefore would not fall on the use of land and become a tax on labor.

It is a tax not on land, but on the value of land. Thus it would not fall on all land, but only on valuable land, and on that not in proportion to the use made of it, but in proportion to its value—the premium which the user of land must pay to the owner, either in purchase money or rent, for permission to use valuable land. It would thus be a tax not on the use and improvement of land, but on the ownership of land, taking what would otherwise go to the owner as owner, and not as user.

In assessments under the single tax all values created by individual use or improvement would be excluded, and the only value taken into consideration would be the value attaching to the bare land by reason of neighborhood, etc., to be determined by impartial periodical assessments. Thus the farmer would have no more taxes to pay than the speculator who held a similar piece of land idle, and the man who on a city lot erected a valuable building would be taxed no more than the man who held a similar lot vacant. The single tax in short would call upon men to contribute to the public revenues not in proportion to what they produce or accumulate, but in proportion to the value of the natural opportunities they hold. It would compel them to pay just as much for holding land idle as for putting it to its fullest use. The single tax, therefore, would—

1st. Take the weight of taxation off the agricultural districts, where land has little or no value irrespective of improvements, and put it on towns and cities, where bare land rises to a value of millions of dollars per acre.

2d. Dispense with a multiplicity of taxes and a horde of tax-gatherers, simplify government, and greatly reduce its cost.

3d. Do away with the fraud, corruption, and gross inequality inseparable from our present methods of taxation, which allow the rich to escape while they grind the poor. Land cannot be hid or carried off, and its value can be ascertained with greater ease and certainty than any other.

4th. Give us with all the world as perfect freedom of trade as now exists between the States of the Union, thus enabling our people to share through free exchanges in all the advantages which nature has given to other countries, or which the peculiar skill of other peoples has enabled them to attain. It would destroy the trusts, monopolies, and corruptions which are the outgrowths of the tariff. It would do away with the fines and penalties now levied on any one who improves a farm, erects a house, builds a machine, or in any way adds to the general stock of wealth. It would leave every one free to apply labor or expend capital in production or exchange without fine or restriction, and would leave to each the full product of his exertion.

5th. It would, on the other hand, by taking for public use that value which attaches to land by reason of the growth and improvement of the community, make the holding of land unprofitable to the mere owner and profitable only to the user. It would thus make it impossible for speculators and monopolists to hold natural opportunities unused or only half used, and would throw open to labor the unlimited field of employment which the earth offers to man. It would thus solve the labor problem, do away with involuntary poverty, raise wages in all occupations to the full earnings of labor, make overproduction impossible until all human wants are satisfied, render labor-saving inventions a blessing to all, and cause such an enormous production and such an equitable distribution of wealth as would give to all comfort, leisure, and participation in the advantages of an advancing civilization, in securing to each individual equal right to the use of the earth. It is also a proper function of society to maintain and control all public ways for the transportation of persons and property, and the transmission of intelligence; and also to maintain and control all public ways in cities for furnishing water, gas, and all other things that necessarily require the use of such common ways.

### AMERICAN SCENIC AND HISTORIC PRESERVATION SOCIETY.

The society was founded by Andrew H. Green, incorporated in 1895, and is a National society for the protection of natural scenery, the preservation of historic landmarks and the improvement of cities. *President*—Geo. F. Kunz. *Secretary*—Edw. H. Hall, 154 Nassau St., New York. *Treasurer*—N. T. Phillips.

### THE PHILIPPINE SOCIETY.

*President*—Gen. Luke E. Wright. *Vice-President*—Lieut.-Col. E. W. Halford, U. S. A. *Secretary*—Richard E. Forrest. *Treasurer*—Chas. D. Palmer. *Assistant Secretary*—William J. Platka, 149 Broadway, New York City.

The Philippine Society was founded in April, 1913, to diffuse among the American people a more accurate knowledge of the Philippine Islands; to benefit the people of the islands by co-operation in the fields of religion, philanthropy, education and commerce; to promote social intercourse in the United States among those who are interested in the islands—the society will be kept free of all partisanship or sectarianism. Ex-President Taft is the Honorary President.

The society is composed of persons residing in the United States or in the Philippine Islands who are in any way interested in the welfare of the islands. The dues are: Patron \$500; life membership \$100; annual membership \$10 per year; associate membership, limited to officers in the army and navy, Filipinos, and those engaged in educational and religious work, \$5 per year.

## PROGRESS OF THE UNITED STATES

## IN AREA, POPULATION, AND MATERIAL INDUSTRIES.

(Compiled from a statement prepared by the Bureau of Foreign and Domestic Commerce, Department of Commerce.)

*a* Figures of 1915 are somewhat preliminary and subject to revision. *b* Exclusive of Alaska and islands belonging to the United States. *c* Census figures, relating to Continental United States; the figures for 1915 represent an estimate. *d* Census figures. *e* True valuation of real and personal property. *f* 1912. *g* 1800 to 1850, outstanding principal of the public debt, January 1. *h* Figures for the years 1800 to 1850 include the total public debt. *i* 1914. *j* Gold and silver cannot be stated separately prior to 1876. From 1862 to 1875, inclusive, gold and silver were not in circulation, except on the Pacific Coast, where it is estimated that the average specie circulation was about \$25,000,000, and this estimate is continued for the three following years under the head of gold. After that period gold was available for circulation. *k* As the result of a special investigation by the Director of the Mint, a reduction of \$135,000,000 was made in the estimate of gold coin in circulation on July 1, 1907, as compared with the basis of previous years, and on September 1, 1910, a reduction of \$9,700,000 was made in the estimate of silver coin. *l* Includes notes of Bank of United States; State bank notes; demand notes of 1862 and 1863; fractional currency, 1870; Treasury notes of 1890-1891 to date, and currency certificates, act of June 8, 1892-1900. *m* Includes all deposits, demand and time. *n* Includes value of buildings, \$3,556,639,496. The Twelfth Census was the first to collect statistics of buildings on farms. *o* Includes value of buildings, \$6,325,451,528. *p* Gross value of all farm products. The figures of the various censuses are not comparable, reason for which will be found in census reports. *q* Exclusive of neighborhood industries and hand trades, included in years previous to 1905. *r* "Ordinary receipts" include receipts from customs, internal revenue, direct tax, public lands, and "miscellaneous," but do not include receipts from loans, premiums, Treasury notes, or revenues of Post-Office Department. *s* Includes corporation and income taxes, \$79,828,675 in 1915. *t* "Ordinary disbursements" include disbursements for war, navy, Indians, pensions, payments for interest, and "miscellaneous," but do not include payments for premiums, principal of public debt, or disbursements for postal service paid from revenues thereof. *u* Imports for consumption after 1850. *v* Based on general imports. *w* Domestic exports only after 1860. *z* 1913. *y* Includes canal boats and barges prior to 1880. *z* First six months. (1) Figures relate to the Western Union only and after 1900 do not include messages sent over leased wires or under railroad contracts. (2) Estimated 1912. (3) 1800 to 1850, inclusive, from census of 1880; from 1850 to 1900, inclusive, from Rowell's Newspaper Directory; after 1900 from Ayer's American Newspaper Annual. Figures for 1914 include outlying possessions. (4) Includes salaries for teachers only. Figures are for 1912. (5) 1850, total alien passengers arrived; 1850, 15 months ending December 31; after 1850, fiscal years ending June 30.

## UNITED STATES GEOGRAPHIC BOARD.

*Acting Chairman*—Andrew Braid, Coast and Geodetic Survey, Department of Commerce. *Secretary*—Charles S. Sloane, Bureau of the Census, Department of Commerce. Headquarters, Washington, D. C.  
Frank Bond, General Land Office, Department of the Interior.  
Goodwin D. Ellsworth, Post-Office Department.  
William B. Greeley, Forest Service, Department of Agriculture.  
David M. Hildreth, Topographer, Post-Office Department.  
Frederick W. Hodge, Bureau of Ethnology, Smithsonian Institution.  
Brig.-Gen. Montgomery M. Macomb, President Army War College.  
Robert B. Marshall, Geological Survey, Department of the Interior.  
William McNeil, Bureau of Accounts, Department of State.  
C. Hart Merriam, Bureau of Biological Survey, Department of Agriculture.  
John S. Mills, Department of the Treasury.  
James E. Payne, Government Printing Office.  
George R. Putnam, Bureau of Lighthouses, Department of Commerce.  
Charles W. Stewart, Library and Naval War Records Office, Department of the Navy.  
Capt. Thomas Washington, Hydrographic Office, Department of the Navy.

By executive order of August 10, 1906, the official title of the United States Board on Geographic Names was changed to United States Geographic Board, and its duties enlarged. The board passes on all unsettled questions concerning geographic names which arise in the departments, as well as determining, changing, and fixing place names within the United States and its insular possessions, and all names hereafter suggested by any officer of the Government shall be referred to the board before publication. The decisions of the board are to be accepted by all the departments of the Government as standard authority. Advisory powers were granted the board concerning the preparation of maps compiled, or to be compiled, in the various offices and bureaus of the Government, with a special view to the avoidance of unnecessary duplication of work; and for the unification and improvement of the scales of maps, of the symbols and conventions used upon them, and of the methods of representing relief. Hereafter, all such projects as are of importance shall be submitted to this board for advice before being undertaken.

## UNITED STATES COURT OF CUSTOMS APPEALS.

(WASHINGTON, D. C.)

*Presiding Judge*—Robert M. Montgomery. *Associate Judges*—James F. Smith, Orion M. Barber, Marlon DeVries, George E. Martin. *Attorney-General*—Thomas W. Gregory. *Assistant Attorney-General*—Bert Hanson. *Clerk*—Arthur B. Shelton (\$3,500). *Marshal*—Frank H. Briggs (\$3,000).

SEC. 188. There shall be a United States Court of Customs Appeals, which shall consist of a Presiding Judge and four Associate Judges, each of whom shall be appointed by the President, by and with the advice and consent of the Senate, and shall receive a salary of seven thousand dollars a year. The Presiding Judge shall be so designated in the order of appointment and in the commission issued to him by the President; and the Associate Judges shall have precedence according to the date of their commissions. Any three members of said court shall constitute a quorum, and the concurrence of three members shall be necessary to any decision thereof. In case of a vacancy or the temporary inability, or disqualification for any reason of one or two of the Judges of said court, the President may, upon the request of the Presiding Judge of said court, designate any qualified United States Circuit or District Judge or Judges to act in his or their places and such Circuit or District Judges shall be duly qualified to so act.

SEC. 189. The said Court of Customs Appeals shall always be open for the transaction of business, and sessions thereof may, in the discretion of the court, be held in the several judicial circuits, and at such places as said court may from time to time designate.

SEC. 195. That the Court of Customs Appeals established by this chapter shall exercise exclusive appellate jurisdiction to review by appeal, as herein provided, final decisions by a board of general appraisers in all cases as to the construction of the law and the facts respecting the classification of merchandise and the rate of duty imposed thereon under such classifications, and the fees and charges connected therewith, and all appealable questions as to the jurisdiction of said board, and all appealable questions as to the laws and regulations governing the collection of the customs revenues; and the judgments and decrees of said Court of Customs Appeals shall be final in all such cases: *Provided, however,* That in any case in which the judgment or decree of the Court of Customs Appeals is made final by the provisions of this title, it shall be competent for the Supreme Court, upon the petition of either party, filed within sixty days next after the issue by the Court of Customs Appeals of its mandate upon decision, in any case in which there is drawn in question the construction of the Constitution of the United States, or any part thereof, or of any treaty made pursuant thereto, or in any other case when the Attorney-General of the United States shall, before the decision of the Court of Customs Appeals is rendered, file with the court a certificate to the effect that the case is of such importance as to render expedient its review by the Supreme Court, to require, by certiorari or otherwise, such case to be certified to the Supreme Court for its review and determination, with the same power and authority in the case as if it had been carried by appeal or writ of error to the Supreme Court: *And provided further,* That this act shall not apply to any case involving only the construction of section 1, or any portion thereof, of an act entitled "An act to provide revenue, equalize duties, and encourage the industries of the United States, and for other purposes," approved August 5, 1909, nor to any case involving the construction of section 2 of an act entitled "An act to promote reciprocal trade relations with the Dominion of Canada, and for other purposes," approved July 26, 1911. (Amendment as approved, August 22, 1914.)

SEC. 196. No appeal shall be taken or allowed from any Board of United States General Appraisers to any other court, and no appellate jurisdiction shall thereafter be exercised or allowed by any other courts in cases decided by said Board of United States General Appraisers, but all appeals allowed by law from such Board of General Appraisers shall be subject to review only in the Court of Customs Appeals hereby established, according to the provisions of this chapter: *Provided,* That nothing in this chapter shall be deemed to deprive the Supreme Court of the United States of jurisdiction to hear and determine all customs cases which have heretofore been certified to said court from the United States Circuit Courts of Appeals on application by writs of certiorari or otherwise, nor to review by writ of certiorari any customs case heretofore decided or now pending and hereafter decided by any Circuit Court of Appeals, provided application for said writ be made within six months after August 5, 1909: *Provided further,* That all customs cases decided by a Circuit or District Court of the United States or a court of a Territory of the United States prior to said date above mentioned, and which have not been removed from said courts by appeal or writ of error, and all such cases theretofore submitted for decision in said courts and remaining undecided may be reviewed on appeal at the instance of either party by the United States Court of Customs Appeals, provided such appeal be taken within one year from the date of the entry of the order, judgment, or decrees sought to be reviewed.

SEC. 197. Immediately upon the organization of the Court of Customs Appeals, all cases within the jurisdiction of that court pending and not submitted for decision in any of the United States Circuit Courts of Appeals, United States Circuit, Territorial or District Courts, shall, with the record and samples therein, be certified by said courts to said Court of Customs Appeals for further proceedings in accordance herewith: *Provided,* That where orders for the taking of further testimony before a referee have been made in any of such cases, the taking of such testimony shall be completed before such certification.

SEC. 198. If the importer, owner, consignee, or agent of any imported merchandise, or the Collector or Secretary of the Treasury, shall be dissatisfied with the decision of the Board of General Appraisers as to the construction of the law and the facts respecting the classification of such merchandise and the rate of duty imposed thereon under such classification, or with any other appealable decision of said board, they, or either of them, may, within sixty days next after the entry of such decree or judgment, and not afterward, apply to the Court of Customs Appeals for a review of the questions of law and fact involved in such decision: *Provided,* That in Alaska and in the insular and other outside possessions of the United States ninety days shall be allowed for making such application to the Court of Customs Appeals. Such application shall be made by filing in the office of the clerk of said court a concise statement of errors of law and fact complained of; and a copy of such statement shall be served on the collector, or the importer, owner, consignee, or agent, as the case may be. Thereupon the court shall immediately order the Board of General Appraisers to transmit to said court the record and evidence taken by them, together with the certified statement of the facts involved in the case and their decision thereon; and all the evidence taken by and before said board shall be competent evidence before said Court of Customs Appeals. The decision of said Court of Customs Appeals shall be final, and such cause shall be remanded to said Board of General Appraisers for further proceedings to be taken in pursuance of such determination.

SEC. 199. Immediately upon receipt of any record transmitted to said court for determination the clerk thereof shall place the same upon the calendar for hearing and submission; and such calendar shall be called and all cases thereupon submitted, except for good cause shown, at least once every sixty days: *Provided,* That such calendar need not be called during the months of July and August of any year.

**A TABLE OF LEADING ARTICLES IMPORTED INTO THE UNITED STATES OR  
INTO ANY OF ITS POSSESSIONS (EXCEPT PHILIPPINE ISLANDS,  
GUAM AND TUTUILA), GIVING RATES AT ENTRY BY THE  
TARIFF ACT OF 1913 COMPARED WITH THE  
TARIFF ACT OF 1909.**

(The following table covers only the articles of principal importance imported.)

(ad val.—ad valorem; n.s.p.f.—not specially provided for.)

\* Effective March 1, 1914.

| Marroons.                                                                                           | Pigs, copper, iron.                                                                                        | Shoddy.                                                            | Wagons and carts.                                 |
| Marrow.                                                                                             | Pipe, cast-iron.                                                                                           | Shoes, leather.                                                    | Waste.                                            |
| Marshmallow.                                                                                        | Plants, fruits, tropical and semi-tropical, for propagation or cultivation.                                | Silk, raw.                                                         | Water fowls.                                      |
| Meal, corn.                                                                                         |                                                                                                            | Silver bullion, coins, medals, ore, sweepings.                     | Wax, n.s.p.f.                                     |
| Meats.                                                                                              |                                                                                                            | Sisal grass.                                                       | Wearing apparel. (See below.)                     |
| Medals of gold, silver or copper.                                                                   |                                                                                                            | Skins, undressed.                                                  | Weeds and wood used as drugs, n.s.p.f.            |
| Metal composition, n.s.p.f.                                                                         |                                                                                                            | Soda, arseniate, ash, cyanide, nitrite, silicate, sulphate.        | Whalebone, unmanufactured.                        |
|                                                                                                     |                                                                                                            | Sole leather.                                                      | Whale oil, n.s.p.f.                               |
|                                                                                                     |                                                                                                            | Specimens, botany and mineralogy and natural history not for sale. | Wheat, n.s.p.f.                                   |
|                                                                                                     |                                                                                                            | Spermaceti oil.                                                    | Whetstones.                                       |
|                                                                                                     |                                                                                                            | Spikes.                                                            | Wild animals.                                     |
|                                                                                                     |                                                                                                            | Spirits, turpentine.                                               | Wire, barbed fence, galvanized, nails, staples.   |
|                                                                                                     |                                                                                                            | Sprigs, cut.                                                       | Wood, n.s.p.f.                                    |
|                                                                                                     |                                                                                                            | Stamps, foreign.                                                   | Wood alcohol.                                     |
|                                                                                                     |                                                                                                            | Statuary.                                                          | Wood pulp.                                        |
|                                                                                                     |                                                                                                            |                                                                    | Wool, n.s.p.f.                                    |
|                                                                                                     |                                                                                                            |                                                                    | Works of art.                                     |
|                                                                                                     |                                                                                                            |                                                                    | Wrought and cast iron.                            |
|                                                                                                     |                                                                                                            |                                                                    | Wrought iron or steel nails, n.s.p.f.             |
|                                                                                                     |                                                                                                            |                                                                    | Yarn, Angora goat hair, alpaca hair, etc., waste. |

## CUSTOM HOUSE EXAMINATION OF BAGGAGE.

The Tariff of 1913 provides for the exemption from duty of wearing apparel, etc., as shown in paragraph 642, as follows:

642. Wearing apparel, articles of personal adornment, toilet articles, and similar personal effects of persons arriving in the United States; but this exemption shall include only such articles as were actually owned by them and in their possession abroad at the time of or prior to their departure from a foreign country, and as are necessary and appropriate for the wear and use of such persons and are intended for such wear and use, and shall not be held to apply to merchandise or articles intended for other persons or for sale. *Provided*, That in case of residents of the United States returning from abroad all wearing apparel, personal and household effects taken by them out of the United States to foreign countries shall be admitted free of duty, without regard to their value, upon their identity being established under appropriate rules and regulations to be prescribed by the Secretary of the Treasury: *Provided further*, That up to but not exceeding one hundred dollars in value of articles acquired abroad by such residents of the United States for personal or household use or as souvenirs or curios, but not bought on commission or intended for sale, shall be admitted free of duty.

## BAGGAGE DECLARATIONS.

The law requires that every person entering the United States shall make a declaration and entry of personal baggage. The senior member of a family present as a passenger may, however, declare for the entire family. A failure to declare articles acquired abroad and brought in as baggage renders the articles subject to forfeiture and the passengers liable to criminal prosecution. (Sections 2802 and 3082, R. S.)

Returning residents of the United States should use the form of declaration printed in black; non-residents should use the form printed in red.

The exact number of pieces of baggage accompanying a passenger must be stated in the declaration, including trunks, valises, boxes, hand bags, and packages or bundles of every kind. Forms of baggage declarations will be furnished passengers by the steamship officers. The declaration should

## CUSTOM HOUSE EXAMINATION OF BAGGAGE—Continued.

be prepared and signed at least one day before the expected arrival of the vessel. Declarations spoiled in preparation should not be destroyed, but should be turned over to the pursuer, who will furnish a new blank.

When the declaration has been prepared and signed, the coupon at the bottom of the form must be detached and retained by the passenger and the declaration delivered to the ship's officer designated to receive the same. After all the baggage and effects of the passenger have been landed, the coupon which has been retained must be presented at the inspector's desk, and an inspector will then be detailed to examine the baggage.

Passengers must acknowledge in person, on the pier, their signatures to the declarations.

## RETURNING RESIDENTS OF THE UNITED STATES.

Returning residents of the United States must declare all articles acquired abroad, in their baggage or on their persons, whether by purchase, by gift, or otherwise, and whether dutiable or free of duty. Exemption, however, will be allowed by customs officers of articles aggregating not over \$100 in value, if suitable for personal or household use or as souvenirs or curios, and whether intended for the personal use of the passengers or as gifts or presents to others, provided the articles are not bought on commission for another person not intended for sale. Articles so exempt from duty must, nevertheless, be declared. Articles belonging to one passenger can not be included in the exemption of another.

Use does not exempt from duty wearing apparel or other articles obtained abroad. Such articles which have been used abroad may, however, be specifically noted on the declaration, and due allowance will be made by the appraising officers for depreciation through wear and use and duties charged upon the articles at their value in their condition as imported.

Passengers must not deduct the \$100 exemption in making out their declarations. Such deductions will be made by customs officers on the pier.

All wearing apparel, personal and household effects taken out of the United States by residents shall be admitted free of duty without regard to their value upon their identity being established. If remodelled, repaired, or improved abroad, the cost of such remodelling, repairing, or improvement must be declared, and receipted bills for such alterations should be presented. The cost of such repairs is subject to duty, but may be included by customs officers within the \$100 exemption. If the cost or value of the repairs be not declared, the articles will be subject to duty upon their entire value.

Citizens of the United States or persons who have at any time resided in this country shall be deemed to be residents of the United States, unless they shall have abandoned their residence in this country and acquired an actual bona fide residence in a foreign country. Such citizens or former residents who declare as nonresidents must present satisfactory evidence to the customs officers upon the pier that they have given up their residence in the United States and have become bona fide residents of a foreign country.

The residence of a wife follows that of the husband, and the residence of a minor child follows that of its parents.

The examination of baggage will be facilitated and difficulties avoided if receipted bills for foreign purchases be presented, and if all articles acquired abroad be packed separately in one or more trunks.

## NONRESIDENTS OF THE UNITED STATES.

Nonresidents of the United States must declare all articles in their baggage or on their persons which do not constitute wearing apparel, articles of personal adornment, toilet articles, or similar personal effects, whether intended for their personal use or for others. They must also declare all articles of wearing apparel, jewelry, and other articles of personal adornment, toilet articles, and similar effects when not owned by them or when intended for other persons or for sale.

## HOUSEHOLD EFFECTS.

Household effects, such as furniture, table linen, bed linen, tableware, etc., imported as baggage must be declared. If shown to the satisfaction of the customs officers to have been actually owned and used abroad by the passenger not less than one year and not intended for any other person nor for sale, such effects will be admitted free of duty. If not so owned and used abroad, duties must be paid thereon, unless included in the \$100 exemption allowed returning residents.

## CIGARS AND CIGARETTES.

Each passenger over eighteen years of age may bring in free of duty 50 cigars or 300 cigarettes, or smoking tobacco not exceeding three pounds, if for the bona fide use of such passenger. These articles must be declared, but will be passed free by customs officers in addition to the \$100 exemption.

## CONTESTED VALUATION.

Passengers dissatisfied with values placed upon dutiable articles by the customs officers on the pier may demand a re-examination. Application therefor should be made to the officers in charge immediately. If, for any reason, this course is impracticable, the packages containing the articles should be left in customs custody and application for reappraisal made to the collector of customs in writing within ten days after the original appraisement. No request for reappraisal can be entertained after the articles have been removed from customs custody.

Examination of any baggage may be postponed if the passenger requests the officer taking his declaration to have the baggage sent to the appraiser's stores.

Currency or certified checks only can be accepted in payment of duties, but upon request baggage will be retained on the pier for 24 hours to enable the owner to secure currency or certified checks.

The offering of gratuities or bribes to customs officers is a violation of law. Customs officers who accept gratuities or bribes will be dismissed from the service, and all parties concerned are liable to criminal prosecution.

Discourtesy or incivility on the part of customs officers should be reported to the collector at the custom house, to the deputy collector or deputy surveyor at the pier, or to the Secretary of the Treasury. Passengers should not, however, deem customs officers discourteous merely because such officers examine baggage thoroughly or appraise articles at a value different from that stated in the passenger's declaration.

## BAGGAGE FOR TRANSPORTATION IN BOND.

Baggage containing dutiable articles may be forwarded in bond to any other port of entry upon good reason therefor being shown.

Passengers desiring to have such baggage forwarded in bond should so indicate on their declarations, and also make a request therefor upon the inspector at the time he is assigned to the examination of their baggage. Similar action should be taken when it is desired to have baggage forwarded to another country in transit through the United States.

## CUSTOM HOUSE EXAMINATION OF BAGGAGE—Continued.

## SEALSKIN GARMENTS.

An act of Congress of 1897, as amended in 1912, expressly forbids the importation into the United States of garments made in whole or in part of the skins of seals taken in the waters of the Pacific Ocean. Unless the owner is able to establish to the satisfaction of the collector that the garments are not prohibited by said act, they cannot be admitted.

## AIGRETTES AND OTHER PLUMAGE.

Paragraph 347 of the present Tariff act contains the following proviso:

"The importation of aigrettes, egret plumes, or so-called osprey plumes, and the feathers, quills, heads, wings, tails, skins, or parts of skins, of wild birds, either raw or manufactured, and not for scientific or educational purposes, is hereby prohibited; but this provision shall not apply to the feathers or plumes of ostriches or to the feathers or plumes of domestic fowls of any kind."

Any of the above-described prohibited articles will be excluded from entry when brought in by passengers as trimmings on hats or other articles of wearing apparel, and will be confiscated whether found in the baggage or on the person. In cases where there has been no wilful intent to violate the law, such prohibited articles may be exported to a foreign country.

W. G. McADOO, Secretary of the Treasury.

## THE UNITED STATES CENSUS.

THE Constitution requires that a census of the United States shall be taken decennially. The First Census was taken in 1790 under the supervision of the President; subsequent censuses, to and including that of 1840, were taken under the supervision of the Secretary of State. In 1849 the supervision of the census was transferred to the newly organized Department of the Interior, and continued under the control of that department until the passage, in 1903, of the act creating the Department of Commerce and Labor; by this act the Census Bureau was transferred to the new department. Congress, by act approved March 6, 1902, made the Census Office a permanent bureau of the Government. Since March 4, 1913, when the Department of Commerce and the Department of Labor were separately organized, the Bureau of the Census has been attached to the former department.

The work of the Census Bureau is divided into two main branches, namely the decennial census and special statistical inquiries, the latter mostly made in the intervals between the decennial censuses. The Thirteenth Decennial Census was taken as of date April 15, 1910. It covered the three main subjects—(1) population, (2) agriculture, and (3) manufactures, mines, and quarries.

The results of this census have been published and have been used wherever available for the tables of the present ALMANAC. The aggregate cost of the census of 1910 was about \$14,290,000, in addition to which \$1,675,000 was spent in carrying on the annual investigations of the permanent bureau during the census period. Of this amount \$7,200,000 represents the cost of collecting the data through the employment of over 70,000 paid enumerators, besides supervisors, clerks, and special agents. The balance is the cost of tabulating and publishing the results. A more detailed account of the census of 1910 is given in the 1911 issue of THE WORLD ALMANAC.

The permanent work of the Census Bureau is provided for by the act of Congress approved March 6, 1902, and amendments thereto. These acts authorize and direct the bureau to make statistical inquiries regarding the insane, feeble-minded, deaf and dumb, and blind; crime, pauperism, and benevolence; deaths and births in the areas maintaining registration systems; social and financial statistics of cities; wealth, debt and taxation; religious bodies; electric light and power, telephones and telegraphs, and street and electric railways; transportation by water; cotton produced, consumed, imported, exported, and on hand, and active cotton spindles; stocks of leaf tobacco held by manufacturers and dealers. The statistics of deaths (which now cover about two-thirds of the population) of cities, of production of cotton and of tobacco stocks, are secured annually; the other statistics mentioned are taken usually at intervals of five or ten years, not, however, at the same time as the regular decennial censuses. The act of 1902 also provides for a census of manufactures in the fifth year intervening between the decennial censuses.

The Director of the Census is appointed by the President of the United States and receives a salary of \$6,000 per annum. The present Director is Samuel L. Rogers of North Carolina. The permanent office organization includes a chief clerk, William L. Austin; four chief statisticians—for Population, William C. Hunt; for Manufactures, William M. Stewart; for Finance and Municipal Statistics, Starke M. Grogan, and for Vital Statistics, Richard C. Lippin; a geographer, Charles S. Sloane, and eight chiefs of division. The entire number of employees in the bureau at Washington is now about 600; in addition there are about 775 special agents employed intermittently in the Southern States for the collection of cotton statistics. The number of employees in Washington was greatly increased during the decennial census; on November 1, 1910, it was 3,565, in addition to field employees.

## UNITED STATES SECRET SERVICE.

THE Secret Service Division of the Treasury Department is under the direction of Wm. J. Flynn, chief of the division. The service is principally engaged in detecting and prosecuting makers and dealers in counterfeit paper money and coin. Details are also furnished for the protection of the President of the United States.

The arrests of counterfeiters number about 400 annually; other arrests are for bribery, impersonating United States Government officers, perjury, and violating sections of the United States Revised Statutes relating to foreign and domestic obligations and coins.

## NATIONAL GRANGE, PATRONS OF HUSBANDRY.

Master—Oliver Wilson, Peoria, Ill. Overseer—W. H. Vary, Watertown, N. Y. Lecturer—George W. F. Gaunt, Mullica Hill, N. J. Steward—F. C. Bancroft, Wyoming, Del. Assistant Steward—J. A. Sherwood, Long Hill, Ct. Chaplain—A. P. Reardon, McLouth, Kan. Treasurer—Mrs. Eva S. McDowell, 6 Norfolk Terrace, Wellesley, Mass. Secretary—C. M. Freeman, Tippecanoe City, Ohio. Gatekeeper—C. L. Rice, Austin, Minn. Ceres—Mrs. Esther E. Pattee, Laconia, N. H. Pomona—Mrs. Cora E. Ketcham, Hastings, Mich. Flora—Mrs. Ella Peckham, Newport, R. I. L. A. Steward—Mrs. Mabel H. Harland, Payette, Idaho. High Priest—C. M. Gardner, Westfield, Mass. Priest Archon—Oliver Wilson, Peoria, Ill. Priest Annalist—C. E. Spence, Oregon City, Ore. Executive Committee: C. S. Stetson, Chairman, Greene, Me.; A. B. Judson, Balfour, Iowa; W. N. Cady, Secretary, Middlebury, Vt.

The National Grange has established over 30,000 subordinate granges throughout the United States.

## Postal Information.

(Revised by the Post-Office Department for THE WORLD ALMANAC. Sections quoted by numbers in this subject refer to the Postal Laws and Regulations.)

## DOMESTIC RATES OF POSTAGE.

ALL mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations: (Domestic rates apply to mail for Canada, Mexico, Cuba, Tutuila, Porto Rico, Guam, Hawaii, the Philippines, the "Canal Zone," the Republic of Panama, and Shanghai, China, also to mail for officers or members of the crew of vessels of war of the United States, and officers and men of the United States Navy in the United States Naval Hospital, Yokohama, Japan.)

**First-Class Matter**—This class includes letters, postal cards, "post cards," and anything sealed or otherwise closed against inspection (except as provided for under other classifications) or anything containing writing not authorized on mail matter of other classifications.

First-class or letter rate of postage to any part of the United States, its possessions, or the above-named countries, *two cents per ounce or fraction thereof*.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, and the addressee cannot be served by rural free delivery carriers, one cent per ounce or fraction thereof.

Rates on **postal cards**, one cent (double or "reply" cards, two cents). Postal cards issued by the Post-Office Department may bear written, printed, or other additions as follows:

(a) The face of the card may be divided by a vertical line placed approximately one-third of the distance from the left end of the card; the space to the left of the line to be used for a message, etc., but the space to the right for the address only.

(b) Addresses upon postal cards may be either written, printed, or affixed thereto, at the option of the sender.

(c) Very thin sheets of paper may be attached to the card on condition that they completely adhere thereto. Such sheets may bear both writing and printing.

(d) Advertisements, illustrations, or writing may appear on the back of the card and on the left third of the face.

(e) The addition to a postal card of matter other than as above authorized will subject the card, when sent in the mails, to postage according to the character of the message—at the letter rate if wholly or partly in writing or the third-class rate if entirely in print. In either case the postage value of the stamp impressed upon the card will not be impaired.

(f) Postal cards must be treated in all respects as sealed letters, except that those mailed for local delivery will be returned to the sender if undeliverable and the name and address of the sender appears thereon. Undeliverable "double" postal cards will be returned to the sender if known.

(g) Postal cards bearing particles of glass, metal, mica, sand, tinsel or other similar substances, are unmailable, except when inclosed in tightly sealed envelopes with proper postage attached, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

Cards that have been spoiled in printing or otherwise will be redeemed from the original purchasers at 75 per cent. of their face value if unutilized.

**POST CARDS**—(private mailing cards)—bearing written or printed messages are transmissible in the mails.

Private mailing cards ("post cards") in the domestic mails must conform to the following conditions:

(a) A "post card" must be an unfolded piece of cardboard not exceeding approximately 3 9-16 by 5 9-16 inches, nor less than approximately 2 3-4 by 4 inches.

(b) It must in form and in the quality and weight of paper be substantially like the Government postal card.

(c) It may be of any color not interfering with a legible address and postmark.

(d) It may or may not, at the option of the sender, bear near the top of the face the words "post card."

(e) The face of the card may be divided by a vertical line; the left half to be used for a message, etc., but that to the right for the address only.

(f) Very thin sheets of paper may be attached to the card, and then only on condition that they completely adhere thereto. Such sheets may bear both writing and printing.

(g) Advertisements and illustrations may appear on the back of the card and on the left half of the face.

2. Cards, without cover, conforming to the foregoing conditions are transmissible in the domestic mails (including the possessions of the United States) and to Cuba, Canada, Mexico, the Republic of Panama, and Shanghai, China, at the postage rate of 1 cent each.

3. When "post cards" are prepared by printers and stationers for sale, it is desirable that they bear in the upper right hand corner of the face an oblong diagram containing the words "Place postage stamp here," and at the bottom of the space to the right of the vertical dividing line, the words "This space for the address."

4. Cards which do not conform to the conditions prescribed by these regulations are, when sent in the mails, chargeable with postage according to the character of the message—at the letter rate, if wholly or partly in writing, or at the third-class rate, if entirely in print.

5. Cards bearing particles of glass, metal, mica, sand, tinsel, or other similar substances, are unmailable, except when inclosed in tightly sealed envelopes, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

Postage on all letters should be fully prepaid, but if prepaid one full rate and no more, they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a post-office, the addressee will be notified to remit postage; and if he fails to do so they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rate is charged on typewriting and carbon or letter press copies thereof, and on all printed imitations or reproductions of typewriting or manuscript obtained by mechanical process unless such reproductions are presented at post-office windows in the minimum number of twenty identical unsealed copies.

Letters and other matter prepaid at the letter rate—two cents an ounce or fraction thereof—(but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope or wrapper. The limit of weight is four pounds, except for a single book, and except, also, gold for or from Alaska sent by registered mail.

## DOMESTIC RATES OF POSTAGE—Continued.

Prepaid letters and other matter prepaid at the letter rate will be forwarded from one post-office to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed. Nothing may be added to such letters except the forwarding address without subjecting them to new postage.

**Second-Class Matter.**—This class includes all printed newspapers and periodicals that have been "Entered as second-class matter," under the act of March 3, 1879, and are regularly issued at stated intervals as frequently as four times a year, from a known office of publication, and mailed by the publishers or news agents to actual subscribers or as sample copies or to news agents for sale, and newspapers and publications of this class mailed by persons other than publishers. Also periodical publications entered under the act of August 24, 1912, of benevolent and fraternal societies, organized under the lodge system and having a membership of a thousand persons, and the publications of strictly professional, literary, historical and scientific societies, and incorporated institutions of learning, trade unions, etc., provided that these be published at stated intervals not less than four times a year, and that they be formed of printed paper sheets without board, cloth, leather or other substantial binding. Also periodicals issued by State Departments of Agriculture which are entered under the act of June 6, 1906. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations, societies, and institutions represented come within the purview of the law. Publications designed primarily for advertising or free circulation, or circulation at a nominal rate, or not having a legitimate list of subscribers, are not entitled to the pound rate under the act of March 3, 1879.

Rates of postage to publishers and news agents, *one cent a pound or fractional part thereof*, prepaid in currency. Newspapers (except weeklies) mailed by the publishers or by registered news agents for local delivery by city letter carriers and periodicals not exceeding 2 ounces in weight are subject to the rate of one (1) cent each, to be prepaid by stamps affixed. Periodicals exceeding two ounces in weight mailed for local carrier delivery are subject to the rate of two (2) cents each, to be prepaid by stamps affixed.

Publications which have not been admitted to the second-class are third- or fourth-class matter. Publications sent to actual subscribers in the county where printed and published are free, unless mailed for delivery at a letter-carrier office.

Rates of postage on second-class newspapers, magazines, or periodicals, mailed by others than the publishers or news agents, *one cent for each four ounces or fraction thereof*. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. This rate applies only when a complete copy is mailed. Parts of second-class publications or partial or incomplete copies are not entitled to second-class rates. Second-class matter is entitled to special delivery when special delivery stamps (or ten cents in ordinary stamps and the words "Special Delivery" placed on the wrapper) are affixed in addition to the regular postage.

Second-class matter must be so wrapped that it may be easily examined. The sender's name and address may be written in them or on the wrapper, also the words "sample copy" when sent as such, or "marked copy" when it contains a marked item or article. Typographical errors in the text may be corrected, but any other writing subjects the matter to letter postage.

**Third-Class Matter.**—Mail matter of the third class includes printed engravings, circulars in print (or by the mimeograph, multigraph, hectograph, electric-pen, or similar process when at least twenty identical copies are mailed at post-office windows at one time) and other matter wholly in print (except books), proof sheets, corrected proof sheets, and manuscript copy accompanying the same. Printed books are fourth-class matter. See "Parcel Post or Fourth-Class Mail."

The rate on matter of this class is *one cent for each two ounces or fraction thereof*. Postage must be paid by stamps affixed, unless 2,000 or more identical pieces are mailed under special permit when the postage at that rate may be paid in money.

Manuscript unaccompanied by proof sheets of the same is subject to the letter rate.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rate on delivery. It must be fully prepaid, or it will not be despatched. New postage must be prepaid for forwarding to a new address or returning to sender.

The limit of weight is four pounds. Packages of miscellaneous printed matter weighing over four pounds are mailable at the parcel post pound or zone rates. It is entitled like matter of the other classes, to special delivery when special delivery stamps are affixed in addition to the regular postage, or when ten cents in ordinary stamps are affixed in addition to the regular postage and the words "Special Delivery" are placed on the wrapper.

Upon matter of the third class, or upon the wrapper or envelope inclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation, and residence or business address, preceded by the word "from," and may make marks other than by written words to call attention to any word or passage in the text, and may correct any typographical errors. There may be placed upon articles of the third class, a simple manuscript dedication or inscription not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be placed in writing or otherwise the words "Please do not open until Christmas" or words to that effect, and there may be printed any matter mailable as third class. Written designation of the contents such as "photo," "printed matter," is also permissible, but they must be left on the address side a space sufficient for a legible address, postmark and the necessary stamps.

**Fourth-Class Matter.**—See "Parcel Post or Fourth-Class Mail."

**Third- or Fourth-Class Matter Mailable Without Stamps.**—Under special permits postage may be paid in money for third- or fourth-class matter mailed in quantities of 2,000 or more identical pieces. For information concerning the regulations governing such mailings inquiry should be made of the postmaster.

**Special Delivery Service.**—Ten cents on each letter or other article in addition to the regular postage, entitles the article to immediate delivery by special messenger. Special delivery stamps are sold at post-offices, and must be affixed to such mail. Ordinary stamps to the value of ten cents in addition to the regular postage, affixed to a letter or other piece of mail, will entitle it to special delivery if it is marked "Special Delivery." The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post-office. Also to patrons of rural routes residing within one-half mile of such routes. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

**Registration.**—All domestic mail matter except fourth-class matter may be registered at the rate of ten cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed, when indorsed "receipt desired," or words of similar import. Mail matter can be registered at all post-offices in the United States.

An indemnity—not to exceed \$50 for any one registered piece, or the actual value of the piece, if it is less than \$50—shall be paid for the loss of first-class registered matter mailed at and addressed to a United States post-office, and an indemnity not to exceed \$25 is paid for domestic third-class matter, but no indemnity will be paid if the loser has been otherwise reimbursed. Claims for indemnity must be made within one year from date of loss of domestic mail and date of mailing of foreign mail. The limit of indemnity paid for registered articles lost in the international mails is 50 francs.

**Domestic Money Orders.**—Domestic money orders are issued by money-order post-offices for any amount up to \$100, at the following rates:

DOMESTIC RATES OF POSTAGE.—Continued.

For sums not exceeding \$2.50, 3 cents; over \$2.50 to \$5, 5 cents; over \$5 to \$10, 8 cents; over \$10 to \$20, 10 cents; over \$20 to \$30, 12 cents; over \$30 to \$40, 15 cents; over \$40 to \$50, 18 cents; over \$50 to \$60, 20 cents; over \$60 to \$75, 25 cents; over \$75 to \$100, 30 cents.

All domestic money orders must be made payable at a designated money order office, but those issued at any money order office in the continental United States, excepting Alaska, may be paid at any money order office in the continental United States, excepting Alaska, if presented for payment on or before the expiration of the thirtieth day following the date of issue. If presented after that date and within one year from the last day of the month in which issued, they shall be paid only at the office designated in the money order as the paying office, or repaid at the office of issue.

**Stamped Envelopes**.—Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at post-offices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes or wrappers are valueless, but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in a substantially whole condition.

**Unmailable Matter**.—See also "Parcel Post or Fourth-Class Mail."—Unmailable domestic matter—that is, matter which is not admissible to the United States mails for delivery in the United States or in any of its possessions—includes:

All matter illegible, incorrectly, or insufficiently addressed.  
**Held for Postage**.—All second-class matter and all matter of the third or fourth class not wholly prepaid; and letters and other first-class matter not prepaid one full rate—2 cents.

All matter weighing over four pounds, except second-class matter, fourth-class matter (parcel post), single books, official matter emanating from the Executive Departments and documents printed and circulated by authority of Congress and gold or for Alaska.

Postal cards or post cards which bear delineations, epithets, terms, or language of an indecent, lewd, lascivious, obscene, libellous, scurrilous, defamatory or threatening character, or calculated by the terms or manner or style of display, and obviously intended to reflect injuriously upon the character or conduct of another, also articles bearing such matter upon the wrapper or outside cover. Dunning postal or other cards are included in this class.

Post cards bearing particles of glass, metal, mica, sand, tinsel, or other similar substances, are unmailable, except as provided under "First-Class Matter."

All matter concerning any lottery, gift, enterprise, or similar scheme, offering prizes dependent in whole or in part upon lot or chance, or concerning fraudulent schemes devised for the purpose of obtaining money or property under false pretenses, representations or promises.

Applications for the establishment of post-offices should be addressed to the Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz.:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by Members of Congress, or the Secretary of the Senate, or Clerk of the House.

2. Seeds transmitted by the Secretary of Agriculture, or by any Member of Congress, procured from that Department.

3. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.

4. The Vice-President, Members and Members-elect and Delegates and Delegates-elect to Congress may frank any mail matter to any Government official or to any person correspondence, not over four ounces in weight, upon official or departmental business.

All communications to Government officers and to Members of Congress are required to be prepaid by stamps unless inclosed in "penalty" envelopes furnished for replies.

**Suggestions to the Public**.—Mail all letters, etc., as early as practicable, especially when sent in large numbers, as is frequently the case with newspapers and circulars.

All mail matter at large post-offices is necessarily handled in great haste and should therefore in all cases be so PLAINLY addressed as to leave NO ROOM FOR DOUBT AND NO EXCUSE FOR ERROR on the part of postal employees. Names of States should be written in full or their abbreviations very distinctly written in order to prevent errors which arise from the similarity of such abbreviations as Cal., Col., Pa., Va., Wt., Me., Mo., Md., Iowa, Ind., N. H., N. M., N. Y., N. J., N. C., D. C.; Miss., Minn., Mass.; Nev.; Neb.; Penn., Tenn., etc., when hastily or carelessly written. This is especially necessary in addressing mail matter to places of which the names are borne by several post-offices in different States.

Avoid as much as possible using envelopes made of flimsy paper, especially where more than one sheet of paper, or any other article than paper, is inclosed. Being often handled, and even in the mail-bags subject to pressure, such envelopes not infrequently split open, giving cause of complaint.

Never send money or any other article of value through the mail except either by means of a money order or in a registered letter or by insured parcel post. Any person who sends money or valuables other-wise not only runs a risk of losing his property, but exposes to temptation every one through whose hands his letter passes, and may be the means of ultimately bringing some clerk or letter-carrier to ruin.

See that every letter or package bears the full name and post-office address of the writer, in order to secure the return of the letter if the person to whom it is directed cannot be found. A much larger portion of the undelivered letters could be returned if the names and addresses of the senders were always fully and plainly written or printed inside or on the envelopes. Persons who have large correspondence find it most convenient to use "special request envelopes," but those who only mail an occasional letter can avoid much trouble by writing a request to "return if not delivered," etc., on the envelope.

When dropping a letter, newspaper, etc., into a street mailing-box, or into the receptacle at a post-office, always see that the packet falls into the box and does not stick in its passage; observe, also, particularly, whether the postage stamps remain securely in their places.

Postage stamps should be placed on the upper right-hand corner of the addressed side of all mail matter. Imitations of postage stamps are not permissible on mail matter.

Space should be left on the address side of all mail matter sufficient for a legible address and for all directions permissible thereon, for postage stamps, for postmarking, rating, and any words necessary for forwarding or return. Watermarks or printing in light tints which do not render the reading of the address difficult will be permitted.

The street and number (or box number) should form a part of the address of all mail matter directed to cities. In most cities there are many persons, and even firms, bearing the same name. Before depositing any package or other article for mailing, the sender should assure himself that it is wrapped and packed in the manner prescribed by postal regulations; that it does not contain unmailable matter nor exceed the limit of weight as fixed by law; and that it is fully prepaid and properly addressed.

It is unlawful to send an ordinary letter by express or otherwise outside of the mails unless it be inclosed in a Government-stamped envelope of sufficient value to pay the postage to which it is subject. It is also unlawful to inclose a letter in an express package unless it pertains wholly to the contents of the package.

## DOMESTIC RATES OF POSTAGE—Continued.

It is forbidden by the regulations of the Post-Office Department for postmasters to give any person information concerning the mail matter of another, or to disclose the name of a box-holder at a post-office. Letters addressed to persons temporarily sojourning in a city where the Free Delivery System is in operation should be marked "Transient" or "General Delivery," if not addressed to a street and number or some other designated place of delivery.

Foreign books, etc., infringing United States copyright are *undeliverable* if received in foreign mails, or mailed here.

The foregoing rates, rules, and suggestions apply to postal matters in the United States.

## PARCEL POST OR FOURTH-CLASS MAIL.

**Fourth-Class Matter Embraces** that known as domestic parcel post mail, and includes merchandise, farm and factory products, seeds, cuttings, bulbs, roots, scions, and plants, books (including catalogues), miscellaneous printed matter weighing more than 4 pounds, and all other mailable matter not embraced in the first, second, and third classes.

**Rates of Postage on Fourth-Class or Parcel Post Matter—To Be Fully Prepaid—Unsealed—**are as follows:

(a) Parcels weighing 4 ounces or less, except books, seeds, plants, etc., 1 cent for each ounce or fraction thereof, any distance.

(b) Parcels weighing 8 ounces or less containing books, seeds, cuttings, bulbs, roots, scions, and plants, 1 cent for each 2 ounces or fraction thereof, regardless of distance.

(c) Parcels weighing more than 8 ounces containing books, seeds, plants, etc., parcels of miscellaneous printed matter weighing more than 4 pounds, and all other parcels of fourth-class matter weighing more than 4 ounces are chargeable, according to distance or zone, at the pound rates shown in the following table, a fraction of a pound being considered a full pound:

| WEIGHT.         | Local Rate.* | 1st Zone Rate.<br>50 Miles.<br><small>See note below</small> | 2d Zone Rate.<br>50 to 150 Miles. | WEIGHT.         | Local Rate.* | 1st Zone Rate.<br>50 Miles.<br><small>See note below</small> | 2d Zone Rate.<br>50 to 150 Miles. |
|-----------------|--------------|--------------------------------------------------------------|-----------------------------------|-----------------|--------------|--------------------------------------------------------------|-----------------------------------|
| 1 pound . . .   | \$0.05       | \$0.05                                                       | \$0.05                            | 26 pounds . . . | \$0.18       | \$0.30                                                       | \$0.30                            |
| 2 pounds . . .  | .06          | .06                                                          | .06                               | 27 pounds . . . | .18          | .31                                                          | .31                               |
| 3 pounds . . .  | .06          | .07                                                          | .07                               | 28 pounds . . . | .19          | .32                                                          | .32                               |
| 4 pounds . . .  | .07          | .08                                                          | .08                               | 29 pounds . . . | .19          | .33                                                          | .33                               |

| 9 pounds . . .  | .22                                       | .39                                        | .56                                          | .73                                            | .91                                            | 1.08                                           |
| 10 pounds . . . | .24                                       | .43                                        | .62                                          | .81                                            | 1.01                                           | 1.20                                           |
| 11 pounds . . . | .26                                       | .47                                        | .68                                          | .89                                            | 1.11                                           | 1.32                                           |
| 12 pounds . . . | .28                                       | .51                                        | .74                                          | .97                                            | 1.21                                           | 1.44                                           |
| 13 pounds . . . | .30                                       | .55                                        | .80                                          | 1.05                                           | 1.31                                           | 1.56                                           |
| 14 pounds . . . | .32                                       | .59                                        | .86                                          | 1.13                                           | 1.41                                           | 1.68                                           |
| 15 pounds . . . | .34                                       | .63                                        | .92                                          | 1.21                                           | 1.51                                           | 1.80                                           |
| 16 pounds . . . | .36                                       | .67                                        | .98                                          | 1.29                                           | 1.61                                           | 1.92                                           |
| 17 pounds . . . | .38                                       | .71                                        | 1.04                                         | 1.37                                           | 1.71                                           | 2.04                                           |
| 18 pounds . . . | .40                                       | .75                                        | 1.10                                         | 1.45                                           | 1.81                                           | 2.16                                           |
| 19 pounds . . . | .42                                       | .79                                        | 1.16                                         | 1.53                                           | 1.91                                           | 2.28                                           |
| 20 pounds . . . | .44                                       | .83                                        | 1.22                                         | 1.61                                           | 2.01                                           | 2.40                                           |

\* The local rate applies to parcels mailed under the following conditions: (1) At any post-office for local delivery at such office. (2) At any city letter carrier office, or at any point within its delivery limits, for delivery by carriers from that office. (3) At any post-office from which a rural route starts, for delivery on such route, or when mailed at any point on a rural route for delivery

## PARCEL POST OR FOURTH-CLASS MAIL—Continued.

at any other point thereon, or at the office from which the route starts, or for delivery on any other rural route starting from the same office.

**Zones**—Parcel Post Guide and Maps—For parcel post purposes the United States is divided into units of area thirty minutes square. Such units form the basis of the eight postal zones. To ascertain in which zone a post-office is located from the office of mailing, a parcel post guide, costing 55 cents, and map, costing 20 cents, are jointly used. The guide applies to all offices, but a separate map is required for each unit. A zone key is furnished with the guide and makes the map unnecessary. The guide and maps may be purchased by sending a postal money order to the Third Assistant Postmaster-General, Washington, D. C. Stamps are not accepted.

**Alaska, Hawaiian, and Philippine Islands, etc.**—The eighth zone rate of 12 cents for each pound or fraction thereof on all parcels weighing more than 4 ounces (except books, seeds, cuttings, bulbs, roots, scions, and plants, weighing 8 ounces or less) applies (1) between the United States and the Hawaiian Islands; (2) between the United States and its postal agency at Shanghai, China; (3) between any two points in Alaska and between any point in Alaska and any other point in the United States; (4) between the United States and the Canal Zone; (5) between the United States and the Philippine Islands; (6) to, from, or between Guam, Tutulla, and Manua and other islands of the Samoan group east of longitude 171° west of Greenwich, and the United States and its other possessions; (7) between the United States and its naval vessels stationed in foreign waters.

**Canada, Cuba, Mexico, and Republic of Panama**—The rate of 12 cents for each pound or fraction thereof also applies to fourth-class matter, including seeds, cuttings, bulbs, roots, scions, and plants (but excepting books and other printed matter on which the rate is 1 cent for each two ounces or fraction thereof in all cases), weighing more than four ounces and not exceeding 4 pounds 6 ounces when mailed to Canada, Mexico, Cuba, and the Republic of Panama. (Parcels weighing up to 11 pounds may be sent to Mexico and the Republic of Panama as foreign parcel post mail under the parcel post conventions with those countries.)

**The Limit of Weight of fourth-class matter** is 50 pounds for parcels mailed for delivery within the first and second zones, and 20 pounds for all other zones.

**Limit of Size**—Parcel post matter may not exceed 84 inches in length and girth combined. In measuring a parcel the greatest distance in a straight line between the ends (but not around the parcel) is taken as its length, while the distance around the parcel at its thickest part is taken as its girth. For example, a parcel 35 inches long, 10 inches wide, and 5 inches high measures 65 inches in length and girth combined.

**Name and Address of Sender**—A parcel of fourth-class matter may not be accepted for mailing unless it bears the name and address of the sender, which should be preceded by the word "From."

**Additions to Fourth-Class Mail**—There may be placed on fourth-class matter, or on the wrapper or cover, tag or label, any marks, numbers, names, or letters for purpose of description. There may be written on the blank leaves or cover of any book a simple manuscript dedication or inscription not in the nature of personal correspondence. Space sufficient for a legible address, postmark, the necessary postage stamps, and any words necessary for forwarding or return, must be left on the address side of parcels.

**Inclosures**—There may be inclosed with fourth-class matter a written or printed invoice showing the name and address of the sender and of the addressee; the names and quantities of articles inclosed together with inscriptions indicating, "for purpose of description," the price, style, stock number, size, and quality of the articles; the order or file number, date of order, and date and manner of shipment; and the initials or name of the salesman, or of the person by whom the articles were packed or checked.

Inscriptions, such as "Merry Christmas," "With best wishes," "Do not open until Christmas," or words to that effect, may be written on fourth-class mail, or on a card inclosed therewith.

**Communications Attached to Parcels**—When it is desired to send a communication with a parcel on which postage at the fourth-class rate has been fully prepaid, the communication may be placed in an envelope fully prepaid at the first-class rate and addressed to correspond with the address on the parcel and then be tied to or otherwise securely attached to the outside of the parcel in such manner as to prevent its separation therefrom and not to interfere with the address on the parcel. The stamps to cover the postage on the parcel must be affixed to the wrapper of the parcel, and those to pay the postage on the communication must be affixed to the envelope of the communication. Parcels to which such communications are attached are treated as fourth-class matter. Only one special delivery fee is required on such parcels sent as special delivery matter.

**Public Library Books**, otherwise mailable as parcel post matter, may bear any printed or written mark constituting a necessary inscription for the purpose of a permanent library record.

**Proprietary Articles of Merchandise**, such as harmless medicinal preparations, soaps, tobacco, food products, etc., put up in fixed quantities, in original sealed packages, by the manufacturer so as to allow examination of the packages in their simplest mercantile form and labelled in printing so as to show the nature of contents, quantity, and name of the manufacturer, are mailable at the fourth-class rates of postage. If such sealed packages are inclosed in an outer wrapper, the latter must not be sealed.

**Meats and Meat-Food Products**—Before meat or meat-food products of cattle, sheep, swine, or goats may be accepted for mailing from one State or Territory to another State or Territory, the certificate of inspection or exemption required by sec. 477, Postal Laws and Regulations, must be filed with the postmaster. Such certificate must be prepared and furnished by the sender.

**Game**—The dead bodies of any wild animals or birds, or parts thereof, including furs, skins, plumage, etc., lawfully killed and offered for shipment, may be accepted for mailing only when the parcels are plainly marked to show the actual nature of the contents and the name and address of the sender. The dead bodies, or parts thereof, of any wild animals or birds which have been killed or offered for shipment in violation of the laws of a State, Territory, or district, are unmailable, persons sending such articles and the addressees knowingly receiving them in violation of the law being liable to a fine of not more than \$200.

**Nursery Stock**, including all field-grown florists' stock, trees, shrubs, vines, cuttings, grafts, scions, buds, fruit pits, and other seeds of fruit and ornamental trees or shrubs, and other plants and plant products for propagation, except field, vegetable, and flower seeds, bedding plants, and other herbaceous plants, bulbs, and roots, may be admitted to the mails only when accompanied with a certificate from a State or Government inspector to the effect that the nursery from which such nursery stock is shipped has been inspected within a year and found free from injurious insects, and the parcel containing such nursery stock is plainly marked to show the nature of the contents and the name and address of the sender.

**Place of Mailing**—Parcels of fourth-class matter weighing more than four ounces must be mailed at a post-office, branch post-office, named, numbered, or lettered station, or delivered to a rural or other carrier duly authorized to receive such matter. Parcels weighing four ounces or less may be deposited in letter or package boxes.

## SENDER'S RECEIPTS FOR ORDINARY FOURTH-CLASS PARCELS.

The postmaster at the mailing office may, on payment of one cent, give the sender of an ordinary parcel of fourth-class mail a receipt therefor. A postage stamp to cover the charge for the receipt shall

## PARCEL POST OR FOURTH-CLASS MAIL—Continued.

be affixed thereto. The name and address of the addressee of the parcel shall be written in the receipt by the sender. (Section 453½, Post Office Laws and Regulations.)

The purpose of this receipt is to provide senders of fourth-class parcels, when desired, a record evidencing their mailing, for which a fee of one cent is charged. Their issuance does not in any way insure the parcels against loss while in the mails and no receipt is obtained from the addressee upon delivery. Patrons who desire either of these latter facilities must be advised to insure their parcels.

Receipt will be given on tag form 3817, an initial supply of which will be furnished to all postmasters prior to September 1, 1915, the date this service is inaugurated. The name and address of the addressee shall be written on the tag by the sender who may place his own name thereon if he desires, and affix on the tag a one-cent postage stamp in the space provided. The tag shall be tied to the parcel before mailing. The postal employee accepting the article shall compare the address on the tag with that on the parcel, postmark the stamp to show the date of acceptance, detach the receipt, and deliver it to the sender.

The Firm Registration Book must be modified to provide such receipts when they are desired by firms and individuals mailing a number of parcels at one time. Each sheet must have affixed postage stamps at the rate of one cent for each parcel listed thereon, which stamps shall be postmarked and the sheet returned to the sender. These sheets are to be filled out by the sender and a carbon copy must not be filed at the post-office.

When such receipts are desired by patrons residing on rural routes, the parcel should be delivered to the rural carrier, payment being made at the time at the rate of one cent for each parcel, in addition to the postage. The carrier will obtain receipts at the post-office to which he is attached, affix stamp, postmark, and deliver the receipts to the senders on his next trip.

## INSURANCE OF FOURTH-CLASS MAIL.

**Fees and Conditions.**—Fourth-class mail shall not be registered, but may be insured against loss in an amount equivalent to its actual value, but not to exceed \$5 in any one case, on payment of a fee of 3 cents; not to exceed \$25 on payment of a fee of 5 cents; not to exceed \$50 on payment of a fee of 10 cents, or not to exceed \$100 on payment of a fee of 25 cents, in addition to the postage, both to be prepaid by stamps affixed; but indemnity will not be allowed in cases of loss of such mail addressed to the Philippine Islands, unless the loss occurred in the postal service of the United States. Such mail may be insured at any post-office or station thereof, or by rural carriers. The sender must fill out an insurance tag, which will be furnished him on request, to be attached to the parcel. Return receipts for insured parcels may be obtained by indorsing the parcels "Return receipt desired." No indemnity is payable on account of mere partial damage. However, when an article is so damaged as to render it wholly worthless, it is regarded as lost, provided it was packed and indorsed in accordance with the postal requirements. No indemnity is paid for labor, workmanship, etc., in repairing partial damage.

## COLLECT-ON-DELIVERY SERVICE.

**Conditions and Fee.**—Parcels of fourth-class or parcel post matter may be sent C. O. D. from one money order post-office to another on payment of a fee of 10 cents in addition to the postage, both to be prepaid with stamps affixed. The amount to be collected and remitted to the sender must not exceed \$100. The remittance is made by post-office money order, the fee therefor being included in the amount collected from the addressee. A C. O. D. tag furnished by the postmaster must be filled in by the sender and attached to the parcel. The C. O. D. fee also covers insurance against loss up to \$50 actual value.

A receipt is given to the sender of a C. O. D. parcel at the time of mailing, but no return receipt is furnished, as the remittance shows that delivery has been made. Examination of contents of a C. O. D. parcel is not permitted until it has been receipted for and all charges paid. Indemnity for lost C. O. D. parcels is paid for the actual value, not to exceed \$50, under the conditions governing the payment of indemnity for lost insured parcels.

## PREPARATION AND WRAPPING OF MAIL MATTER.

**Examination.**—Fourth-class or parcel post matter must be so wrapped or enveloped that the contents may be examined easily by postal officials. When not so wrapped, or when bearing or containing writing not authorized by law, the matter will be treated as of the first class. Nailed Boxes.—Parcel post mail may be inclosed in boxes to which the lids are nailed or screwed, provided the lids can be readily removed with a chisel or screw driver for examination of contents.

**Wrapping.**—All matter should be securely wrapped so as to bear transmission without breaking, or injuring mail bags, their contents, or the persons handling them. Many articles are damaged in the mails for the reason that they are not properly wrapped to withstand the necessary handling. Umbrellas, canes, golf sticks, and similar articles must be reinforced by strips of wood or otherwise sufficiently wrapped to withstand handling and transportation. Hats must be packed in strong boxes; if in ordinary pasteboard hat boxes they must be properly crated. But flowers, candies, etc., should be inclosed in strong and suitable boxes. Stove castings and pieces of machinery should be protected with excelsior or similar material and wrapped in cloth or strong paper or be properly boxed or crated. Mailable hides and pelts must be thoroughly wrapped to prevent the escape of grease. Parcels weighing 20 pounds or under are generally carried inside mail bags with other mail; those weighing over 20 pounds are usually carried outside mail bags. They should be wrapped with that understanding. Parcels improperly or insufficiently wrapped will not be accepted for transmission in the mails.

**Harmful Articles** not absolutely excluded from the mails, but which, from their form or nature, might, unless properly secured, destroy, deace, or otherwise damage the contents of the mail bag, or harm the person of any one engaged in the postal service, may be transmitted in the mails only when packed in accordance with the postal regulations. *Sharp-pointed or sharp-edged instruments or tools* must have their points and edges protected so that they cannot cut through their covering, and be thoroughly wrapped. *Powders and all pulverized dry substances* must be so wrapped that none of the contents of the package will sift out. *Pastes, salves, etc.*, not easily liquefiable must be inclosed in water-tight containers and placed in strong boxes and securely wrapped.

**Liquids.**—Admissible liquids in packages not exceeding the limit of weight of fourth-class matter will be accepted for mailing when intended for delivery at the office of mailing or on a rural route starting therefrom when inclosed in a glass or metal container securely inclosed and heavily wrapped, provided it is not necessary to transport them over steam or electric railways.

*Admissible liquids and oils, pastes, salves, or other articles easily liquefiable, will be accepted for mailing, regardless of distance, when they conform to the following conditions:*

(a) *When in strong glass bottles holding 4 ounces or less, the total quantity sent in one parcel shall not exceed 24 ounces, liquid measure. Each bottle shall be wrapped in paper or other absorbent substance and then all placed in a box made of cardboard or other suitable material and packed in a container made of double-faced corrugated pasteboard of good quality. The corners of the container must fit tightly and be reinforced with tape so as to prevent the escape of any liquid if the contents should be broken, and the whole parcel shall be securely wrapped with strong paper and tied with twine. Single bottles of liquid holding 4 ounces or less may also be packed as prescribed in the following paragraphs (b) and (c):*

## PARCEL POST OR FOURTH-CLASS MAIL—Continued.

(b) When in glass bottles holding more than 4 ounces, the total quantity sent in one parcel shall not exceed 16 ounces liquid measure. The bottle must be very strong and must be inclosed in a block or tube of metal, wood, papier mâché or similar material; and there must be provided between the bottle and the block or tube a cushion of cotton, felt, or other absorbent. The block or tube, if of wood or papier mâché, must be at least one-eighth of an inch thick for bottles holding 8 ounces or less, and at least three-sixteenths of an inch thick for bottles holding more than 8 ounces. The block or tube must be rendered watertight by an application on the inside of paraffin or other suitable substance and must be closed by a screw top cover with sufficient screw threads to require at least one and one-half complete turns before it will come off. The cover must be provided with a washer, so that no liquid could escape if the bottle should be broken. Any number of bottles separately packed as herein prescribed may be included in a single package if the limit of weight and size for fourth-class matter be not exceeded.

(c) Bottles containing liquid may also be packed in strong and tight receptacles of wood, metal, or waterproof corrugated pasteboard. Space must be left all around the bottle, which must be filled with bran, sawdust, or other absorbent material in sufficient quantity to absorb all the liquid if the bottle should get broken.

(d) When in a metal container, the weight limit of the parcel is the same as for other fourth-class matter. The container must be securely sealed and inclosed in a strong box.

(e) When in parcels weighing more than 20 pounds, mailable liquids in securely sealed glass bottles or metal cans will be accepted for mailing to offices in the first and second zones when packed in strong boxes and surrounded with sawdust or other suitable substances to protect the contents from breakage. All such packages to be marked "FRAGILE—THIS SIDE UP," or with similar inscriptions and to be transported outside of mail bags.

All packages containing liquid must be marked "FRAGILE."

**Fragile Articles**—Articles easily broken must be very securely wrapped for safe transmission. Among such articles are: Amber, cakes, candies, chalk, china, combs, clocks, delicate mechanisms, fans, flowers, fountain pens, hats, instruments of precision, millinery, musical instruments, pipes, plaster-of-paris articles, plumes, pottery, porcelain, phonographs and phonograph records, test tubes, typewriters, watches, wax articles, etc. *Glass, crockery, fragile toys, and other fragile articles* must be so packed as to prevent the escape of particles or pieces from the packages if broken in transit. *Cigars* should be packed in a manner to prevent damage by shock or jar. *Maps, drawings, paintings, etc.*, must be suitably protected with stout material to prevent damage. When not flat, they should be rolled around a stout stick and carefully wrapped or inclosed in a strong pasteboard tube. All such articles should be marked "FRAGILE." Eggs will be accepted for local delivery when so packed in a basket or other container as to prevent damage to other mail. Eggs will be accepted for mailing regardless of distance when each egg is separately wrapped and surrounded with excelsior, cotton, or other suitable material and packed in a strong container made of double-faced corrugated pasteboard, metal, wood, or other suitable material and wrapped so that nothing can escape from the package. All such parcels shall be labeled "EGGS." Eggs in parcels weighing more than 20 pounds will be accepted for mailing to offices in the first and second zones when packed in crates, boxes, baskets, or other containers having tight bottoms to prevent the escape of anything from the packages and so constructed as properly to protect the contents. Such packages are to be marked "EGGS—THIS SIDE UP," and to be transported outside of mail bags.

**Perishable Articles**—Parcels containing perishable articles shall be marked "PERISHABLE." Articles likely to spoil within the time reasonably required for transportation and delivery shall not be accepted for mailing. *Butter, lard, and perishable articles*, such as fish, fresh meats, dressed fowl, vegetables, fruits, berries, and articles of a similar nature which decay quickly, when so packed or wrapped as to prevent damage to other mail, will be accepted for local delivery either at the office of mailing or on any rural route starting therefrom. When inclosed in an inner cover and a strong outer cover of wood, metal, heavy corrugated pasteboard, or other suitable material, and wrapped so that nothing can escape from the package, they will be accepted for mailing to all offices to which in the ordinary course of mail they can be sent without spoiling. *Butter, dressed fowl, vegetables, fruits*, and other perishable articles in parcels weighing more than 20 pounds will be accepted for mailing to offices in the first and second zones when suitably wrapped or inclosed and packed in crates, boxes, or other suitable containers having tight bottoms to prevent the escape of anything from the package, and so constructed as properly to protect the contents. All such parcels to be transported outside of mail bags. *Vegetables and fruits which do not decay quickly* will be accepted for mailing to any zone if packed so as to prevent damage to other mail.

**Forwarding and Return**—A new prepayment of postage at the rate applicable between the forwarding office and the one to which fourth-class matter is to be forwarded must be made by the addressee or by some one for him each time it is forwarded. A new prepayment must likewise be made before undeliverable fourth-class matter may be returned to the sender.

**Requests for Further Information** should be addressed as follows: Third Assistant Postmaster-General, Division of Classification, relative to the classification and admissibility of matter as parcel post mail, rates of postage, limit of weight and size, permissible inclosures and additions, attaching communications to parcels, etc. Third Assistant Postmaster-General, Division of Registered Mails, relative to the insurance and C. O. D. features. Second Assistant Postmaster-General, Division of Railway Mail Service, relative to the admissibility to the mails and wrapping of matter which from its form or character would be liable to injure the mails or the person of postal employés.

**Unmailable Matter**—Matter manifestly obscene, lewd, or lascivious; articles intended for preventing conception or for procuring abortion; articles intended for indecent or immoral purposes, and all matter otherwise mailable by law, the outside cover or wrapper of which bears any delineations or language of a libellous, scurrilous, defamatory, or threatening character, is declared non-mailable by law.

**Spirituous, vinous, malted, fermented or other intoxicating liquors** of any kind; poisons of every kind, and articles and compositions containing poison (except as prescribed in par. 4, sec. 472); and poisonous animals, insects, and reptiles, and explosives of every kind, and inflammable materials, including matches, moving picture films (unless made of cellulose-acetate), gasoline, naphtha, benzine, denatured alcohol, and all liquids having flash point at or below 80° F., and infernal machines, and mechanical, chemical, or other devices or compositions which may ignite or explode, and disease germs or scabs (except as prescribed in sec. 473), and other natural or artificial articles, compositions, or materials of whatever kind which may kill, or in anywise hurt, harm or injure another, or damage, deface, or otherwise injure the mail or other property, live animals (except as prescribed in sec. 476), guano or any article exhalting bad odor, whether sealed as first-class matter or not, shall not be admitted to the mails. (Par. 2, sec. 472.)

**Poisons, Explosives, Inflammable Materials, Dangerous Articles, Intoxicating Liquors, Etc.**—Section 472. All kinds of poison and all articles and compositions containing poison, and all poisonous animals, insects and reptiles, and explosives of all kinds and inflammable materials, and infernal machines and mechanical, chemical or other devices or compositions which may ignite or explode, and all disease germs or scabs, and all other natural or artificial articles, compositions or materials of whatever kind which may kill or in anywise hurt,

## PARCEL POST OR FOURTH-CLASS MAIL—Continued.

harm, or injure another, or damage, deface, or otherwise injure the mails or other property, whether sealed as first-class matter or not, are hereby declared to be nonmailable matter, and shall not be conveyed in the mails or delivered from any post-office or station thereof, nor by any letter carrier; but the Postmaster-General may permit the transmission in the mails, under such rules and regulations as he shall prescribe as to preparation and packing, of any article hereinbefore described which are not outwardly or of their own force dangerous or injurious to life, health or property: *Provided*, That all spirituous, vinous, malted, fermented or other intoxicating liquors of any kind, are hereby declared to be nonmailable and shall not be deposited in or carried through the mails. Whoever shall knowingly deposit or cause to be deposited for mailing or delivery, or shall knowingly cause to be delivered by mail according to the direction thereon, or at any place at which it is directed to be delivered by the person to whom it is addressed, anything declared by this section to be nonmailable unless in accordance with the rules and regulations hereby authorized to be prescribed by the Postmaster-General, shall be fined not more than one thousand dollars, or imprisoned not more than two years, or both; and whoever shall knowingly deposit or cause to be deposited for mailing or delivery, or shall knowingly cause to be delivered by mail according to the direction thereon, or at any place to which it is directed to be delivered by the person to whom it is addressed, anything declared by this section to be nonmailable, whether transmitted in accordance with the rules and regulations authorized to be prescribed by the Postmaster-General or not, with the design, intent, or purpose to kill, or in anywise hurt, harm, or injure another, or damage, deface, or otherwise injure the mails or other property, shall be fined not more than five thousand dollars, or imprisoned not more than ten years, or both.

2. Spirituous, vinous, malted, fermented, or other intoxicating liquors of any kind, poisons of every kind, and articles and compositions containing poison (except as prescribed in the fourth paragraph hereof), and poisonous animals, insects, and reptiles, and explosives of every kind, and inflammable materials (including matches, kerosene oil, gasoline, naphtha, benzine, turpentine, denatured alcohol, etc.), and infernal machines, and mechanical, chemical or other devices or compositions which may ignite or explode, and disease germs or scabs (except as prescribed in sec. 473), and other natural or artificial articles, compositions, or materials of whatever kind which may kill, or in anywise hurt, harm, or injure another, or damage, deface, or otherwise injure the mail or other property, live animals (except as prescribed in sec. 476), raw hides or pelts, guano, or any article exhaling bad odor, whether sealed as first-class matter or not, shall not be admitted to the mails.

3. Liquids not spirituous, vinous, malted, fermented, or otherwise intoxicating (including samples of altar or communion wine used in church services), and not liable to explosion or spontaneous combustion or ignition by shock or jar, and not inflammable, fruits or vegetable matter liable to decomposition, comb honey, soft soap, paste or confections, ointments, salves, and articles of similar consistency, may be admitted to the mails for transmission in the domestic mails when inclosed in packages in conformity with the conditions prescribed in secs. 474 and 475.

4. Medicines and anaesthetic agents, which are not outwardly or of their own force dangerous or injurious to life, health or property, and not in themselves unmailable, may be admitted to the mails for transmission in the domestic mails when inclosed in packages in conformity with the conditions prescribed in Parcel Post Regulations: *Provided*, That the terms "medicines" and "anaesthetic agents" shall not be construed to mean poisons; *Provided further*, That the article mailed bears the label or superscription of the manufacturer thereof, or dealer therein, or of the licensed physician, surgeon, dentist, or veterinarian preparing or prescribing the same.

## FOREIGN MAILS.

## POSTAGE RATES AND CONDITIONS—See Exceptions Below.

THE rates of postage to all foreign countries and colonies except Canada, Cuba, Mexico and Panama are as follows:

|                                                                                                                                 |                                                                                                                     |                       |
|---------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------|-----------------------|
| Letters.....                                                                                                                    | first ounce or less, 5 cents; each additional ounce                                                                 | 3 cents.              |
| Postal cards, each.....                                                                                                         |                                                                                                                     | 2 cents.              |
| Newspapers and other printed matter, per 2 ounces.....                                                                          |                                                                                                                     | 1 cent.               |
| Commercial papers (such as legal and insurance papers, deeds, bills of lading, invoices, manuscript for publication, etc.)..... | Packets not in excess of 10 ounces.      Packets in excess of 10 ounces, for each 2 ounces or fraction thereof..... | 5 cents.      1 cent. |
| Samples of merchandise.....                                                                                                     | Packets not in excess of 4 ounces, or fraction thereof.....                                                         | 2 cents.              |
| Registration fee on letters or other articles.....                                                                              | Packets in excess of 4 ounces, for each 2 ounces or fraction thereof.....                                           | 1 cent.               |
|                                                                                                                                 |                                                                                                                     | 10 cents.             |

On printed matter and commercial papers the limit of weight is 4 pounds 6 ounces, except that single volumes of books to Salvador, Canada, Mexico, Cuba, and Panama, are unrestricted as to weight. Size—The limit of size is 18 inches in any one direction, except that printed matter or commercial papers in rolls may be 30 inches long by 4 inches in diameter.

Ordinary letters for countries of the Postal Union (except Canada and Mexico) will be forwarded, whether any postage is prepaid on them or not. All other mailable matter must be prepaid at least partially. Domestic rates apply to matter for Porto Rico, Guam, Philippine Islands, Cuba, "Canal Zone," Republic of Panama, Tutuila, Hawaii, Shanghai, U. S. Naval Vessels and officers and men of the U. S. Navy in the U. S. Naval Hospital, Yokohama, Japan.

## EXCEPTIONS.

GREAT BRITAIN AND IRELAND, NEWFOUNDLAND, BAHAMAS, BARBADOS, BRITISH HONDURAS, DUTCH WEST INDIES, AND LEEWARD ISLANDS.

The rate on letters for these countries is two cents for each ounce or fraction. The Postal Union rates apply to postal cards, post cards, printed matter, commercial papers and samples.

## GERMANY.\*

The postage rate on letters for Germany by direct ocean transportation is two cents an ounce. Letters paid at the two-cent rate are despatched only by steamers able to land the mails at a German port. Letters paid at the Postal Union rate are despatched by the quickest route.

A fast steamer sailing for Germany via Plymouth and Cherbourg carries letters for Germany prepaid at the Postal Union rate and at the two-cent rate—the letters paid at the five-cent (Postal Union) rate are landed at Plymouth (the quickest route), whereas the letters paid at the two-cent rate are carried through to Germany by the transatlantic steamer.

The Postal Union rates apply to postal cards, post cards, printed matter, commercial papers and samples regardless of the route by which sent, also to letters despatched via England and France.

\*The 2-cent letter rate to Germany is suspended owing to war. All letters for Germany are now subject to the Postal Union rate of 5 cents for the first ounce or less and 3 cents for each additional ounce or fraction thereof.

FOREIGN MAILS—Continued.

CANADA.

Letters, two cents for each ounce or fraction of an ounce.

Postal cards and post cards, one cent.

Double postal cards (with paid reply), two cents.

Second-class matter (newspapers and periodicals), one cent for each 4 ounces or fraction thereof. No limit of weight.

Printed matter (except second-class), one cent for each 2 ounces or fraction thereof. Limit of weight 4 pounds 6 ounces, except for single volumes of printed books. Packages of miscellaneous printed matter and packages of books weighing over 4 pounds but not over 4 pounds 6 ounces may also be sent as fourth-class matter at the rate of 12 cents a pound.

Fourth-class matter (domestic parcel post) not exceeding 4 ounces in weight is subject to the rate of one cent for each ounce or fraction of an ounce, and when exceeding 4 ounces in weight is subject to the rate of 12 cents a pound or fraction thereof. Packages of seeds, plants, etc., not exceeding 4 ounces in weight are subject to the rate of one cent for each ounce or fraction of an ounce, and when exceeding 4 ounces are subject to the rate of 12 cents a pound or fraction thereof. Limit of weight 4 pounds 6 ounces, except for a single book.

Commercial papers, samples, printed books and miscellaneous printed matter may be mailed at the Postal Union postage rates and under the conditions applicable to such articles in foreign mails.

Any mailable matter may be registered, but cannot be sent as insured mail.

Sealed articles, other than letters in their usual and ordinary form, are unmailable. But unsealed packages may contain, in sealed receptacles, articles which cannot be safely transmitted in unsealed receptacles; provided the contents of the closed receptacles are plainly visible or are precisely stated on the covers of the closed receptacles and with the packages so wrapped that the outer cover can be easily opened.

Prepayment of postage upon any article, except the reply half of a double postal card, can be effected only by means of United States postage stamps. Letters will be despatched if prepaid one full rate of postage. Postage on other articles must be prepaid in full.

CUBA.

Letters, 2 cents for each ounce or fraction of an ounce.

Postal cards and post cards, 1 cent.

Double post cards (with paid reply), 2 cents.

Second-class matter (newspapers and periodicals), 1 cent for each 4 ounces or fraction thereof. No limit of weight.

Printed matter (except second-class), 1 cent for each 2 ounces or fraction thereof. Limit of weight 4 pounds 6 ounces, except for single volumes of printed books. Packages of miscellaneous printed matter and packages of books weighing over 4 pounds but not over 4 pounds 6 ounces may also be sent as fourth-class matter at the rate of 12 cents a pound.

Fourth-class matter (domestic parcel post) not exceeding 4 ounces in weight is subject to the rate of 1 cent for each ounce or fraction of an ounce, and when exceeding 4 ounces in weight is subject to the rate of 12 cents a pound or fraction thereof. Packages of seeds, plants, etc., not exceeding 4 ounces in weight are subject to the rate of 1 cent for each ounce or fraction of an ounce, and when exceeding 4 ounces are subject to the rate of 12 cents a pound or fraction thereof. Limit of weight 4 pounds 6 ounces, except for a single book.

Commercial papers, samples, printed books and miscellaneous printed matter may be mailed at the Postal Union postage rates and under the conditions applicable to such articles in foreign mails.

Any mailable matter may be registered, but cannot be sent as insured mail.

Liquids and fatty substances (except samples) are unmailable.

Sealed articles, other than letters in their usual and ordinary form, are unmailable. But unsealed packages may contain, in sealed receptacles, articles which cannot be safely transmitted in unsealed receptacles; provided the contents of the closed receptacles are plainly visible or are precisely stated on the covers of the closed receptacles and with the packages so wrapped that the outer cover can be easily opened.

Prepayment of postage upon any article, except the reply half of a double postal card, can be effected only by means of United States postage stamps. Letters and postal cards must be despatched whether prepaid or not. Postage on other articles (except fourth-class matter) must be prepaid at least in part, and on fourth-class matter in full.

MEXICO.

Letters, 2 cents for each ounce or fraction of an ounce.

Postal cards and post cards, 1 cent.

Double postal cards (with paid reply), 2 cents.

Second-class matter (newspapers and periodicals), 1 cent for each 4 ounces or fraction thereof. No limit of weight.

Printed matter (except second-class), 1 cent for each 2 ounces or fraction thereof. Limit of weight 4 pounds 6 ounces, except for single volumes of printed books. Packages of miscellaneous printed matter and packages of books weighing over 4 pounds but not over 4 pounds 6 ounces may also be sent as fourth-class matter at the rate of 12 cents a pound.

Fourth-class matter (domestic parcel post) not exceeding 4 ounces in weight is subject to the rate of 1 cent for each ounce or fraction of an ounce and when exceeding 4 ounces in weight is subject to the rate of 12 cents a pound or fraction thereof. Packages of seeds, plants, etc., not exceeding 4 ounces in weight are subject to the rate of 1 cent for each 2 ounces or fraction of an ounce, and when exceeding 4 ounces are subject to the rate of 12 cents a pound or fraction thereof. Limit of weight 4 pounds 6 ounces, except for a single book.

Customs declarations must be attached to all parcels of fourth-class matter and all packages sent by foreign parcel post.

Commercial papers, samples, printed books and miscellaneous printed matter may be mailed at the Postal Union postage rates and under the conditions applicable to such articles in foreign mails.

Any mailable matter may be registered, but cannot be sent as insured mail.

Sealed articles, other than letters in their usual and ordinary form, are unmailable. But unsealed packages may contain, in sealed receptacles, articles which cannot be safely transmitted in unsealed receptacles; provided the contents of the closed receptacles are plainly visible or are precisely stated on the covers of the closed receptacles and with the packages so wrapped that the covers can be easily opened.

Prepayment of postage upon any article, except the reply half of a double postal card, can be effected only by means of United States postage stamps. Letters will be despatched if prepaid one full rate of postage. Postage on other articles must be prepaid in full.

Matter addressed to Mexico must, in all cases, bear as part of the address the name of the State in which the city or town is located. For example, Acapulco, Guerrero, Mexico; not Acapulco, Mexico.

PANAMA.

Letters, 2 cents for each ounce or fraction of an ounce.

Postal cards and post cards, 1 cent.

Double postal cards (with paid reply), 2 cents.

Second-class matter (newspapers and periodicals), 1 cent for each 4 ounces or fraction thereof. No limit of weight.

## FOREIGN MAILS—Continued.

Printed matter (except second-class). 1 cent for each 2 ounces or fraction thereof. Limit of weight 4 pounds 6 ounces, except for single volumes of printed books. Packages of miscellaneous printed matter and packages of books weighing over 4 pounds but not over 4 pounds 6 ounces may also be sent as fourth-class matter at the rate of 12 cents a pound.

Fourth-class matter (domestic parcel post) not exceeding 4 ounces in weight is subject to the rate of 1 cent for each ounce or fraction of an ounce, and when exceeding 4 ounces in weight is subject to the rate of 12 cents a pound or fraction thereof. Packages of seeds, plants, etc., not exceeding 4 ounces in weight are subject to the rate of 1 cent for each ounce or fraction of an ounce, and when exceeding 4 ounces are subject to the rate of 12 cents a pound or fraction thereof. Limit of weight 4 pounds 6 ounces, except for a single book.

Parcels up to 11 pounds in weight may also be sent by foreign parcel post, under the conditions of the parcel post convention with Panama.

Customs declarations must be attached to all parcels of fourth-class matter and all packages sent by foreign parcel post.

Commercial papers, samples, printed books and miscellaneous printed matter may be mailed at the Postal Union postage rates and under the conditions applicable to such articles in foreign mails.

Any mailable matter may be registered, but cannot be sent as insured mail.

Liquids and fatty substances (except samples) are unmailable.

Sealed articles, other than letters in their usual and ordinary form, are unmailable. But unsealed packages may contain, in sealed receptacles, articles which cannot be safely transmitted in unsealed receptacles; provided the contents of the closed receptacles are plainly visible or are precisely stated on the covers of the closed receptacles and with the packages so wrapped that the cover can be easily opened.

Prepayment of postage upon any article, except the reply half of a double postal card, can be effected only by means of United States postage stamps. Letters and postal cards must be despatched whether prepaid or not. Postage on other articles (except fourth-class matter) must be prepaid at least in part, and on fourth-class matter in full.

## SHANGHAI, CHINA.

Articles intended for delivery in the city of Shanghai, China, are subject to United States domestic postage rates and conditions, but letters specially addressed via Europe-Siberia are subject to the foreign rate. Certain matter may also be sent by foreign parcel post.

## UNITED STATES NAVAL VESSELS.

Mail matter for officers or members of the crews of United States vessels of war stationed abroad is subject to domestic postage rates and conditions. Packages of fourth-class matter exceeding 4 ounces in weight are subject to the rate of 12 cents for each pound or fraction of a pound when the vessels are stationed in foreign waters. Articles should be addressed "U. S. S. (name of vessel), care of Postmaster, New York, N. Y." and be fully prepaid. Mail so addressed will be forwarded to the vessels, whether at domestic or foreign ports. Express packages will not be received unless they conform to the postal regulations and are placed in the mail with the postage properly prepaid.

## UNITED STATES NAVAL HOSPITAL, YOKOHAMA, JAPAN.

Mail for officers and men of the United States Navy in the United States Naval Hospital at Yokohama, is subject to domestic rates and conditions, the same as that for officers and men on U. S. naval vessels stationed abroad.

## SAMPLES OF MERCHANDISE

must be bona fide trade samples without any salable value. **Wrapping**—Samples of merchandise must be wrapped so that the contents may be easily examined without injury to wrappers. **Permissible Writing**—They must bear no writing except the name or the social position of the sender, a manufacturer's or trade mark, numbers, prices and indications relating to the weight, size, dimensions and quantity to be disposed of, and words which are necessary to precisely indicate the origin and nature of the merchandise. **Weight**—Packages of samples must not exceed 12 ounces in weight. **Size**—The size must not exceed 12 inches in length, 8 inches in breadth, and 4 inches in depth, except when in the form of a roll, they may be 12 inches in length and 6 inches in diameter. **Postage**—The postage on samples is 2 cents for the first 4 ounces or less, and 1 cent for each additional 2 ounces or fraction of 2 ounces. Register all valuable articles. Registration fee 10 cents.

## PARCEL POST.

Postage, 12 cents a pound or fraction thereof; greatest length (unless specially noted below), 3 feet 6 inches; greatest length and girth combined (unless specially noted below), 6 feet; limit of weight (unless specially noted below), 11 pounds; value (unless specially noted below), not limited; registration fee, 10 cents.

Unsealed packages of mailable merchandise may be sent by parcel post to Dutch Guiana (parcels cannot be registered. See item "Customs Declarations"), Uruguay (parcels cannot be registered. See item "Customs Declarations"), Hungary, Bermuda, Jamaica, including Cayman Islands, Turks Island, including Caicos Islands, Barbados (parcels cannot be registered), the Bahamas, British Honduras, Mexico (limit of size, 2 feet in length, 4 feet in girth; limit of weight for places named in "Postal Guide," 11 pounds; for other places, 4 pounds 6 ounces), Leeward Islands (Antigua, Anguilla, Barbuda, Dominica, Montserrat, Nevis, Redonda, St. Kitts and the Virgin Islands), Colombia (limit of size, 2 feet in length, 4 feet in girth), Costa Rica, Salvador (see item "Customs Declarations"), British Guiana, Danish West Indies (St. Croix, St. John and St. Thomas), and the Windward Islands (Grenada, Grenadines, St. Lucia, and St. Vincent), Trinidad, including Tobago; Venezuela (see item "Customs Declarations"), Bolivia, Ecuador, Peru and Chile, Newfoundland, including Labrador. Parcels for Labrador can only be forwarded during the months of July, August and September; Honduras (Republic of), \*Germany, including Cameroon (Kamerun), Togo, German Samoa, German East Africa and German Southwest Africa; Greece (parcels cannot be registered), Italy, including Erythraea, Benadir, Bengazi and Tripoli in Tripoli (Barbary) and Republic of San Marino and Islands of Carpathos and Rhodes. Liberia, Netherlands (parcels cannot be registered. See item "Customs Declarations"), New Zealand, including Cook and Fanning Islands; Nicaragua, Guatemala, Norway, Japan, including Formosa, Karafuto (Japanese Saghalien), and Korea (Chosen); Hongkong, including Kowloon, Austria, including Durazzo, San Giovanni de Medua, Santi Quaranta, Scutari, and Valona, all in Albania; Gibraltar (parcels cannot be registered. See item "Customs Declarations"). French Guiana (parcels cannot be registered. See item "Customs Declarations"), Belgium, †France, excluding Algeria and Corsica (parcels cannot be registered. See item "Customs Declarations"), Great Britain and Ireland (parcels cannot be registered), Australia, including Tasmania, Denmark, including Faroe Islands and Iceland; Sweden. †China—Parcels addressed for the following places are mailable subject to the rate and conditions applicable to parcels for HONGKONG: Aberdeen, Amoy, Au Tan, Canton, Chung Chow (i. e., Cheungchow or Cheung Chau, colony of Hongkong), Foochow, Hoihow, Hongkong, Kowloon, Liu Kung Tau, Ningpo, Ping Shan, Shanghai, Sai Kung, Stanley, Sha Tin, Shung Shui, Shoo Tow Kok, Swatow, Tai-o, Tai-Po, and Wei Hai Wei. Parcels addressed for delivery in the

\* Service suspended on account of war at time ALMANAC was printed.

† Only for places here mentioned. † Service to the French Departments (states) of Aisne, Ardennes, Aube, Haute-Marne, Haute-Saonne, Marne, Neurthe et Moselle, Meuse, Nord, Oise, Pas de Calais, Seine-et-Marne, Somme, and Vosges suspended.

FOREIGN MAILS—Continued.

following places are mailable subject to the rate and conditions applicable to parcels for JAPAN: Amoy, Changsha, Chefoo, Foochow, Hangchow, Kiukiang, Newchwang, Peking, Shanhaikwan, Shasi, Soochow, Tientsin, Tongku, and Wuhu, China; or at the following places in Manchuria: Antoken (Antung), Bujum (Fushun), Choshun (Changchun), Dairen (Tairen, Talien, formerly Dainy), Daisekkio (Tashichiao), Daitoko (Tatungkou), Furanten (Pulentien), Gwaboten (Wafantien), Gaihei (Kaiping), Giukaton (New-chaitun), Hishiko (Pitzuwo), Hoten (Mukden), Honkeiko (Pengshih), Howoreo (Penghuangcheng), Kaigen (Kalyuen), Kaljo (Haimueng), Kinshu (Chinchow), Koshurei (Kungchuling), Riujuton (Lushuton), Riouin (Port Arthur), Riyo (Liaoyang), Senkinsai (Chienchiensai), Shiheigai (Shupingchieh), Shinminfu (Shingminfu), Shoto (Changtu), Sokato (Tsaohokow), Sokaton (Suchiatun), Taikozan (Takushan), Tetsurei (Tiehling), Yendai (Yental), Yugakuiroo (Hsiungyocheng). Parcels addressed for delivery in the following places are mailable subject to the rate and conditions applicable to parcels for GERMANY, and are included in closed mails made up for the German Post-Office at Shanghai: Hankow, Nanking, Shanghai, Chingkaikow, Tsinanfoo, Weihsien, Klowehow (including Tsingtau, Litsun, Mecklinburghaus, Shatsikoo, Sifang, Taputow, Tsangkow, Tsingtoo-Gr. Hafen, Tsingtow-Tabatau). Parcels for the city of Shanghai to include only such matter as may be inadmissible to domestic parcel post mail for United States Postal Agency at Shanghai, e. g., books, etc.; Hayti, Brazil, Dominican Republic, Dutch West Indies; Curacao and Aruba, Bonaire, Saba, St. Eustatius and the Dutch part of St. Martins (parcels cannot be registered. See item "Customs Declarations"). French West Indies: Martinique, Guadeloupe (including Marie Galante, Desade, Les Saints, St. Bartholomew and the French portion of St. Martins) (parcels cannot be registered. See item "Customs Declarations"). Panama. Parcels must be wrapped so as to permit their contents to be easily examined by postmasters. The presence, in an unsealed parcel, of sealed receptacles containing mailable articles which cannot be safely transmitted in the unsealed receptacles, will not render the parcel unmailable, provided the contents of the sealed receptacles are plainly visible, or are unmistakably indicated by the method of packing or by a precise statement on the covers. But such sealed receptacles will not be admitted to the parcel post unless inclosed in an outside cover open to inspection. Any article absolutely prohibited admission to the regular mails for any country is also inadmissible to parcel post mails for that country; but no article is excluded from parcel post mails solely because it is dutiable in the country of destination. †Liquids, poisonous, explosive, and inflammable substances are excluded.

CUSTOMS DECLARATIONS.

A "Customs Declaration" Form 4402 (which will be furnished on application at the post-office or a station) must be properly and fully filled out, stating the actual contents, value, etc., of the parcel. General terms, such as "merchandise" or "samples," will not answer; the contents must be accurately described. "Customs Declarations" must be firmly attached to the cover of the parcel, but not pasted or affixed so that they will seal the package and prevent examination of the contents without damaging the cover. In addition to being tied by means of a cord passing through the eyelet, the tag should be bound flat to the parcel (with the front or "declaration" side facing out), so that the tag cannot be used as a handle to lift the parcel while in transit.

Two (2) copies of the "declaration" (Form 4402) must be attached to each parcel for Dutch Guiana, Dutch West Indies, French West Indies, Netherlands, French Guiana, Gibraltar, Salvador, and Uruguay, and three (3) copies to each parcel for Venezuela.

France.—Two copies of the special customs declaration, "Form No. 2 Bis" (4402½), showing in addition to the usual entries the gross weight of the parcel and net weight of the contents, must be attached to parcels for France. One copy may be pasted to the package, but the other copy must be affixed in such a manner that it can be readily removed at the exchange office where the mail is prepared for despatch to France.

† Liquids and oils, pastes, salves or other articles easily liquefiable are admissible to the parcel post mails for Austria, Brazil, Germany, Great Britain, and Norway, provided they are packed in accordance with the regulations prescribed for the admission of such substances to the United States domestic parcel post mails.

GENERAL REGULATIONS RESPECTING FOREIGN MAILS.

*Rates and conditions to countries not in the Universal Postal Union are now the same as those to Universal Postal Union countries.*

Postage can be prepaid upon articles (other than the reply half of double postal cards) only by means of the postage stamps of the country in which the articles are mailed. Hence articles mailed in one country addressed to another country which bear postage stamps of the country to which they are addressed are treated as if they had no postage stamps attached to them.

Unpaid letters received from the Postal Union and insufficiently prepaid correspondence of all kinds is chargeable with double the amount of the deficient postage.

Matter to be sent in the mails at less than letter rates must be so wrapped that it can be readily examined at the office of delivery, as well as the mailing office, without destroying the wrapper.

Packages of newspapers and periodicals sent in the mails to foreign countries are restricted to a single (outside) address. Those sent to Canada, Cuba, Mexico, Panama, and Shanghai (City), China, are transmissible as in domestic mails.

The United States two-cent postal card should be used for card correspondence with foreign countries (except Canada, Cuba, Mexico, Panama, and Shanghai City, to which countries the one-cent card is transmissible), but where these cards cannot be obtained, it is allowable to use for this purpose the United States one-cent postal card with a one-cent United States adhesive postage stamp attached thereto. Private cards can be used if conforming in size, etc., to Government cards, such cards should bear the words "post card."

Mail matter of all kinds received from any country of the Postal Union is required to be reforwarded at the request of the addressee, from one post-office to another, and in the case of articles other than parcel post packages, to any foreign country embraced in the Postal Union, without additional charge for postage.

All articles prohibited from domestic mails are also excluded from circulation in the mails to and from foreign countries. Postal cards or letters addressed to go around the world will not be forwarded, being prohibited.

FOREIGN (INTERNATIONAL) MONEY ORDERS.

When payable in any foreign country, as follows:

|                                          |          |                                  |          |
|------------------------------------------|----------|----------------------------------|----------|
| For sums from \$0.01 to \$10.00. . . . . | 10 cents | From \$50.01 to \$60.00. . . . . | 60 cents |
| From \$10.01 to \$20.00. . . . .         | 20 "     | " 60.01 to 70.00. . . . .        | 70 "     |
| " 20.01 to 30.00. . . . .                | 30 "     | " 70.01 to 80.00. . . . .        | 80 "     |
| " 30.01 to 40.00. . . . .                | 40 "     | " 80.01 to 90.00. . . . .        | 90 "     |
| " 40.01 to 50.00. . . . .                | 50 "     | " 90.01 to 100.00. . . . .       | 1 dollar |

NOTE.—It should be understood that these tables are subject to change, it being the aim of the Post-Office Department to make reductions whenever conditions warrant such action.

## POSTAL-SAVINGS SYSTEM.

## INFORMATION FOR DEPOSITORS ANNOUNCED BY POST-OFFICE DEPARTMENT.

**Object**—1. The Postal-Savings System is established by authority of the act of Congress approved June 25, 1910, for the purpose of providing facilities for depositing savings at interest, with the security of the United States Government for repayment.

**Safety**—2. The faith of the United States is solemnly pledged to the payment of deposits made in postal-savings depository offices, with accrued interest thereon, as provided by the Postal-Savings act.

**Who May Deposit**—3. An account may be opened and deposits made by any person of the age of 10 years or over in his or her own name, or by a married woman in her own name and free from any control or interference by her husband.

4. Deposits will be accepted only from individuals, and no account will be opened in the name of any corporation, association, society, firm or partnership, or in the name of two or more persons jointly. No account will be opened in the name of one person in trust for or on behalf of another person or persons.

5. A person may open a postal-savings account at any depository post-office, but no person may at the same time have more than one postal-savings account either at the same office or at different offices.

6. All accounts shall be opened in person by the depositor or his authorized representative. After opening an account, a depositor may forward subsequent deposits to the post-office by registered mail or by money order made payable to the postmaster. See paragraph No. 26.

**No Charges to Depositors**—7. No charges or fees are collected or required from depositors in connection with the opening of accounts or the subsequent deposit or withdrawal of moneys.

**How to Open an Account**—8. When a person applies to open an account, he shall furnish the necessary information to enable the postmaster to fill out an application, which the depositor will then be required to sign.

**Deposits**—9. Deposits are evidenced by postal-savings certificates issued in fixed denominations of \$1, \$2, \$5, \$10, \$20, \$50, and \$100, each bearing the name of the depositor, the number of his account, the date of issue, and the name of the depository office. The depositor shall sign a duplicate of each certificate, which the postmaster will retain.

10. No account may be opened for less than \$1, nor will fractions of a dollar be accepted for deposit. (See paragraph 16 relative to postal-savings cards and stamps.)

11. No person is permitted to deposit more than \$100 in any one calendar month nor to have a total balance to his credit at any time of more than \$500 exclusive of accumulated interest.

12. Postal-savings certificates are not transferable or negotiable and are payable only to the person to whom issued, except as provided in paragraphs 27, 28, and 29.

13. On opening an account a depositor is supplied with an envelope in which he may keep his savings certificates. This envelope bears information for his guidance, and a blank ledger record on which an account of his deposits and withdrawals may be kept.

14. If a postal-savings certificate is lost or destroyed the depositor should notify the postmaster. Upon compliance by the depositor with the necessary requirements, a new certificate will be issued by the Third Assistant Postmaster-General if deemed proper.

15. Postmasters are not permitted to receive issued postal-savings certificates for safe-keeping.

**Postal-Savings Cards and Stamps**—16. Amounts less than \$1 may be saved for deposit by purchasing 10-cent postal-savings cards and 10-cent postal-savings stamps. Each postal-savings card bears blank spaces in which such stamps may be affixed from time to time. A postal-savings card with nine postal-savings stamps affixed will be accepted as a deposit of \$1 either in opening an account or in adding to an existing account.

17. Postal-savings cards and stamps are not valid for postage, and postmasters will not exchange them for postage stamps nor exchange postage stamps for postal-savings cards or stamps.

**Interest**—18. Interest at the rate of 2 per cent. per annum will be allowed on the amount represented by each postal-savings certificate, payable annually. Interest will not be paid for any fraction of a year.

19. Deposits will bear interest from the first day of the month next following that in which made. Interest will continue to accrue annually on a postal-savings certificate as long as it remains outstanding, certificates being valid until paid, without limitation as to time.

20. Compound interest is not allowed on an outstanding certificate, but a depositor may withdraw interest accrued and make a new deposit, subject to the restriction that deposits at interest will not be received for less than \$1.

**Withdrawals**—22. A depositor may at any time withdraw the whole or any part of the deposits to his credit, with any interest payable thereon, by surrendering, at the office of issue, postal-savings certificates, properly indorsed, for the amount to be withdrawn.

23. A depositor presenting a certificate for payment in full shall indorse it in the presence of the postmaster or his representative and surrender it. The postmaster or his representative, upon being satisfied as to the depositor's identity, will then make payment.

24. When a depositor desires to withdraw only a part of the amount represented by any certificate, the postmaster will cancel the certificate and issue a new certificate or certificates covering the amount remaining on deposit, which will bear interest from the first day of the following month.

25. When a depositor desires to withdraw the interest payable on any certificate, he will be required to give his receipt for the amount of the interest paid. The postmaster will enter on the back of the certificate the date of the interest payment.

**Deposits Not Made in Person**—26. When a depositor, for good and sufficient reason, is unable to appear in person to make an additional deposit, the amount to be deposited may be sent by a representative or forwarded by registered mail if the money order service is not available, by a money order made payable to the postmaster. Postal-savings accounts may be opened by mail. This important extension of the service will have the practical effect of bringing postal-savings facilities within the reach of every person in the United States. A person residing at a post-office not authorized to accept postal-savings deposits may open an account on or after that date by applying to his local postmaster, who will act as agent for a nearby post-office authorized to accept such deposits. After an account has been opened deposits may be made either in person, by a representative, by money order, or by registered mail if the money order service is not available.

**Withdrawals Not Made in Person**—27. When, for good and sufficient reason, a depositor is unable to appear in person to make a withdrawal, a blank order for the purpose will be furnished upon his application by mail or at the request of his representative. When the order has been properly filled out and signed by the depositor, his signature witnessed by a disinterested person, and the order returned to the postmaster, together with each certificate to be paid properly indorsed, payment will be made to the depositor's representative, or a money order covering the amount withdrawn, less the money-order fee, will be forwarded to the depositor.

28. When a depositor who is unable to appear in person desires to withdraw the interest payable on any certificate, the blank order furnished will be accompanied by a receipt for the interest to be paid. Upon return of such papers, properly signed by the depositor, the postmaster will make payment as provided in paragraph 27.

**Death of Depositor**—29. In case of the death of a depositor the amount standing to his credit will be paid to the executor or administrator of his estate upon compliance with necessary requirements. In case of the death of a depositor intestate, where no formal administration is desired by his relatives, the

## POSTAL-SAVINGS SYSTEM—Continued.

Third Assistant Postmaster-General may authorize the postmaster, upon obtaining an affidavit in proper form, to pay the amount to the persons entitled under the State laws to receive it.

**Account of Woman Who Marries**—30. A woman who opens an account and afterward marries should present her postal-savings certificates to the postmaster at the issuing office in order that the certificates may be indorsed as payable to her in her new name. The postmaster will receive no further deposits from a woman who marries and fails to comply with this requirement.

**Postal-Savings Bonds**—31. A depositor may exchange the whole or any part of his deposits in sums of \$20, or any multiple of \$20 up to and including \$500, for United States registered or coupon bonds bearing interest at the rate of 2½ per cent. per annum, payable semi-annually, redeemable at the pleasure of the United States after one year from date of issue, and both principal and interest being payable 20 years from such date in United States gold coin. The exchange may be made as of January 1 and July 1 of each year.

32. A depositor desiring to convert his postal-savings deposits into bonds on January 1 and July 1 of any year shall make application to the postmaster at least one month previously on a form which will be supplied in triplicate for the purpose. At the time of making application the depositor shall indorse and surrender postal-savings certificates covering the amount of the bonds desired, and the postmaster will give him a receipt for the certificates. When the bonds applied for have been issued by the Secretary of the Treasury, he will forward them to the depositor. The exchange is considered as taking effect on the date when the bonds begin to bear interest (January 1 or July 1), and any yearly interest due on the certificates surrendered will be paid by the postmaster on or after that date.

33. Postal-savings deposits which have been exchanged for bonds are not counted as a part of the maximum of \$500 allowed one depositor, and there is no limitation upon the amount of postal-savings bonds which may be acquired by a depositor.

34. Postal-savings bonds are exempt from all taxes or duties of the United States, as well as from taxation in any form by or under State, municipal, or local authority.

35. Postal-savings bonds can be procured only by the surrender of postal-savings deposits and will not be issued to persons who are not depositors, but whether in registered or coupon form they may, after receipt by the depositor, be sold or transferred at any time. A leaflet containing additional information concerning postal-savings bonds may be obtained from the postmaster.

**Information**—36. Further information concerning the Postal-Savings System may be obtained by application at any depository post-office or by addressing the Third Assistant Postmaster-General, Division of Postal Savings, Washington, D. C.

A person desiring to open a postal-savings account should visit the post-office in person, where full instructions will be given. If for any good reason he cannot visit the office a representative may be sent, who will be instructed how to proceed.

TRAVELLING DISTANCES  
BETWEEN THE  
PRINCIPAL CITIES IN EUROPE,  
IN MILES.

## BOYCOTTING, BLACKLISTING, AND INTIMIDATION LAWS.

THE States having laws prohibiting *boycotting* in terms are Alabama, Colorado, Illinois, Indiana, and Texas.

The States having laws prohibiting *blacklisting* in terms are Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Florida, Illinois, Indiana, Iowa, Kansas, Minnesota, Mississippi (applies to telegraph operators only), Missouri, Montana, Nevada, New Mexico, North Carolina, North Dakota, Oklahoma, Oregon, Texas, Utah, Virginia, Washington, and Wisconsin.

Boycotting and picketing by peaceful and lawful means are declared legal by a Federal statute.

A number of States have laws concerning *intimidation*, conspiracy against workmen, and interference with employment, viz.: Alabama, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho (applies to mine employes only), Illinois, Kansas, Kentucky, Louisiana, Maine, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nevada, New Hampshire, New Jersey, New York, North Dakota, Oklahoma, Oregon, Pennsylvania, Porto Rico, Rhode Island, South Dakota, Texas, Utah, Vermont, Washington, West Virginia and Wisconsin.

In the following States it is unlawful for an employer to exact any agreement, either written or verbal, from an employe not to join or become a member of a labor organization, as a condition of employment: California, Colorado, Connecticut, Idaho, Indiana, Louisiana, Massachusetts, Minnesota, Mississippi (applies to telegraph operators only), Nevada, New Jersey, Ohio, Oklahoma, Oregon, Pennsylvania, Porto Rico, South Carolina, Utah, and Wisconsin.

## EIGHT-HOUR LAWS.

**Alaska.**—Eight hours constitute a day's labor on all public works and in all mines and workings: smelting and reduction works, and at coke ovens.

**Arizona.**—Eight hours constitute a day's labor on all public works and in all mines and workings, smelting and reduction works, blast furnaces, rolling mills, etc.

**Arkansas.**—Eight hours constitute a day's work on public highways and bridges and for railway telegraph operators.

**California.**—Unless otherwise expressly stipulated, eight hours constitute a day's work. The time of service of all laborers, workmen, and mechanics employed upon any public works of, or work done for, the State, or for any political sub-division thereof, whether the work is to be done by contract or otherwise, and of employes in mines and smelters, is limited and restricted to eight hours in any one calendar day.

**Colorado.**—A day's work for all workmen employed by the State, or any county, township, school district, municipality, or incorporated town, and for all employes in underground or open cut mines or workings, and in smelting and refining works, is restricted to eight hours.

**Connecticut.**—Eight hours of labor constitute a lawful day's work unless otherwise agreed. Railroad telegraph operators controlling the movement of trains may work but eight hours, except at stations kept open only in the daytime. Engineers, firemen, machinists and other mechanics employed in State institutions may work but eight hours, except in case of emergency.

**Delaware.**—Eight hours constitute a lawful day's work for all municipal employes of the city of Wilmington.

**District of Columbia.**—A day's work for all laborers and mechanics employed by the District of Columbia, or by any contractor or sub-contractor upon any public works of the District, is limited to eight hours.

**Hawaii.**—For all mechanics, clerks, laborers, and other employes on public works and in public offices eight hours of actual service constitute a day's work.

**Idaho.**—Eight hours' actual work constitute a lawful day's labor for manual laborers employed by the day on all State, county, and municipal works. Labor in mines and smelters is limited to eight hours per day.

**Illinois.**—Eight hours are a legal day's work in all mechanical employments, except on farms, and when otherwise agreed; the law does not apply to service by the year, month or week. Eight hours constitute a day's labor on the public highways.

**Indiana.**—Eight hours of labor constitute a legal day's work on the public roads, and for all classes of mechanics, workmen and laborers, excepting those engaged in agricultural and domestic labor. Overwork by agreement and for extra compensation is permitted.

**Iowa.**—Eight hours constitute a day's labor on the public roads.

**Kansas.**—Eight hours are a day's work for all laborers, mechanics, or other persons employed by or on behalf of the State or any county, city, township or other municipality.

**Kentucky.**—Eight hours constitute a day's work on all public works of the State.

**Maryland.**—No mechanic or laborer employed by the Mayor or City Council of Baltimore, or by any agent or contractor under them, shall be required to work more than eight hours as a day's labor.

**Massachusetts.**—Eight hours shall constitute a day's work for all laborers, workmen, and mechanics employed by or on behalf of the Commonwealth or any county therein, or of any city or town in the Commonwealth, upon acceptance of the statute by a majority of voters present and voting upon the same at any general election.

**Minnesota.**—Eight hours constitute a day's labor for all laborers, workmen, or mechanics employed by or on behalf of the State, whether the work is done by contract or otherwise.

**Mississippi.**—Eight hours are a day's labor on highways.

**Missouri.**—Eight hours constitute a legal day's work. The law does not prevent an agreement to work for a longer or a shorter time and does not apply to agricultural laborers. It is unlawful for employers to work their employes longer than eight hours per day in mines and smelters, or as train dispatchers, etc., on railroads, unless the office is open only during the daytime. Eight hours are a day's labor on highways, and on all public works in cities of the second class.

**Montana.**—Eight hours constitute a legal day's work for persons engaged to operate or handle hoisting engines at mines. The law applies only to such plants as are in operation sixteen or more hours per day, or at or in mines where the engine develops fifteen or more horse-power, or where fifteen or more men are employed underground in the twenty-four hours. A day's labor on public works and in smelters, underground mines and in railroad and other tunnels is limited to eight hours.

**Nebraska.**—Eight hours constitute a day's work on public roads and on all public works in cities of the first class.

**Nevada.**—For labor on public highways, in and about all mines, in smelters, plaster and cement mills, as train dispatchers, etc., on railroads, and on all works and undertakings carried on or aided by the State, county, or municipal governments, the hours of labor are fixed at eight per day.

**New Jersey.**—Eight hours is the limit of a day's work by any person employed by or on behalf of the State or any municipality thereof.

**New Mexico.**—Eight hours constitute a day's labor in all employment by or on behalf of the State or municipality.

**New York.**—Eight hours constitute a day's work on highways, and on work done by or for the State, or a municipal corporation, whether directly by contractors or sub-contractors; also for all

classes of employes, except in farm or domestic labor, though overwork for extra pay is permitted in private employments.

**North Dakota.**—Eight hours are a day's labor on public roads.

**Ohio.**—Eight hours constitute a day's work on all public works; also in all engagements to labor in any mechanical, manufacturing or mining business, unless otherwise expressly stipulated in the contract.

**Oklahoma.**—Eight hours constitute a day's labor on all public works, and in underground mines.

**Oregon.**—Eight hours constitute a day's labor on all public works, and in underground mines yielding metal.

**Pennsylvania.**—Eight hours of labor shall be deemed and held to be a legal day's work in all cases of labor and service by the day where there is no agreement or contract to the contrary. This does not apply to farm or agricultural labor or to service by the year, month or week. Eight hours constitute a day's labor for all mechanics, workmen, and laborers in the employ of the State, or of any municipal corporation therein, or otherwise engaged on public works. This act shall be deemed to apply to employes of contractors. Engineers hoisting workmen at anthracite coal mines may work but eight hours per day.

**Philippine Islands.**—Eight hours constitute a day's work on highways.

**Porto Rico.**—No laborer may be compelled to work more than eight hours per day on public works.

**South Dakota.**—For labor on public highways a day's work is fixed at eight hours.

**Tennessee.**—Eight hours shall be a day's work on the highways.

**Texas.**—Eight hours constitute a day's work on the highways, and by train despatchers, etc., except at stations where but one operator is employed.

**Utah.**—Eight hours constitute a day's labor on all works carried on or aided by the State, county or municipal governments, and in all underground mines or workings, and in smelters and all other establishments for the reduction of ores.

**Washington.**—Eight hours in any calendar day shall constitute a day's work on any work done for the State, or for any county or municipality, and in underground coal mines.

**West Virginia.**—Eight hours shall constitute a day's work for all laborers, workmen, and mechanics who may be employed by or on behalf of the State, and for telegraph operators directing the movement of trains where three or more passenger or ten or more freight trains pass in 24 hours.

**Wisconsin.**—In all engagements to labor in any manufacturing or mechanical business, where there is no express contract to the contrary, a day's work shall consist of eight hours, but the law does not apply to contracts for labor by the week, month or year. Eight hours constitute a day's labor on the public highways. Employes on public works and train despatchers may be employed but eight hours per day.

**Wyoming.**—Eight hours' actual work constitute a legal day's labor in all underground mines, in smelters, and on all State and municipal works.

**United States.**—A day's work for all laborers, workmen and mechanics who may be employed by the United States, or by any contractor or sub-contractor upon any of the public works of the United States, including dredging and rock excavation in river and harbor work, is limited to eight hours.

THE WORLD ALMANAC is indebted to Commissioner Royal Meeker of the U. S. Bureau of Labor Statistics for this Summary of Labor Legislation revised to date.

## General Labor Organizations.

## AMERICAN FEDERATION OF LABOR.

PRESIDENT, Samuel Gompers, 801-809 G Street N. W., Washington, D. C.; Secretary, Frank Morrison, same address; Treasurer, John B. Lennon, Bloomington, Ill.; First Vice-President, James Duncan, Hancock Building, Quincy, Mass.; Second Vice-President, James O'Connell, 512 Ouray Building, Washington, D. C.; Third Vice-President, D. A. Hayes, 930 Witherspoon Building, Philadelphia, Pa.; Fourth Vice-President, Jos. F. Valentine, Commercial Tribune Building, Cincinnati, Ohio; Fifth Vice-President, John R. Alpine, 401 Bush Temple of Music, Chicago, Ill.; Sixth Vice-President, H. B. Perham, Star Building, St. Louis, Mo.; Seventh Vice-President, Frank Duffy, Carpenters' Building, Indianapolis, Ind.; Eighth Vice-President William Green, 1102-08 Merchants' Bank Building, Indianapolis, Ind.

The federation is composed of 110 national and international unions, representing approximately 22,000 local unions, 5 departments, 44 State branches, 631 city central unions, and 485 local unions. The approximate paid membership is 2,000,000. The affiliated unions publish about 540 weekly or monthly papers, devoted to the cause of labor. The official organ is the *American Federationist*, edited by Samuel Gompers. There are 1,715 organizers of local unions acting under the orders of the American Federation of Labor. The objects and aims of the American Federation of Labor are officially stated to render employment and means of subsistence less precarious by securing to the workers an equitable share of the fruits of their labor.

INTERNATIONAL UNIONS COMPRISING THE AMERICAN FEDERATION OF LABOR.  
Asbestos Workers, International Association of Heat and Frost Insulators and. Thomas J. McNamara, 2516 Slattery Street, St. Louis, Mo.

Bakery and Confectionery Workers' International Union of America. Charles Iffland, 212 Bush Temple of Music, Chicago, Ill.

Barbers' International Union, Journeymen. Jacob Fischer, 222 East Michigan St., Indianapolis, Ind.  
Bill Posters and Billers of America, International Alliance of. William McCarthy, Fitzgerald Building, 1482-90 Broadway, New York City.

Blacksmiths, International Brotherhood of. Wm. F. Kramer, Monon Building, Chicago, Ill.

Boilermakers and Iron Ship Builders of America, Brotherhood of. F. P. Reinemeyer, Suite 7-12, Law Building, Kansas City, Kan.

Bookbinders, International Brotherhood of. Walter N. Reddick, 222 East Michigan Street, Indianapolis, Ind.

Boot and Shoe Workers' Union. C. L. Baine, 246 Summer Street, Boston, Mass.

Brewery Workmen, International Union of the United. Joseph Proebstle, 2347 Vine Street, Cincinnati, Ohio.

Brick, Tile, and Terra Cotta Workers' Alliance, International. William Van Bodegraven, 2341 West 12th Street, Chicago, Ill.

Bridge and Structural Iron Workers, International Association of. Harry Jones, 422-424 American Central Life Building, Indianapolis, Ind.

Broom and Whisk Makers' Union, International. W. R. Boyer, 851 King Place, Chicago, Ill.

Brushmakers' International Union. George J. Vitzthum, 2052 Gates Avenue, Brooklyn, N. Y.

Carpenters and Joiners of America, United Brotherhood of. Frank Duffy, Carpenters' Building, Indianapolis, Ind.

Carriage, Wagon and Automobile Workers of North America, International Union of. William P. Mavell, 37 Lewis Block, Buffalo, N. Y.

Carvers' Association of North America, International Wood. Thomas J. Lodge, 10 Carlisle Street, Roxbury, Mass.

Cement Workers, American Brotherhood of. F. C. Gengenback, 646 West Marquette Road, Chicago, Ill.

Cigarmakers' International Union of America. George W. Perkins, Monon Building, Chicago, Ill.

Clerks' International Protective Association, Retail. H. J. Conway, Lock Drawer 248, Lafayette, Ind.

Cloth Hat and Cap Makers of North America, United. Max Zuckerman, 62 East Fourth St., New York, Commercial Telegraphers' Union of America, The. Wesley Russell, Monon Building, Chicago, Ill.

Compressed Air and Foundation Workers' Union of the United States and Canada. Henry Kuhlmann, 12 St. Mark's Place, New York City.

Coopers' International Union of North America. William R. Deal, Bishop Building, Kansas City, Kan.

Cutting Die and Cutter Makers, International Union of. William Bondy, 727 Manida Street, New York.

Diamond Workers' Protective Union of America. Andries Meyer, 323 Washington Street, Brooklyn, N. Y.

Electrical Workers of America, International Brotherhood of. Charles P. Ford, Reich Building, Springfield, Ill.

Elevator Constructors, International Union of. William Young, 418 Perry Building, Philadelphia, Pa.

Engineers, International Union of Steam and Operating. James G. Hannahan, 6334 Yale Avenue, Chicago, Ill.

Firemen, International Brotherhood of Stationary. C. L. Shamp, 3615 N. 24th Street, Omaha, Neb.

Foundry Employés, International Brotherhood of. Geo. Bechtold, 810 Olive Street, St. Louis, Mo.

Fur Workers' Union of United States and Canada, International. Samuel Korman, 32 Union Square, New York City.

Garment Workers of America, United. B. A. Larger, Rooms 116-122 Bible House, New York City.

Garment Workers' Union, International Ladies'. Morris Sigman, 32 Union Square, New York City.

Glass Bottle Blowers' Association of the United States and Canada. William Launer, Rooms 930-932 Witherspoon Building, Juniper and Walnut Streets, Philadelphia, Pa.

Glass Workers' International Association, Amalgamated. A. J. Scott, 118 East 28th Street, New York City.

Glass Workers' Union, American Flint. William P. Clarke, Ohio Building, Toledo, Ohio.

## NATIONAL UNIONS

NOT AFFILIATED WITH THE AMERICAN FEDERATION OF LABOR.

Bricklayers, Masons and Plasterers International. William Dobson, University Park Building, Indianapolis, Ind.

Brotherhood of Locomotive Engineers. Warren S. Stone, Grand Chief Engineer, Cleveland, Ohio; W. B. Prenter, General Secretary, Cleveland, Ohio.

Brotherhood of Locomotive Firemen and Enginemen. A. H. Hawley, General Secretary and Treasurer, Jefferson Building, Peoria, Ill.

Brotherhood of Railroad Trainmen. A. E. King, General Secretary-Treasurer, American Trust Building, Cleveland, Ohio.

Order of Railway Conductors of America. A. B. Garretson, President, Cedar Rapids Savings Bank Building, Cedar Rapids, Iowa; C. E. Whitney, Grand Secretary.

## KNIGHTS OF LABOR.

General Executive Board: General Master Workman, John W. Hayes, Washington, D. C.; Chairman; General Worthy Foreman, William A. Denison, Rochester, N. Y.; General Secretary-Treasurer, I. D. Chamberlain, Washington, D. C.; Assistant General Secretary-Treasurer, Bennett M. Jayne, Philadelphia, Pa.; Chris. Hill, Brooklyn, N. Y.; F. W. Bonehill, Rochester, N. Y.

## TRADE UNION STATISTICS OF THE WORLD.

The following table shows the membership of Trade Unions in the 12 principal trade union countries, according to returns received through various sources for the year ending January 1, 1912. The figures in parentheses indicate the relative order of the membership and percentage figures to the remaining figures under those headings in each column. The figures for the United States include those for Canada, where trade unionists are estimated to number 150,000.

## TRADE UNION MEMBERSHIP.

| COUNTRY         | Total Membership. | Percentage of Membership to Total Pop. | COUNTRY.          | Total Membership. | Percentage of Membership to Total Pop. |
|-----------------|-------------------|----------------------------------------|-------------------|-------------------|----------------------------------------|
| Austria.....    | 411,905..(6)      | 1.4..(11)                              | Italy.....        | 817,034..(5)      | 2.4..(7)                               |
| Belgium.....    | 210,902..(7)      | 2.6..(4)                               | Netherlands.....  | 153,071..(8)      | 2.5..(5)                               |

| Hungary.....    | 97,000..(11)      | 4..(12)                                | United States.... | 2,310,420..(3)    | 2.2..(10)                              |

## WAGE-EARNERS' LOSSES BY SICKNESS.

The average wage-earner in the United States loses approximately nine days every year on account of sickness.

The total annual loss in wages and expenses for medical attention is \$750,000,000. It has been conservatively estimated that the people in the United States spend annually \$500,000,000 for medicines alone, and most of this is consumed haphazardly and not under the direction of a physician. This would make an average of \$5 annual expense for medicines for each man, woman, and child in the United States.

These figures are the results of study in a new field of industrial economics made by the Public Health Service for the Federal Commission on Industrial Relations. Every city and every town has its Health Department that operates principally to prevent contagious and infectious diseases and to lower the death rate.

This latest scientific investigation aims to get at the relation of good health to work and the purely practical benefits resulting from a man being able to be on his job every day in good physical condition. It means not only more wages and less expense to him, but it has an important effect upon his productive capacity for the benefit of his employer.

The greater part of the heavy tax of ill health falls upon those workers who are least able to afford it. Dr. B. S. Warren, Surgeon, United States Public Health Service, who made investigation of records of nearly a million workers, found sickness much more prevalent among low paid workers than among those whose incomes are sufficient to provide sanitary housing, adequate food and pleasant surroundings in the home and the shop.

In Great Britain and Germany there has been wider inquiry into this subject, and records have been kept for a number of years. The deductions and percentages of the American inquiry are said to correspond closely with the foreign tabulations, showing that the estimates of losses made here are well grounded.

It is not merely loss of wages and direct expense of medical attendance that must be taken into consideration from an economic standpoint. Impairment of the worker's efficiency and the burdens cast upon his family by sickness cannot be computed in dollars and cents.

From the many statistics interesting deductions are drawn concerning industrial conditions. One conclusion is that fully one-half of the wage-earners in this country do not receive incomes sufficient to maintain healthful conditions of living.

## POPULATION ENGAGED IN INDUSTRIAL OCCUPATIONS.

The following table gives the percentages of total occupied population for the principal groups in the eight leading industrial countries prior to the war:

| OCCUPATION GROUP.                                 | Great Britain. | France. | Germany. | Austria. | Hungary. | Italy. | Belgium. | United States. |
|---------------------------------------------------|----------------|---------|----------|----------|----------|--------|----------|----------------|
| Agriculture.....                                  | 12.66          | 41.42   | 35.11    | 60.80    | 70.15    | 59.06  | 21.90    |                |
| Commercial occupations....                        | 11.39          | 6.54    | 6.30     | 3.34     | 2.56     | 3.43   | 11.79    |                |
| Conveyance of men, goods and messages.....        | 8.20           | 2.89    | 2.89     | 1.70     | 1.55     | 3.12   | 2.03     |                |
| Mines and quarries.....                           | 5.00           | 1.59    | 3.25     | 1.56     | .78      | .89    | 6.46     |                |
| Metals, machines, implements and conveyances..... | 7.89           | 4.35    | 6.99     | 2.78     | 2.15     | 2.14   | 5.95     |                |
| Building and works of construction.....           | 6.77           | 4.20    | 6.99     | 2.96     | 1.48     | 5.02   | 7.28     |                |
| Textile fabrics.....                              | 6.92           | 4.55    | 3.75     | 3.26     | .37      | 4.81   | 6.86     |                |
| Dress.....                                        | 7.23           | 8.05    | 5.39     | 3.92     | 2.85     | 6.64   | 7.86     |                |

See separate classification below.

A distinct classification adopted by United States Census Bureau based on 1910 Census is as follows: All occupations, 33,167,336 (consisting of 30,091,564 males and 3,075,772 females) with per cent. in parentheses showing distribution of total. Agriculture, forestry, and animal husbandry, 12,659,203 (33.2); extraction of minerals, 964,824 (2.9); manufacturing and mechanical industries, 10,658,881 (27.9); transportation, 2,637,671 (6.9); trade, 3,614,670 (9.5); public service (not elsewhere classified), 459,291 (1.2); professional service, 1,663,569 (4.4); domestic and personal service, 3,772,174 (9.9); clerical occupations, 1,787,053 (4.6).

**INDUSTRIAL WORKERS OF THE WORLD.**

(A distinct organization from that given below bearing same name.)

**HEADQUARTERS**, 164 West Washington St., Chicago, Ill. Wm. D. Haywood, General Secretary-Treasurer; Joseph J. Ettor, Assistant Secretary and General Organizer. Executive Board—F. H. Little, A. C. Christ, M. J. Welsh, Francis Miller, W. E. Mattingly.

**PREAMBLE**—The working class and the employing class have nothing in common.

Between these two classes a struggle must go on until the workers of the world organize as a class, take possession of the earth and the machinery of production, and abolish the wage system.

We find that the centring of the management of industries into fewer and fewer hands makes the trades unions unable to cope with the ever-growing power of the employing class. The trades unions foster a state of affairs which allows one set of workers to be pitted against another set of workers in the same industry, thereby helping defeat one another in wage wars. Moreover, the trades unions aid the employing class to mislead the workers into the belief that the working class have interests in common with their employers.

These conditions can be changed and the interest of the working class upheld only by an organization formed in such a way that all its members in any one industry, or in all industries, if necessary, cease work whenever a strike or lockout is on in any department thereof, thus making an injury to one an injury to all.

Instead of the conservative motto, "A fair day's wages for a fair day's work," we must inscribe on our banner the revolutionary watchword, "Abolition of the wage system."

It is the historic mission of the working class to do away with capitalism. The army of production must be organized, not only for the every day struggle with capitalists but also to carry on production when capitalism shall have been overthrown. By organizing industrially we are forming the structure of the new society within the shell of the old.

The organization differs from syndicalism in that great stress is laid upon having a form of organization to correspond, cell for cell, tissue for tissue, with capitalist industry itself, and also because it seeks to build a new union on revolutionary lines rather than to attempt to change the present reactionary and out-of-date craft unions. The organization claims to have blended the practical features of socialism, anarchism, and syndicalism, and yet it is distinct from all three.

The I. W. W. is composed of 300 local unions, 3 national industrial unions (textile, lumber and marine transport workers), having a total membership of 70,000, five national administrations—Hawaiian, Australian, New Zealand, Great Britain and South African.

Excerpts from Constitution and By-Laws follow:

The Industrial Workers of the World shall be composed of actual wage-workers brought together in an organization embodying thirteen national industrial departments, national industrial unions, local industrial unions, local recruiting unions, industrial councils, and individual members.

The annual convention of the Industrial Workers of the World shall be held on the third Monday of September each year at such place as may be determined by previous convention.

Members-at-large shall pay an initiation fee of \$2.00 and \$1.00 per month dues and assessments. No working man or woman shall be excluded from membership in local unions because of creed or color.

That to the end of promoting industrial unity and of securing necessary discipline within the organization, the Industrial Workers of the World refuse all alliances, direct or indirect, with existing political parties or anti-political sects.

**INDUSTRIAL WORKERS OF THE WORLD.**

(A distinct organization from that given above bearing same name.)

**HEADQUARTERS**, Detroit, Mich. General Secretary Treasurer, H. Richter, Detroit; General Organizer, Caleb Harrison, Pittsburgh, Pa. General Executive Board—R. Katz, Maywood, N. J.; W. W. Cox, St. Louis, Mo.; H. Olson, Seattle, Wash.; W. A. Peyton, Cincinnati, Ohio; W. Hammerlind, San Francisco, Cal.

**PREAMBLE**—The working class and the employing class have nothing in common.

Between these two classes a struggle must go on until all the toilers come together on the political as well as on the industrial field, and take and hold that which they produce by their labor through an economic organization of the working class, without affiliation with any political party.

The rapid gathering of wealth and the centring of the management of industries into fewer and fewer hands make the trades unions unable to cope with the ever-growing power of the employing class, because the trades unions foster a state of things which allows one set of workers to be pitted against another set of workers in the same industry, thereby helping defeat one another in wage wars. The trades unions aid the employing class to mislead the workers into the belief that the working class have interests in common with their employers.

Excerpts from Constitution and By-Laws follow:

The Industrial Workers of the World shall be composed of actual wage-workers brought together in an organization embodying thirteen national industrial departments, national industrial unions, local industrial unions, local recruiting unions, industrial councils and individual members.

A national industrial union shall be comprised of the local industrial unions of the various localities in America in a given industry.

The industrial departments shall consist of not less than ten local unions, aggregating a membership of not less than ten thousand members. The industrial departments shall be sub-divided in industrial unions of closely kindred industries in the appropriate organizations for representation in the departmental administration. The departments included are: Department of Mining Industry; Transportation Industry; Metal and Machinery Industry; Glass and Pottery Industry; Food-Stuffs Industry; Brewery, Wine and Distillery Industry; Floricultural, Stock and General Farming Industries; Building Industry; Textile Industries; Leather Industries; Wood Working Industries; Public Service Industries; Miscellaneous Manufacturing.

The annual convention shall be held on the third Monday in September of each year at such place as may be determined by previous convention.

Individual members may be admitted to membership-at-large in the organization on payment of 50 cents initiation fee and 25 cents per month dues, together with assessments.

None but actual wage-workers shall be members of the Industrial Workers of the World. No member of the Industrial Workers of the World shall be an officer in a pure and simple trade union. No member of one industrial or trade organization in the Industrial Workers of the World can at the same time hold a card in another industrial or trade organization of this body. No workingman or workingwoman shall be excluded from membership because of creed or color.

**ESTIMATED NUMBER OF UNEMPLOYED IN NEW YORK CITY AND PER CENT. OF

**COMMISSION ON INDUSTRIAL RELATIONS.**

(WASHINGTON, D. C.—Field Headquarters, Chicago, Ill.)

ACT of Congress approved August 23, 1912:

Sec. 4. That the commission shall inquire into the general condition of labor in the principal industries of the United States, including agriculture, and especially in those which are carried on in corporate forms; into existing relations between employers and employes; into the effect of industrial conditions on public welfare and into the rights and powers of the community to deal therewith; into the conditions of sanitation and safety of employes and the provisions for protecting the life, limb and health of the employes; into the growth of associations of employers and of wage-earners and the effect of such associations upon the relations between employers and employes; into the extent and results of methods of collective bargaining; into any methods which have been tried in any State or in foreign countries for maintaining mutually satisfactory relations between employes and employers; into methods for avoiding or adjusting labor disputes through peaceful and conciliatory mediation and negotiations; into the scope, methods and resources of existing bureaus of labor and into possible ways of increasing their usefulness; into the question of smuggling or other illegal entry of Asiatics into the United States or its insular possessions, and of the methods by which such Asiatics have gained and are gaining such admission, and shall report to Congress as speedily as possible with such recommendation as said commission may think proper to prevent such smuggling and illegal entry. The commission shall seek to discover the underlying causes of dissatisfaction in the industrial situation and report its conclusions thereon.

Frank P. Walsh, Chairman, Kansas City, Mo.; Prof. John R. Commons of Madison, Wis.; Mrs. J. Borden Harriman, New York City; Harris Weinstock, Sacramento, Cal.; S. Thruston Ballard, Louisville, Ky.; John B. Lennon, Bloomington, Ill.; James O'Connell, Washington, D. C., and Austin B. Garretson, Cedar Rapids, Iowa; R. H. Aishton, Evanston, Ill. Secretary, Lewis K. Brown.

In 1915 the commission held hearings covering the subjects enumerated, in the following cities:

New York, January 18-February 6: Control of Industry and Responsibility for Labor Conditions; Rockefeller Endowments and Labor Conditions in Rockefeller Properties.

May 10-19, 26-27: Labor and the Law. May 19-25: Colorado Coal Miners' Strike. May 26-27: Inquiry into Industrial Relations in Porto Rico.

**CHILDREN'S BUREAU.**

**DEPARTMENT OF LABOR.**

HEADQUARTERS, Washington, D. C. Chief of Bureau, Miss Julia C. Lathrop (\$5,000); Lewis Meriam, Assistant Chief (\$2,400).

The Children's Bureau was created by an act of April 9, 1912, to investigate and report upon all matters pertaining to the welfare of children and child-life among all classes of our people, and especially to investigate the questions of infant mortality, the birth rate, orphanage, juvenile courts, desertion, dangerous occupations, accidents and deceased children, employment and legislation affecting children in the several States and Territories.

The staff for the first two fiscal years of the bureau's existence (to June 30, 1914) consisted of fifteen persons, and a yearly appropriation of \$25,640. For the fiscal years beginning July 1, 1914, and July 1, 1915, an appropriation of \$164,640 was made by Congress, providing for a staff of seventy-six persons. With this staff and appropriation the organization of the bureau falls into certain divisions, as an industrial division, a social service division, a division on sanitation, a statistical division, and a division of exhibits.

**THE NATIONAL CIVIC FEDERATION.**

OFFICE, 1 MADISON AVENUE, NEW YORK.

AN organization of prominent representatives of capital, labor, and the general public formed in 1900 as the direct outgrowth of conventions held in Chicago and New York in 1898-1899. Its purpose is to organize the best brains of the nation in an educational movement seeking the solution of some of the great problems related to social and industrial progress; to provide for study and discussion of questions of national import; to aid thus in the crystallization of the most enlightened public opinion; and, when desirable, to promote legislation in accordance therewith. At the present time the work of the federation is carried on through the following agencies:

(1) The Industrial Conciliation Department, dealing entirely with strikes, lockouts and trade agreements. Its membership includes representatives of the general public and the leading organizations of employers and wage-earners. The services of this department have been enlisted in more than five hundred cases involving every phase of industrial controversies.

(2) The Industrial Economics Department, organized to promote discussion of practical economic and social problems. It is now making a survey of the changes in the social, industrial, and economic conditions in this country in the last thirty years.

(3) Welfare Department, composed of employers of labor in stores, factories, mines, and on railroads, and officials who have to do with the working conditions of public employes, chairmen of boards of health, heads of departments of public safety, leading physicians connected with public hospitals, and others. It is devoted to securing improvements in the working and living conditions of the employé by the employer.

A permanent Welfare Exhibit is maintained, which includes models, photographs, illuminated views and literature.

(4) The Woman's Department, composed largely of women who are themselves stockholders or who through family relationships are financially interested in industrial organizations. Emergency work for the unemployed here and relief for injured soldiers in the European war; stimulation of vacation savings funds and recreation resources; the passage of a law as the dying request of its honorary chairman, Mrs. Woodrow Wilson, to secure the abolishment of the unhealthy alley tenements in Washington; improvements in conditions of industrial and Government employes; prison reforms and efforts for rural improvements in agricultural communities, are phases of its endeavors.

(5) The Department on Compensation for Industrial Accidents and Their Prevention, composed of employers, representative labor men, attorneys, insurance experts, economists, State officials, members of State compensation commissions, and others concerned. Its object is: To advocate the amendment of State laws on employers' liability with a view to securing uniform provisions looking toward compensation for industrial accidents, and to look into means of preventing accidents in commercial and manufacturing enterprises. Joint commission of this department and the American Federation of Labor studied operation of State Workmen's Compensation laws; its report was published as Senate document 419.

(6) Social Insurance Department: To investigate the need for uniformity of State legislation governing insurance plans relating to sickness, death benefits for widows and orphans, old-age pensions or unemployment. Committee on Preliminary Inquiry: J. W. Sullivan, Chairman, representing wage-earners, Arthur Williams, representing employers; P. Tecumseh Sherman, attorney, social insurance specialist, reported upon Great Britain's National Health Insurance act, answering the question: Should there be a systematic scheme of compulsory sickness insurance advocated for State legislation? Unemployment insurance and old-age pensions also are covered.

(7) Department on Regulation of Combinations and Trusts: Working for co-ordination of Federal and State laws and unification of the latter.

(8) Department on Regulation of Interstate and Municipal Utilities: Has published "Commission Regulation of Public Utilities," a compilation and analysis of laws of forty-three States and of the Federal Government for the regulation by central commissions of railroads and other public utilities. Has drafted a model bill for uniform State legislation on the subject.

(9) The Food and Drugs Department is composed of representatives of State food and dairy departments, public health associations and organizations of physicians, farmers, labor, and food and drug manufacturers, as well as large individual employers of labor. Its object is to promote uniform legislation on this subject among the States, work for effective co-operation between State and Federal Governments, stimulate the public to demand a better enforcement of existing laws and make evident to employers how their employes too frequently are defrauded in both quality and measurement.

**OFFICERS AND EXECUTIVE COUNCIL.**

President, Seth Low; Vice-Presidents, Samuel Compers, Benjamin Ide Wheeler; Treasurer, Isaac N. Seligman; Chairman Executive Council, Ralph M. Easley; Chairman Industrial Economics Department, John Hays Hammond; Chairman Welfare Department, Louis A. Coolidge; Chairman Woman's Department, Miss Maude Wetmore; Chairman Taxation Department, E. R. A. Bacon, New York City; Chairman National Country Life Committee, Mrs. Thomas M. Owen, Montgomery, Ala.; Executive Secretary, Mrs. Lyndsay Van Rensselaer.

## NATIONAL ASSOCIATION OF MANUFACTURERS.

President, George Pope; Secretary, George S. Boudinot; Assistant Secretary, W. M. Benney; Treasurer, Henry Abbott; General Manager, J. Philip Bird. Headquarters, 30 Church Street, New York.

## DECLARATION OF LABOR PRINCIPLES.

1. Fair dealing is the fundamental and basic principle on which relations between employes and employers should rest.

2. The National Association of Manufacturers is not opposed to organizations of labor as such, but it is unalterably opposed to boycotts, blacklists and other illegal acts of interference with the personal liberty of employer or employe.

3. No person should be refused employment or in any way discriminated against on account of membership or non-membership in any labor organization, and there should be no discriminating against or interference with any employe who is not a member of a labor organization by members of such organizations.

4. With due regard to contracts, it is the right of the employe to leave his employment whenever he sees fit, and it is the right of the employer to discharge any employe when he sees fit.

5. Employers must be free to employ their work people at wages mutually satisfactory, without interference or dictation on the part of individuals or organizations not directly parties to such contracts.

6. Employers must be unmolested and unhampered in the management of their business in determining the amount and quality of their product, and in the use of any methods or systems of pay which are just and equitable.

7. In the interest of employes and employers of the country, no limitation should be placed upon the opportunities of any person to learn any trade to which he or she may be adapted.

8. The National Association of Manufacturers disapproves absolutely of strikes and lockouts, and favors an equitable adjustment of all differences between employers and employes by any amicable method that will preserve the rights of both parties.

9. Employes have the right to contract for their services in a collective capacity, but any contract that contains a stipulation that employment should be denied to men not parties to the contract is an invasion of the constitutional rights of the American workman, is against public policy, and is in violation of the conspiracy laws. This association declares its unalterable antagonism to the closed shop and insists that the doors of no industry be closed against American workmen because of their membership or non-membership in any labor organization.

10. The National Association of Manufacturers pledges itself to oppose any and all legislation not in accord with the foregoing declaration.

**Permanent Court of Arbitration of The Hague,****PROVIDED FOR BY THE CONVENTION SIGNED AT THE  
HAQUE JULY 29, 1899.**

(The following list corrected to September 1, 1915.)

## INTERNATIONAL TRIBUNALS OF EGYPT.

IN 1876, as the result of negotiations between the Ottoman and Egyptian Governments and the various Christian powers having representatives at Cairo, certain courts were created in Egypt for the trial of civil and commercial causes arising between natives and foreigners of different nationality, as well as all questions of real estate between any person and suits of foreigners against the Egyptian Government and members of the Khedival family. These mixed tribunals, in civil matters within their exclusive jurisdiction, superseded the consular courts. A mixed tribunal consists of five Judges, three of whom are foreigners and two natives. The foreign Judges are appointed by the Khedive on the recommendation of the great powers, each of which is represented by from one to three Judges. There are three tribunals of original jurisdiction (first instance), one each at Cairo, Alexandria, and Mansura, and a Court of Appeals at Alexandria. The United States is represented in these courts by the following Judges:

Court of Appeals.—Somerville P. Tuck of New York (appointed 1909; appointed to Court of First Instance 1894).  
 Court of First Instance.—William G. Van Horne of Utah (appointed 1902); Pierre Crabitès of Louisiana (appointed 1911).

## THE NEW YORK PEACE SOCIETY.

This society was founded in 1815, merged with the American Peace Society in 1828, reformed in 1906 and incorporated in 1910. It has a membership of 1800, with branches in Poughkeepsie, Albany, North Tonawanda, and elsewhere.

Its purpose is "To foster a spirit of justice and good will among the nations, to promote the judicial settlement of international disputes and to support public measures which tend to remove causes of enmity, to unite nations in friendly co-operation and to hasten the coming brotherhood of man."

Both men and women are eligible for membership in the society, and receive free its monthly magazine and tickets to its annual course of lectures.

The officers of the society are: *President*—Andrew Carnegie. *Secretary*—William H. Short. *Treasurer*—Central Trust Company of New York, Forty-second Street branch. Headquarters, 507 Fifth Avenue, New York City.

# THE HAGUE CONVENTION OF 1907 CONCERNING THE RIGHTS AND DUTIES OF NEUTRAL POWERS IN NAVAL WAR.

[Signed at The Hague, October 18, 1907.]

His Majesty the German Emperor, King of Prussia; [etc.],  
 With a view to harmonizing the divergent views which, in the event of naval war, are still held on the relations between neutral powers and belligerent powers, and to anticipating the difficulties to which such divergence of views might give rise;

Seeing that, even if it is not possible at present to concert measures applicable to all circumstances which may in practice occur, it is nevertheless undeniably advantageous to frame, as far as possible, rules of general application to meet the case where war has unfortunately broken out;

Seeing that, in cases not covered by the present convention, it is expedient to take into consideration the general principles of the law of nations;

Seeing that it is desirable that the powers should issue detailed enactments to regulate the results of the attitude of neutrality when adopted by them;

Seeing that it is, for neutral powers, an admitted duty to apply these rules impartially to the several belligerents;

Seeing that, in this category of ideas, these rules should not, in principle, be altered, in the course of the war, by a neutral power, except in a case where experience has shown the necessity for such change for the protection of the rights of that power;

Have agreed to observe the following common rules, which cannot, however, modify provisions laid down in existing general treaties, and have appointed as their plenipotentiaries, namely:

[Here follow the names of plenipotentiaries.]  
 Who, after having deposited their full powers, found in good and due form, have agreed upon the following provisions:

ARTICLE 1.—Belligerents are bound to respect the sovereign rights of neutral powers and to abstain, in neutral territory or neutral waters, from any act which would, if knowingly permitted by any power, constitute a violation of neutrality.

ARTICLE 2.—Any act of hostility, including capture and the exercise of the right of search, committed by belligerent warships in the territorial waters of a neutral power, constitutes a violation of neutrality and is strictly forbidden.

ARTICLE 3.—When a ship has been captured in the territorial waters of a neutral power this power must employ, if the prize is still within its jurisdiction, the means at its disposal to release the prize with its officers and crew, and to intern the prize crew.

If the prize is not in the jurisdiction of the neutral power, the captor Government, on the demand of that power, must liberate the prize with its officers and crew.

ARTICLE 4.—A prize court cannot be set up by a belligerent on neutral territory or on a vessel in neutral waters.

ARTICLE 5.—Belligerents are forbidden to use neutral ports and waters as a base of naval operations against their adversaries, and in particular to erect wireless telegraphy stations or any apparatus for the purpose of communicating with the belligerent forces on land or sea.

ARTICLE 6.—The supply, in any manner, directly or indirectly, by a neutral power to a belligerent power, of warships, ammunition, or war material of any kind whatever, is forbidden.

ARTICLE 7.—A neutral power is not bound to prevent the export or transit, for the use of either belligerent, of arms, ammunitions, or, in general, of anything which could be of use to an army or fleet.

ARTICLE 8.—A neutral Government is bound to employ the means at its disposal to prevent the fitting out or arming of any vessel within its jurisdiction which it has reason to believe is intended to cruise, or engage in hostile operations, against a power with which that Government is at peace. It is also bound to display the same vigilance to prevent the departure from its jurisdiction of any vessel intended to cruise, or engage in hostile operations, which had been adapted entirely or partly within the said jurisdiction for use in war.

ARTICLE 9.—A neutral power must apply impartially to the two belligerents the conditions, restrictions or prohibitions made by it in regard to the admission into its ports, roadsteads, or territorial waters, of belligerent warships or of their prizes.

Nevertheless, a neutral power may forbid a belligerent vessel which has failed to conform to the orders and regulations made by it, or which has violated neutrality, to enter its ports or roadsteads.

ARTICLE 10.—The neutrality of a power is not affected by the mere passage through its territorial waters of warships or prizes belonging to belligerents.

ARTICLE 11.—A neutral power may allow belligerent warships to employ its licensed pilots.

ARTICLE 12.—In the absence of special provisions to the contrary in the legislation of a neutral power, belligerent warships are not permitted to remain in the ports, roadsteads, or territorial waters of the said power for more than twenty-four hours, except in the cases covered by the present convention.

ARTICLE 13.—If a power which has been informed of the outbreak of hostilities learns that a belligerent warship is in one of its ports or roadsteads, or in its territorial waters, it must notify the said ship to depart within twenty-four hours or within the time prescribed by local regulations.

ARTICLE 14.—A belligerent warship may not prolong its stay in a neutral port beyond the permissible time except on account of damage or stress of weather. It must depart as soon as the cause of the delay is at an end.

The regulations as to the question of the length of time which these vessels may remain in neutral ports, roadsteads, or waters, do not apply to warships devoted exclusively to religious, scientific, or philanthropic purposes.

ARTICLE 15.—In the absence of special provisions to the contrary in the legislation of a neutral power, the maximum number of warships belonging to a belligerent which may be in one of the ports or roadsteads of that power simultaneously shall be three.

ARTICLE 16.—When warships belonging to both belligerents are present simultaneously in a neutral port or roadstead, a period of not less than twenty-four hours must elapse between the departure of the ship belonging to one belligerent and the departure of the ship belonging to the other.

The order of departure is determined by the order of arrival, unless the ship which arrived first is so circumstanced that an extension of its stay is permissible.

A belligerent warship may not leave a neutral port or roadstead until twenty-four hours after the departure of a merchant ship flying the flag of its adversary.

ARTICLE 17.—In neutral ports and roadsteads belligerent warships may only carry out such repairs as are absolutely necessary to render them seaworthy, and may not add in any manner whatsoever to their fighting force. The local authorities of the neutral power shall decide what repairs are necessary, and these must be carried out with the least possible delay.

ARTICLE 18.—Belligerent warships may not make use of neutral ports, roadsteads, or territorial waters for replenishing or increasing their supplies of war material or their armament, or for completing their crews.

ARTICLE 19.—Belligerent warships may only revictual in neutral ports or roadsteads to bring their supplies to the peace standard.

Similarly these vessels may only ship sufficient fuel to enable them to reach the nearest port in their own country. They may, on the other hand, fill up their bunkers built to carry fuel, when in neutral countries which have adopted this method of determining the amount of fuel to be supplied.

If, in accordance with the law of the neutral power, the ships are not supplied with coal within twenty-four hours of their arrival, the permissible duration of their stay is extended by twenty-four hours.

ARTICLE 20—Belligerent warships which have shipped fuel in a port belonging to a neutral power may not within the succeeding three months replenish their supply in a port of the same power.

ARTICLE 21—A prize may only be brought into a neutral port on account of unseaworthiness, stress of weather, or want of fuel or provisions.

It must leave as soon as the circumstances which justified its entry are at an end. If it does not, the neutral power must order it to leave at once; should it fail to obey, the neutral power must employ the means at its disposal to release it with its officers and crew and to intern the prize crew.

ARTICLE 22—A neutral power must, similarly, release a prize crew brought into one of its ports under circumstances other than those referred to in Article 21.

ARTICLE 23—A neutral power may allow prizes to enter its ports and roadsteads, whether under convoy or not, when they are brought there to be sequestered pending the decision of a prize court. It may have the prize taken to another of its ports.

If the prize is convoyed by a warship, the prize may go on board the convoying ship.

If the prize is not under convoy, the prize crew are left at liberty.

ARTICLE 24—If, notwithstanding the notification of the neutral power, a belligerent ship of war does not leave a port where it is not entitled to remain, the neutral power is entitled to take such measures as it considers necessary to render the ship incapable of taking the sea during the war, and the commanding officer of the ship must facilitate the execution of such measures.

When a belligerent ship is detained by a neutral power, the officers and crew are likewise detained. The officers and crew thus detained may be left in the ship or kept either on another vessel or on land, and may be subjected to the measures of restriction which it may appear necessary to impose upon them. A sufficient number of men for looking after the vessel must, however, be always left on board.

The officers may be left at liberty on giving their word not to quit the neutral territory without permission.

ARTICLE 25—A neutral power is bound to exercise such surveillance as the means at its disposal allow to prevent any violation of the provisions of the above articles occurring in its ports or roadsteads or in its waters.

ARTICLE 26—The exercise by a neutral power of the rights laid down in the present convention can under no circumstances be considered as an unfriendly act by one or other belligerent who has accepted the articles relating thereto.

ARTICLE 27—The contracting powers shall communicate to each other in due course all laws, proclamations, and other enactments regulating in their respective countries the status of belligerent warships in their ports and waters, by means of a communication addressed to the Government of the Netherlands, and forwarded immediately by that Government to the other contracting powers.

ARTICLE 28—The provisions of the present convention do not apply except to the contracting powers, and then only if all the belligerents are parties to the convention.

ARTICLE 29—The present convention shall be ratified as soon as possible.

The ratifications shall be deposited at The Hague.

The first deposit of ratifications shall be recorded in a *procès-verbal* signed by the representatives of the powers which take part therein and by the Netherlands Minister for Foreign Affairs.

The subsequent deposits of ratifications shall be made by means of a written notification addressed to the Netherlands Government and accompanied by the instrument of ratification.

A duly certified copy of the *procès-verbal* relative to the first deposit of ratifications, of the ratifications mentioned in the preceding paragraph, as well as of the instruments of ratification, shall be at once sent by the Netherlands Government, through the diplomatic channel, to the powers invited to the Second Peace Conference, as well as to the other powers which have adhered to the convention. In the cases contemplated in the preceding paragraph, the said Government shall inform them at the same time of the date on which it received the notification.

ARTICLE 30—Non-signatory powers may adhere to the present convention.

The power which desires to adhere notifies in writing its intention to the Netherlands Government, forwarding to it the act of adhesion, which shall be deposited in the archives of the said Government.

That Government shall at once transmit to all the other powers a duly certified copy of the notification as well as of the act of adhesion, mentioning the date on which it received the notification.

ARTICLE 31—The present convention shall come into force in the case of the powers which were a party to the first deposit of the ratifications, sixty days after the date of the *procès-verbal* of that deposit, and, in the case of the powers who ratify subsequently or who adhere, sixty days after the notification of their ratification or of their decision has been received by the Netherlands Government.

ARTICLE 32—In the event of one of the contracting powers wishing to denounce the present convention, the denunciation shall be notified in writing to the Netherlands Government, who shall at once communicate a duly certified copy of the notification to all the other powers, informing them of the date on which it was received.

The denunciation shall only have effect in regard to the notifying power, and one year after the notification has been made to the Netherlands Government.

ARTICLE 33—A register kept by the Netherlands Ministry for Foreign Affairs shall give the date of the deposit of ratifications made by Article 29, paragraphs 3 and 4, as well as the date on which the notifications of adhesion (Article 30, paragraph 2), or of denunciation (Article 32, paragraph 1), have been received.

Each contracting power is entitled to have access to this register and to be supplied with duly certified extracts.

In faith whereof the plenipotentiaries have appended their signatures to the present convention.

Done at The Hague, the 18th October, 1907, in a single copy, which shall remain deposited in the archives of the Netherlands Government, and duly certified copies of which shall be sent, through the diplomatic channel, to the powers which have been invited to the Second Peace Conference.

[Here follow signatures.]

#### RATIFICATIONS, ADHESIONS AND RESERVATIONS.

The foregoing convention was ratified by the following signatory powers on the dates indicated:

|                           |                   |                       |                    |                         |                   |

| Argentina | Bulgaria | Dominican | Great Britain | Montenegro | Peru   | Uruguay   |
| Republic  | Chile    | Republic  | Greece        | Paraguay   | Serbia | Venezuela |
| Bolivia   | Colombia | Ecuador   | Italy         | Persia     | Turkey |           |

## THE HAGUE CONVENTION—Continued.

## RESERVATIONS.\*

China—Adhesion with reservation of paragraph 2 of Article 14, paragraph 3 of Article 19, and of Article 27. Dominican Republic—With reservation regarding Article 12. Germany—Under reservation of Articles 11, 12, 13, and 20.† Great Britain—Under reservation of Articles 19 and 23. Japan—With reservation of Articles 19 and 23.† Persia—Under reservation of Articles 12, 19, and 21. Siam—Under reservation of Articles 12, 19, and 23. Turkey—Under reservation of the declaration concerning Article 10 contained in the *procès-verbal* of the eighth plenary session of the conference held on October 9, 1907.

\*All these reservations, except those of China and the United States, were made at signature.

†Reservation maintained at ratification.

*Extract from the procès-verbal:* The Ottoman delegation declares that the straits of the Dardanelles and the Bosphorus cannot in any case be referred to by Article 10. The Imperial Government could undertake no engagement whatever tending to limit its undoubted rights over these straits.—(Statement of Turkhan Pasha.)

## UNITED STATES.

The act of adhesion contains the following reservation:

That the United States adheres to the said convention, subject to the reservation and exclusion of its Article 23 and with the understanding that the last clause of Article 3 thereof implies the duty of a neutral power to make the demand therein mentioned for the return of a ship captured within the neutral jurisdiction and no longer within that jurisdiction.

[It should be noted that the conventions and declarations are not binding prior to the deposit of ratifications at The Hague. The mere signature of these conventional agreements may be regarded as the indication of an intention to ratify them, but creates no legal obligation. Adhesion has the effect of ratification. In this relation it is proper to remark that only the formal agreements of the conferences—such as the conventions and the signed declarations—contemplate ratification. The informal agreements—such as the unsigned declarations, resolutions, recommendations, and *voeux*—are not signed separately. They are contained in the Final Act, which is an official summary of the proceedings of each conference, and as such is signed.]

The foregoing statement concerning The Hague Convention is from Pamphlet No. 20, issued by the Carnegie Endowment for International Peace.

## THE PANAMA CANAL.

The organization for the completion, maintenance, operation, government and sanitation of the Panama Canal and its adjuncts and the government of the Canal Zone consists of the following departments, offices and agencies, and such others as may be established by the Governor of the Panama Canal on the Isthmus or elsewhere with the approval of the President of the United States, all to be under the direction of the Governor, subject to the supervision of the Secretary of War:

**Executive Department**—Headquarters, Balboa Heights; Geo. W. Goethals, U. S. A., Governor; C. A. McIlvaine, Executive Secretary; W. P. Copeland, Chief Clerk; John K. Baxter, Chief Division of Civil Affairs; Capt. Harry D. Mitchell, Chief Division of Police and Fire; A. R. Lang, Superintendent Division of Schools; Charles R. Williams, District-Attorney, Ancon, Canal Zone.

**Department of Operation and Maintenance**—Headquarters, Balboa Heights; Lieut.-Col. Chester Harding, Engineer of Maintenance; C. J. Embree, Office Engineer; Capt. W. H. Rose, Electrical Engineer; D. E. Wright, Resident Engineer; H. H. Rousseau, Engineer of Terminal Construction; F. H. Cooke, Designing Engineer; T. B. Mönliche, Engineer of Docks, Cristobal; Capt. T. H. Dillon, Superintendent of Gatun Locks, Gatun; W. G. Thompson, Superintendent, Cristobal; W. G. Comber, Resident Engineer, Paraiso; D. C. Nutting, Jr., Superintendent Mechanical Division, Balboa; Capt. Hugh Rodman, Marine Superintendent; Lieut. P. P. Bassett, Captain of the Port, Cristobal; Lieut. A. B. Reed, Captain of the Port, Balboa; Board of Local Inspectors, Lieut. P. P. Bassett, Lieut. A. B. Reed, and J. Macfarlane, headquarters, Balboa Heights; First Lieut. Creswell Garlington, Assistant Engineer Division of Fortifications; George M. Wells, Resident Engineer Building Division; F. C. Clark, Superintendent Pacific Locks, Pedro Miguel; F. D. Willson, Chief Hydrographer; O. E. Malsbury, Assistant Engineer Section of Surveys; J. A. Walker, General Superintendent, Balboa; C. C. Snedeker, Supervisor, Coco Solo, Cristobal.

**Supply Department**—Major W. R. Grove, Chief Quartermaster, Balboa Heights; Capt. F. H. Smith, Assistant Chief Quartermaster; C. H. Mann, Sales Agent, Cristobal; Benjamin L. Jacobson, Depot Commissary, Cristobal.

**Accounting Department**—Headquarters, Balboa Heights; H. A. A. Smith, Auditor; T. L. Clear, Collector; John H. McLean, Paymaster; Ad. Faure, Chief Accountant.

**Health Department**—Lieut.-Col. Charles F. Mason, Chief Health Officer, Balboa Heights; Major Albert E. Persons, General Inspector, Balboa Heights; Lieut.-Col. G. D. Deshon, Superintendent Ancon Hospital; Dr. M. C. Guthrie, Chief Quarantine Officer, Balboa Heights; Capt. H. P. Carter, Health Officer of Panama, Ancon; Capt. D. W. Harmon, Health Officer of Colon, Cristobal.

**Washington Office**—Major F. C. Boggs, U. S. A., General Purchasing Officer and Chief of Office; Ray L. Smith, Assistant Chief of Office; A. L. Flint, Chief Clerk, Purchasing Department.

**Panama Railroad Company**—C. H. Motsett, Superintendent, Balboa Heights; Samuel W. Heald, Master of Transportation, Balboa Heights. Office in the United States, No. 24 State Street, New York.

**Courts**—William H. Jackson, District Judge, Ancon; E. M. Goolsby, Clerk, Ancon; W. H. May, Marshal, Ancon; S. E. Blackburn, Magistrate, Balboa; John W. Thompson, Magistrate, Cristobal.

The Canal has a summit elevation of 35 feet above the sea. It is about 50 miles in length from deep water in the Caribbean Sea to deep water in the Pacific Ocean. The distance from deep water to the shore line in Limon Bay is about  $4\frac{1}{2}$  miles, and from the Pacific shore line to deep water is about 4 miles; hence the length of the Canal from shore to shore is approximately  $4\frac{1}{2}$  miles. The channel ranges in width from 300 to 1,000 feet. The average bottom width of the channel in this project is 649 feet, and the minimum width is 300 feet. The Canal has a minimum depth of 41 feet.

The Gatun Dam along the crest is 8,000 feet long, including the spillway, or about  $1\frac{1}{2}$  miles, and 2,100 feet wide at its greatest width. The crest of the dam is at an elevation of 115 feet above sea level, or 30 feet above the normal level of Gatun Lake, and 100 feet wide. The width of the dam at the normal water level of the lake, *i. e.*, 85 feet above sea level, is about 388 feet.

The Panama Canal was opened to navigation on August 14, 1914.

The cost at present estimated for completing the Canal is \$325,201,000, which includes \$20,053,000 for sanitation and \$7,382,000 for civil administration. These figures do not include the \$50,000,000 paid to the New French Canal Company and to the Republic of Panama for property and franchises. Hence it is estimated that the total cost of the Canal to the United States will approximate \$375,000,000.

Appropriations by Congress to August 1, 1914, \$362,019,275; fortifications, \$12,050,825; total credits by United States Treasury to March 31, 1915, \$374,070,100.

## TRAFFIC FOR FISCAL YEAR ENDING JUNE 30, 1915.

Covering the period from August 14, 1914, to July 1, 1915, or seven-eighths of a calendar year, and showing the number of vessels passing through the Canal in each direction:

## THE PANAMA CANAL—Continued.

| MONTH.  | EASTBOUND. |             | WESTBOUND. |             | TOTAL.    |             | MONTH. | EASTBOUND. |             | WESTBOUND. |             | TOTAL.    |             |

| Dec.    | 43         | 179,235     | 57         | 271,219     | 100       | 450,454     | Total  | 530        | 2,125,735   | 558        | 2,844,057   | 1,088     | 4,969,792   |
| Jan.    | 44         | 208,082     | 54         | 240,925     | 98        | 449,007     |        |            |             |            |             |           |             |
| Feb.    | 39         | 150,987     | 53         | 276,078     | 92        | 427,065     |        |            |             |            |             |           |             |

According to nationality, the American vessels led in number, being 471, only seven more than the 464 British. Vessels of other nations using the Canal were, in the order of their numbers: Norwegian, 41; Chilean, 35; Danish, 24; Swedish, 18; Dutch, 7; Japanese and Russian, 6 each; Peruvian, 4; French and Honduran, 3 each; Italian, Nicaraguan, and Panamanian, 2 each.

The tolls levied during the fiscal year, not including \$80,872.79 levied on vessels of the United States Government, amounted to \$4,343,383.69. The current expenses for operation and maintenance during the same period were \$4,112,550.48. The excess of toll earnings over expenses was, accordingly, \$230,833.21. These figures do not include the interest on the money invested, or a charge to amortize the debt.

The following is a summary of the earnings by months during the year ending June 30, 1915:

|            |          |           |            |        |             |
|------------|----------|-----------|------------|--------|-------------|
| July.      | \$7,598. | December. | \$410,043. | May.   | \$547,054   |
| August.    | 88,401.  | January.  | 419,037.   | June.  | 541,181     |
| September. | 266,513. | February. | 383,904.   | Total. | \$4,424,256 |
| October.   | 375,787. | March.    | 560,784.   |        |             |
| November.  | 381,533. | April.    | 442,415.   |        |             |

The force report of June 23, 1915, showed the actual working force of the Panama Canal on that date to have been 21,677; of the Panama Railroad, 4,845; and of contractors, 375, a total effective working force of 26,897.

Distances from New York to San Francisco by water, former route, 13,135 miles; via Panama Canal, 5,262 miles. New York to Hawaii, former all-water route 12,800 miles; by Canal, 7,000 miles. New York to Manila via Hawaii, former route, 17,800 miles; by Canal, 12,000 miles.

The Canal brings Callao 4,320 miles nearer Liverpool by steamer, reducing the distance from 10,230 miles to 5,910 miles and saving about 14 days in time. To Valparaiso the shortening in distance is 1,813 miles, making it 7,185 instead of 8,998, and the saving in time is about 6 days. By its means the United States has an all-sea route, which is from 2,500 to 3,000 miles shorter than routes from Europe. New York, via the Canal, is 3,779 miles from Callao, instead of 9,769 as formerly, while New Orleans is only 3,264 miles from Callao.

Between New York and Yokohama the reduction is 3,729 miles, and that Japanese city is brought nearer to New York than Liverpool by 1,805 miles. Shanghai is 1,629 miles nearer to New York. Sydney, Australia, is 3,306 miles nearer to New York, and the distance between the two cities is 2,382 miles less than the distance between Sydney and Liverpool. Wellington, New Zealand, is 2,542 miles nearer New York, and the distance between them is 2,759 miles less than between Wellington and Liverpool. Between New Zealand and Europe there is an average saving of 1,600 miles.—(From United States Consular Report.)

## PANAMA CANAL TOLL RATES.

1. On merchant vessels carrying passengers or cargo, one dollar and twenty cents (\$1.20) per net vessel ton—each one hundred (100) cubic feet—of actual earning capacity.

2. On vessels in ballast without passengers or cargo, forty (40) per cent. less than the rate of tolls for vessels with passengers or cargo.

3. Upon naval vessels, other than transports, colliers, hospital ships and supply ships, fifty (50) cents per displacement ton.

4. Upon Army and Navy transports, colliers, hospital ships and supply ships, one dollar and twenty cents (\$1.20) per net ton, the vessels to be measured by the same rules as are employed in determining the net tonnage of merchant vessels.

The Panama Canal act of 1912, providing for the permanent government of the Canal Zone and other regulations, was amended in a bill signed by the President on June 15, 1914, known as the "Panama Tolls Exemption Repeal bill," whereby the clause exempting American coastwise vessels from paying tolls was repealed. Full text of the Panama Canal act of 1912 was printed in the 1914 edition of THE WORLD ALMANAC.

## PANAMA CANAL NEUTRAL.

## ALL NAVIES OF THE WORLD MAY USE IT DURING WAR.

It is provided by treaties that the Panama Canal, like the Suez Canal, shall remain absolutely neutral. It "shall be free and open to the vessels of commerce and of war of all nations and shall never be blockaded, nor shall any right of war be exercised nor any act of hostility be committed within it."

Strict rules of neutrality have been devised for the passage of war vessels of the nations engaged in conflict. The warships will be compelled to pass through with the least possible delay and with only such intermissions as may result from the necessities of the service.

No belligerent may "embark or disembark troops, munitions of war or warlike materials in the Canal, except in the case of accidental hindrance of the transit, and in such case the transit shall be resumed with all possible despatch."

The treaty provides that no warship will have the right to exercise the law of search on a commercial ship in transit through the Canal and the provision likewise protects all ships within three marine miles of either terminal.

Ships carrying contraband either in the Atlantic or Pacific do so at their own risk, but warships may not remain in the three-mile zone longer than twenty-four hours, and the treaty stipulates that "a vessel of one belligerent shall not depart within twenty-four hours from the departure of a vessel of war of the other belligerent."

## TERRITORIAL EXPANSION OF THE UNITED STATES.

ADDITIONS to the original territory of the Union, include Alaska, Hawaiian and Philippine Islands, Samoa and Guam, in the Pacific, and Porto Rico and Pine Islands, in the West Indies, and the Panama Canal Zone. The area of the original thirteen States (years 1783-1817) comprised 892,135 square miles.

The additions to the territory of the United States subsequent to the peace treaty with Great Britain of 1783 are shown by the following table:

TERRITORIAL EXPANSION OF THE UNITED STATES—*Continued.*

## ADDITIONS TO THE TERRITORY OF THE UNITED STATES FROM 1800 TO 1900.

| TERRITORIAL DIVISION.            | Year | Area Added, S. Miles | TERRITORIAL DIVISION.   | Year | Area Added, S. Miles. | TERRITORIAL DIVISION.                                       | Year | Area Added, S. Miles. |
|----------------------------------|------|----------------------|-------------------------|------|-----------------------|-------------------------------------------------------------|------|-----------------------|
| Louisiana purchase.....          | 1803 | 827,987              | Gadsden purchase.....   | 1853 | 29,670                | Additional Philippines                                      | 1901 | 68                    |
| Gained through treaty with Spain | 1819 | 13,435               | Alaska.....             | 1867 | 590,894               | Panama Canal Zone.                                          | 1904 | 436                   |
| Florida.....                     | 1819 | 58,666               | Hawaiian Islands.....   | 1898 | 6,449                 |                                                             |      |                       |
| Texas.....                       | 1845 | 389,166              | Porto Rico.....         | 1898 | 3,435                 | Total added area.....                                       |      | 2851,171              |
| Oregon.....                      | 1846 | 286,541              | Guam.....               | 1898 | 210                   |                                                             |      |                       |
| Mexican cession.....             | 1848 | 529,189              | Philippine Islands..... | 1898 | 114,958               | Total United States including original 13 States, 3,743,306 |      |                       |
|                                  |      |                      | Samoa.....              | 1899 | 77                    |                                                             |      |                       |

Payments for above were made by the United States as follows. Louisiana purchase, \$15,440,000; Gadsden purchase, \$10,000,000; Alaska, \$7,200,000; Florida, \$5,000,000; Hawaiian Islands, public debt assumed to the amount of \$4,000,000.

By treaty of February 2, 1848, a payment of \$8,250,000 was made to Mexico in consideration of the extension acquired by the boundaries of the United States, as defined in that treaty.

The treaty of Paris, of December 10, 1898, terminating the Spanish-American war, provided for a money payment to Spain (for relinquishing claim to Porto Rico, Guam and Philippine Islands) of \$20,000,000, and a subsequent treaty of November 7, 1900, provided for a further payment of \$100,000 for other Philippine Islands.

By the first treaty the Philippine Islands were ceded to the United States, and the later treaty of November 7, 1900, ceded certain outlying islands of the Philippines not included in the first cession.

A payment of \$10,000,000 was made to the Republic of Panama under treaty stipulations governing the control of the Panama Canal strip.

No money payments were made upon the acquisition of the other territories mentioned in the list.

The United States did not acquire, by the Isthmian Canal Convention of November 18, 1903, any title to territory in the Republic of Panama, but merely a perpetual right of occupation, use, and control of and over a zone of land ten miles in width. For this privilege it paid to the Republic of Panama the sum of \$10,000,000, and undertook to pay the sum of \$250,000 annually so long as such occupancy continued, such payments beginning on February 26, 1913.

## Insular Possessions of the United States.

### THE PHILIPPINES.

THE Philippine group, lying off the southern coast of Asia, extending almost due north and south from Formosa to Borneo and the Moluccas, between longitude 116° 40' and 126° 34', and latitude 4° 40' and 21° 10' approximately number about 3,141 islands and islets, of which 1,668 are listed by name, while 1,473 are, so far as known, without names. The actual land area is about 114,958 square miles. The six New England States, New York, and New Jersey have about an equal area. The island of Luzon, on which the capital city (Manila) is situated, is the largest, most populous, and wealthiest member of the group, being about the size of the State of New York. Mindanao is nearly as large, but its population is very much smaller. There are two islands with areas exceeding 10,000 square miles each, namely, Luzon with 40,969, and Mindanao with 36,292. There are nine islands, each of which has an area of more than 1,000 square miles and less than 10,000. There are twenty between 100 and 1,000 square miles, seventy-three between 10 and 100 square miles, and two hundred and sixty-two between 1 and 10 square miles. The remaining number, 2,775, or seven-eighths of all, have areas less than a square mile each. The areas of the largest islands are: Luzon, 40,969; Mindanao, 36,292; Samar, 5,031; Panay, 4,611; Mindoro, 3,851; Leyte, 2,722; Negros, 4,881; Cebu, 1,762.

The islands with large populations are: Luzon, with 3,795,507 inhabitants, of whom 223,506 are uncivilized; Panay, 743,646 (14,933 uncivilized); Cebu, 592,247 (all civilized); Mindanao, 499,634 (252,940 uncivilized); Negros, 460,776 (21,217 uncivilized); Leyte, 357,641 (all civilized); Bohol, 243,148 (all civilized); Samar, 222,690 (688 uncivilized). The capital of the Archipelago is Manila, with 266,943 inhabitants. Other towns are: In Luzon, Bauan (39,094), Lipa (37,934), Laoag (34,454), Batangas (33,131), San Carlos (27,166), Tabaco (21,946); In Samar, Calbayog (15,895); In Panay, Janiuan (20,738), Miagao (20,656), Iloilo (19,054); In Cebu, Argao (35,448), Cebu (31,079), Barili (31,617), Carcar (31,895), Sibonga (25,848), in Leyte, Baybay (22,990), Ormoc (19,120).

A census of the Philippines was taken by the United States Government in 1903 under the auspices of the Census Office. The population returned was 7,635,426. Of this number almost seven millions are more or less civilized. The wild tribes form about 9 per cent. of the entire population. Racially the inhabitants are principally Malays. The civilized tribes are practically all adherents of the Catholic Church, that religion being introduced into the country by the Spaniards when they took possession of the islands in 1565. The church has since then been a strong ruling power and the priesthood is numerous. The Moros are Mohammedans and the other wild peoples have no recognized religious beliefs. The total number of non-Christian peoples is 647,740.

The density of population in the Philippines is 67 per square mile. In Continental United States it is 26 per square mile. Foreigners number about 50,000, of whom nearly three-fourths are Chinese. Exclusive of the army there are 8,135 Americans in the islands, nearly one-half being located in the city of Manila. There are about twenty-five different tribes in the islands, speaking fifteen or sixteen distinct dialects, the largest tribe being the Visayans, who form nearly one-fourth of the entire civilized population (3,219,030). The Tagalogs, occupying the provinces in the vicinity of Manila (1,460,695), rank second in numbers, and the Ilocanos (803,942) the third. Education has been practically reorganized by the Americans. The total annual enrolment for the year 1914 was 621,030. The total number of schools is 4,199. One thousand additional primary schools, largely increasing the total enrolment, were opened in 1913. Altogether 748 permanent school buildings of all classes have been completed since the beginning of American occupation, representing a total of 3,950 rooms. 9,940 teachers were employed in December, 1914, of whom 539 are Americans and 9,401 Filipinos. English is very generally taught, and the next generation of Filipinos will probably speak that tongue. Pauperism is almost unknown in the islands. In 1902 there were only 1,668 paupers maintained at public charge. Vital statistics are as yet restricted to Manila. Population of Manila is 266,943. The death rate in the city of Manila is 23.21 per thousand. The birth rate is 34.88 per

## INSULAR POSSESSIONS OF THE UNITED STATES—Continued.

thousand. In 1912 there were 70 newspapers and periodicals published in the islands, 19 being in English, 16 in Spanish, 15 in native dialects, 7 in Spanish and English, 11 in Spanish and native dialects, and 2 in Spanish, English, and native dialects. The assessed real estate property value in 1912 was 484,037,327.10 pesos. The reported value of church buildings, mostly Catholic, is 41,698,710 pesos. The bonded indebtedness of the Philippine Government, including the bonded indebtedness of the cities of Manila and Cebu, is \$16,125,000.

The climate is one of the best in the tropics. The islands extend from 5° to 21° north latitude, and Manila is in 14° 35'. The thermometer during July and August rarely goes below 79° or above 85°. The extreme ranges in a year are said to be 61° and 97°, and the annual mean 81°.

## AGRICULTURE.

Although agriculture is the chief occupation of the Filipinos, yet only one-ninth of the surface is under cultivation. The soil is very fertile, and even after deducting the mountainous areas it is probable that the area of cultivation can be very largely extended and that the islands can support a population equal to that of Japan.

The chief products are hemp, rice, corn, sugar, tobacco, coconuts, and cacao, hemp being the most important commercial product and constituting 43 per cent. of the value of all exports. Coffee and cotton were formerly produced in large quantities—the former for export and the latter for home consumption; but the coffee plant has been almost exterminated by insects and the home-made cotton cloths have been driven out by the competition of those imported from England. The rice and corn are principally produced in Luzon and Mindoro and are consumed in the islands. The cacao is raised in the southern islands, the best quality of it at Mindanao. The sugar cane is raised in the Visayas. The hemp is produced in Southern Luzon, Mindoro, the Visayas, and Mindanao. It is nearly all exported in bales. Tobacco is raised in many of the islands, especially Luzon and Negros.

## IMPORTS AND EXPORTS.

In the year ending June 30, 1915, the imports of domestic merchandise from the United States into the Philippines were \$22,617,367, and the total exports from the Philippines for the same period to the United States were \$23,001,275.

The imports of merchandise from foreign countries, year ending June 30, 1915, were \$21,862,494, and the exports were \$27,809,058. The principal foreign countries trading with the Philippines are Great Britain, French East Indies, China, and Spain.

## CIVIL GOVERNMENT OF THE PHILIPPINES.

On July 1, 1902, Congress passed (chapter 1369) "An act temporarily to provide for the administration of the affairs of civil government in the Philippine Islands and for other purposes." Under this act complete civil government was established in the Archipelago, except that portion inhabited by Moros, comprising part of Mindanao and the Sulu Islands, and the office of Military Governor was terminated. Wm. H. Taft was appointed Civil Governor by the President, the title being subsequently changed to that of Governor-General. Governor Taft was succeeded by Luke E. Wright in December, 1903, by Henry Clay Ide in 1905, James F. Smith in 1906, W. Cameron Forbes in 1909, and Francis Burton Harrison in 1913. The Government was composed of a Civil Governor and seven commissioners, of whom four were Americans and three Filipinos. By act of Congress approved May 11, 1908, the commission was increased by one member, to be appointed by the President, making the commission nine members in all, including the Governor-General, who is President of the Philippine Commission. The Philippine Commission is now composed of five Filipinos and four Americans. There are four executive departments—Interior, Finance, and Justice, Commerce and Police, and Public Instruction. There are thirty-eight provinces, each with a Governor, a Treasurer, and prosecuting attorney (provincial fiscal). Local governments have been established in about 725 towns. The officials consist of a President, Vice-President, and Councilmen (the latter varying in number according to the population) and are elected by the qualified voters of the municipality and serve for four years. The Judiciary consists of a Supreme Court, with seven Judges; Courts of First Instance, and Justice of the Peace Courts. There are twenty-six Judicial Districts. In each province there is a Court of First Instance and a Court of the Justice of the Peace in each organized municipality in every province where there is a Court of First Instance. In March, 1907, the President in accordance with the act of Congress, directed the commission to call a general election of delegates to a Philippine Assembly. The new Assembly was chosen July 30, and was opened October 16 by Secretary of War Taft. It was politically divided as follows: Nationalists, 31; Progressives, 16; Independents, 20; Immediateistas, 7; Independistas, 4; Nacional Independiente, 1; Catolico, 1. The total vote recorded at the election for delegates was 104,000, which is only 1.4 per cent. of the population. The second election was held on November 2, 1909. The number of persons registered was 208,845 and the number of votes cast 192,975, which is 2.81 per cent. of the population. The third election was held on June 4, 1912. Incomplete returns showed 248,154 registered voters and 235,786 votes cast. By act of February 15, 1911, the members of the Philippine Assembly are elected for four years from the 16th day of October following their election, and the resident commissioners for four years, their term of office beginning on March 4 following their election. The next election will take place about June 1, 1916. At the first session of the Sixty-first Congress an act was passed and approved August 5, 1909, readjusting the customs duties on imports from all countries, including the United States, on the basis generally of reductions. By an act of Congress approved March 23, 1912, section four of the act of Congress approved July 1, 1902, entitled "An act temporarily to provide for the administration of the affairs of civil government in the Philippine Islands, and for other purposes," was amended to read as follows: "That all inhabitants of the Philippine Islands, continuing to reside therein who were Spanish subjects on the eleventh day of April, eighteen hundred and ninety-nine, and then resided in said islands, and their children born subsequent thereto, shall be deemed and held to be citizens of the Philippine Islands and as such entitled to the protection of the United States, except such as shall have elected to preserve their allegiance to the Crown of Spain in accordance with the provisions of the treaty of peace between the United States and Spain, signed at Paris, December tenth, eighteen hundred and ninety-eight: *Provided*, That the Philippine Legislature is hereby authorized to provide by law for the acquisition of Philippine citizenship by those natives of the Philippine Islands who do not come within the foregoing provisions, the natives of other insular possessions of the United States, and such other persons residing in the Philippine Islands who could become citizens of the United States, under the laws of the United States if residing therein."

The Philippine Constabulary, which is distributed throughout the Archipelago in 119 stations, consists of 327 officers and 4,768 enlisted men.

There are in operation 685 post-offices, free delivery municipal letter-carrier service in 447 municipalities, 302 money-order offices, and 439 postal-savings banks, with 48,876 accounts. Of the 48,876 depositors, 41,414 are Filipinos.

The total kilometrage of telegraph and cable lines on December 31, 1914, was 9,794.60, and the number of telegraph offices 303. There are also four wireless stations operated. There are in operation about 732 miles of railroad, of which about 600 miles are in Luzon, 70 miles in Panay, and 60 miles in Cebu. Manila has an urban and suburban electric railway system operating about 40 miles of line. Already more than 9,400 miles of public roads have been built.

INSULAR POSSESSIONS OF THE UNITED STATES—*Continued.*

Of the legislation recently enacted by the legislative authority in the islands might be mentioned those revising the insurance laws and regulating the insurance business in the islands; those concerning the grading and shipping of hemp; those authorizing the additional investment of the Gold Standard Fund and of the deposits of the Postal Savings Bank; that regulating the creation and operation of rural Agricultural co-operative associations, and that providing Government aid for the erection of sugar centrals.

**PORTO RICO.**

The island of Porto Rico, over which the flag of the United States was raised in token of formal possession on October 18, 1898, is the most eastern of the Greater Antilles in the West Indies and is separated on the east from the Danish island of St. Thomas by a distance of about fifty miles, and from Hayti on the west by the Mona passage, seventy miles wide. Distances from San Juan, the capital, to important points are as follows: New York, 1,411 miles; Charleston, S. C., 1,290 miles; Key West, Fla., 1,050 miles; Havana, 1,000 miles.

The island is a parallelogram in general outline, 108 miles from the east to the west, and from 37 to 43 miles across, the area being about 3,604 square miles, or somewhat less than half that of the State of New Jersey (Delaware has 2,050 square miles and Connecticut 4,990 square miles). The population according to an enumeration made by the United States Government in 1900 is 953,243, of whom 589,426 are white and 363,817 are colored. The density was 260 to the square mile in 1900; 83.2 per cent. of the population could not read. The population in 1910 is reported as 1,118,012.

Porto Rico is unusually fertile, and its dominant industries are agriculture and lumbering. In elevated regions the vegetation of the temperate zone is not unknown. There are more than 500 varieties of trees found in the forests, and the plains are full of palm, orange, and other trees. The principal crops are sugar, coffee, tobacco, and maize, but oranges, bananas, pineapples, and many other fruits are important products. The largest article of export from Porto Rico is sugar. The next is tobacco. Other exports in order of amount are coffee, fruits, molasses, cattle, timber, and hides.

The principal minerals found in Porto Rico are gold, carbonates, and sulphides of copper and magnetic oxide of iron in large quantities. Lignite is found at Utuado and Moca, and also yellow amber. A large variety of marbles, limestones, and other building stones are deposited on the island, but these resources are very undeveloped. There are salt works at Guanica and Salina on the south coast, and at Cape Rojo on the west, and these constitute the principal mineral industry in Porto Rico.

The principal cities are Mayaguez, with 16,939, Ponce, 35,027 inhabitants; and San Juan, the capital, with 48,716. The shipments of domestic merchandise from the United States to Porto Rico, year ending June 30, 1915, were \$30,149,764. The exports of domestic merchandise to the United States were \$42,306,350. The foreign trade, year ending June 30, 1915, was: Imports, \$2,954,465; exports, \$7,044,987. Exports of sugar to United States in year ending June 30, 1915, \$27,277,839.

An act providing for a civil government for Porto Rico was passed by the Fifty-sixth Congress and received the assent of the President April 12, 1900. A statement of its provisions was printed in THE WORLD ALMANAC for 1901, pages 92 and 93. President Roosevelt in his message to Congress in December, 1906, recommended the granting of United States citizenship to the Porto Ricans, and a bill was introduced in the Sixty-second Congress providing for the same but failed to reach a final vote.

Under this act a civil government was established, which went into effect May 1, 1900. There are two legislative chambers, the Executive Council, or "upper house," composed of the Government Secretary, Attorney-General, Treasurer, Auditor, Commissioner of the Interior, and Commissioner of Education, and five citizens appointed by the President, and the House of Delegates, or "lower house," consisting of 35 members, elected by the people. The island is represented in the Congress of the United States by a Resident Commissioner.

The Legislature in 1914 authorized the issue of bonds in the amount of \$1,000,000 for the construction of public improvements and a further issue of bonds in the sum of \$150,000 for additional work on the irrigation systems, and provided for secondary railroads subventioned by the Government of Porto Rico.

In 1915 it made women eligible for membership on school boards, designated a Mothers' Day, established a system of juvenile courts, authorized the sale to laborers of certain public lands; granted to former owners of real property sold for taxes subsequent to July 1, 1901, or to any one interested therein, the right of redemption and provided for the protection of Porto Rican cigars from fraudulent misrepresentation.

**GUAM.**

The island of Guam, the largest of the Mariana Archipelago, was ceded by Spain to the United States by article 2 of the Treaty of Peace, concluded at Paris, December 10, 1898. It lies in a direct line from San Francisco to the southern part of the Philippines, and is 5,044 miles from San Francisco and 1,506 miles from Manila. It is about 30 miles long and 100 miles in circumference, and has a population of 12,517. The inhabitants are mostly immigrants or descendants of immigrants from the Philippines, the original race of the Mariana Islands being nearly extinct. The prevailing language is English. Spanish and Chamorro are also spoken. Nine-tenths of the islanders can read and write. The island is thickly wooded, well watered, and fertile, and possesses an excellent harbor. The productions are tropical fruits, cacao, rice, corn, tobacco, and sugar cane. The island of Guam was discovered by Hernando de Magallanes on March 6, 1521.

The island was captured by the U. S. S. Charleston, Capt. Henry Glass commanding, June 21, 1898, the American flag raised over Fort Santa Cruz, and a salute fired. Later the island was made a naval station, and Commander E. D. Taussig, of the U. S. S. Bennington, took possession February 1, 1899. The Governor is a naval officer, and the island has a marine garrison as well as a station ship.

**TUTUILA (AMERICAN SAMOA).**

Tutuilā, the Samoan island which, with its attendant islets of Manu'a, Olosega, Ofu, Aunuu and Rose, became a possession of the United States by virtue of the tripartite treaty with Great Britain and Germany in 1899, covers, according to the Bureau of Statistics of the Department of Commerce, fifty-five square miles, and has (by census of February 1, 1912) 7,251 inhabitants. It possesses the most valuable island harbor, Pago-Pago, in the South Pacific, and perhaps the finest in the entire Pacific Ocean. Commercially the island is unimportant at present, but is extremely valuable in its relations to the commerce of any nation desiring to cultivate trans-Pacific commerce.

Ex-Chief Justice Chambers, of Samoa, says of Pago-Pago that "The harbor could hold the entire naval force of the United States, and is so perfectly arranged that only two vessels can enter at the same time. The coaling station, being surrounded by high bluffs, cannot be reached by shells from outside." Capacity of coaling station, 4,200 tons.

The Samoan Islands, in the South Pacific, are fourteen in number and lie in a direct line drawn from San Francisco to Auckland, New Zealand. Tutuilā is 4,160 miles from San Francisco, 2,263 miles from Hawaii, 1,580 miles from Auckland, 2,354 miles from Sydney, and 4,200 miles from Manila. The inhabitants are native Polynesians and Christians of different denominations.

The civil government is administered by a Governor, a naval officer nominated by the Navy Department and appointed by the President. All civil affairs are under the jurisdiction of the Navy Department.

**WAKE AND OTHER ISLANDS.**

The United States flag was hoisted over Wake Island on July 4, 1898, by Gen. F. V. Greene, commanding Second Detachment Philippine expedition. It is a small island in the direct route from Hawaii to Hongkong, about 2,000 miles from the first and 3,000 miles from the second.

The United States possesses a number of scattered small islands in the Pacific Ocean, some hardly more than rocks or coral reefs, over which the flag has been hoisted from time to time. They are of little present value and mostly uninhabited. The largest are Christmas, Gallego, Starbuck, Penrhyn, Phoenix, Palmyra, Howland, Baker, Johnston, Gardner, Midway, Morell, and Marcus Islands. The Midway Islands are occupied by a colony of telegraphers in charge of the relay in the cable line connecting the Philippines with the United States, in all about forty persons.

The Santa Barbara group is a part of California and the Aleutian chain, extending from the peninsula of Kamchatka in Asiatic Russia to the promontory in North America which separates Bering Sea from the North Pacific, a part of Alaska.

**HAWAII.**

Hawaii was annexed to the United States by joint resolution of Congress July 7, 1898. A bill to create Hawaii a Territory of the United States was passed by Congress and approved April 30, 1900.

The area of the several islands of the Hawaiian group is as follows: Hawaii, 4,210 square miles; Maui, 760; Oahu, 600; Kauai, 590; Molokai, 270; Lanai, 150; Niihau, 97; Kahoolawe, 63. Total, 6,740 square miles.

At the time of the discovery of the islands by Captain Cook in 1778 the native population was about 200,000. This has steadily decreased, so that at the census of 1910 the native born numbered but 98,157. Total foreign born (1910), 93,752.

The first United States census of the islands was taken in 1900 with the following result: Hawaii Island, 46,843; Kauai Island, 20,562; Niihau Island, 172; Maui Island, 25,416; Molokai Island and Lanai Island, 2,504; Oahu Island, 58,504. Total of the Territory, 154,001. The population of the city of Honolulu was 39,306. The population of Hawaii according to the 1910 census, made by the United States Census Bureau, was 191,909, Honolulu City having a population of 52,183. Estimated population in 1914 (by United States Consular Report), 207,743.

**POPULATION OF HAWAII, BY ISLANDS, 1910.**

The exports of domestic merchandise from Hawaii to the United States in the twelve months ending June 30, 1915, were valued at \$61,831,381. The imports into Hawaii from the United States for the same period were valued at \$20,295,829. Exports of sugar from Hawaii in year ending June 30, 1915, was \$52,949,697.

The value of imports and exports for the fiscal year ending June 30, 1914, aggregated \$73,649,795, the imports valued at \$32,055,970, and exports \$41,593,825. (The imports from the United States have almost doubled during the last six years. The exports of pineapples have increased almost fivefold, or from about \$800,000 to about \$4,000,000, during the last five years. The customs receipts were \$1,869,513.89.)

The Territorial bonded indebtedness was \$6,844,000, or 4.25 per cent. of the assessed value of property, which is \$161,187,226.

Bank deposits aggregated \$16,647,665, of which commercial deposits were \$10,371,874 and savings deposits \$6,275,790.

There are 93 post-offices. There are powerful wireless stations for transmitting and receiving messages to and from San Francisco and Japan and with vessels at sea.

The number of schools is 219. There are 1,020 teachers and the number of pupils has increased during the 14 years of Territorial government from 15,537 to 33,288.

The new Territorial Government was inaugurated at Honolulu June 14, 1900, and the first Territorial Legislature began its sessions at Honolulu February 20, 1901. The Legislature is composed of two houses—the Senate of fifteen members, holding office four years, and the House of Representatives of thirty members, holding office two years. The Legislature meets biennially, and sessions are limited to sixty days.

The executive power is lodged in a Governor, a Secretary, both appointed by the President, and hold office four years, and the following officials appointed by the Governor, by and with the consent of the Senate of Hawaii: An Attorney-General, Treasurer, Commissioner of Public Lands, Commissioner of Agriculture and Forestry, Superintendent of Public Works, Superintendent of Public Instruction, Auditor and Deputy, Surveyor, High Sheriff, and members of the Boards of Health, Public Instruction, Prison Inspectors, etc. They hold office for four years, and must be citizens of Hawaii.

The Territorial Courts comprise a Supreme Court of three members, five Circuit Courts, of which one has three members, who sit separately, and the others one member each, and 29 District Courts. The Supreme Court and Circuit Court Judges are appointed by the President, and the District Magistrates by the Chief Justice of the Territorial Supreme Court. The Circuit Courts are the courts of general original jurisdiction. They try law, equity, probate, and divorce cases. The First Circuit Court acts also as a court of land registration. The Circuit and District Courts act also as Juvenile Courts. The Territory is a Federal Judicial District, with a District Judge, District-Attorney, and Marshal, all appointed by the President. The District Judge has all the powers of a Circuit Judge.

The Territory is represented in Congress by a delegate, who is elected biennially by the people. Provision is made in the act creating the Territory for the residence of Chinese in the Territory, and prohibition as laborers to enter the United States.

**CUBA.**

The Island of Cuba is 760 miles long, and its width varies from about 25 miles to 100 miles. Its area comprises 45,881 square miles, or about that of Pennsylvania. It has numerous safe and commodious harbors, that of Havana being one of the largest and finest in the world. Measuring from points of nearest approach to its neighbors, Cuba is about 100 miles from Key West, Fla., north; 54 miles from Hayti, east; 130 miles from Yucatan, west, and 85 miles from Jamaica, south. There are 2,360 miles of railway lines and 200 miles of electric railways.

The two principal agricultural staples of the island are sugar and tobacco. It also produces in consid-

## CUBA—Continued.

erable quantities fruits, vegetables, timber and metals, mainly iron, manganese and copper ore, and is adapted to coffee and cotton raising. The ground has no rival for fertility, and when duly cultivated gives marvellous results. The sugarcane when planted in superior ground is cut during 50 years without being planted again. Cuba is superior to the rest of the tropical lands, with the possible exception of Porto Rico. The whole land is mantled with rich soils, fertile calcareous loams, which, under constant humidity, yield in abundance every form of useful vegetation of the tropical and temperate climates. It has 1,246 miles of shaded roads and highways. The average fluctuation of the temperature is 12 degrees. The average in January is 70.3; July, 82.4; extremes, 60 to 92. Value of farms, plantations, etc., \$120,000,000; tobacco crop, calculated at \$32,000,000, and although there are but few plantations, oranges, grapefruit, etc., produce annually \$10,000,000, while pineapples, cocoa, molasses, asphalt, iron, nickel, mahogany, cedar, etc., produce \$10,000,000 also. Cuba's annual sugar crop exceeds \$130,000,000.

The Government is republican in form. The President, who is chosen by popular suffrage, serves four years and appoints his own Cabinet. The Congress consists of a Senate and House of Representatives, one Representative being chosen for every 25,000 inhabitants, as nearly as possible. The provinces, of which there are six, corresponding to the American States, elect their own Governors and control their own internal affairs.

## POPULATION OF CUBA.

A census of Cuba was taken by the United States Provisional Government in 1907, under the direction of the Department of Agriculture at Washington. The results, of which the following is an abstract, were published in Spanish and English in 1909.

(In 1913, total population, 2,500,000.) The population of the provinces of Cuba based on the 1907 census was as follows: Habana, 538,010; Santa Clara, 457,431; Oriente, 455,086; Pinar del Rio, 240,372; Matanzas, 239,812; Camaguey, 118,269. Over half the population lived in the rural districts, the 134 towns and cities containing 899,667 inhabitants, or 43.9 per cent. of the total. The population of the six large cities was as follows: Habana, 297,159; Santiago de Cuba, 45,470; Matanzas, 36,009; Cienfuegos, 30,100; Camaguey, 29,616; Cardenas, 24,280.

The density of population in 1907 was 46.4 per square mile.

Males were more numerous than females, the numbers being 1,074,882 and 974,098, respectively. Of the total population, 1,369,476, or 66.8 per cent., were single or divorced; 423,537, or 20.7 per cent., were married; 176,509, or 8.6 per cent., were consensually married; and 79,458, or 3.9 per cent., were widowed. The average number of persons to a family was 4.8.

In 1907 over two-thirds, 1,428,176, or 69.7 per cent., of the inhabitants were white. The colored population was composed of 274,272 negroes, 334,695 mixed, and 11,337 Chinese. Of the whites, 1,224,539 were native and 203,637 foreign born. Of the latter class, Spain contributed 185,393 and the United States 6,713.

Of the total population, 1,780,628, or 86.9 per cent., were of Cuban and 228,138, or 11.1 per cent., of Spanish citizenship. Of the 551,639 males of voting age, 430,514 were Cuban citizens, and of these, 212,930, or less than one-half, were literate, while 217,584 were illiterate; among those of other citizenship the proportion of literates was much greater, 89,217 being literate and 31,908 illiterate. Among the white males of voting age the literates were in the majority, the numbers being 161,742 literates and 130,944 illiterates for Cuban citizens, and 84,937 literates and 23,056 illiterates for all the others.

Almost one-third, 171,017, or 31.6 per cent., of the children attended school; the corresponding percentage for 1899 was only 15.7. In the six large cities 55,336, or 49.9 per cent. of those of school age, attended school.

Of the population at least ten years of age, 837,958, or 56.6 per cent., could read. For the large cities the percentage was 82.6; for the rest of Cuba it was 47.9.

In 1907, 772,502 persons were engaged in gainful occupations. The 698,982 male breadwinners formed 65 per cent. of all the males, while the 73,520 females gainfully employed formed 7.5 per cent. of all the females. Of the wage-earners, 374,969, or 48.5 per cent., were engaged in agriculture, fishing and mining; 136,419, or 17.6 per cent., in trade and transportation; 126,021, or 16.3 per cent., in manufacturing and mechanical pursuits; 122,288, or 16 per cent., in domestic and personal service; and 12,805, or 1.6 per cent., in professional service.

The principal trade is with the United States, which takes practically all the exports of sugar, fruit, and minerals, and more than nine-tenths of the raw tobacco. Trade with Spain has fallen off greatly.

The total trade of Cuba for the calendar year 1914: Imports, \$134,008,000; exports, \$170,797,000. Imports into the United States from Cuba, \$136,936,039; exports from the United States to Cuba, \$91,420,042.

The Isle of Pines, which under the generally accepted survey is supposed to have an area of 614.34 square marine miles, or about 521,381 acres, is situated off the south coast of Western Cuba, its nearest point to the larger island being about 34 1-2 statute miles distant, while the island itself and its adjacent keys form the southern barrier of the Gulf of Batabano, a bight which extends northward to an extent sufficient to make Habana Province, to which the Isle of Pines is officially attached, the narrowest part of Cuba. The Isle of Pines is practically the only land southward of Cuba to Panama, from which it is distant about 850 miles; it is 230 miles almost due east of Cape Cartuche, Yucatan, and 370 miles northwest of the island of Jamaica.

**NATIONAL PARKS IN THE UNITED STATES.**

THE National parks and reservations mentioned below are under the supervision of the Secretary of the Interior. General information, the annual administrative reports, copies of the rules and regulations, and compilations of the laws relating to the parks may be obtained from the Secretary of the Interior or from the superintendents of the parks.

**YELLOWSTONE NATIONAL PARK** is in Wyoming, Montana, and Idaho, and has an area of 2,142,720 acres. The superintendent's address is Yellowstone Park, Wyoming. The park can be reached by the following railroads: Northern Pacific Railroad to Gardiner, the northern entrance, via Livingston, Mont.; Oregon Short Line Railroad to Yellowstone, Mont., the western entrance; Chicago, Burlington and Quincy Railroad to Cody, Wyo., from which the eastern entrance to the park is accessible. Stage and private transportation connections for the reservation are made at all these points. The tourist season extends from June 1 to September 15.

**YOSEMITE NATIONAL PARK, CALIFORNIA**, including the Yosemite Valley and Mariposa Big Tree Grove, embraces an area of 719,622 acres. The superintendent's address is Yosemite, Cal. The park can be reached from Merced on the Atchison, Topeka and Santa Fé and the Southern Pacific railroads by way of Yosemite Valley Railroad, which runs to the western boundary, and by connections of the same roads to Raymond, on the southwest; stage lines run from the terminus of the Yosemite Valley Railroad and from Raymond to Yosemite Valley within the park. The tourist season extends from May 1 to November 1, but the park is accessible and hotel accommodations are furnished the entire year.

**GLACIER NATIONAL PARK, MONTANA**, has an area of approximately 915,000 acres, of which 15,000 acres have been surveyed. Within the limits stated there are 250 lakes, ranging from 10 miles to a few hundred feet in extent. There are about 30 glaciers between 5 square miles and a few acres in area. There are wild animals, plants, and rocks in number and quantity to satisfy the most ardent student, and views of great variety, beauty and grandeur to gratify the artist and the lover of nature. The address of the superintendent is Belton, Mont. The park can be reached via the Great Northern Railway. The tourist season extends from May 1 to about September 15.

**MOUNT RAINIER NATIONAL PARK, WASHINGTON**, has an area of 207,360 acres. The superintendent's address is Ashford, Wash. The park is reached by stage or private transportation from Ashford, Wash., on the Tacoma Eastern Railroad, and by trail from Fairfax, on the Northern Pacific Railroad. The tourist season extends from June 15 to September 15.

**SEQUOIA NATIONAL PARK, CALIFORNIA**, has an area of 161,597 acres. The address of the superintendent is Three Rivers, Cal. This park may be reached from Visalia, on the Southern Pacific and the Atchison, Topeka and Santa Fé railroads by way of the Visalia Electric Railroad Company Lemon Cove, thence by stage or private conveyance to the Giant Forest within the park, or by private conveyance from Visalia via Lemon Cove.

**GENERAL GRANT NATIONAL PARK, CALIFORNIA**, has an area of 2,536 acres. This reservation is administered jointly with Sequoia National Park, and the tourist season extends from June 1 to September 15. The address of the superintendent is given above. The park may be reached from Sanger, on the Southern Pacific Railroad, thence by auto stage or private conveyance, a distance of 46 miles to the park, also from Cutler Station on the Atchison, Topeka and Santa Fé Railroad, thence 39 miles by stage or private conveyance by way of Orosi and Badger to the park.

**CRATER LAKE NATIONAL PARK, OREGON**, has an area of 159,360 acres. The address of the superintendent during the tourist months (June 15 to September 30) is Crater Lake, Ore., and during the balance of the year Klamath Falls, Ore. This park may be reached by stage or automobile from Klamath Falls, Medford, Chiloquin, or Ashland, Ore., on the Southern Pacific Railroad.

**WIND CAVE NATIONAL PARK, SOUTH DAKOTA**, contains 10,522 acres. The superintendent's address is Wind Cave, S. Dak. This park may be reached by private conveyances from Hot Springs, on the Chicago, Burlington and Quincy and the Chicago and Northwestern Railroads, or by similar conveyance from Custer, on the Chicago, Burlington and Quincy Railroad. The reservation is open to tourists the entire year.

**SULLYS HILL PARK, NORTH DAKOTA**, on the shore of Devils Lake, has an area of 780 acres. The address of the superintendent is Fort Totten, N. Dak. Devils Lake, Narrows, and Tokio, on the Great Northern Railroad, are close to the park, and from these points the reservation can be approached by wagon, or by boat (private conveyance).

**PLATT NATIONAL PARK at SULPHUR, OKLAHOMA**, has an area of 848.22 acres. Sulphur is the post-office address of the superintendent. The town is accessible by the Atchison, Topeka and Santa Fé and the St. Louis and San Francisco railroads. The park, which is open to tourists the entire year, is within walking or riding distance of the railroads.

**MESA VERDE NATIONAL PARK, COLORADO**, under the organic act approved June 29, 1906, contained an area of 42,376 acres, and the 5-mile strip under the park jurisdiction for the protection of ruins, provided for by the act, abutting the park, contained 175,360 acres. The 5-mile strip was eliminated from park supervision by the act of June 30, 1913, and the boundaries of the park proper were changed so as to make the present aggregate area 76.51 square miles, or 48,966.4 acres. The address of the superintendent is Mancos, Col., the nearest railroad station, on the Rio Grande Southern Railroad. This station is about 25 miles from the ruins, which may be reached only by horseback or on foot. The tourist season extends from May 1 to September 30.

**CASA GRANDE RUIN, ARIZONA**, reservation, has an area of 480 acres. The nearest railroad station is Casa Grande, on the Southern Pacific Railroad. It may also be reached by private conveyance from Florence, Ariz., on the Phoenix and Eastern Railroad. The address of the custodian is Florence.

The Mesa Verde National Park and the Casa Grande Reservation were set aside to protect the instructive prehistoric ruins and other objects of antiquity which they contain. These ruins are being excavated and repaired and are open for the inspection of visitors. Reports on the repair of such ruins have been issued by the Department of the Interior, and more detailed accounts are distributed by the Bureau of American Ethnology, Smithsonian Institution.

**ROCKY MOUNTAIN NATIONAL PARK**, created by the act of January 26, 1915, is in Colorado, about 45 miles in an air line northwest of Denver. It has an area of approximately 229,000 acres, and is on both sides of the Continental Divide in the neighborhood of Longs Peak. The park may be reached from Lyons, on the Chicago, Burlington and Quincy Railroad; from Loveland, on the Colorado and Southern Railroad; and from Granby, on the Denver and Salt Lake Railroad.

**HOT SPRINGS RESERVATION, ARKANSAS** (the permanent reservation), has an area of 911.63 acres. Eleven bathhouses on the reservation and twelve in the city of Hot Springs, as well as several hotels operated in connection with bathhouses, receive hot water from the springs, under lease with the Secretary of the Interior. The address of the superintendent is Hot Springs, Ark.

**PRESERVATION OF AMERICAN ANTIQUITIES**—Under the act of Congress approved June 8, 1906, interdepartmental regulations governing the excavation, appropriation, etc., of prehistoric ruins or objects of antiquity have been promulgated by the Secretary of the Interior, Agriculture, and War. Applications for permits to make excavations on the public lands, Indian reservations, or the national monuments named below should be addressed to the Secretary of the Interior. The following have been preserved from entry and set aside as national monuments: Devils Tower, Wyoming;

NATIONAL PARKS IN THE UNITED STATES—*Continued.*

Montezuma Castle, Arizona; Petrified Forest, Arizona; El Morro, New Mexico; Chaco Canyon, New Mexico; Muir Woods, California; Natural Bridges, Utah; Lewis and Clark Cavern, Montana; Tumacacori, Arizona; Navajo, Arizona; Mukuntuweap, Utah; Shoshone Cavern, Wyoming; Gran Quivira, New Mexico; Sitka National Monument, Alaska; Rainbow Bridge, Utah; Pinnacles, California; Colorado, Colorado; Papago Saguaro National Monument, Arizona.

Ten other National monuments within National forests have also been set aside under this act and placed under the jurisdiction of the Secretary of Agriculture, to whom inquiries in regard thereto should be addressed. Two other National monuments (Big Hole Battlefield, in Montana, and Cabrillo, in California) are under jurisdiction of the Secretary of War.

**FORESTS AND FORESTRY.**

(Report of year ending June 30, 1915).

Our forests now cover 550,000,000 acres, or about one-fourth of the United States. Forests publicly owned contain one-fifth of all timber standing. Forests privately owned contain at least four-fifths of the standing timber. The timber privately owned is not only four times that publicly owned, but it is generally more valuable.

The original forests of the United States contained timber in quantity and variety far beyond that upon any other area of similar size in the world. They covered 850,000,000 acres, with a stand of not less than 5,200,000,000 feet of merchantable timber, according to present standards of use. There were five great forest regions—the Northern, the Southern, the Central, the Rocky Mountain and the Pacific.

The present rate of cutting is three times the annual growth of the forests of the United States. The great pineries of the lake States are nearing exhaustion and heavy inroads have been made upon the supply of valuable timber throughout all parts of the country.

The heavy demands for timber have been rapidly pushing the great centres of lumber industry toward the South and West. In consequence, the State of Washington has led for several years in lumber production, now followed in order by Louisiana, Mississippi, Oregon, and Texas. Among the soft woods the production of yellow pine lumber amounts to about fifteen billion feet, the Douglas fir of the Northwest holding second place with more than five and one-half billion feet, while white pine with two and one-half billion feet ranks third; oak comes first among the hardwoods, with three and one-fifth billion feet, and is followed in order by maple, red gum, yellow poplar, chestnut, birch, and beech.

We take from our forests yearly, including waste in logging and in manufacture, more than 22,000,000,000 cubic feet of wood, valued at about \$1,375,000,000.

We use in a single year 90,000,000 cords of firewood, nearly 40,000,000 board feet of lumber, 135,000,000 ties, nearly 1,700,000,000 staves, 440,000,000 board feet for veneer, over 130,000,000 sets of heading, over 350,000,000 barrel hoops, over 3,300,000 cords of native pulp wood, 165,000,000 cubic feet of round mine timbers, nearly 1,500,000 cords of wood for distillation, over 140,000 cords for excelsior, and nearly 3,500,000 telegraph and telephone poles.

About 4,333,000 cords of wood are used in the manufacture of paper, of which about 1,000,000 cords are imported practically all from Canada. The demand for wood pulp is making a severe drain on the spruce forest, which furnish the principal supply, though a number of other woods, such as poplar, hemlock, pine, and balsam, are now being used in considerable quantities. Tests by the Forest Service of the United States Department of Agriculture have shown that pulp suitable for use in the manufacture of news and wrapping paper can be made from some ten species of native woods, including Sitka spruce, Western hemlock, Engelmann spruce, red fir, white fir, and lodgepole pine.

A larger drain upon our forest resources is made by the demand for railroad ties. White oak, hitherto the chief source of supply, is not plentiful enough to meet this demand indefinitely, and in many parts of the country the supplies of chestnut, cedar, and cypress are dwindling. In place of these highly durable woods, cheaper and more plentiful ones, such as Southern pine, Douglas fir, tamarack, and hemlock, are coming into use, largely in consequence of the introduction of treatment by preservatives which retard decay. A great saving has been effected in the naval stores industry, also largely through the work of the Forest Service, by the introduction of the so-called "cup" systems of turpentine in place of the old destructive system of "boxing." The new systems insure a larger product of better quality and prolong the life of the longleaf pine forests upon which the industry depends.

**UNITED STATES FOREST SERVICE.**

The Forest Service is one of the bureaus of the Department of Agriculture. It has charge of the administration and protection of the National forests and also promotes the practice of forestry generally through investigations and the diffusion of information.

The work of the Government in forestry was initiated by the appointment of Dr. Franklin B. Hough in 1876 as special agent in the Department of Agriculture. In 1881 a division of forestry was created in that department. In 1901 this division became the Bureau of Forestry, and in 1905, when the care of the National forests was given to this bureau, its name became the Forest Service.

Previously the care of National forests had been in the hands of the Department of Interior.

A law authorizing the President to set apart forest reserves was passed in 1891, but no provision for their administration and use was made until 1897. Previous to 1905 the Bureau of Forestry merely gave expert advice, on request, to the Department of the Interior concerning the application of forestry to the forest reserves. The change of name from "forest reserves" to "National forests" was made in 1906 to correct the impression that the forests were, as "reserves," withdrawn from use. Since the Forest Service took charge of them the fundamental aim has been to open them to the widest use consistent with their proper protection.

The National forests were set aside as follows: By President Harrison, 13,416,710 acres; by President Cleveland, 25,686,320 acres; by President McKinley, 7,050,089 acres; by President Roosevelt, 148,346,924 acres. Since early in 1909 a careful readjustment of the boundaries has been going on. In consequence President Taft added to the National forests 4,333,847 acres and eliminated from them 11,680,578 acres, while to June 30, 1915, President Wilson has added 445,363 acres and eliminated 3,081,063 acres. Acts of Congress prohibit any additions by the President to the National forest area in Washington, Oregon, California, Idaho, Montana, Wyoming, and Colorado.

The present net area of the National forests, including Alaska and Porto Rico, is 162,672,802 acres, with an additional 348,276 acres acquired by purchase in the White Mountains and Southern Appalachian regions for National forest purposes.

The expenditures upon the National forests for protection, administration, and improvement at present exceed the revenues from the forests by about \$3,000,000 a year, depending partly on the severity of the fire season and partly on the activity of the general lumber market. The normal gross cost of administration and protection is approximately \$4,750,000, while from \$300,000 to \$600,000 yearly is invested in the construction of roads, trails, buildings, and other permanent improvements. The cost of administration includes the cost of handling much free-use business, while the cost of protection is chiefly the cost of protecting water supplies and future timber supplies.

## FORESTS AND FORESTRY—Continued.

## COMPARISON OF RECEIPTS FROM THE SEVERAL SOURCES FOR THE FISCAL YEARS 1915 AND 1914.

| FISCAL YEAR. | TIMBER.        |           | GRAZING.       |           | SPECIAL USES, ETC. |           | ALL SOURCES.   |           |
|--------------|----------------|-----------|----------------|-----------|--------------------|-----------|----------------|-----------|
|              | Total.         | Per Acre. | Total.         | Per Acre. | Total.             | Per Acre. | Total.         | Per Acre. |
| 1915.....    | \$1,174,473.35 |           | \$1,130,495.00 |           | \$176,501.00       |           | \$2,481,469.35 |           |
| 1914.....    | 1,304,053.56   | \$0.0070  | 1,002,347.59   | \$0.0054  | 131,309.06         | \$0.0007  | 2,437,710.21   | \$0.0132  |

Under the law 25 per cent. of the receipts are paid to the States in which the National forests are located, to be expended for roads and schools. The amount to be paid to the States in this way from the receipts in 1915 is about \$610,797.75.

By the acts of Congress organizing them as States, Arizona and New Mexico also receive for their school funds an additional share of the receipts based on the proportion that their school lands within the National forests bear to the total National forest area in the States. The approximate amounts due on account of the receipts for 1915 are \$28,966.46 to Arizona, and \$9,311.87 to New Mexico.

Congress has also provided that 10 per cent. of the receipts shall be set aside as an appropriation to be used under the direction of the Secretary of Agriculture for road and trail building in National forests in co-operation with State authorities or otherwise. The amount thus appropriated on account of fiscal year 1915 receipts is \$244,319.10. This, added to the amount carried over from 1914 receipts fund, \$155,939.46, and the amount appropriated for improvements, in the regular agricultural bill, \$400,000, makes the total available for the construction of roads, trails, cabins, bridges, telephone lines, etc., on the National forests for the fiscal year 1916, \$800,258.56.

The total regular appropriation for salaries, general expenses, and improvements for the fiscal year 1916 is \$5,553,256.00, as against \$5,548,256.00 for 1915.

The grazing receipts for 1915 were paid by the holders of 25,641 permits to graze 1,727,046 cattle, horses, and swine, and of 4,968 permits to graze 7,283,685 sheep and goats. The receipts from timber sales were paid by approximately 11,000 purchasers to cut the equivalent of 565,754,000 board feet of timber. The receipts from special uses were paid by the holders of approximately 5,000 permits. In other words, these receipts represent profitable use of the forests by some 46,000 individuals or concerns. To the use for which payment was made must be added the heavy free use of the forests by the public. Figures for free use of timber are as follows:

## FREE USE OF TIMBER ON NATIONAL FORESTS.

| FISCAL YEAR. | Number of Permittees. | Cut.                       | Value.       |
|--------------|-----------------------|----------------------------|--------------|
| 1915.....    | 40,015                | Board Feet.<br>123,168,000 | \$206,464.13 |
| 1914.....    | 39,427                | 120,575,000                | 182,774.20   |

In issuing permits for reservoirs, conduits, power-houses and transmission lines for commercial power development the Forest Service has steadfastly insisted on conditions designed to prevent speculative or perpetual holdings and to secure the full development of available power and the payment of reasonable charges for the use of land.

The total stand of timber on the National forests is estimated at nearly six hundred billions board feet.

The following table shows the local cut of timber from the National forests in the fiscal year 1915:

## TIMBER CUT FROM NATIONAL FORESTS.

| STATE.            | Cut Under Sale. | Cut Under Free Use. | Total Cut.  | STATE.              | Cut Under Sale. | Cut Under Free Use. | Total Cut.  |
|-------------------|-----------------|---------------------|-------------|---------------------|-----------------|---------------------|-------------|
|                   | Board Feet.     | Board Feet.         | Board Feet. |                     | Board Feet.     | Board Feet.         | Board Feet. |
| Idaho.....        | 100,793,000     | 24,848,000          | 125,641,000 | Nevada.....         | 2,803,000       | 1,959,000           | 4,762,000   |

| South Dakota..... | 19,959,000      | 4,350,000           | 24,309,000  | Total.....          | 565,754,000*    | 123,259,000         | 689,013,000 |
| Arkansas.....     | 11,764,000      | 275,000             | 12,039,000  |                     |                 |                     |             |

\* Includes 19,246,000 board feet cut under sales at cost.

The value of the public property administered by the Forest Service is estimated at over two billion dollars.

The great areas contained in the National forests have now been brought to a condition where they are beginning to serve the purposes of the West. The conservation of timber and forage through wise use and the protection of stream flow are the means of sustaining many industries which have contributed materially to the prosperity of the country.

## ORGANIZATION OF THE FOREST SERVICE.

At the head of the Forest Service are the Forester, Henry S. Graves, and the Associate Forester, A. F. Potter. The work is organized under the following branches: Operation, James B. Adams in charge; Lands, E. A. Sherman in charge; Silviculture, W. B. Greeley in charge; Grazing, A. F. Potter in charge; Research, including Forest Products Laboratory, Earle H. Clapp in charge; Acquisition of Lands under the Weeks law, William L. Hall in charge.

The 159 National forests are grouped in seven districts, with a District Forester in charge of each, and headquarters as follows: District 1 (Montana, Northeastern Washington, Northern Idaho, Northwestern South Dakota, and Southwestern North Dakota), Missoula, Mont.; F. A. Silcox, District Forester; District 2 (Colorado, Wyoming, the remainder of South Dakota, Nebraska, and Western Kansas), Northern Michigan, and Northern Minnesota), Denver, Col.; Smith Riley, District Forester; District 3 (most of Arizona and New Mexico), Albuquerque, N. Mex.; A. C. Ringland, District Forester; District 4 (Utah, Southern Idaho, Western Wyoming, Eastern and Central Nevada, and a small portion of Northwestern Arizona), Ogden, Utah, L. F. Kneipp, District Forester; District 5

FORESTS AND FORESTRY—Continued.

(California and Southwestern Nevada), San Francisco, Cal., Coert Du Bois, District Forester; District 6 (Washington, Oregon, and Alaska), Portland, Ore., Geo. H. Ceell, District Forester; District 7 (Arkansas, Florida, Oklahoma, South Carolina, Georgia, North Carolina, Tennessee, Virginia, West Virginia, New Hampshire, Porto Rico), Washington, D. C., William L. Hall, District Forester.

On July 1, 1915, the force employed by the Forest Service numbered 3,875. Of these 3,225 were employed upon the National forests and 650 were engaged in administrative, scientific and clerical work at the Washington and district headquarters. Of the employees on the National forests the force engaged principally in protective work numbered 2,310 men, as follows: Forest Rangers, 399; Assistant Forest Rangers, 861; Forest Guards, 1,049; Game Warden 1. The protective force was therefore about one man for every 30,000 acres, or 125 square miles. (Prussia has one man for every 1,700 acres, and Baden one for every 750.)

BRANCH OF SILVICULTURE.

The branch of silviculture directs the management of the National forests as regards both the cutting of mature timber and the work of forest planting; co-operates with States in developing forest policies adapted to their requirements, and co-operates with private forest owners who desire to practise forestry on their lands.

The chief problems encountered in the management of the National forests, after fire protection, are to secure the removal of mature timber without cutting more than the forest is actually producing, and to replace this timber as it is sold and cut, by young growth of valuable species. Detailed plans are prepared for each forest on the basis of careful estimates of the present stand and its rate of growth, which specify the amount of timber that can be cut safely each year without impairing the permanent supply. This timber is then advertised for sale at prices which secure to the Government its full market value and at the same time allow a fair profit to the operator.

The replacement of old stands by new growth is accomplished mainly by regulating the cutting through the insertion of special provisions in timber sales contracts in such a way as to insure natural reproduction. On completely denuded areas, however, artificial reforestation by planting or sowing is generally necessary for the establishment of a new growth of trees. The object of such work is usually to produce commercial timber, although in a number of cases the reforesting of denuded watersheds is undertaken primarily to control and regulate the flow of streams directly supplying cities and towns. During the year ending June 30, 1915, over 15,000 acres in National forests were planted or sown to trees, chiefly Douglas fir, Western yellow pine, Western white pine, white pine, and lodgepole pine. There are 29 Government nurseries which supply the National forests. These have a present stock of about 34,000,000 plants and are capable of supplying 15,000,000 a year.

At the request of the States the Forest Service makes examinations of their forest conditions and conducts other studies need to frame forest legislation and formulate a forest State policy adapted to the special requirements of each State. The cost of such work is shared by the State and the service. The service co-operates with private owners, especially small owners, in States which have no State Forester, by furnishing advice, with or without field examinations, concerning the best methods for managing and protecting their holdings. The cost of such examination is borne by the owner.

BRANCH OF GRAZING.

The branch of grazing supervises the grazing of live stock upon the National forests, the principal lines of work being the allotment of grazing privileges; the issuance of grazing permits; the division of the ranges between different classes of stock or their owners, and the regulation of the stock grazed under permit upon the ranges; and the development of the range-producing capacity of the National forests by the restoration of depleted areas through systematic control of the stock grazed upon them or by artificial means, through the eradication of noxious range-destroying rodents and through the institution of new methods of range control. By co-operation with Federal and State authorities in the enforcement of quarantine regulations the National forests have been practically freed from infection or contagious diseases fatal to live stock, and by an active campaign against predaceous animals, destructive to live stock, the annual loss from this source within the National forests has been reduced by several hundred thousand dollars.

The number of stock grazed during the past season (1915), under permit, was 1,727,046 head of cattle, horses, and swine, and 7,283,685 head of sheep and goats. The annual productive value of this number of stock is more than \$30,000,000. The number of persons holding permits to graze live stock during the past year was 30,610.

About 15 per cent. of all the sheep in the United States are grazed in the National forests.

BRANCH OF RESEARCH.

The Branch of Research supervises the investigative work of the service. This includes studies of the principal tree species, of the best methods of forest planting, and of State forest conditions; and investigations of the lumber and wood-using industries and lumber prices. It also has supervision over the Forest Products Laboratory maintained at Madison, Wis., in co-operation with the University of Wisconsin, where experiments are made to determine the physical properties of woods, to ascertain cheap and effective methods to prevent decay, to test the adaptability of untried woods for specific uses, to develop practical uses for sawmill, woods, and factory waste, and to discover processes to obtain valuable chemical by-products from the waste which cannot otherwise be utilized. Experiments in the manufacture of pulpwood from woods heretofore little used are also carried on.

EASTERN NATIONAL FORESTS.

The act of March 1, 1911, commonly known as the Weeks law, provides for the acquisition of forest lands on the watersheds of navigable streams. Its purpose is to promote and protect the navigability of the streams by preserving the forest on the upland portions of their watersheds. Through this act means are afforded of extending the National forest system to regions where the Government has hitherto owned no forest lands and taken no direct part in forest preservation.

The original appropriation was \$2,000,000 per year for five and one-half years, beginning with the last half of the fiscal year 1911. The Agricultural Appropriation bill for the fiscal year 1913 made the appropriation for 1912 and subsequent years available until expended.

In order to concentrate the purchases where they will be of the greatest benefit from the standpoint of watershed protection, certain areas in the Appalachian region have been designated, aggregating 6,966,304 acres, to which purchases will be for the present confined. The United States Geological Survey has examined the greater part of this land, as required by law, in order to determine whether or not the forest cover exercises a beneficial influence in regulating the flow of navigable streams. Up to July 1, 1914, 6,013,103 acres were reported upon favorably by the Geological Survey.

The Forest Service has been designated as the bureau to receive proposals of land and to examine and value lands for purchase. The National Forest Reservation Commission considers the recommendations of the Forest Service and approves the lands to be purchased and fixes the price to be paid.

From April 1, 1911, to June 30, 1915, proposals were received covering 4,097,405 acres, of which

## FORESTS AND FORESTRY—Continued.

3,337,727 acres were within the general areas which had been selected for purchase in the White Mountains and the Southern Appalachians.

During the same period 1,980,941 acres were examined, and 1,317,551 acres were approved by the National Forest Reservation Commission. These are located as follows: Georgia Area, 61,021 acres, in Fannin, Union, Gilmer, and Lumpkin Counties, Ga. Massanutten Area, 59,168 acres, in Shenandoah, Warren, Page, and Rockingham Counties, Va. Mount Mitchell Area, 71,672 acres, in McDowell, Buncombe, and Yancey Counties, N. C. Nantahala Area, 36,385 acres, in Macon and Swain Counties, N. C. Natural Bridge Area, 79,286 acres, in Amherst, Augusta, Rockbridge, Bedford, and Botetourt Counties, Va. Smoky Mountain Area, 41,265 acres, in Blount and Sevier Counties, Tenn. White Mountain Area, 256,467 acres, in Carroll, Coos, and Grafton Counties, N. H. White Top Area, 83,439 acres, in Carter, Johnson, and Sullivan Counties, Tenn., and Washington County, Va. Cherokee Area, 135,686 acres, in Polk and Monroe Counties, Tenn. Monongahela Area, 52,610 acres, in Randolph and Tucker Counties, W. Va. Potomac Area, 76,431 acres, in Hardy County, W. Va., Shenandoah and Frederick Counties, Va. Savannah Area, 97,760 acres, in Rabun County, Ga., Oconee County, S. C., Macon and Jackson Counties, N. C. Shenandoah Area, 123,537 acres, in Augusta, Highland, Rockingham Counties, Va., and Pendleton County, W. Va. Unaka Area, 19,756 acres, in Unicoi County, Tenn. Pisgah Area, 86,700 acres in Transylvania, Henderson, Buncombe, and Haywood Counties, N. C. Booner Area, 36,386 acres, in Avery and Caldwell Counties, N. C.

As these lands are acquired they are administered along the same lines as are the National forests in the West, and the above-named areas will, as title is obtained and plans for handling them are prepared, be given formal designation as National forests.

## FOREST POLICY OF THE STATES.

The movement for National forestry has been followed by a widespread development of State forest activities. New York and Pennsylvania, the pioneers in this field, inaugurated State policies before the work of the National Government had awakened general interest in forestry, but in most of the States forest work has been either a direct outgrowth of Federal activities or indirectly due to them. Ten or twelve years ago few States were giving their forest problems any serious consideration; to-day 32 have forest departments, 23 employ professionally trained foresters, and practically all show recognition of the need for a State forest policy.

State work has comprised activities along the lines of (1) education of public sentiment regarding the value of the State's forest resources and importance of their conservation; (2) the giving of technical advice to private owners regarding the application of forestry on their holdings; (3) the development of a systematic State forest fire protective system; (4) the provision of forest planting stock for citizens; (5) the modification of tax systems to lessen the burdens imposed on those who plant forests or otherwise apply forestry with a view to permanent timber production; (6) the formation of State forests or reserves. Each State has developed its own forest movement along its own lines, largely determined by varying natural and economic conditions.

In general, the Northeastern States have paid most attention to encouraging the actual practice of forestry by private owners, with a view to the production of a new forest crop. Men of professional training have been employed as State foresters, to give advice to applicants and to carry on educational work; provision for planting material has been made; and in several States tax laws have been modified. Protection of forests against fire has been advocated and largely provided by State action, with special reference to its need to prevent destruction of young growth. In the far West attention has been centred mainly on fire prevention to protect the vast supplies of mature timber now standing in the virgin coniferous forests of the Rocky Mountain and Pacific coast regions. In the lake States fire protection has, on the whole, had first place in importance, but with recognition of the need to protect both young growth and mature timber because of their commercial value. In the lake States also, and in New York and Pennsylvania, State-owned forests take a very prominent place. The South has, on the whole, been slow to see the need for State action, although the States of Maryland and North Carolina were among the first to have State foresters. Virginia, West Virginia, Kentucky, Tennessee, and Texas have recently followed their lead. While Maryland also was among the first States to establish a forest fire protective system, Virginia, West Virginia, North Carolina, Kentucky, and Texas are only just developing theirs. Louisiana has enacted a State law with some very advanced features, but has yet to take steps to put it in operation; as also has Delaware.

The appropriations for the yearly support of the several State forest departments vary greatly. The smallest is \$500; the greatest approximately \$315,000. Those which appropriate over \$25,000 are: California, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, Oregon, Pennsylvania, Washington, and Wisconsin.

Systematic forest fire protection by the States has been greatly stimulated by the operation of the so-called Weeks law, under which the Federal Government co-operates through the Forest Service with individual States for protecting the watersheds of navigable streams, the Federal Government bearing in no case more than half the cost nor contributing more than \$8,000 to any State in any one year. Under this law more than one hundred million acres of private and State-owned lands are fairly well protected against forest fires, at an average cost of less than two cents per acre. The States which have entered into co-operative agreements under this law are: Maine, New Hampshire, Vermont, Massachusetts, Connecticut, New York, New Jersey, Maryland, Virginia, West Virginia, North Carolina, Kentucky, Wisconsin, Minnesota, Michigan, South Dakota, Montana, Idaho, Washington, and Oregon.

Tennessee, Alabama, Colorado, and California have organized fire-warden systems, but do not appropriate State funds for fire protection. Maine, by means of a timber land tax, supports an efficient forest fire service covering the unorganized townships in the northern part of the State; in the remaining townships each bears the cost of an ex-officio warden system. The Forest Service of Minnesota covers 20,000,000 acres by systematic patrol and maintains a permanent field force of rangers and patrolmen, with ex-officio town fire-wardens as an auxiliary force. Idaho has adopted a co-operative system of protection with private owners, under which the State pays its pro rata share of the cost, on the basis of State-owned area within the area protected by a privately organized system. Throughout the Northwest and in Michigan, Vermont, New Hampshire, Maine, Pennsylvania, West Virginia, North Carolina, and Kentucky an important feature in fire protection is the organization of private timberland owners into associations supported by assessments on an acreage basis and maintaining as a rule a system of private protection similar to that maintained on the National forests by the Government; the land thus privately protected is now estimated at approximately 25 million acres.

In the fifty years preceding 1913, forest fires had caused an average annual loss in the United States of about 70 human lives and at least \$25,000,000 worth of timber, besides the loss of live stock, crops, buildings, and various kinds of improvements worth many millions more. Added to this are the enormous losses from the destruction of young tree growth, soil deterioration, damage to water courses and water supplies, interruption of business, and depreciation of property.

New York has a State-owned "Forest Preserve" of 1,825,882 acres in the Adirondack and Catskill Mountains, under fire protection, but not under forest management, which the State Constitution forbids. The entire central portion of these two mountain regions, comprising 7,200,000

FORESTS AND FORESTRY—Continued.

acres, is protected from fire by a State ranger system; in the rest of the State, town officers are depended on to keep fires down. Private owners are furnished tree seedlings at cost from the State nurseries, which also grow material for reforesting denuded portions of the Preserve. Three laws give forest lands reduction of, or exemption from, tax assessment under certain conditions. Pennsylvania has more than 1,000,000 acres of State-owned forests and practises forestry on them, maintaining a State ranger training school at Mont Alto. These forests are chiefly in the mountains of the central part of the State, and protect streamflow as well as supply timber. Additional lands may be purchased at not more than \$10 per acre. Private lands are protected under a fire-warden system. The State distributes planting material and gives advice concerning forest management. The same is true of Maine, New Hampshire, Vermont, Connecticut, Maryland, Kentucky, Ohio, Kansas, Michigan, Wisconsin, Minnesota, North Dakota, and Idaho.

Minnesota, Wisconsin, and Michigan have large holdings of State forests. Minnesota has approximately 1,000,000 acres of school lands which are to be retained for State school forests, besides 43,000 acres now in State forests. Wisconsin has 400,000 acres reserved, and Michigan 589,000, of which 312,000 acres are used for exchange to add to the 277,000 acres permanently reserved in several large blocks in different parts of the State. South Dakota has 75,000 acres of State forest in the Black Hills. Massachusetts 15,000 acres, New Jersey 13,720 acres, and New Hampshire, Vermont, California, Connecticut, Indiana, and Maryland from 7,000 to 2,000 acres each.

In Vermont, Massachusetts, Connecticut, New York, Pennsylvania, and Michigan the tax on forest land may be levied chiefly on yield or income.

CONSERVATION OF NATURAL RESOURCES.

THE National Conservation Association, with headquarters in the Munsey Building, Washington, D. C., is now the organized head of the conservation movement in the United States.

In a booklet explaining the objects of the association is the following:

"The National Conservation Association is fighting for the prompt and orderly development of our natural resources, for the welfare of ourselves and our children, and for the rights of the plain people. The association is bound neither by political considerations nor official connections. It is free to speak the whole truth.

That conservation means the use of our natural resources for the benefit of us all and not merely for the profit of a few is already household knowledge. The task which the National Conservation Association has set for itself is to get this principle put into practical effect."

The association is maintained by annual dues from membership, ranging from \$1.00 to \$2.00.

Gifford Pinchot, President; Charles W. E. Iot, Honorary President; Harry A. Slatery, Secretary.

The National Conservation Congress is the National clearing-house for the State Conservation Commissions and Conservation Committees of National associations and all organizations concerned in the conservation of the country's natural resources. It is the organized head of the conservation movement in the United States. Its chief object is "to afford an agency through which the people of the country may frame policies and principles affecting the conservation and utilization of their resources, to be put into effect by their respective representatives in the State and Federal Governments."

The Congress holds annual meetings "to provide for discussion of the resources of the United States as the foundation for the prosperity of the people." The Congress also undertakes "to furnish definite information concerning the resources and their development, use, and preservation."

Membership dues range from \$1 a year to \$100 or more, according to classification.

The Congress is managed by its officers and an Executive Committee, and by an Advisory Board, consisting of one member from each National association having a Conservation Committee.

President—E. Lee Worsham, Atlanta, Ga. Executive Secretary—Thomas R. Shipp, 711 Riggs Building, Washington, D. C. Treasurer—Norman C. McLoud, Cleveland, Ohio.

THE AMERICAN FORESTRY ASSOCIATION.

The American Forestry Association, with headquarters at 1410 H Street, Northwest, Washington, D. C., was organized in 1882 and incorporated in January, 1897. It is devoted to the conservation of private, State and National forests and to public education in the knowledge of trees, their care and development. It is a voluntary organization for the inculcation and spread of a forest policy on a scale adequate for our economic needs, and any person is eligible for membership. It is independent, has no official connection with any Federal or State department or policy, and is devoted to a public service conducive to National prosperity. It asserts that forestry means the propagation and care of forests for the production of timber as a crop; protection of watersheds; utilization of non-agricultural soil; use of forests for public recreation.

It declares that forestry is of immense importance to the people; that the census of 1913 shows our forests annually supply over one and a quarter billion dollars' worth of products; employ 735,000 people; pay \$367,000,000 in wages; cover 550,000,000 acres unsuited for agriculture; regulate the distribution of water; prevent erosion of lands, and are essential to the beauty of the country and the health of the nation. It recognizes that forestry is an industry limited by economic conditions; that private owners should be aided and encouraged by investigations, demonstrations, and educational work, since they cannot be expected to practise forestry at a financial loss; that Federal and State Governments should undertake scientific forestry upon National and State forest reserves for the benefit of the public. It will devote its influence and educational facilities to the development of public thought and knowledge along these practical lines.
